Subject: To Conduct The Art of Living's Yes!+ Program on campus.

Dear Sir,

We are seeking permission to organize the YES!+ program on campus during the dates 27th - 31st December, 2021 (27th, 28th - 9:10 am to 1:30 pm | 29th to 31st - 9:10 am to 4:00 pm). On completion of the workshop a certificate is presented to them from The Art of Living.

This workshop will be coordinated by Anuraag, who will be volunteering with the students and will handle all the logistics and operations of the workshop during the mentioned dates & time.

This workshop will be facilitated by our esteemed faculty, Mr.Manas Ram.

We request you to kindly grant us permission for the same and also request you to grant full attendance to all the students attending the workshop for these dates.

Yours sincerely,

YES!+ Team

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.

Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs.
(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards.

DLRL(Defense Electronic and Research Laboratory) VISIT REPORT

Chandrayangutta,

21st March, 2022,

10:30am to 12:30pm

I have visited DLRL on the occasion of 60 year celebration. As we enter DLRL, we have sent to an auditorium room. Then one of the scientist came and gave the presentation of the achievements and significant moments of DLRL over the past 60 years. Then they have shown us the models of DRDL systems and technology modules like different types if horn antenna, yagi-uda antenna, helical antenna and different types of RADAR. They have explained about these technology and clarified our doubts with patience.

Then we went to another section where we have encountered all the great achievements by the DLRL like ANIRUDH, PRITHVI, RUDRAM,NAG MISSILE, etc. As I am from ECE department, we have gained exposure to more advanced IC technology, signal transmitters and receivers.

Meghana konolla,

To,

Dr. P. Ravinder Reddy Sir

Principal

Chaitanya Bharathi Institute of Technology

Gandipet (M), Kokapet (V)

Subject: To Conduct The Art of Living's Yes!+ Program on campus.

Dear Sir,

We are seeking permission to organize the YES!+ program on campus during the dates 27th - 31st December, 2021 (27th, 28th - 9:10 am to 1:30 pm | 29th to 31st - 9:10 am to 4:00 pm). On completion of the workshop a certificate is presented to them from The Art of Living.

This workshop will be coordinated by Anuraag, who will be volunteering with the students and will handle all the logistics and operations of the workshop during the mentioned dates & time.

This workshop will be facilitated by our esteemed faculty, Mr.Manas Ram.

We request you to kindly grant us permission for the same and also request you to grant full attendance to all the students attending the workshop for these dates.

Yours sincerely,

YES!+ Team

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.

Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs.
(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards.

BN Rangaswamy, Sc F
Head, P&C

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

   Schedule, timings and details are given below.
   Date: 21st – 23rd March 2022
   Timings: (a) 10:30 hrs. to 12:30 hrs.
   (b) 14:30 hrs. to 16:30 hrs.

4. **You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.**
5. **Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.**

With Warm Regards.

BN Rangaswamy, Sc F
Head, P&C

THE ART OF LIVING FOUNDATION

www.artofliving.org

To,

Dr. P. Ravinder Reddy Sir

Principal

Chaitanya Bharathi Institute of Technology

Gandipet (M), Kokapet (V)

Subject: To Conduct The Art of Living's Yes!+ Program on campus.

Dear Sir,

We are seeking permission to organize the YES!+ program on campus during the dates 27th - 31st December, 2021 (27th, 28th - 9:10 am to 1:30 pm | 29th to 31st - 9:10 am to 4:00 pm). On completion of the workshop a certificate is presented to them from The Art of Living.

This workshop will be coordinated by Anuraag, who will be volunteering with the students and will handle all the logistics and operations of the workshop during the mentioned dates & time.

This workshop will be facilitated by our esteemed faculty, Mr.Manas Ram.

We request you to kindly grant us permission for the same and also request you to grant full attendance to all the students attending the workshop for these dates.

Yours sincerely,

YES!+ Team

(The Art of Living)

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.

Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs.
(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards.

DLRL(Defense Electronic and Research Laboratory) VISIT REPORT

Chandrayangutta.

21st March, 2022,

10:30am to 12:30pm

I have visited DLRL on the occasion of 60 year celebration. As we enter DLRL, we have sent to an auditorium room. Then one of the scientist came and gave the presentation of the achievements and significant moments of DLRL over the past 60 years. Then they have shown us the models of DRDL systems and technology modules like different types if horn antenna, yagi-uda antenna, helical antenna and different types of RADAR. They have explained about these technology and clarified our doubts with patience.

Then we went to another section where we have encountered all the great achievements by the DLRL like ANIRUDH, PRITHVI, RUDRAM,NAG MISSILE, etc. As I am from ECE department, we have gained exposure to more advanced IC technology, signal transmitters and receivers.

Principal

Chaitanya Bharathi Institute of Technology

Gandipet (M), Kokapet (V)

Subject: To Conduct The Art of Living's Yes!+ Program on campus.

Dear Sir,

We are seeking permission to organize the YES!+ program on campus during the dates 27th - 31st December, 2021 (27th, 28th - 9:10 am to 1:30 pm | 29th to 31st - 9:10 am to 4:00 pm). On completion of the workshop a certificate is presented to them from The Art of Living.

This workshop will be coordinated by Anuraag, who will be volunteering with the students and will handle all the logistics and operations of the workshop during the mentioned dates & time.

This workshop will be facilitated by our esteemed faculty, Mr.Manas Ram.

We request you to kindly grant us permission for the same and also request you to grant full attendance to all the students attending the workshop for these dates.

Yours sincerely,

YES!+ Team

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING BE III SEMESTER (ECE-2)

TITLE: PASSWORD BASED SECURITY SYSTEM USING ARDUINO

S.no	Student name	Roll.no
1.	Hamsika R.G	160120735063
2.	Paturu Sahithi	160120735072
3.	Vasavi Kondapaneni	160120735077

ABSTRACT

Security is a main concern in our everyday life. Each and every individual needs to feel secure. An access control for doors forms an essential part in our security pattern. Doors locked using conventional locks are not as safe as they used to be, anyone can break in by breaking these locks. We tend to make a framework that will give 24/7 benefit. Password based door lock system allows only approved persons to access restricted areas. This system is fully controlled by Arduino. The password can be entered via a keypad. If the password is matched with the stored password in Arduino the door opens. This programmed password based framework will give client more secure and minimal effort method for locking-opening framework. The security door lock automation system provides a further step to the future where mechanical door locks will be substituted by electronic door locks.

The project aims to provide security through a security password which is confidential for the user alone. The user will need to enter a password to unlock the door. On successful password entry, the door gets open for a specific amount of time letting the individual to enter. On the other hand, if the user enters wrong password door doesn't get open which is completely controlled by ARDUINO UNO.

The user can enter a password as required. The entered password during installation will be saved as set password. Initially the system is locked, when the user enters a password, the entered password is checked with predefined set password. If the password matches, the servo motor deflects and the door gets unlocked. If the password entered is correct or not the arduino will check in its database. If the entered password matches with the set password, LCD will display UNLOCKED message on its screen and the door gets unlocked allowing the individual to enter.

The main purpose is to design a security system which is beneficial to each and every individual. We designed a security system using Arduino. The System we designed is successful and, affordable and provides security effectively.

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organisation (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below:
Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs
(b) 14:30 hrs. to 16:30 hrs

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards,

BN Rangaswamy, Sc.F
Head, P&C
For Director DLRL

TITLE: Arduino Based Hand Gesture Control of Computer

NAMES OF THE STUDENTS:
R.Shrayan -160120735098
M.Rithvik -160120735092
K.Y.Nisheeth -160120735119

ABSTRACT

Gesture based interaction systems are becoming very popular both at workplace and home. This work intends to develop a system which can recognize hand gestures which can be used as an input command to interact with the PC or laptop. One of the key areas which need to be looked at while developing such systems is the code implementation stage. In order to manage the work we shall be using Python for the implementation of the code.

In order to control pc using ultra sonic sensors, this technique is called Leap motion which enables us to control certain functions on our computer/Laptop by simply waving our hand in front of it.
Gesture 1: Place the hand in front of the Right Ultrasonic Sensor at a distance (between 15CM to 35CM) for a small duration and move our hand away from the sensor. This gesture will Scroll Down the Web Page.
Gesture 2: Place the hand in front of the Right Ultrasonic Sensor at a distance (between 15CM to 35CM) for a small duration and move our hand towards the sensor. This gesture will Scroll up the Web Page.
Gesture 3:Swipe the hand in front of the Right Ultrasonic Sensor. This gesture will move to the Next Tab.
Gesture 4: Swipe the hand in front of the Left Ultrasonic Sensor. This gesture will move to the Previous Tab or Play/Pause the Video.
Gesture 5: Swipe the hand across both the sensors (Left Sensor first). This action will switch between Tasks. Based on the above mentioned gesture, the following Arduino Program has been written.

Gesture recognition is useful in processing information from human beings that is not conveyed through speech or other methods. This technology is useful in following areas:

a. Immersive gaming technology
b. Control through facial gestures
c. Alternative computer interfaces
d. Remote control
e. Home Appliances control

Title	:	CAR PARKING
Names	:	Bogoju Mukesh Manoj Reddy Talusani Sai Teja Eraram
College Name	:	Chaitanya Bharathi Institute of Technology(A)

Abstract

Parking is more than a necessary element of larger residential or commercial uses. It merits consideration as a distinct land use that affects travel behaviour and environment.

The primary goal of parking management is to create parking availability near business and restaurants so that customers can easily find a space. The perception of a parking shortage results when drivers have difficulty in finding an open parking space. Drivers become frustrated and waste time and fuel while searching for an empty slot. They will be in a confusion that whether the parking slots are available or not.

"Car parking" is a project designed to ensure whether the parking slots are present or not, if present then how many slots are free and how many are filled using Arduino and Infrared sensors.

This project works based on the working principle of IR sensors. In this we have used two sensors. Whenever the first vehicle enters the parking slot the first IR sensor detects the vehicle and the gate opens if the parking slots are empty with the help of a servo motor and whenever the vehicle reaches the second IR sensor it detects the vehicle and the gate closes. If the parking slots are filled completely then the LCD displays that no slots available. This is how the project works.

So, this project helps the drivers to know whether the parking slots are empty or filled and also helps them to save their time and fuel in search of knowing whether the parking slots are present empty or not.

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.

Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs.
(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards.

BN Rangaswamy, Sc F
Head, P&C
For Director DLRL

ABSTRACT

Gesture based interaction systems are becoming very popular both at workplace and home. This work intends to develop a system which can recognize hand gestures which can be used as an input command to interact with the PC or laptop. One of the key areas which need to be looked at while developing such systems is the code implementation stage. In order to manage the work we shall be using Python for the implementation of the code.

In order to control pc using ultra sonic sensors, this technique is called Leap motion which enables us to control certain functions on our computer/Laptop by simply waving our hand in front of it.
Gesture 1: Place the hand in front of the Right Ultrasonic Sensor at a distance (between 15CM to 35CM) for a small duration and move our hand away from the sensor. This gesture will Scroll Down the Web Page.
Gesture 2: Place the hand in front of the Right Ultrasonic Sensor at a distance (between 15CM to 35CM) for a small duration and move our hand towards the sensor. This gesture will Scroll up the Web Page.
Gesture 3:Swipe the hand in front of the Right Ultrasonic Sensor. This gesture will move to the Next Tab.
Gesture 4: Swipe the hand in front of the Left Ultrasonic Sensor. This gesture will move to the Previous Tab or Play/Pause the Video.
Gesture 5: Swipe the hand across both the sensors (Left Sensor first). This action will switch between Tasks. Based on the above mentioned gesture, the following Arduino Program has been written.

Gesture recognition is useful in processing information from human beings that is not conveyed through speech or other methods. This technology is useful in following areas:

a. Immersive gaming technology
b. Control through facial gestures
c. Alternative computer interfaces
d. Remote control
e. Home Appliances control

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.

Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs.
(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards.

BN Rangaswamy, Sc F
Head, P&C

Title	:	SOLAR TRACKER
Names	:	M.SIDDHARTH , A.SNEHIT REDDY , K.VIKAS
College Name	:	CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY

Abstract

Solar energy is an unlimited source of energy that, if harnessed correctly, will get mankind devoid of using the conventional sources of energy used. Solar power in India is a fast-developing industry as a part of renewable energy. The country's solar installed capacity is 47.7 GW as of 31 October 2021. The Indian Government had an initial target of 20 GW capacity for 2022, which was achieved four years ahead of schedule. The proposed model is designed to harness solar energy in an efficient method. It is designed using an Arduino UNO board, two photoresistors, and a servo motor.

Photoresistors are light-sensing modules, which are to be placed in different directions. They both send digital information of the light intensity to the Arduino board. The microcontroller controls the rotation of the servo motor in the order in which the light intensity is more. As the motor rotates, it controls the direction of the solar panel too. Thus, maintaining constant exposure to sunlight throughout the day and generating electricity.

Our solar tracker's primary use is thatracks the sunlight and generates more electricity, which couldn't be achievable on a stationary solar module. Advancement in technology and reliability in electronics and mechanics have drastically reduced long-term maintenance concerns for tracking systems.

Certificate of Internship

TO WHOMSOEVER IT MAY CONCERN

This is to certify that Mr. Kamshetty Varun has volunteered with Inqui Lab Foundation, between the period of January 26th, 2022 to February 9th, 2022.

During this period he had contributed to a social innovation project to build the larger ecosystem of social innovation in the state of Telangana, India and also thus enhancing his skills. He was prompt with his tasks and genuine with his feedback, to best suit our organizational needs and has successfully completed the assignment.

We thank him for his efforts and wish him all the best in his future endeavors

Thank you

Vivek Piddempally
Director, Inqui-Lab Foundation

INTERNATIONAL
MODEL UNITED NATIONS

CERTIFICATE OF INTERNSHIP

International MUN recruited Campus Ambassador Interns and they were given different tasks of social media promotions as well as to get IMUN Online Conference referrals. Kamshetty Varun was one of the Campus Ambassador Intern and performed tasks well.

We wish Kamshetty Varun good luck for all the future endeavours.

Title	:	SOLAR TRACKER
Names	:	M.SIDDHARTH , A.SNEHIT REDDY , K.VIKAS
College Name	:	CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY

Abstract

Solar energy is an unlimited source of energy that, if harnessed correctly, will get mankind devoid of using the conventional sources of energy used. Solar power in India is a fast-developing industry as a part of renewable energy. The country's solar installed capacity is 47.7 GW as of 31 October 2021. The Indian Government had an initial target of 20 GW capacity for 2022, which was achieved four years ahead of schedule. The proposed model is designed to harness solar energy in an efficient method. It is designed using an Arduino UNO board, two photoresistors, and a servo motor.

Photoresistors are light-sensing modules, which are to be placed in different directions. They both send digital information of the light intensity to the Arduino board. The microcontroller controls the rotation of the servo motor in the order in which the light intensity is more. As the motor rotates, it controls the direction of the solar panel too. Thus, maintaining constant exposure to sunlight throughout the day and generating electricity.

Our solar tracker’s primary use is thatracks the sunlight and generates more electricity, which couldn’t be achievable on a stationary solar module. Advancement in technology and reliability in electronics and mechanics have drastically reduced long-term maintenance concerns for tracking systems.

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERINGBE III SEMESTER (ECE-2)

TITLE: Arduino Based Hand Gesture Control of Computer

NAMES OF THE STUDENTS:
R.Shrayan -160120735098
M.Rithvik -160120735092
K.Y.Nisheeth -160120735119

ABSTRACT

Gesture based interaction systems are becoming very popular both at workplace and home. This work intends to develop a system which can recognize hand gestures which can be used as an input command to interact with the PC or laptop. One of the key areas which need to be looked at while developing such systems is the code implementation stage. In order to manage the work we shall be using Python for the implementation of the code.

In order to control pc using ultra sonic sensors, this technique is called Leap motion which enables us to control certain functions on our computer/Laptop by simply waving our hand in front of it.
Gesture 1: Place the hand in front of the Right Ultrasonic Sensor at a distance (between 15CM to 35CM) for a small duration and move our hand away from the sensor. This gesture will Scroll Down the Web Page.
Gesture 2: Place the hand in front of the Right Ultrasonic Sensor at a distance (between 15CM to 35CM) for a small duration and move our hand towards the sensor. This gesture will Scroll up the Web Page.
Gesture 3:Swipe the hand in front of the Right Ultrasonic Sensor. This gesture will move to the Next Tab.
Gesture 4: Swipe the hand in front of the Left Ultrasonic Sensor. This gesture will move to the Previous Tab or Play/Pause the Video.
Gesture 5: Swipe the hand across both the sensors (Left Sensor first). This action will switch between Tasks. Based on the above mentioned gesture, the following Arduino Program has been written.

Gesture recognition is useful in processing information from human beings that is not conveyed through speech or other methods. This technology is useful in following areas:
a. Immersive gaming technology
b. Control through facial gestures
c. Alternative computer interfaces
d. Remote control
e. Home Appliances control

Subject: To Conduct The Art of Living's Yes!+ Program on campus.

Dear Sir,

We are seeking permission to organize the YES!+ program on campus during the dates 27th - 31st December, 2021 (27th, 28th - 9:10 am to 1:30 pm | 29th to 31st - 9:10 am to 4:00 pm). On completion of the workshop a certificate is presented to them from The Art of Living.

This workshop will be coordinated by Anuraag, who will be volunteering with the students and will handle all the logistics and operations of the workshop during the mentioned dates & time.

This workshop will be facilitated by our esteemed faculty, Mr.Manas Ram.

We request you to kindly grant us permission for the same and also request you to grant full attendance to all the students attending the workshop for these dates.

Yours sincerely,

To

Dr. P. Ravinder Reddy, Principal
Chaitanya Bharathi Institute of Technology(CBIT)
Gandipet, Hyderabad-500075, T.S

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.
Date: 21st – 23rd March 2022
Timings: (a) 10:30 hrs. to 12:30 hrs.
(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards,

BN Rangaswamy, Sc F
Head, P&C
For Director DLRL

Gandipet (M), Kokapet (V)

Subject: To Conduct The Art of Living's Yes!+ Program on campus.

Dear Sir,

We are seeking permission to organize the YES!+ program on campus during the dates 27th - 31st December, 2021 (27th, 28th - 9:10 am to 1:30 pm | 29th to 31st - 9:10 am to 4:00 pm). On completion of the workshop a certificate is presented to them from The Art of Living.

This workshop will be coordinated by Anuraag, who will be volunteering with the students and will handle all the logistics and operations of the workshop during the mentioned dates & time.

This workshop will be facilitated by our esteemed faculty, Mr.Manas Ram.

We request you to kindly grant us permission for the same and also request you to grant full attendance to all the students attending the workshop for these dates.

Yours sincerely,

YES!+ Team

(The Art of Living)

Sub: Invitation to DLRL's Diamond Jubilee Exhibition

Sir,

Warm greetings from Defence Electronics & Research Laboratory(DLRL), Hyderabad. DLRL, a premier lab of Defence Research & Development Organization (DRDO), working in design and development of state-of-the-art Electronic Warfare(EW) Systems.

2. DLRL completed 60 years and celebrated its Diamond Jubilee Function on 19th March 2022. On this occasion, Chairman DRDO inaugurated DLRL product exhibition. The exhibition has DLRL photo section showing significant moments since inception. The product section has models of DLRL systems and technology modules.

3. It gives us immense pleasure to extend an invitation to your students to enable them to have an exposure & overview of the EW technologies and systems.

Schedule, timings and details are given below.

Date:	21st – 23rd March 2022
Timings:	(a) 10:30 hrs. to 12:30 hrs.
	(b) 14:30 hrs. to 16:30 hrs.

4. You may please provide the list of students nominated for the visit along with details of person Liaising from the College. You may please contact the undersigned for further details.
5. Expecting to hear from you at the earliest to facilitate smooth visit at DLRL.

With Warm Regards.

BN Rangaswamy, Sc F
Head, P&C
For Director DLRL
