Fri, Feb 2, 2018 at 6:28 PM

Dear Sir/Madam

### Greetings from VEDA IIT

We are glad to share with you the recruitment opportunities in our consortium companies.

Please find attached the poster on job recruitment for the following positions:

1. Engineer trainee in VLSI Analog Engineering (Analog Design/Custom Layout Design/Design Characterization)
2. Engineer trainee in VLSI Digital Engineering (Logic Design/ Physical Design/Std.Cell Design)
3. Engineer trainee in Embedded System Design & Engineering (Embedded SW Development/ Software Testing/System Engineering)

The following is the tentative schedule:

### Recruitment Test : 24th Feb, 2018

**Last date to apply with 'valid coupons code' without registration fee : 16th Feb, 2018 \*\***

\*\*VEDA IIT provides valid coupon codes to TPO/HODs of different colleges on request. However the number of coupons will be limited based on the seating capacity available at exam center. Application submission can be closed earlier than 16th Feb, 2018 , i.e., whenever the number of applicants reach the actual seating capacity at the exam center.

**Last date for application without coupon code : 20th Feb, 2018 \***

Application submission can be closed earlier than 20th Feb, 2018 , i.e. whenever the number of applicants reach the actual seating capacity at the exam center.

The current recruitment drive will be very useful for all Electronics specialization students who are in the final year B.E/B.Tech with 70% (equivalent CGPA as per approved conversion factor) as they can simultaneously complete both 6 months company sponsored full-time training program and their project. It will also be useful for the second year of ME/M.Tech/MS with 70% (equivalent CGPA as per approved conversion factor) as successful candidates can avail company sponsored one-year full time Internship.

Selected meritorious students will get an opportunity to undergo Company sponsored training in one of the core domains: VLSI Analog Design/VLSI Custom Layout Design/VLSI Logic Design/ VLSI Physical Design/ VLSI Standard Cell Design /VLSI Design Characterization/Embedded System Design/ SW Testing/ System Engineering and get into employment in our consortium companies subject to successful completion of their sponsored training at VEDA IIT and completion of their degree in the respective University.

Poster may kindly be uploaded in your college website under placement opportunities.

**ABOUT OUR RECRUITING CONSORTIUM COMPANY: SoCtronics Technologies Private Limited**

**SoCtronics** is a customer-focused VLSI design services company offering complete Spec-to-Silicon turnkey solutions in Logic Design, Physical Design, Analog Mixed Signal Design, Circuit Layout, Embedded System Design and System Engineering. SoCtronics employs proven methodologies and established processes in their design flow and has a consistent track record of first time Silicon Success. Their success stories include completing turnkey projects covering all aspects of specification to chip and many successful tape-outs for their high-technology clientele located in USA, Canada, EU, Israel, Japan, China and Taiwan and also their subsidiary design centers in India. SoCtronics is led by experienced senior executives, who have vast & rich experience in the VLSI field over decades of association with the Silicon Valley, USA. They have a proven record of ramping up manpower based on project requirements in critical times, through exclusive training programs conducted by VEDA IIT.

**About VEDA IIT**

VEDA IIT, with a track record of 20 years, is an industry driven state-of-the-art training institute of excellence in various fields of VLSI and Embedded Systems Design. Since its inception in 1997 more than 130 batches **(Corporate training and MS Program) have undergone training at this world class institute and have moved on to chart out praiseworthy careers in this domain in India and Abroad.** VEDA is associated with a consortium of VLSI Design Houses that offer employment to the candidates and sponsor them for job ready training. The consortium participates in designing and structuring the curricula and also in imparting Live Industry Oriented Training on contemporary VLSI Design. Our curriculum is set in such a manner that the students get more hands on experience in their chosen field. VEDA also offers a unique 2 year MS program in VLSI engineering with a multitude of Industry relevant courses, and has created an enviable track record of near 100% placements for all its batches. VEDA IIT is managed by Professionals of proven track record having long standing association with India's Top class Universities and some of the most prominent companies in the semiconductor domain.

**Thanks and Regards**
