Announcement of the 14th National Proficiency Evaluation Test (NPET)

National Proficiency Evaluation Test (NPET) Board <ecinpet18@gmail.com>
Bcc: principal@cbit.ac.in

Mon, Jan 29, 2018 at 10:39 AM

Dear Sir/Madam,

As you are aware that every year thousands of Engineering/Management students graduate, and there is a dearth of job availabilities in the market. This is increasing the gap between the job requirements and the quality of manpower which has further led to the formation of strong evaluation of Proficiency system to benefit the Industry as well as the students to assess their proficiency. To bridge this gap, Engineering Council of India (ECI) has introduced National Proficiency Evaluation Test (NPET), which enables to evaluate the proficiency of the candidates.

National Proficiency Evaluation Test (NPET) is the independent assessment of proficiencies of Engineering graduates and Diploma holders. It will also serve as an evaluation test for AICTE-ECI Internship programs. It also evaluates those with Bachelor/Master's in Management and Architecture.

NPET is a National level test to grade candidate's proficiency on the basis of written examination, Group discussion and interview conducted under the auspices of National Proficiency Evaluation Board (NPEB). The NPEB constituted by ECI, functions independently and comprises of project specialists, multi-disciplinary engineers, administrators, academicians, eminent managers and other renowned industry representatives who jointly work towards betterment of overall Indian Industry.

Testing under NPET is based on the human resources requirements of the employer organizations and is upgraded from time to time. Upon conclusion of the examination the results are declared and the scores scored by the candidates are provided to them for deciding the level of training / internship being conducted as per AICTE- ECI MoU, to facilitate the employment to the successful candidates in suitable industries. The scores are valid for a period of 1 year from the particular date of test. Candidates with low scores will get to interact with core group of experts for identification of deficiencies and also for seeking guidance towards improvement of the scores in the next consecutive exams.

A nationwide performance list of the candidates is prepared and provided to the prospective employer organizations including ECI members and various Construction Industry Stakeholders.

A notice towards announcement of the 14th NPET scheduled on 16th April 2018, is attached along with the NPET Brochure, for your ready reference and dissemination of information to the students. For registration and further details, please visit our website www.eciinternship.com.
