### SUDHEE 2019 MECHANICA 2019

#### About Mechanica

MECHANICA is the 2-day National Level Technical Fest of Department of Mechanical Engineering organised as a part of SUDHEE'19, the Technical Fest of CBIT. Mechanica has organised 09 events during the academic year 2019-20. The fest was conducted on **13<sup>th</sup> & 14<sup>th</sup> September, 2019**. We had around 400+ participants.

#### Support from College

The college management, Principal, Head of the Department and SUDHEE Core Committee have encouraged, supported and guided us throughout this venture.

#### Faculty Coordinators

Dr. S Solomon Raj (Assistant Professor, MED)

Sri. P. Kiran Kumar (Assistant Professor, MED)

#### Student Coordinators

## Chaitanya Bharathi Institute of Technology (CBIT)

CBIT, committed to Education and Innovation for 4 Decades and inspired by the range of Government Policies and Programs to fuel the Innovation drive, through focused efforts in Research, emerged as a Home for ambitious Innovators, Visionary Thinkers and extraordinary Pioneers and has been contributing its mite towards New India's Innovation Ecosystem. Five of the Engineering Departments at the Institute are recognized as Research Centers by the Osmania University. In-order to elevate the state-of-the-art of technology, a well equipped Research and Development Centre has been established.

CBIT has established a research fund to nurture and harness the talent of the students and faculty from various disciplines. The organization provides necessary facilities for promoting basic research and to catalyze the cross-fertilization of ideas with R&D agencies in other sectors for expanding and enriching the knowledge base in their respective areas. The institute provides grants-in-aid for collaborate work or individual work related to futuristic front-line research which finds application in world class systems leading to innovations.

### About the Department

CBIT started Electrical & Electronics Engineering program in 1994. The intake was increased from 60 to 120 from the academic year 2013-14. The Department is certified by ISO 9001:2015. It has got accredited by AICTE four times in the years 2004, 2008, 2013 and 2017. The Department has highly qualified and experienced Teaching and Non-teaching faculty. It has started offering PG program in Power Systems & Power Electronics since 2006. This Department is having 10 well equipped labs with latest simulation & design software. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. It is enriched with 15 lakhs and 17 lakhs worth projects under AICTE-MODROBS for PE & PS Labs and Electrical Machines lab respectively.

### About the STTP

The growing interest in the application of Artificial Intelligence (AI) techniques to power system engineering has laid an avenue for its state-of-the-art technology. AI techniques, unlike strict mathematical methods, have the apparent ability to adapt to nonlinearities and discontinuities commonly found in power systems.

This STTP gives an overview of modern heuristic optimization techniques, fundamentals of evolutionary computation, optimization techniques, hybrid systems and their applications. The other features like heuristic approach to power system's security assessment, generation, economic load dispatch, FACTS, power system maintenance, operation and control also will be figured in the program.

It is hoped that this STTP will enable the participants to understand the concepts of optimization, to model any kind of optimization problems mathematically and to codify any type of algorithm in MATLAB environment.

### Topics to be covered in STTP

- ↓ Introduction to research methodologies
- ↓ MATLAB programming, Scalar, Vector Matrices, Plots, Functions
- ↓ Optimization algorithms
- ↓ Hybridization of different algorithms
- ↓ Applications of optimization algorithms in Electrical Engineering

### Resource Persons

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industry and host Institution.

### Registration Fee: Free

### Accommodation

Twin/Three sharing Accommodation will be provided only to outstation participants on first come first serve basis.

### Travelling Allowance (TA)

Travelling Allowance (Sleeper Class train or Bus fare by shortest route) will be reimbursed to outstation participants as per norms on submission of original tickets.

### Target Group

The present STTP is expected to benefit engineers, scientists, researchers and academicians who are working/teaching/studying in the area of optimization Techniques.

### Important Dates

Last date for Registration : 04Nov2019  
Intimation of selection : 10 Nov 2019

## About the STTP

In this course we designed a syllabus in three major modules as follows:

1. Research methodologies
2. MATLAB programming
3. Optimization Techniques

**First module** Research methodologies: aims to introduce participants to the important aspects of research.

The intent of this module is to make scholars aware of the details associated with formal research and to help scholars overcome common misconceptions that may be present in their minds.

By going through this module, participants are likely to be able to take up research activities in a more systematic and formal manner right from the beginning.

**Second module** MATLAB programming: MATLAB is a popular language for numerical computation. This module introduces participants to MATLAB programming, and demonstrate it's use for scientific computations.

The bases of computational techniques are developed through various coding examples and problems, and practical ways to use MATLAB will be discussed.

**Third module** Optimization Techniques: Optimization problems are frequently encountered in almost all disciplines of science and engineering. These algorithms help find the inputs that give the best outputs.

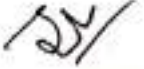

This module will familiarize the audience with both mathematical and computational intelligence algorithms to solve single and multi-objective optimization problems.

This module is designed so as to enable the participants to quickly use state-of-the-art tools to solve optimization problems.

A unique feature of this module will be discussion of a realistic case study to thoroughly understand various aspects of optimization.

In mathematical terms, an optimization problem is the problem of finding the best solution from among the set of all feasible solutions.

Incorporation of FACTS devices also discussed in this training.

### Objectives:

- ❖ Recognize the gap in attaining all learning attainments as per bloom's taxonomy
- ❖ To develop the research based activities in domain to address gaps recognised through the research based learning
- ❖ This course aims to introduce students to the important aspects of research
- ❖ The intent of the course is to make students aware of the details associated with formal research and to help students overcome common misconceptions that may be present in their minds.
- ❖ The objective of this course is to introduce undergraduate students to computational techniques using MATLAB
- ❖ This course will familiarize the audience with both mathematical and computational intelligence algorithms to solve combinatorial optimization problems
- ❖ A unique feature of this course will be discussion of a realistic case study to thoroughly understand various aspects of optimization

### Outcomes: At the end of this course, a student would

- ❖ Students are likely to be able to take up research activities in a more systematic and formal manner right from the beginning.
- ❖ Learn basics of MATLAB programming
- ❖ Get introduced to numerical methods for engineering problems
- ❖ Will be able to use MATLAB to solve computational problems
- ❖ To enable the participants quickly use state-of-the-art tools to solve optimization problems.

#### INAUGURAL SESSION

The Short Term Training Programme (STTP) started with Lighting of lamp by the chief guest, Mr. V.Ramachandra Rao, Former Power Grid Senior General Manager, Dr. V. Malakonda Reddy, President, CBIT, Dr. P. Ravinder Reddy, Principal, CBIT, Dr.G.Suresh Babu, HOD/EEE, Dr.M.Balasubbareddy, Coordinator, AICTE-STTP followed by the singing of the Invocation song.

A heart-warming welcome address was delivered by Dr. P Ravinder Reddy, Principal, CBIT, followed by about the department and about of the STTP was delivered by Dr. G. Suresh Babu, HOD/EEE and Dr. M. Balasubbareddy, Coordinator, STTP respectively.

The session further continued with the address of Mr. V. Ramachandra Rao, chief guest, who enlightened the participants about the Smart Grid technologies and how does smart grid technologies work and also explained Smart grid uses and applications.

Last address of the Inaugural session was given by Dr. V. Malakonda Reddy, President, CBIT, In his speech, he spoke about importance of such training programmes and how such programs help in developing R&D culture in education institute. He even mentioned that the primary objective of this endeavour is to inculcate and nature the culture of research amongst all of us and also to guided us in how to integrate research in academics.

#### **Day-1**

**25/11/2019, Session 1: (9:30-11.00)**

**Chief Guest:** Mr. V Ramachadra Rao, Ex-SGM, PGCIL

#### **About Chief Guest:**

Mr. V Ramachadrarao did his BE (Electrical Engineering) from Osmania University in the year 1981 While pursuing his M.E in Osmania University selected as Assistant Executive Engineer in Neyveli Lignite Corporation in the year 1983 .worked in NLC up to 1986 June then joined in NTPC at Rihand for Rihand Delhi HVDC project. In the year 1991 when Power Grid Corporation of India (PGCIL) was formed, got absorbed in PGCIL. He was superannuated in February, 2019, as a Senior General Manager. During in service from NLC to PGCIL worked in various capacities in the following areas:

1. Thyristor Drive Motor Controls, Electrical erection & commissioning of specialized mining equipment.
2. Commissioning of +/- 500 KV HVDC Bipole System
3. Installation & Commissioning of 400KV Sub stations and Transmission lines
4. Operation & Maintenance of 400KV Sub stations and Transmission lines
5. Installation & Commissioning of Series Compensation
6. In charge for 400kV Southern Grid operation.

#### **During The Session:**

The STTP was inaugurated by Dr. V Malakonda Reddy, president, CBT and Mr. V Ramachandrarao, Ex-SGM, PGCIL.

**25/11/2019, Session: 2 (11:30-13:00)**

**Resource person:** Dr. A D Sharma, CBIT

**About the speaker:**

**Expert Talk Delivered: Research Methodology**

After defining the research, the Essentials of Research have been discussed. During this session, the Desirable Attributes of Researcher and Mentor are listed. The Research Methodologies and Research Formulation have presented. The talk has been concluded with Research Opportunities.

**25/11/2019, Session: 3&4, (14:00 to 17:15)**

**Resource person:** Dr. Y Pradeep, IITH

**About speaker:**

Dr. Pradeep Kumar Yemula, is an Assistant Professor at the Department of Electrical Engineering, Indian Institute of Technology Hyderabad (IITH). He has a Masters Degree (2006) and a PhD (2012) from Indian Institute of Technology Bombay (IITB). His research areas include Information architectures for power control centers, Common Information Models, Smart Cities, Interoperability, Demand Response, Campus Energy Monitoring and Standards for Smart Grids. He also serves as faculty-in-charge of placements at IITH. Prior to joining IITH he worked as an Assistant Research Professor at the School of Electrical and Electronics Engineering at Washington State University, WA, Pullman, USA. He is a member of Power system control and associated communications (LITD 10) committee under Bureau of Indian Standards (BIS). Apart from these activities he is passionate about teaching and enjoys delivering lectures to young engineers on core power system concepts and advanced smart grids concepts. His lectures are available for free on youtube, under the channel named "Pradeep Yemula".

### **Expert Talk on: Campus Energy Monitoring System**

The modeling of dynamic systems has been discussed. Then, the Campus Energy Management System (CEMS) is explained in detailed. During that, the different levels of metering such as smart room, building monitoring system and campus monitoring system have been presented. Few case studies have also been covered.

### **Day-2**

**26/11/2019, Session: 1, (9:30 to 11:00)**

**Resource person:** Smt. Geetha sree, APIS

**About speaker:** Smt. Geetha sree, General Manager, capacity building and campus interface, Andhra Pradesh Innovation Society, is Innovation Expert focused on Capacity Building an emotionally intelligent society and ensures ethical innovations.

**Education:**

Sri Venkateshwara University, Tirupathi

MSc, Industrial and Organizational Psychology · (2016 - 2018).

National Institute of Business Management, Chennai Master of Business Management, Operations Management · (2009 - 2011)

G.Pulla Reddy Engineering College Kurnool Bachelor of Technology (B.Tech.),  
Electrical, Electronics and Communications Engineering · (1994 - 1998)  
Experience:

AP Innovation Society General Manager,  
March 2019 - Present, Kurnool.

AP Innovation Society Sr Manager (Capacity Building & Campus Interface),  
March 2016 - Present.

**Expert Talk on: Building an Enabling Environment for Innovation**

The theme of this session is "enabling environment for innovation". During this, the necessity, the definition and the procedure for the right innovation are presented. The talk has explored different schemes by the Government of India, to promote entrepreneurship are listed out. The session has also explained the need for Technology-Business Incubation.

26/11/2019, Sessions: 2, 3, &4 (11:30-5:15)

Resource person: Dr. M Balasubbareddy, CBIT

- ◆ **About speaker:** I am 40 Years old with *adequate energy and maturity of thought*, well-tempered over 17+ years of exposure to and experience in *all aspects of organizing a EEE Department*.
  
- ◆ I have a consistently *brilliant academic career*, right from the Primary school to University education, always coming out with meritorious record of FIRST CLASS and High ranking. This ensures my *flair for ACADEMICS*, which eventually made me to hold the M.Tech., degree from a premier National institution, **National Institute of Technology, Trichy** and highest Technical education qualification of **Ph.D** from a **Jawaharlal Nehru Technological University, KAKINADA**.
  
- ◆ For about 17+ Years, I have been **TEACHING** at under graduate and post – graduate levels besides supervising B Tech Project works and Post graduate Dissertations. This experience culminated in my **AUTHORING / CO- AUTHORING Text Books** for students to cater their needs of the current state-of-the-art.
  
- ◆ During my 12+ years of **RESEARCH** period, I could author **52 International and National Journal publications**. Also, I **PARTICIPATED** directly or indirectly in **7-International** and **2-National CONFERENCES** of Technological importance and modern trends. Thus, I have evinced considerable *interest and initiative in Research Publication and Interaction* through conferences, Seminars, Training Programmes for Quality Improvement, in keeping up with the growing trends of Technological Education & Research.
  
- ◆ While relentlessly maintaining Teaching and Research activity, I have been assisting the **College Administration** in various capacities over the period of 17+ **years**, from **Assistant Prof, Head of Department**,

**Dean (ACADEMICS) Vice principal to Principal** at college level. The various **Measures** taken and **Reforms** introduced during my tenures have yielded excellent results, benefitting the students and the Organization.

#### **Membership – Professional societies**

- Life Member, Indian Society for Technical Education, New Delhi.
- Life Member, Institution of Engineers (India), Kolkata
- Member in International Association of Engineers, Hong Kong.
- Fellow in International Society for Research and Development, London.
- Fellow member in The IRED Institute of Research Engineering and Doctors

#### **AWARDS Received**

- Received "**Best Researcher of the year 2009**" award from JNT University, Kakinada
- Received **National Award for Teaching Excellence - 2013** from **Indus Foundation.**
- Received **Award for Research Excellence -2016** from **Indus Foundation**
- Received **Award for Educational Leadership-2017** from **Indo-Global Education Summit and Expo 2017 at Hyderabad.**
- Received "**Adarsh Vidya Saraswati Rashtriya Puraskar (National Award of Excellence 2018)** from **Global Management Council, Ahmedabad.**
- Received "**Best Faculty**" award from **EET CRS Academic Brilliance Awards-19, Noid, 2019**
- Received "**Honorable Jury mention (Scientist category)**" from **EET CRS 4<sup>th</sup> South Asian Education Awards-19, Hyderabad, 2019.**

#### **Expert Talk on: Introduction to MATLAB programming**

This session has given the participants a hands-on for practicing coding in MATLAB with data types, relational and logical operations, conditional statements, loops, data input and output operations. It is then extended to matrix operations and plots.

**Day-3**

**27/11/2019, Session 1&2: (9:30-13.00)**

**Resource person:** Dr. J Ravi Kumar, NITW

**About speaker:** Dr. J Ravi Kumar is currently working as Associate Professor in the Department of Electronics & Communication Engineering at National Institute of Technology. He has completed his B. E (E.C.E) Osmania University, M.Tech in Electronic Instrumentation & Control Systems from JNTU, Kakinada, and PhD in Signal Processing, from NIT Warangal. His areas of interest are Process Control Design, Signal Processing Algorithms and Nature Inspired Algorithms. He has 30, international journal publications and 31, international conferences. He has written 3 book chapters under reputed publishers. He has guided 01 PhD student and guiding 05 PhD scholars. He organized 28 workshops/STTP/conferences. He has successfully completed 02 projects with one currently undergoing. He is the associated editor for two reputed journals and reviewer for IEEE and Springer journals. He has chaired technical sessions for IEEE conferences

**Expert Talk on: GA based PID controller tuning for DC Motor control**

  
 HEAD  
 Dept. of EEE, CBIT (A)  
 Gandipet, Hyderabad-75

After defining optimization, it introduces genetic algorithm. Then it is explained to use GA for tuning P, I, D controllers. Then GA is applied to control DC motor by tuning PID controller.

**27/11/2019, Session 3&4: (14:00-17.15)**

**Resource person:** Dr. Y Chandra Sekhar, NITW

**About speaker:** Dr. Chandrasekhar Yammani received B.Tech degree in Electrical and Electronics Engineering from Jawaharlal Nehru Technological University, Hyderabad, India, in 2007. He possessed M.Tech and Ph.D Degrees in Power Systems Engineering from the National Institute of Technology Warangal (NITW), Warangal, India, in 2009 and 2015 respectively. He completed Post-Doctoral studies from Scotland under Erasmus Mundus European Program in 2018. Since March-2012, he is working as an Assistant Professor in Electrical Engineering Department of NIT Warangal.

His research areas are Renewable energy resources in power systems, Microgrids, Optimization techniques, Meta-heuristic Techniques, Fast

Charging stations, Blockchain Technologies to Smart Grid and Power system Reliability.

In his career, he has published 25 international Research publications and 2 National publications in reputed journals and conferences in India and abroad. He completed one research project under European union H2020 program. He is working on one Indo-Norway projects sponsored by DST and SERB, Govt. of India worth Rs.40 Lakhs. He visited USA, UK, Scotland, Norway, Romania and Singapore for presenting his research papers. He acted as a chair in the IEEE Tencon-2016, held in Singapore. He selected as a transnational access researcher of European Union's ERIGrid under H2020 for conducting Research at The National Smart Grid Laboratory, SINTEF Energy and NTNU, Trondheim, Norway.

**Expert Talk on: Multi-optimization for locating fast charging EVs and DGs**

After introducing multi-objective optimization, a NSGA-II is explained. Then, it is applied to find the optimal locations for fast charging EV stations and DGs.

**Day 4**

**28/11/2019, Session: 1&2 (9:30-13:00)**

**Resource person: Dr.Y V PavanKumar, VIT-AP**

**About speaker:** Dr. Y. V. Pavan Kumar received the Ph.D. degree in Electrical Engineering in the year 2017 from Indian Institute of Technology Hyderabad (IITH), India; the M.Tech degree in Instrumentation and Control Systems in the year 2011 from JNTUK University, India; and the B.Tech degree in Electrical and Electronics Engineering in the year 2007 from JNTUH University, India.

He has an overall experience of 7.5 years (out of which, 3 years as a Systems Engineer for the design of power & control systems and electronic test systems in Automation and Control Solutions, Aerospace Engineering, and

Energy R & D Centers of Honeywell Technology Solutions, India; 4.5 years as an Assistant and Associate Professor of Electrical and Electronics Engineering). Currently, he is working as an Associate Professor in the School of Electronics Engineering at Vellore Institute of Technology - Andhra Pradesh (VIT-AP) University, Amaravati, India.

He has authored 72 research papers, 3 books, 3 innovation disclosures for U.S. patenting through Honeywell Inc. He finished 3 sponsored/consultancy research projects granted by DRDO, DST-EMR, IITH and currently working on 1 DST-SERB sponsored project, total of around 1 crore INR. He visited countries such as U.S.A., Canada, Italy, Singapore, Thailand, and Indonesia for presenting his research papers and collaborating with International research community.

His research areas include advanced control systems and artificial intelligence applications to micro-grids and smart grids, self-healing grids, power quality, and power converters.

He received Honeywell Canada Global Excellence Award, Partner Award from EMS Aviation - U.S.A, and Prestigious Honeywell Aerospace Gold Medal for the year 2012 along with other 16 consecutive ENGINEERING EXCELLENCE AWARDS from Honeywell.

He is an Invited Member of IEEE Smart Grid Research & Development Committee - U.S.A., and Reviewer for IEEE (Transactions on Industrial Electronics, Transactions on Smart Grid), Elsevier (Electric Power Systems Research, Energy Conversion and Management, Renewable & Sustainable Energy Reviews, Electrical Power & Energy Systems, Energy Storage, Sustainable Energy Grids and Networks), Springer (Sadhana, Technology & Economics of Smart Grids and Sustainable Energy), International Journal of Renewable Energy Research (IJRER), and many other reputed national/international journals and many Notable-Conferences of internationally reputed.

**Expert Talk on: Design of controller for micro-grids**

This session has given the participants different methods for research, best ways for publishing research work. Then it explores different conventional methods for designing controller parameters. Final, it explains a method to design controller for micro-grid with the help of MATLAB/SIMULINK.

**About speaker:** Dr.M.Ramamoorthy Obtained his BE (Hons) from Andhra University in 1957 and M E from I I Sc Bangalore in 1959. He obtained M A Sc and Ph.D from the University of Toronto Canada in 1965 and 1967 respectively. He was a Common Wealth Fellow at Toronto University from 1964 to 1967.On returning to India he joined I I T Kanpur as a Faculty Member in the Dept. of Electrical Engineering where he became a Professor in the year 1972.He established for the First time in India a Graduate Program in Power Electronics at I I T Kanpur.in the year 1968.He has supervised 12 Doctoral projects during his stay at IIT and was associated with many sponsored projects from Industries such as BHEL and HSL. In 1977 he joined M/S Hindustan Brown Boveri Ltd at Baroda (now M/S ABB Ltd) as Chief of Research.He was responsible for the development of a number of Prototypes in Switchgear, Relays and Instrumentation. He joined

Central Power Research Institute (CPRI) as its First Director General in the year 1983. He retired from service in 1994. During his tenure CPRI became a well recognized Research and Testing Centre in India,

Dr. Ramamoorthy took over as Director ERDA Vadodara in June 1995 and demitted his office as Director on 31<sup>st</sup> Oct. 2006 after completion of his contract period and continued as its Advisor for one more year. He worked as a Visiting Professor at a number of Universities abroad which include University of Sydney, University of British Columbia, University of Washington, Worcester Polytechnic Institute, University of Waterloo, University of Trinidad, University of Sydney and many others.

Dr. Ramamoorthy authored Seven Books on Thyristors, CAD of Machines, Reactive Power, Power System Protection, Electrical Machines, Hydro Power Generation and Applications of Power Electronics in Utilities and Industries. He edited one Book on Power Plant Instrumentation.

Dr. Ramamoorthy has 8 Patents on Field Oriented Control of Synchronous Motors, Sensorless Rotor Speed measurement for Induction Motors, Power quality improvement, Detection of inter turn faults in Synchronous Generators and, on A Method to Identify Stalling condition in Induction Motor.

He is a Life Fellow of IEEE and Fellow of Indian National Academy of Engineers and is the distinguished lecturer for IEEE Region 10. He is the recipient of a number of awards from professional bodies. Power World Magazine published from USA has named Dr. Ramamoorthy as the GURU for his pioneering contribution to the field of Power System Protection. He has published more than 200 Technical papers in reputed Journals. During his tenure at HBB, CPRI and ERDA he has guided 10 more Ph.D Projects. He worked as Advisor R&D for many Industrial establishments. Presently he provides technical guidance to many faculty members from local colleges in Hyderabad who have registered for PH.D.

**Expert Talk on: Special Electromagnetic Motor**

During this session, the professor has delivered the lecture on special electromagnetic motor for industrial applications.

<p><b>Chaitanya Bharathi Institute of Technology (CBIT)</b></p> <p>CBIT, committed to Education and Innovation for 4 Decades and inspired by the range of Government Policies and Programs to fuel the Innovation drive, through focused efforts in Research, emerged as a focus for ambitious innovators, Visionary Thinkers and extraordinary Pioneers and has been contributing its role towards New India's Innovation Ecosystem. Five of the Engineering Departments at the Institute are recognized as Research Centers by the Council of University. In order to elevate the state-of-the-art of technology, a well equipped Research and Development Centre has been established.</p> <p>CBIT has established a research hub to nurture and harness the talent of the students and faculty from various disciplines. The organization provides necessary facilities for promoting basic research and to catalyze the cross-fertilization of ideas with R&amp;D agencies in other sectors for expanding and enriching the knowledge base in their respective areas. The institute provides grants-in-aid for collaborative work or individual work related to futuristic front-line research which finds application in world class systems leading to innovations.</p> 	<p><b>About the Department</b></p> <p>CBIT started Electrical &amp; Electronics Engineering program in 1994. The intake was increased from 60 to 120 from the academic year 2013-14. The Department is certified by ISO 9001:2015 &amp; has got accredited by AICTE five times in the years 2004, 2008, 2013 and 2017. The Department has highly qualified and experienced Teaching and Non-teaching faculty. It has started offering PG program in Power Systems &amp; Power Electronics since 2006. The Department is having 10 well equipped labs with latest simulation &amp; design software. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. It is equipped with 15 labs and 17 labs worth projects under AICTE-MODROBS for PE &amp; PS Labs and Electrical Machines lab respectively.</p> <p><b>About the STTP</b></p> <p>The growing interest in the application of Artificial Intelligence (AI) techniques to power system engineering has laid an avenue for its state-of-the-art technology. AI techniques, unlike strict mathematical methods, have the apparent ability to adapt to uncertainties and discontinuities commonly found in power systems.</p> <p>This STTP gives an overview of modern heuristic optimization techniques, fundamentals of evolutionary computation, optimization techniques, hybrid systems and their applications. The other focuses like heuristic approach to power system's security assessment, generation, economic load dispatch, FACTS, power system maintenance, operation and control also will be figured in the program.</p>	<p>It is hoped that this STTP will enable the participants to understand the concepts of optimization, to model any kind of optimization problems mathematically and to codify any type of algorithm in MATLAB environment.</p> <p><b>Topics to be covered in STTP</b></p> <ul style="list-style-type: none"> <li>➤ Introduction to research methodologies</li> <li>➤ MATLAB programming, Scalar, Vector, Matrices, Plots, Functions</li> <li>➤ Optimization algorithms</li> <li>➤ Hybridization of different algorithms</li> <li>➤ Applications of optimization algorithms in Electrical Engineering</li> </ul> <p><b>Resource Persons</b> Resource Person will be from Renowned Institutions such as IIT/NITs, Industry and host Institution.</p> <p><b>Registration Fee: Free</b> <b>Accommodation</b> Twin/Three sharing Accommodation will be provided only to outstation participants on first come first serve basis.</p> <p><b>Travelling Allowance (TA)</b> Travelling Allowance (Sleeper Class train or Bus fare by shortest route) will be reimbursed to outstation participants as per norms on submission of original tickets.</p> <p><b>Target Group</b> The present STTP is expected to benefit engineers, scientists, researchers and academicians who are working/teaching/studying in the area of optimization techniques.</p> <p><b>Important Dates</b> Last date for Registration : 04 Nov 2019 Intimation of selection : 10 Nov 2019</p>

## Objectives of the FDP

- To introduce and train faculty, on various aspects of Advancements in "Outcome Based Education (OBE) and NBA Accreditation Process.
- To promote Student-Centric effective Teaching-Learning Practices among the Faculty, in compliance to the National Educational Policy and Regulatory Authorities Guidelines released periodically on improving the Quality of Higher Education in Engineering.
- To enable the faculty to understand the NBA Assessment Criteria and Prepare Tier-I UG Documentation along with the necessary exhibits to be shown to the expert committee.

## Expected Outcomes

**After successful completion of the Program, Faculty should be able to**

- Structure their Lessons as per the needs of the Students and with the Interaction of Industry on emerging Areas of Designs, Applications and Solutions to the Problems.
- Map the level of achievements/failures of Outcomes by a Student during the 4 years of Graduation as this impacts the entire evaluation.
- Distinguish PEOs and POs/PSOs
- Establish correlation among COs, POs and PEOs
- Identify, Design and Apply appropriate Assessment methods for COs, POs and PEOs
- Identify the Scope and develop Action Plan for Continuous Improvement based on CO-PO attainment Values
- Assess all the Criteria's in the NBA's SAR
- Distinguish among AICTE, NBA and NAAC
- Distinguish NBA SAR and NAAC SSR

## Prerequisites for the FDP

- ❖ Knowledge about the format of Tier-I UG Engineering Self-Assessment Report.  
(The Format of Tier-I UG Engineering Self-Assessment Report is enclosed for your reference.)
- ❖ Please Join a Test Meeting on 27/5/2020 (Wed) at 11:00 AM using the link:  
<https://cbit.webex.com/cbit/j.php?MTID=m59c6d61aa361cf59d433fcc280b34075>

## FDP Guidelines

1. Presentation Sessions will be conducted daily from 10:00AM to 12:30PM
2. Questionnaire Form with relevant Queries/Doubts/Clarifications will have to be filled and submitted immediately after the presentation Session, before 1:30 PM.
3. Group Discussion, will be held, daily from 5:30 PM to 6:30 PM to answer the queries from the Participants.
4. Quiz will be open daily between 8:30 PM to 9:30 PM. The duration of the quiz is 30min. The Participants have to submit the Answers.
5. Attend all the Sessions and submitting all the Quizzes of the FDP by the Faculty within the time frame is mandatory.
6. E-Certificates will be awarded to the Participants who score an average of 60% in the Quizzes.

## Today Topics - 28 May 2020

- a) AICTE vs. NBA
- b) Outcome Based Education
- c) Differences between Knowledge and Skills
- d) With questions - Blooms Taxonomy
- e) Qualitative Metrics

**Dr.S.Viswanadha Raju**  
 Professor of CSE , JNTUH  
 VICE Principal -JNTUHCEJ  
 svraju.jntu@gmail.com

### AICTE vs. NBA

AICTE	NBA
AICTE stands for <b>All India Council for Technical Education</b>	NBA stands for <b>National Board of Accreditation</b>
AICTE was established on 1945 to plan and control technical education in India	NBA was established by the AICTE in 1994. It is periodic evaluations of technical programmes basic according to specified norms and standards as recommended by AICTE council
AICTE is <b>Approval body and Autonomous</b>	NBA is to assess the qualitative competence of the programs offered by educational institution and operated as an autonomous body since 2010.
Based on Detailed Project Report (Application)	Based on self assessment questionnaires and a SWUT analysis (SAR- Self Assessment Report)

### AICTE vs. NBA

AICTE	NBA
Quantitative assessment Straight forward decision (Yes/No)	Qualitative assessment Depends on Quality Systems (system, efficiency & effectiveness of system and impact)
Based on Physical, financial and infrastructure resources	In addition, includes availability and quality of human resources and outcomes skills, Research and consultancy Projects, Placements, higher studies, innovation methods, faculty and student achievements, continuous improvement etc.
Credibility of Management provider	Actual performance based on input-process- output model

Brief Report- One Week Faculty Development Program on  
"Outcome Based Education and NBA Accreditation Process-(UG)"

28/5/2020 to 1/6/2020

Conducted through Online Platform

Resource Person: Dr.S.ViswanadhaRaju Professor,CSE Dept., JNTUHCEJ

The FDP started with inaugural session of the event, Dr.P.Ravinder Reddy, Principal has discussed on various aspects of advancements in Outcome Based Education (OBE) and the importance of NBA Accreditation. The conveners of the FDP briefly explained about the entire schedule of the events. The sessions started by Dr.S.ViswanadhaRajuresource person from JNTUHECEJ in ICT mode.

Day 1:

- The resource person spoke about topic related to OBE and NBA, differences between AICTE and NBA, various blooms taxonomy levels that are to be followed in academic activities which are related to criterion 2,3,8 of NBA.

Day 2:

- The resource person spoke about formulation of course outcome of different courses, mapping of CO's with PO's and preparing constructive question papers and discussed about quality of student projects.

Day 3:

- The resource person addressed about how to calculate the CO attainments by using CIE and SEE marks and importance of course end survey, program exit survey which contribute for the calculation of PO's.
- The resource person discussed how to form course expert groups,importance of alumni, parents, industrial and employer feedback and their role in syllabus formulation.
- The resource person focused on continuous improvement and assessment tools for improving the program outcomes i.e., PO6 to PO12.

Day 4:

- The resource person addressed about the formulation of vision and mission statements of the institute. The department vision and mission should be in line with the institute vision and mission. And focussed on how to build the statements of PEO's and PSO's.

Day 5:

- The resource person addressed about the various committees that are to be constituted at the department and institute level. And also informed about UG tier one evaluation guidelines related to NBA.

The final day ended with the valedictory session and all the participants are happy with the one week FDP.

## Objective of the Course

The course has been designed for increasing the demand of "Internet of things". This course is demand of industries to fulfill the requirement of IoT professionals. In this course candidate will be taught every topic that is required and mentioned in the course content. As this course targets to any enthusiasts the basic information but in deep like "what is IoT", the scope, benefits, and effects of IoT on various digital technology and devices. Here candidates can learn the mechanism of Machine to Machine (M2M) communication, understanding of IoT ecosystem, industrial internet, and IoT on cloud.

## COURSE PROGRAMME

FDP is split into three parts:

- Lectures
- Labs/Hands-on sessions daily on Python Programming.
- Assignments and Project.

## Assignments & Project

1. Assignments will be of the following type:
  - MCQ based questionnaire.
  - Programming Assignments (Problem statement will be provided.)
2. At the end of the course "Project" will be assigned to the participants which will be based on the Practical Case Studies.

Mode of Payment: Online Only (RTGS/NEFT)

Bank Address: IIT Guwahati, GHY-39.

## Course Outcome

- Humidity & Temperature Local Webserver
- Use Arduino to upload free data from Environmental Sensors to Cloud Server.
- Automatically Tweet Sensor Data on Twitter.
- Control Home devices from Local Web Browser
- ESP8266 Controlled with Android App
- PWM Controlled RGB Led Light (MQTT Based IoT)
- Smart Home Appliance Application
- Smart Irrigation System using Soil Moisture & Cloud
- AWS IoT Application & Streaming Data to AWS Cloud
- MQTT Based Common Message Portal Server
- IoT Sensor Data Analytics

## How to Reach CBIT(A)

## About E&ICT Academy

Electronics and ICT Academy is an initiative of Ministry of Electronics & Information Technology (MeitY), Govt. of India for conducting various Faculty/ Research Scholar Development Programme. Academy has planned short term training programmes on fundamental and advanced topics in IT, Electronics & Communication, Product Design, Manufacturing with hands on training and project work using latest software tools and systems. In addition, the Academy will conduct specialized/customized training programmes and research promotion workshops for corporate sector & educational institutions.

## About CBIT(A)

Chaitanya Bharathi Institute of Technology (CBIT) is one of the premier engineering colleges for imparting quality engineering education in the state of Telangana. This is a first self-financed engineering college, established in 1979 in Hyderabad. Since 1979, CBIT has produced more than 20,000 successful Engineers. The grants received from AICTE / UGC / DST / Defense Labs are worth of above Rs. 4 crores in the form of Sponsored, R&D and Consultancy projects. This institute offers Nine UG and Ten PG programs. This institute is accredited by NBA, NAAC, and is an ISO 9001:2015 certified institute. The institution has obtained UGC autonomous status. The institute bagged 100th rank by the National Institutional Ranking Framework (NIRF) engineering rankings in 2019.

### BRIEF REPORT ON A TWO-DAY WORKSHOP

On 13<sup>th</sup> & 14<sup>th</sup> Nov' 2019, a two-day workshop on "Hands on MyDAQ and MyRIO using LabVIEW" organized by Department of Electronics and Communication Engineering. About 25 PG students and staff from ECE have attended the seminar. Mr. Rohit, National Instruments, Hyderabad is the speaker for this program.

On day one, the speaker delivered a lecture on applying theoretical knowledge into practice on a real application. Working with LabVIEW and myDAQ has allowed to go through the entire process of modelling, simulation, and prototyping application. On day two, we have been told to learn the basics of LabVIEW and about MyRIO as we'll be using that to control the system. Mostly, our work would involve sensing data, usage of motors and other minor electrical components to perform the required mechanical functions. Interfacing NI myRIO to the wide variety of sensors, actuators, and displays contained in the NI myRIO Starter Kit, NI myRIO Mechatronics Kit, and NI myRIO Embedded Systems Kit that students will need for projects.

## Chaitanya Bharathi Institute of Technology and its Innovation Eco-System

CBIT, committed to Education and Innovation for 4 Decades and inspired by the range of Government Policies and Programs to fuel the Innovation drive, through focused efforts in Research, emerged as a Home for ambitious Innovators, Visionary Thinkers and extraordinary Pioneers and has been contributing its mite towards New India's Innovation Ecosystem. Five of the Engineering Departments at the Institute are Recognized as Research Centers by the Osmania University. To enhance the reach and scope The State-of-the-Art Research and Development Centre with modern Technical Facilities, has been established, to support advanced Research and Innovation Ecosystem and encourage both Individual and Collaborative Research for Sponsored / Consultancy Projects, connecting Innovators across Industry and Individuals. Commemorating the Institutes 40 years of successful Journey since 1979 in nurturing the Engineering Knowledge through newer structure that facilitates Creative thinking through greater freedom to Learn, Experiment and Innovate adopting the latest Curriculum Architecture, Pedagogical excellence and Credits for Innovative and Creative thinking, the Think Tank at the Institute planned to Reinvent and encourage Innovation through a Platform that provides opportunity for all the Research Scholars and Students (PG and UG) to showcase their aptitude for Application Oriented Research and Innovation in the emerging Areas.

### Innovation Environment in India

The Contours of India's Innovation Environment has been changing with manifold augmentation of Technical Manpower and enhanced use of Technology. With the adoption of the National Intellectual Property Rights (IPR) Policy in May 2016, India has come a long way in revamping its IP regime which enabled increased IP filings and thereby the Domestic Patent filing improved by 42% in the past 4 Years. "Make in India", "Skill India", and "Digital India" have become Nation-Building Initiatives. Smart India Hackathon has emerged as the World's largest National level open Innovation Model bringing

Industry, Educational Institutes, Government Agencies and Professionals together on one Platform with 2,00,000 Participants in 2019 up from 30,000 in 2017. India has been consistently working hard on developing its Intellectual Property System to provide enabling Environment for Innovation to flourish at all levels which resulted in India being recognized by Global Innovation Index (GII), as the most Innovative Country in Central and Southern Asia since 2011 and it is a Pride that India has become the host for launching the 2019 edition of GII.

### Research Day - Institutes Focused Initiative

RESEARCH DAY, the focused initiative by the Institute is being Celebrated with an Objective to not only change the image from an Under Graduate Engineering College to Research focused Institute, for which the Institute has been endeavoring by providing On-Campus Financial Assistance apart from Industry Funded Research at the Micro level, but to expand the base to encourage Research Scholars, Students, Faculty to showcase their Research to the most interested Participants and network with Faculty, Fellow Students and Local Industry who are sharing the same Vision from India and Abroad and learn the quality of Innovation - including the quality of Scientific Publications, the quality of Universities and Patent related filings and recognize their own Research while respecting others Research in a Win-Win situation for all. The selected participants based on the Abstract will be provided an opportunity to present Summaries of their Key findings.

To add value to our efforts we are working on few Programs with Curtin University from Australia, under the specific Mandate which has been entered into recently by establishing "School of Excellence through Curtin Challenge Platform" for India and Asia. Exciting Prizes will be awarded to the best Research Papers/ Posters / Exhibitors/ Products under various Categories

### Research Participants

Each of the Participants interested to showcase their works should submit an Abstract of the Research Papers not exceeding 300 Words in the prescribed Formats available on the Web and submit the same to

The Director (R & D), through corresponding Email: [researchday@cbit.ac.in](mailto:researchday@cbit.ac.in) on or before 15 August 2019. For details please visit the Website: [www.cbit.ac.in](http://www.cbit.ac.in)

### Corporates and Start-Ups

The Corporates and Start -Ups who wish to participate in the Program to showcase their Innovation - Products and Services by putting up Stalls, are requested to contact CBIT Research Day Program Committee either by Phone or Email for details.

### Resource Persons

Resource Persons will be from Renowned Institutions, Industry from India and Abroad.

### Emerging Areas to be Covered

With a view to understand the impact of Government, Corporates, Educational Institutions, Investors on Innovation Ecosystem, the following areas will assume importance for extensive and intensive coverage:

1. Developing Entrepreneurship Capabilities
2. Establishing "Start Ups" - Experiences by Promoters
3. Current Status of Research in Industries
4. Launching of Research based Projects

### Registration Fee and Take Home

Registration Form with the Payment of INR 200/- should be forwarded to Director R & D.

The Fee enables the Participants to take home Book of Abstracts, Lunch Coupon, Snacks and Tea.

The Participants will be limited and the selection is on the basis of First Arrival First.

### Travel and Stay

Arrangements for Travel, Boarding and Lodging should be made by the Participants themselves. Women Participants will be supported with arrangements for Accommodation on Payment.

**Brief Report  
on  
Research Day-2019**

The Research Day has inspired many of the targeted Scholars and Researchers whose contribution has made the launch a successful endeavor. We are honored to have with us the Globally known Prof. David Gibson, Director of Learning Futures, Curtin University from Western Australia and UNESCO Chair, for accepting our Invitation and for being the Chief Guest. His Presentation of the Research Works have been an inspiration. Dr. RupaVuthaluru, Professor Curtin University also presented her Works.

A total of 354 abstracts are received from various engineering colleges in both Telangana and Andhra Pradesh. The Departmental Research committees scrutinized the Abstracts and accepted 315 abstracts (oral presentation: 226; Poster presentation: 89). A total of 564 participants have been participated in Research Day including product exhibition (140). A book of Abstracts (includes all 315 Abstracts) is released in the name of pre-symposium copy on the Research Day. A total of four invited talks have been arranged in the N block seminar hall, these talks includes the Challenge Based Innovation, Developing Entrepreneurship Capabilities. The departments distributed 3 prizes (Rs. 1000 cash prize per each category) for best oral/poster and product in the departmental level.

### A Report on 5 day e-FDP on "Artificial Intelligence"

organized

from 22<sup>nd</sup> to 26<sup>th</sup> May 2020

A 5 day e-FDP on "Artificial Intelligence" was organized from 22<sup>nd</sup> to 26<sup>th</sup> May 2020 by Chaitanya Bharathi Institute of Technology (Departments of CSE, IT & MCA) in collaboration with Brain-O-Vision Solutions India Pvt. Ltd., through online mode (without any registration fee). As many as 625 participants joined us for the e-FDP from various organizations within and around Telangana state. The sessions were delivered through you tube links and also a separate link was provided for every organization for the convenience of participants.

The FDP sessions covered various aspects of Artificial Intelligence(AI), Machine Learning(ML) and deep learning(DL). The speakers enlightened the participants about the major drivers for the growth of AI in verticals such as automotive, finance and advertisement; implementation of AI models in real time and introduction to an AI framework-Scikit-Learn and its implementation in Python. The sessions proved to be truly insightful as we received positive feedback from the participants.

The event could not have been possible without the support of Dr.M.Swamy Das, Head of the Department, CSE; Dr.Suresh Pabboju, Head of the Department, IT & Dr.Lakshmi Srinivasa Reddy, Head of the Department, MCA.

We thank the Principal, Dr.P.Ravinder Reddy, for his instant response to proceed ahead with the event and his support and encouragement throughout the event, even through online mode.

We thank the management of Chaitanya Bharathi Institute of Technology, whose constant support and motivation, paved a path for the successful completion of the event.

## FACULTY DEVELOPMENT PROGRAMME (FDP)

ON

# DATA SCIENCE

(5<sup>th</sup> - 10<sup>th</sup> August, 2019)

Organized by

**E & ICT Academy, National Institute of Technology, Warangal.**

at

**CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (A)**

Chaitanya Bharathi (Pur), Kokapet (V), Gandipet (M), Hyderabad, Telangana State, India

(Sponsored by Ministry of Electronics and Information Technology (MeitY), GOI)

### Preamble:

"Electronics & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, GoI. The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa, Puducherry and Andaman & Nicobar Islands. This academy role is to offer faculty development programmes in standardized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry, CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

### About the FDP:

The vision of this FDP is to enhance the quality of education imparted in institutions by providing faculty members with a platform to learn all about Data Science and Analytics. Educators will get to learn the best practices in these domains so that they can teach the future workforce the required skill sets.

### Major Course Contents:

- Statistical Analysis using R programming
- Introduction to Data Science along with experiments using R
- Machine Learning – Supervised, Unsupervised learning
- Cross Validation, Regularization
- Data Analytics and Visualization

### Faculty conducting this programme:

The programme will be conducted by the faculty members from NIT Warangal, Academicians in the concerned field from IITs/NITs/IIITs/Central Universities/Scientific Organizations are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

### Eligibility:

The programme is open to faculty of Engineering Colleges, MCA Colleges and other allied disciplines (like Mathematics, Physics) in India. Industry personnel working in the concerned /allied discipline can also attend.

### Registration Fee Particulars:

Faculty and Research Scholars	Rs. 2500/-
Industry Participants	Rs. 7500/-

The fee is to be paid either in the form of DDs or online transfer using the following details:

DD Details	Online Transfer Details
Demand Draft in favor of "Electronics & ICT Academy NITW, NIT Warangal" payable at any bank in Warangal	Account Name: Electronics & ICT Academy NITW Account No: 62423775910 IFSC: SBIN0020149

### Accommodation:

Accommodation will be provided to the selected outside participants on prior request. No TA/DA will be paid for the participants. Working Lunch, Tea & Snacks would be provided during the Training in the campus.

### How to apply:

A filled in form of application in the prescribed format duly signed and sponsored by appropriate authorities (along with demand draft) should reach the coordinator by speed-post. It is also mandatory to send scanned application form and demand draft through e-mail to [datascience2019@cbit.ac.in](mailto:datascience2019@cbit.ac.in). Selection will be intimated only through mail.

### Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 50 (fifty). Additionally 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail. In case a candidate is not selected, the DD will be sent back. Candidates will be issued satisfactory certificates on successful completion of the course. Reservations are followed for selecting candidates as per GoI norms.

### Important dates:

Last date (Application & DD)	27 <sup>th</sup> July 2019
Selection List by E- mail	31 <sup>st</sup> July 2019
Duration	5 <sup>th</sup> - 10 <sup>th</sup> August 2019

### About NIT Warangal:

National Institute of Technology, Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institute imparting technical education of a very high standard leading to the B.Tech degrees in various branches of engineering, M.Tech. and Ph.D programs in various specializations. All B. Tech and M. Tech programmes of NIT Warangal are NBA accredited.

### About CBIT:

Chaitanya Bharathi Institute of Technology is one of the premier Engineering Colleges in the self-financing category in the state of Telangana, affiliated to Osmania University. The Institute has become Autonomous under UGC w.e.f. 2013-14. The college offers 9 UG and 10 PG Programmes. All UG Programmes are accredited by NBA in the year 1998, 2004, 2008, 2013 and 2017. The Institute is accredited by NAAC with 'A' grade in 2017 for five years. The College Campus is spread across 50 acres. Total research grants received from various funding agencies is about Rs.8.5 Crores and Consultancy works carried out are of worth Rs.25 Crores. In India ranking 2019, given by National Institutional Ranking Framework (NIRF), CBIT ranked 100 in engineering category.

The programme conducted by the faculty members from NIT Warangal; Academicians in the concerned field from IITs/NITs/IITTs/Central Universities/Scientific Organizations are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

**Head Dept. of IT**  
**CBIT, Hyderabad**

**FDP on Data Science**  
(05<sup>th</sup> - 10<sup>th</sup> August, 2019)

College Name: Chaitanya Bharathi Institute of Technology, Hyderabad

**Schedule**

Day & Date	09.00 - 11.00		11.15-13.15		14.00-16.00		16.15-17.15	
05.8.2019 Monday	Registration & inauguration From 8.30 am	R Programming Basics TRK	R Programming Basics TRK		R Programming Basics TRK		R Programming Basics TRK	
06.8.2019 Tuesday	Statistical Analysis using R SP		Statistical Analysis using R SP		Data Analytics - Industry Case Studies BDK		Data Analytics - Industry Case Studies BDK	
07.8.2019 Wednesday	Data Visualization using R SP		Data Visualization using R SP	Lunch Break	Recommendation Systems SKP		Recommendation Systems SKP	
08.8.2019 Thursday	NoSQL- MongoDB RPB		NoSQL- MongoDB RPB		Map Reduce KGR	Machine Learning Principles RBS	Classification RBS	
09.8.2019 Friday	Clustering RBS		Clustering RBS		Outlier Analysis using R( Hands On) PS		Outlier Analysis using R (Hands On) PS	
10.8.2019 Saturday	Re-sampling Methods DVS		Re-sampling Methods DVS		Cross Validation Methods DVS		Cross Validation Methods DVS	Validation Function

**External Speakers:**

TRK: Dr T Ramakrishna, NIT, Warangal

RBS: Prof R B V Subramanyam, Chief Investigator, E&ICTA, NIT, Warangal

DVS: Prof DVLN Somayajulu, Chair, E&ICT Academy, NIT, Warangal

RPB: R. Phani Bhushan, Scientist G, ISRO

SKP: DrSanjaya Kumar Panda, IITDM, Karmool

BDK: Bharadwaj L, CEO, Variance.ai, Hyderabad

SP: Surya Patilchala, Zettamine Labs, Hyderabad

**Internal Speakers:**

PS : Dr Suresh Pabhoja, CBIT, Hyderabad

KGR: Mr. Gangadhar Rao, CBIT, Hyderabad

**Head Dept. of IT**  
**CBIT, Hyderabad**

## FDP Speakers- Profile and Session- Summary

### **Name: Dr. Tene Ramakrishnu**

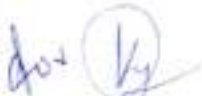

- Educational Qualification: B.Tech (CSE), Jawaharlal Nehru Technological University, Hyderabad.
- M.Tech (CST), Andhra University, Visakhapatnam.
- Ph.D. National Institute of Technology, Warangal.
- Designation: Assistant Professor
- Organization: National Institute of Technology Warangal
- Contact Information: +91-9866876842
- Email Id: [trk@nitw.ac.in](mailto:trk@nitw.ac.in), [ramakrishnu.t@gmail.com](mailto:ramakrishnu.t@gmail.com)
- Topics Covered: Introduction to R Programming, Data Science, Role of R in Data Science, Data Structures, Importing Data in to R, Getting in to R, Control structures, working with objects and functions in R, R packages, Tutorial and exercise related to R.

### **Name: Mr. Surya Putchala**

- Educational Qualification: M.Tech, Indian Institute of Technology, Kharagpur
- Designation: CEO and Founder
- Organization: ZettaMine Labs
- Contact Information: +91-996397775
- Email Id: [surya.putchala@zettamine.com](mailto:surya.putchala@zettamine.com)
- Topics Covered: Data Visualization, What is Data Visualization, Why Data Visualization, What are Data Types, How are they important, How should data understood, What are Chart Types, What Charts to use when, Introduction to ggplot2, Tutorial and exercise related to ggplot2

### **Name: Mr. Bhat Dhattikavi**

- Educational Qualification: M.Tech, National Institute of Technology Warangal
- Designation: Founder, CEO, Data Scientist
- Organization: Variance AI
- Contact Information: +91-8008804440
- Email Id: [bhat.dhatkavi@gmail.com](mailto:bhat.dhatkavi@gmail.com)
- Topics Covered: Data Analytics, Statistical features, Probability Distribution (Uniform, Normal, and Poisson), Sampling

  
Head Dept. of IT  
CBIT, Hyderabad

Methods (Over and Under Sampling), Mean, Median, and Variance.

**Name: Dr Sanjaya Kumar Panda**

□ Educational Qualification: Ph. D. (CSE, IIT (ISM) Dhanbad), M. Tech. (CSE, NIT Rourkela) B. Tech. (CSE, VSSUT Burla.)

□ Designation: Assistant Professor

□ Organization: IIITDM, Kurnool

□ Contact Information: +91-9861126947

□ Email Id: sanjayauce@gmail.com

□ Topics Covered: Introduction to Recommender system, Types of Recommender System, google trends, Evaluating the accuracy of recommender system, Which information do we use to make recommendations, How to evaluate a recommender system, How to implement a recommender system, KNN algorithm.

**Name: Mr. R. Phani Bhushan**

□ Educational Qualification: M.Tech, National Institute of Technology Warangal

□ Designation: Scientist G of ADRIN

□ Organization: Variance AI

□ Contact Information: +91-8008804440

□ Email Id: bhat.dittakavi@gmail.com

□ Topics Covered: Introduction to Big Data, Structured and unstructured data, NoSQL, MongoDB, MongoDB - Data Modeling, Create Database, Drop Database, Create Collection, Drop Collection, Data Types, Insert Document, Query Document, Update Document, Delete Document, Limiting Records, Sorting Records, Indexing, Aggregation, MongoDB installation and Hands-on small exercise.

**Name: Dr. RBV Subramaanyam**

□ Educational Qualification: M.Tech. (IIT Kharagpur), Ph.D. (IIT Kharagpur)

□ Designation: Professor and Head (CSE)

□ Organization: NIT Warangal

□ Contact Information: +91-9491346969, 9441434454

□ Email Id: rbvs66@gmail.com, rbvs66@nitw.ac.in

□ Topics Covered: Machine Learning Techniques, Decision tree learning, Algorithm representation of tree, Cost of Split,

Head Dept. of IT  
CBIT, Hyderabad

Information Gain, Entropy Gini Index.

**Name:** Prof DWLN Somayajulu

□ Educational Qualification: Ph.D from Department of Computer Science &amp;amp; Engineering, Indian Institute of Technology, Delhi in 2002

□ Designation: Director

□ Organization: IITD, Kurnoor

□ Contact Information: +91-94901 65361

□ Email Id: somadwln@gmail.com

□ Topics Covered: Overview of Data Science, Demo of Outlier Analysis using R, How Data Science projects differ from BI, Data analysis life cycle, outlier detection, box plot analysis.

### Objectives of the FDP

- To introduce and train faculty, on various aspects of Advancements in "Outcome Based Education (OBE) and NBA Accreditation Process.
- To promote Student-Centric effective Teaching-Learning Practices among the Faculty, in compliance to the National Educational Policy and Regulatory Authorities Guidelines released periodically on improving the Quality of Higher Education in Engineering.
- To enable the faculty to understand the NBA Assessment Criteria and Prepare Tier-I UG Documentation along with the necessary exhibits to be shown to the expert committee.

### Expected Outcomes

After successful completion of the Program, Faculty should be able to

- Structure their Lessons as per the needs of the Students and with the Interaction of Industry on emerging Areas of Designs, Applications and Solutions to the Problems.
- Map the level of achievements/failures of Outcomes by a Student during the 4 years of Graduation as this impacts the entire evaluation.
- Distinguish PEOs and POs/PSOs
- Establish correlation among COs, POs and PEOs
- Identify, Design and Apply appropriate Assessment methods for COs, POs and PEOs
- Identify the Scope and develop Action Plan for Continuous Improvement based on CO-PO attainment Values
- Assess all the Criteria's in the NBA's SAR
- Distinguish among AICTE, NBA and NAAC
- Distinguish NBA SAR and NAAC SSR

## A Report on 5 day e-FDP on "Artificial Intelligence"

organized

from 22<sup>nd</sup> to 26<sup>th</sup> May 2020

A 5 day e-FDP on "Artificial Intelligence" was organized from 22<sup>nd</sup> to 26<sup>th</sup> May 2020 by Chaitanya Bharathi Institute of Technology (Departments of CSE, IT & MCA) in collaboration with Brain-O-Vision Solutions India Pvt. Ltd., through online mode (without any registration fee). As many as 625 participants joined us for the e-FDP from various organizations within and around Telangana state. The sessions were delivered through you tube links and also a separate link was provided for every organization for the convenience of participants.

The FDP sessions covered various aspects of Artificial Intelligence(AI), Machine Learning(ML) and deep learning(DL). The speakers enlightened the participants about the major drivers for the growth of AI in verticals such as automotive, finance and advertisement; implementation of AI models in real time and introduction to an AI framework-Scikit-Learn and its implementation in Python. The sessions proved to be truly insightful as we received positive feedback from the participants.

The event could not have been possible without the support of Dr.M.Swamy Das, Head of the Department, CSE; Dr.Suresh Pabboju, Head of the Department, IT & Dr.Lakshmi Srinivasa Reddy, Head of the Department, MCA.

We thank the Principal, Dr.P.Ravinder Reddy, for his instant response to proceed ahead with the event and his support and encouragement throughout the event, even through online mode.

We thank the management of Chaitanya Bharathi Institute of Technology, whose constant support and motivation, paved a path for the successful completion of the event.

### REPORT ON TECSTASY 2K19

Department of IT has organized TECSTASY 2K19, student technical fest under the aegis of SUDHEE 2K19, during 13<sup>th</sup> and 14<sup>th</sup> September 2019. There are around 15 technical events Cognos, Kodemania, Bug Hunter, Tech Hunt, Tech Fun, Word Feud, Smart Coding, Solve the Mystery, Tech Buzz, Blind Coding, Uno Code-O, Code Meister, Trace IT, Tech 2048, Tech Know organized as part of Tecstasy 2k19.

Students from all over the state participated and made it a grand success. Mr. S. Rakesh and Mr. U.Sairam are the faculty coordinators and V.Meghana, L.Manideep, B.Meghanan and E. Preethivardhan are the student coordinators.

Before the actual technical fest Dept of CSE and IT commonly conducted a 2 day workshop on Django framework during 5<sup>th</sup> and 6<sup>th</sup> September 2019 and around 500 students participated.

Prof. Suresh Pabboju, Head of the Dept., IT, addressing the participants of TECSTASY 2k19

A keynote address was organized on 14.09.2019 in the forenoon session. The keynote speaker is Prof P.V Sudha, Dept of CSE, and OU. Addressed the participants on the topic "Data Analytics as a service: Unleashing the power of cloud and Data Analytics".

Ms P.V.SUDHA, Keynote Speaker, addressing the students

Various events were organized as part of Tecstasy 2k19.  
The detailed descriptions of the events are as follows:

1. Cognos:  
"Cognos" is a paper presentation event which was conducted as a part of TECSTASY 2019. Around 12 technical papers were presented on various emerging technologies which included participants from within the college and other colleges as well. This event faculty coordinators are Dr. K. Radhika, Ms K Suganya, Ms M.Trupthi, Mr. K.Gangadhar Rao.

**2. Kode Mania:** This is a coding event co-ordinated by the faculty Dr.M. Venugopala Chari. Around 23 teams participated in the event.

**3. Bug Hunter:** This event tests the bug detection capacity of the participants in the given code. Event is coordinated by the faculty Mr. K. Rajesh Kannan. Around 31 teams participated in the event.

**4. Tech Hunt:** It is a fun and exciting outdoor event which rejuvenates the aptitude, reasoning abilities, general knowledge and basic programming knowledge of participants by answering the fun questions and hunt for answers hidden in different boxes. Event is coordinated by Ms. B. Veerajyothi and Around 32 teams participated.

  
Head Dept. of IT  
CBIT, Hyderabad

**5. Tech Fun:** This is an event which involves technical fun. Event is coordinated by the faculty Ms.B.Sarda and Around 37 teams participated.

**6. Word Feud:** This event is a crossword of technical words, coordinated by the faculty Ms. Kratika Sharma and Around 20 teams participated

**7. Smart Coding:** This is an event which was organized by Mr. Amit Bansal from Smart Interviews, This event is coordinated by the faculty Ms. T. Prathima and Around 120 students participated.

**8. Solve the Mystery:** This is an event which involves coding. Event is coordinated by the faculty Ms. T. Satya Kiranmai and Around 20 teams participated.

**9. Tech Buzz:** In this first round Logos will be shown and have to answer within the time limit. Then in second round the given word should be described without using it and in third round Finding the jumbled word then in fourth round Riddles will be given as clues. Solution of riddles will give you a location where you'll find your next riddle. Solve all these riddles to reach your treasure. This event is coordinated by the faculty Mr. Govardhan Reddy and Around 15 teams participated.

**10. Blind Coding:** Blind coding is an event which tests coding skills, concentration and memory. A coding problem along with solution is given, the exact code can be implemented or they can implement their own logic of either language C or C++. One rule to be followed is don't use backspace. In Level 3 the monitor will be switched off, backspace can be used and the code can be written. This event is coordinated by the faculty Ms K. Swathi and Around 56 teams participated.

**11. Uno Code-O:** This is an event which involves technical fun. Event is coordinated by the faculty Ms. Surya Samantha. Around 42 teams participated.

**12. Code Meister:** in this event we had Round one-Find Keyword for Picture: Choose the keyword from simple pictorial questions. A participant who performs well goes to the next! Round two-Codeword: You are provided with brain teasers, riddle, and puzzles. Solving those you will be able get the word to be coded. Gives a productive and skill full program to it. Event is coordinated by the faculty Ms.B SwathiSowmya and Around 28 teams participated.

**13. Trace IT:** It is an event which have some tricky codes. We need to find out what will be the output for it whether it is an error or exception or a proper output. Within the given time who will solve more questions they will be the winners. Event is coordinated by the faculty Mr.P.Vasantha sena and Around 18 teams participated.

**14. Tech 2048:** The game is modelled in the forms of 2048 grid; each grid has hidden questions at the back with 2 points each. Same consecutive grids should be joined in order to score the points. The questions are based on the simple c programming language and aptitude questions. Event is coordinated by the faculty Ms Deeya and Around 28 teams participated.

**15. Tech Know:** This is Quiz event co-ordinated by the faculty Dr Pragati Priyadarshinee And Around 26 teams participated in the event.

**Chaitanya Bharathi  
Institute of Technology (A)  
Research Day**

Friday, 23 August 2019: 10 AM - 5 PM

Head Dept. of IT  
CBIT, Hyderabad

### **Chaitanya Bharathi Institute of Technology and its Innovation Eco-System**

CBIT, committed to Education and Innovation for 4 Decades and inspired by the range of Government Policies and Programs to fuel the Innovation drive, through focused efforts in Research, emerged as a Home for ambitious Innovators, Visionary Thinkers and extraordinary Pioneers and has been contributing its mite towards New India's Innovation Ecosystem. Five of the Engineering Departments at the Institute are Recognized as Research Centers by the Osmania University. To enhance the reach and scope The State-of-the-Art Research and Development Centre with modern Technical Facilities, has been established, to support advanced Research and Innovation Ecosystem and encourage both Individual and Collaborative Research for Sponsored / Consultancy Projects, connecting Innovators across Industry and Individuals.

Commemorating the Institutes 40 years of successful Journey since 1979 in nurturing the Engineering Knowledge through newer structure that facilitates Creative thinking through greater freedom to Learn, Experiment and Innovate adopting the latest Curricular Architecture, Pedagogical excellence and Credits for Innovative and Creative thinking, the Think Tank at the Institute planned to Reinvent and encourage Innovation through a Platform that provides opportunity for all the Research Scholars and Students (PG and UG) to showcase their aptitude for Application Oriented Research and Innovation in the emerging Areas.

#### **Innovation Environment in India**

The Contours of India's Innovation Environment has been changing with manifold augmentation of Technical Manpower and enhanced use of Technology. With the adoption of the National Intellectual Property Rights (IPR) Policy in May 2016, India has come a long way in revamping its IP regime which enabled increased IP filings and thereby the Domestic Patent filing improved by 42% in the past 4 Years. "Make in India", "Skill India", and "Digital India" have become Nation-Building Initiatives. Smart India Hackathon has emerged as the World's largest National level open Innovation Model

bringing Industry, Educational Institutes, Government Agencies and Professionals together on one Platform with 2,00,000 Participants in 2019 up from 30,000 in 2017. India has been consistently working hard on developing its Intellectual Property System to provide enabling Environment for Innovation to flourish at all levels which resulted in India being recognized by Global Innovation Index (GII), as the most Innovative Country in Central and Southern Asia since 2011 and it is a Pride that India has become the host for launching the 2019 edition of GI.

#### **Research Day - Institutes Focused Initiative**

RESEARCH DAY, the focused initiative by the Institute is being Celebrated with an Objective to not only change the image from an Under Graduate Engineering College to Research focused Institute, for which the Institute has been endeavoring by providing On-Campus Financial Assistance apart from Industry Funded Research at the Micro level, but to expand the base to encourage Research Scholars, Students, Faculty to showcase their Research to the most interested Participants and network with Faculty, Fellow Students and Local Industry who are sharing the same Vision from India and Abroad and learn the quality of innovation - including the quality of Scientific Publications, the quality of Universities and Patent related filings and recognize their own Research while respecting others Research in a Win-Win situation for all. The selected participants based on the Abstract will be provided an opportunity to present Summaries of their Key findings.

To add value to our efforts we are working on few Programs with Curtin University from Australia, under the specific Mandate which has been entered into recently by establishing "School of Excellence through Curtin Challenge Platform" for India and Asia. Exciting Prizes will be awarded to the best Research Papers/ Posters / Exhibitors/ Products under various Categories.

#### **Research Participants**

Each of the Participants interested to showcase their works should submit an Abstract of the Research Papers not exceeding 300 Words in the prescribed Formats available on the Web and submit the same to

The Director (R & D), through Email on or before 10<sup>th</sup> August 2019. For details please visit the Website [www.cbrit.ac.in](http://www.cbrit.ac.in)

#### **Corporates and Start-Ups**

The Corporates and Start-Ups who wish to participate in the Program to showcase their Innovation - Products and Services by putting up Stalls, are requested to contact CBIT Research Day Program Committee either by Phone or Email for details.

#### **Resource Persons**

Resource Persons will be from Renowned Institutions, Industry from India and Abroad.

#### **Emerging Areas to be Covered**

With a view to understand the impact of Government, Corporates, Educational Institutions, Investors on Innovation Ecosystem, the following areas will assume importance for extensive and intensive coverage.

1. Developing Entrepreneurship Capabilities
2. Establishing "Start Ups" - Experiences by Promoters
3. Current Status of Research in Industries
4. Launching of Research based Projects

#### **Registration Fee and Take Home**

Registration Form with the Payment of INR 200/- should be forwarded to Director R & D. The Fee enables the Participants to take home Book of Abstracts, Lunch Coupon, Snacks and Tea. The Participants will be limited and the selection is on the basis of First Arrival First.

#### **Travel and Stay**

Arrangements for Travel, Boarding and Lodging should be made by the Participants themselves. Women Participants will be supported with arrangements for Accommodation on Payment.

#### **Important Dates**

# GITHUB training

  
Head Dept. of IT  
CBIT, Hyderabad

*A Report on training session organised by Dept. of IT  
for V Semester IT students on Github*

The Coders Hub - CBIT of department of IT organised a hands-on training session on Github for V Semester students on 09/09/2018. The session was scheduled from 9.10a.m. to 12.15p.m. for V Sem H2 students and 1.15p.m. to 4.15p.m. for V Sem H1 students in placement lab-3, TPO building. The session is facilitated by Ms. T. Prathima and Ms. A. Sindhu, Faculty coordinators Coder Hub - CBIT and final year students: Mr Bhargav Ram (160116737036), Ms G Vanita(160116737082), Mr B Avinash (160116737086), Mr R Revanth (160116737104), Mr VSVS Vanna (160116737117). This program is a zero budget program.

Git is a software built for developers, it is a development platform where we can host and review code, manage projects, and build software alongside multitude of developers. Git also tracks the history of changes to a project's source code, including what specifically has been changed, who has changed what and when without any overrides, this is called version control. Version control is "a system that records changes to a file or set of files over time so that you can recall specific versions later." Even when developers work on each other's files at the same time, Git's version control system will inform them that they're about to overwrite somebody else's work! Github can be used as a publishing tool, as a version control system, as a collaboration tool

The session was scheduled to provide hands-on training on the following aspects of Github:

- **Repository:** The most fundamental element of Github, a repository is essentially a projects' folder. Repositories store every single project file, its documentation and its revision history of every document.
- **Commit:** Commits are the most frequented activities by a developer using github. A commit is like saving an updated file to its original folder
- **Clone:** are copies of repository that sit on the developers computer instead of a sever.
- **Branch:** is a parallel version of a repository. It is contained within the repository, but does not affect the primary or master branch allowing the user to work freely without disrupting the live version.

2019-20  
Sg  
Head Dept. of IT  
CBIT, Hyderabad

- **Fetch:** Fetching refers to getting the latest changes from an online repository without merging them in. Once these changes are fetched you can compare them to your local branches
- **Fork:** A fork is a personal copy of another users repository that lives on your githubs account. Fork allows to freely make changes to a project without affecting the original
- **Push:** Pushing refers to sending committed changes to a remote repository such as Github.com. For instance, any local changes , can be pushed so that others may access them.
- **Issue:** Issues are suggested improvements, tasks or questions related to the repository. Issues can be created by anyone (for public repositories), and are moderated by repository collaborators. Each issue contains its own discussion forum, can be labeled and assigned to a user.
- **Blame:** The rule of the Blame feature on GitHub passes 'blame' on the version of the code file that resulted in an error occurring.
- **Merge:** Merging takes the changes from one branch (in the same repository or from a fork), and applies them into another. A merge can be done automatically via a Pull Request via the Github.com web interface if there are no conflicting changes, or can always be done via the command line.

The objectives for organising this hands-on training session are as follows:

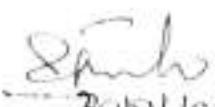

- To enable the students to share and manage their code on Github as they work in teams for their mini projects.
- To be competent enough to participate in Hackathons where individual contribution is evaluated along with team performance.
- To help the students in their placements with their presence in Github
- Encourage them to take up open source projects where they can utilise the code available from git repository and work on top of it.

Coders Hub - CHIT - Student Activities

*A Report on mentoring session organised by Dept. of IT  
for VI Semester IT students on Smart India Hackathon - 2020*

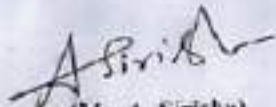

The Coders Hub - CHIT of department of IT organised an awareness session on Smart India Hackathon for VI Semester students on ~~01.02.2020~~ between 11.15 a.m. to 12.15 p.m. for H1 and 01.15 p.m. to 02.15 p.m. for H2 Students in their respective class rooms. The session is facilitated by ~~Ms. T. Prathima and Ms. A. Sirisha~~ faculty coordinators Coders Hub - CHIT and final year students: Ms V. Hyndavi (160116717066) Mr B Avinash (160116737036), Mr V Praneeth Prasad (160116737100), Mr VSVS Varma (160116737117) and Mr V Venkat Teja (160116737118). These final year students were participants and winners of SIH 2019. This program is a zero budget program.

The objectives for organising the awareness session are as follows:

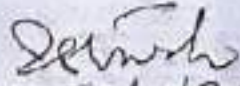

- i. To create awareness among the students about Smart India Hackathon and encourage them to participate in the SIH 2020.
- ii. The difference between SIH 2019 and SIH 2020.
- iii. To provide guidance on the process of idea submission.
- iv. To enlighten them about the deadlines for idea submission, selection process.
- v. To discuss about problem statements by various government and private organisations.
- vi. To help the aspirants to select problem statements.

**A report on talk by Department Alumna Ms Hari Priyanka on 17.01.2020  
between 10.10 to 11.10AM**

Ms Hari Priyanka Sunkari Anusuya graduated in May 2019 from the Department of IT. She is now working as Program Analyst Trainee at Cognizant. She addressed VI Semester students of B.E. IT on 17.01.2020 between 10.10 AM to 11.10 AM in L-305.

She spoke about the application domains of AI and ML, such as Recommendation Systems, Computer Vision, Classification, Clustering and Prediction, Natural language (NLP, NLG, NLU), etc. She also mentioned on how students can develop solutions to problems using AI and ML in their mini projects by using the open source libraries that are available in Python and R. She mentioned some of the libraries such as Tensorflow, Scikit-learn for machine learning, Numpy, Pandas for data representation and manipulation, Seaborn for Visualisation, etc.

She also explained about the project `dtgarage.ml` that she is working on in Cognizant. She mentioned about the chat bot creation and the role of AI in analysing the questions posed by customers, the dialog flow, creation of new chatbots, integrating the chatbots with facebook, or mobile app, etc.

End of the session students interacted with Ms Priyanka and got their doubts clarified. Along with the students the session was also attended by the following faculty Ms. T. Prathima, Mr V Santosh, Ms Kratika Sharma, Ms V Gayna Deepu.

The session ended with a vote of thanks by the faculty.

## NATIONAL WORKSHOP

ON

## Recent Advances in Chemical Process Simulation using Aspen plus

(26<sup>th</sup> & 27<sup>th</sup> September 2019)

## CBIT Hyderabad

CBIT is a college of repute in the state of Telangana and AP which ranks 1st in the state and 16th in the country in the category of the self-financed engineering colleges. It was started in the year 1979, by Chaitanya Bharathi Educational Society, with the motto of Swayam Tejaswin Bhava. It is accredited by NBA, AICTE and NAAC, New Delhi. It is the first ISO 9001:2008 certified technical institute. The college is an UGC autonomous institute. The college offers 9 UG and 7 PG courses.

In its Four Decades of existence, all the Stake Holders of the Institute, relentlessly endeavored to position CBIT as an Institution that is a Leader and an Innovator in the Ecosystem of Engineering Higher Education.

## Department of Chemical Engineering

Established in 1995, the department has gained reputation in the field of Chemical Engineering education in the state of Telangana and AP. The department is well equipped with undergraduate laboratories and infrastructure. The department conducts National level Conferences & Seminars and In-house workshops to cater to the overall personality, regularly. The department has also inked MOUs (with "Prathishta Biotech" & "Dr. Reddys labs") for training need of students with some of the leading industries. The faculty along with students are actively involved in numerous In-house projects in research areas such as Heat Transfer, Mass Transfer and Environmental Eng. (funding agency: TEQIP and CBIT Institute)

## Workshop Highlights

Aspen Plus is an advanced chemical optimization software used by the bulk, fine, specialty, and biochemical industries, as well as the polymer industry for the design, operation, and optimization of safe, profitable manufacturing facilities.

### Aspen Plus enables users to:

- Optimize processing capacity and operating conditions,
- Improve equipment design and performance,
- Reduce costs and improve product quality,
- Perform economic evaluation to realize savings in the process design.

### Approach

- Instructor-guided demonstrations of features.
- Hands-on sessions.

### Benefits

- Gain the skills and knowledge to design processes.
- Learn detailed design aspects of

distillation column and reactors.

## **NATIONAL WORKSHOP ORGANISED AT CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (A),**

**Chemical Engineering Department, 26-27<sup>th</sup> September 2019**

Two day National workshop on “Recent Advances in Chemical Process Simulation Using Aspen Plus” was organized by the Chemical Engineering Department during September 2019. Dr.V.Malakonda Reddy, President CBSE and Smt. D. Sandhya Shree, Chairperson, D&P, CBIT are Chief Patrons whereas Prof P Ravinder Reddy, Principal, CBIT is patrons of this event. Dr.SaratBabu Anne, Professor and Dr. V. Ramsagar, Assistant Professor from NIT-Warangal is Expert Resource person of this event. The total number of participants was around 60 during this workshop.

## PRACTICAL SESSION - 1 **Thermodynamic Properties**

- (a) Estimate all the physical properties of a component, for which no data is available in the data base of the simulators.  
Example: (i)  $\text{CH}_3\text{CH}(\text{CH}_3)\text{CH}_2\text{OH}$   
(ii) Glucose (Import the molecular structure from NIST Chemistry Web book)  
(iii) 2,2,4-Trimethylpentane (isooctane)
- (b) For the following binary systems generate the VLE data and plot T-x-y and P-x-y plots. Try to use different thermodynamic property methods and analyze the results.
- Methyl ethyl ketone (1) and toluene (2)
  - Chloroform (1) and 1,4-dioxane (2)
  - Chloroform (1) and Tetrahydrofuran (2)
  - Ethanol (1) and Toluene (2)
- (c) For any binary / multi-component system, plot the bubble point and dew point temperatures, as a function of pressure.
- (d) For any binary / multi-component system, calculate the bubble P, dew P, bubble T and dew T giving the respective inputs in each case.

### **Mixers & Splitters**

- Simulate **MIXER**, with input streams (two or more) and one output stream.
  - Simulate **FLOW SPLITTER**, with one input stream and (two or more) output streams.
  - Simulate the unit, **COMPONENT SEPARATOR**, with one input stream and two or more output streams.
  - For the following, calculate the flowrates of recycle and product streams.
- FEED, Pure Isobutane  
100 Kmol/hr

RECYCLE  
80% (mol) isobutane  
20% (mol) isobutene

**MIXER**

PRODUCT  
95% (mol) isobutane  
5% (mol) isobutene
- e) 1000 lb/hr of toluene stream (S1) at 100 °F is mixed with ethylene stream (S2). The flow rate of the ethylene stream which is at 50 °F is adjusted to achieve the desired temperature of 85 °F at the mixer effluent. Both the input streams may be assumed to be at a pressure of 1 atm. Simulate the unit and find the flow rate of the stream S2.

### **Pumps**

- Water at 60 °F is to be pumped from a reservoir to the top of a mountain through a 6-in steel (schedule 120) pipe at a rate of 200 gal/min. The pipe discharges into the atmosphere at a level of 3000 ft above the level in the reservoir. The pipe line is 4500 ft long and contains two gate valves, four standard tees and four elbows. Suggest the rating of the pump required to meet the above purpose.
- 5 ft<sup>3</sup>/s of water at 10 bar and 25 °C is to be routed through 2 different pipes (pipe-1: dia= 4 in; equivalent length = 20 ft and pipe -2: dia = 2 in; equivalent length = 22 ft). Simulate to find the optimum fraction of the total water flow that passes through pipe-2. Is the fraction a function of the inlet pressure? (Problem 5.6, Pg. No. 117, Unit Operations – McCabe).

## PRACTICAL SESSION - 2

### Heat Exchangers

- Select a heater/shell and tube heat exchanger model and perform rating/simulation calculations taking a suitable example.
- Process fluid consisting of Methanol 36.8% and Water 63.2 mole% has to be heated from 25 °C to 70°C at the rate of 1000 mol/hr. Design a shell and tube heat exchanger.
- Freon-12 (Dichlorodifluoromethane), at a flow rate of 10560 kg/hr, needs to be heated from 240 K to 300 K at a pressure of 7 atm. Ethylene glycol is available at 350 K and 2 atm. A typical shell and tube heat exchanger will be used. The plant manager recommends that the exit temperature of ethylene glycol can be at 320K. It is also recommended that the pressure drop shall not exceed 10 psig (0.07 atm) for either the shell or tube side. Perform a detailed design of a shell and tube heat exchanger.

### Reactors

- Calculate the standard heat of reaction for  $\text{CO} + 2\text{H}_2 \rightarrow \text{CH}_3\text{OH}$  and compare the result obtained from standard heats of formation.
- Calculate the adiabatic reaction temperature for the reaction  $\text{CO} + 2\text{H}_2 \rightarrow \text{CH}_3\text{OH}$  under the following conditions. The feed consisting of CO and H<sub>2</sub> in the stoichiometric ratio enters the reactor at 25 °C and 1 atm. A conversion of 80% with respect to CO may be assumed. Compare the result with conventional calculation. What will be this temperature if CO and H<sub>2</sub> in the mole ratio of 1:10 enter the reactor.
- The gas phase reversible reaction  $\text{C}_3\text{H}_8 \leftrightarrow \text{C}_2\text{H}_4 + \text{CH}_4$  is allowed to reach equilibrium starting with pure C<sub>3</sub>H<sub>8</sub> at a pressure of 1 atm. Simulate to find the temperature at which the reactor must operate in order to obtain a conversion of 80% at equilibrium. Use Equilibrium / Gibbs reactor models and compare the result.
- Perform Design calculations with any kinetic reactor (PFR / CSTR). Determine the volume necessary to produce 300 million pounds of ethylene a year from cracking a feed stream of pure ethane. The reaction is irreversible and elementary. It is required to obtain 60% conversion of ethane, operating the reactor isothermally at 1150K and a pressure of 5 atm.

**DATA:**  $k = 0.072\text{s}^{-1}$  at 1000K and Activation Energy,  $E = 82 \text{ kcal/gmol}$

### Flash Columns

- An equimolar binary mixture of toluene and benzene at 1 bar and 25°C is to be fed into a flash column. Examine the following flash conditions:
  - (P-V Flash):** At 1 bar and a vapor fraction of 0.5, find the temperature and the heat duty.
  - (T-P Flash):** At the temperature determined from (a) and a pressure of 1 bar, verify the flash model results in a vapor fraction of 0.5 at equilibrium.
  - (T-V Flash):** At the temperature of (a), and a vapor fraction of 0.5, verify that the flash model results in an equilibrium pressure of 1 bar.
  - (P-Q Flash):** At 1 bar and with the heat duty determined from (a), verify that the temperature and vapor fraction are consistent with previous conditions.
- A binary mixture consisting of 50 mol% N-Pentane and 50 mol% N-Hexane at 130 °F and 73.5 psi is fed into a flash column. The flash column operates at 120 °F and 13.23 psi pressure. Simulate the unit and report the fraction of vapor along with the compositions of the liquid and vapor streams. Observe the heat duty in the column. Try to connect a Heat stream to the column and observe its value.

## PRACTICAL SESSION - 3

### Material Balances

**HINT:** For solving these problems select RSTOIC model. Assume the same temperature and pressure for the feed at which the reactor is operating.

1. Feed gas consisting of 75.16 mol% H<sub>2</sub>, 24.57 % N<sub>2</sub> and 0.27% Ar is mixed with recycle gas and enters into a reactor where 10% of N<sub>2</sub> is converted to NH<sub>3</sub> as per the reaction:  
$$\text{N}_2 + 3\text{H}_2 \rightarrow 2\text{NH}_3$$
  
NH<sub>3</sub> from the exit of the reactor is completely separated from the un-converted gases. In order to avoid the built-up of inerts, a small fraction (5%) of the unreacted gases are purged and the balance recycled. Based on 100 mol/hr of fresh feed, calculate: (a) Recycle rate and composition (b) Product rate and (c) Purge rate.
2. In the feed preparation section of a plant ethyl benzene at 77 °F and 14.7 psi is to be heated to 752 °F and 73.48 psi. The following two options are available: (1) The liquid ethyl benzene is sent through a pump to increase the pressure to the desired value followed by heating it to the required temperature. (2) The liquid ethyl benzene is first vaporized at constant pressure to an intermediate temperature and then compressed to the required pressure. Which of these options do you recommend? Check your answer by simulating both the options using only one flow sheet. (Hint: (1) Use the model Dupl. (2) Use Design Specification to find the intermediate temperature that would give the required temperature of 752 °F at the exit of the compressor).
3. Air (15 °C, 1000 kPa) is mixed with 3000 kg/h of methane at 15 °C and 1000 kPa. The mixture is then compressed to 2900 kPa and fed to an adiabatic combustor. In the combustor 100% conversion of methane to CO<sub>2</sub> and H<sub>2</sub>O can be assumed. The air flow rate is designed to give a temperature of 1400 °C at the outlet of the combustor. The hot gas leaving the combustor is expanded in the turbine. Shaft work produced by the turbine is used to power the compressor. Estimate the net rate of power production.
4. A fuel composed of 50% methane and 50% ethane is burned with excess air. The analysis of the flue gas on a dry basis shows 9.00 % CO<sub>2</sub>. Simulate to calculate: (a) Percent excess air used (b) the complete Orsat analysis of the flue gases and (c) the moles of flue gas including water vapor / mole of fuel burned. How do you report these answers?

### Columns

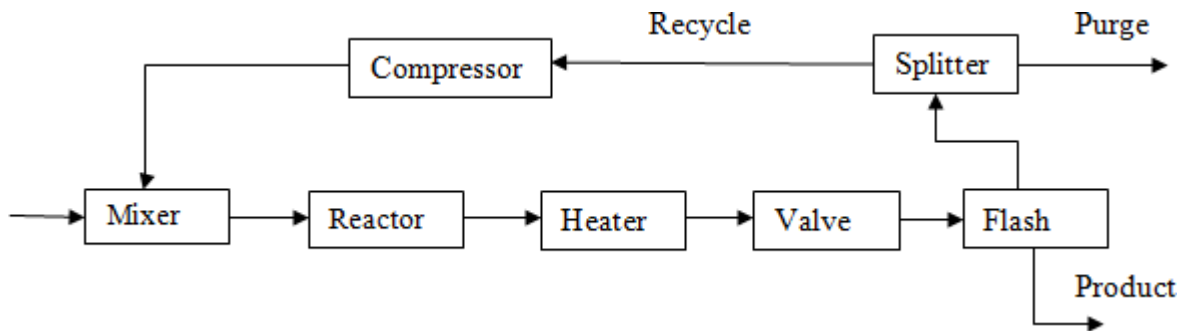

Design a distillation column for a multi-component mixture and use the data to do rating calculations (Shortcut column followed by Radfrac Column).

**Example:** The feed consisting of 100 lbmol/h propane, 300 lbmol/h i-butane, 500 lbmol/h n-butane, 400 lbmol/h i-pentane, and 500 lbmol/h n-pentane enters the column at 138 psia and 75°F. Choose the light and heavy keys as propane and i-butane, the splits desired (99 and 1 percent), the pressure of the column (138 psia), a total condenser. The column operates at 138 psia with a reflux ratio of 10. Simulate using RADFRAC Model and perform sensitivity analysis on the mole fraction of propane in the top product as a function of number of stages.

## Flow Sheet

Fresh feed consisting of Propane and propylene is mixed with the recycle stream and enters the reactor. Propylene is converted into 1 hexene in the reactor. The product is separated in the flash column. The unconverted gases are partially purged and the balance recycled. The process flow sheet is as shown below. Simulate the flowsheet using the process data given below:

Process Data:

**Feed:** 1000 kmol/hr; 150 °C, 20 bar, Propane: 2%, Propylene: 98%

**Reactor:** Isothermal at 200 °C,  
20 bar  
Reaction:  $2C_3H_6$   
→  $C_6H_{12}$  Fractional  
conversion = 0.8

**Heater:** Exit temperature:

120 °C

**Valve:** Exit pressure

= 12 bar

**Flash Column:**

120 °C, 12 bar

**Splitter:** Purge: 2%

**Compressor:** Outlet Pressure: 20 bar

- Keeping the pressure constant, change the temperature in the flash column and observe:
  - Purity of the product
  - Product flow rate
  - Recycle rate
  - fraction recovery of product
- Keeping the temperature constant, change the pressure in the flash column and observe:
  - Purity of the product
  - Product flow rate
  - Recycle rate
  - fraction recovery of product
- List out the product quality, fraction recovery of product and recycle flow rate, at the following conditions of Temperature and Pressure in the flash column: (105, 10); (105, 12); (120,12); (130,12); (140,12).

"RECENT TRENDS IN MATERIALS AND APPLICATIONS IN ENGINEERING"  
Held on  
20<sup>th</sup> November 2019**

The Department of Physics, Chaitanya Bharathi Institute of Technology has organized an one day workshop on "Recent Trends in Materials and Applications in Engineering" on 20<sup>th</sup> November 2019. Prof.P.Ravinder Reddy, Principal CBIT has inaugurated the workshop, while Prof.B.Linga Reddy Head, Department of Physics welcomed the guests. Dr.Neelima Agarwal, Co-Ordinator of the workshop, introduced the speakers to the participants. There were around 50 registrations for the programme.

Dr.Koushik Nayak from Department of Electrical Engineering, IIT Hyderabad discussed upon "Nano-meter Scale CMOS Logic Transistors". Detailed discussion was carried on "Nano-structures of Multifunctional Devices" by Prof.RanjithRamadurai, Head, Department of Engineering Science. Prof.V.Kanchana, Professor, Department of Physics, IIT Hyderabad explained about "Understanding Thermoelectric Materials from Density Functional Theory".

The workshop was concluded with Dr.M.Subhadra, Department of Physics, thanked the Guests and participants.

Sub: Approval to organise one day interdisciplinary seminar in Physics Department.

Dear sir ,

We propose to organise one day interdisciplinary seminar titled ' Recent trends in Materials and its applications ' in Physics Department on 20th Nov 2019.

We believe that this would provide a platform to the faculty to share their experiences and expertise with the researchers from renowned institute and would definitely open the window for future collaborations. This also gives an exposure to our students.

The Invited speakers of the Programme are :

1. Prof. R. Ranjith, Dept of Material and Metallurgical Engineering, IITH
2. Prof. Kaushik Nayak, Dept of Electrical Engineering, IITH
3. Prof V. Kanchana, Dept of Physics, IITH

We would be requiring budget of Rs15,000/- towards Honorarium/travel and memento/bouquet for the speakers. The lunch for the registered participants would be covered through the registration fee. kindly permit the budget for the same.

The brochure for the programme is attached with this application.

Yours Sincerely

## Brief on Guest lecture on Higgs Physics and its Prospects

Prof Eric Laenen addressed the first year students of BTech /BE to enrich their understanding towards the God particle called Higgs boson and it's an opportunity for us to invite such an expertise for the guest lecture on his visit to India. The summary of the content delivered is briefed as follows.

Each elementary particle acquires its unique set of attributes by interacting with invisible entities called fields. One such field is the electromagnetic field. Each particle interacts with the electromagnetic field in a way that depends on its electric charge. For example, electrons tend to move through the field toward the positive ends of bar magnets, and group together with positively charged protons. The electromagnetic field is associated with the photon, or particle of light. This correspondence can be seen in two ways: First, when the EM field is "excited," meaning its energy is flared up in a certain spot, that flare-up is, itself, a photon. Secondly, when particles interact with the EM field (for example, when they are drawn toward the oppositely charged end of a magnet), they experience the field by absorbing and emitting a constant stream of "virtual photons", photons that are momentarily created and then destroyed just for the purpose of mediating the particle-field interaction.

There exists a Higgs field. It gives particles mass. Except for massless photons and gluons, all elementary particles get their masses from their interactions with the Higgs field, similar to being 'slowed down' by passing through a viscous fluid. Some particles have a harder time moving through the viscous Higgs field than others and as a result, they are heavier. Just as the photon mediates interactions with the EM field and is itself an excitation of the EM field, the Higgs particle mediates interactions with the Higgs field, and is itself an excitation of the Higgs field. Particles move through the Higgs field by exchanging virtual Higgs particles with it. And a real Higgs particle surfaces when the field becomes excited.

Few of the prospects are

By increasing the effect of the Higgs field, the mass of the metal can be increased allowing for high mass compaction of materials. During the compaction process, the mass of the metal can be increased allowing the metal to be densely packed due to its weight, thus producing highly dense, stronger and more durable materials.

Damages caused due to work hardening would be reduced as operations performed on low mass work pieces would be analogous to hot working.

By reducing the effect of the Higgs field on a metal, its mass will reduce. Consequently the heat absorbed by the metal given by  $Q=m.Cp.dt$  will also reduce. Lesser heat required will allow for metal working at lower temperatures. As the metal will have low mass, metal working will be easier and the alloys formed can be more homogenous and of better quality. Oxidation and wastage caused due to high temperatures will also be reduced.

### Brief of the Guest Lecture on LED's and Solar cells

LED's and Solar cells play prominent role in our daily life. LED stands for light emitting diode which emits light when the diode is forward biased while the solar cell functions on the principle of photovoltaic effect converts light into electricity. In the present guest lecture Prof.A.S.Sai Prasad had enriched the students understanding about the functioning of both LED and Solar cell.

The wavelength of the light emitted, and therefore its color, depends on the band gap energy of the materials forming the p-n junction. In silicon or germanium diodes, the electrons and holes recombine by a non-radiative transition which produces no optical emission, because these are indirect band gap materials. The materials used for the LED have a direct band gap with energies corresponding to near-infrared, visible or near-ultravioletlight.

He also made the students understand about various available LED's and materials used for their fabrication for both solar cells and LED's which is useful for first year B.E/B.Tech students as a part of their curriculum.

Faculty Development Programme on

## UNIVERSAL HUMAN VALUES & ETHICS

15-19<sup>th</sup> July, 2019

### REPORT

A one-week faculty development program on "UNIVERSAL HUMAN VALUES & ETHICS" organized by the Department of Physics, Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad from July 15 – 19th, 2019, flagged off with a grand Inaugural session on 15<sup>th</sup> July, 2019. The Principal of the Institute Dr. P. Ravinder Reddy graced the occasion and followed by the traditional lighting of the lamp, delivered a motivating speech, highlighting the need & benefits of Faculty Development Programs for the faculty and recalled how the management and the various departments make efforts in motivating the faculty to enhance in their career with the skills attained while being trained in the FDPs. He articulated the importance of Universal Human values to be invoked in our daily and professional lives, and the need to train the students too. He appreciated and encouraged the Head of the Department and Faculty of Department of Physics, to conduct many more such sessions. After that convener outlined how the FDP is planned and efforts put into it. He also outlined the number and the different places from which the participants registered and participated. A Keynote Address was delivered by the Keynote Speaker, Prof. Sreenivas Sama, who elaborated on the importance of Universal Human Values in society and how teaching acts as a bridge. He stressed the role of faculty in building values and an ethics based society globally. Prof. K. Krishnavera delivered a session on "The role of UHV in technical education", where she gave the definition of value education and how it helps one to understand 'what is valuable' for human happiness. The participants were made to understand the gaps in the present educational system where the complete emphasis is on science or technology and how "Value education" when missed to be imparted will lead to counterproductive and serious crises at the individual, societal and environmental levels, in spite of faculty's tireless effort.

*Keynote Address: "Need for value education" by Prof. Sreenivas Sarma*

On 16<sup>th</sup> July, 2019, the resource person Prof. K. Krishnaveni, delivered a thought-provoking and interactive session on "Self-Exploration" and explicated how it enables one to look at the confusions and contradictions within self and resolve them by becoming aware of our natural acceptance. She also emphasized the content and process of self-exploration. She explained the way to bring out the goodness in everything naturally. She also reminded us that the process of Self-Exploration results in "Realization" and "Understanding" in us and that this realization and understanding leads to assuring, satisfying universal with respect to Time, Space and the individual. In the noon session, Dr. G. Suresh Babu spoke on "Right understanding" and elaborated on how it refers to higher-order human skills and insisted the need to learn and utilize our intelligence most effectively for the right understanding. He reminded that the need for right understanding and relationship is what distinguishes a human being from an animal and that the fulfillment of relationships based on right understanding leads to mutual happiness.

On the third day of the FDP, a session on "Happiness and Prosperity" was delivered by Prof. P. Sreenivas Sarma. He started off the session, by interacting with the faculty, the definition of "Happiness" collecting their opinions, and instructing how it's related to harmony and peace. He also insisted on the importance and lead of the role of one's healthy and peaceful relationship with others and society. He reminded us how humans are lacking happiness by wrongly connecting it to "prosperity". He aligned the participants to come up with their understanding and examples of "prosperity", and made them understand how happiness and prosperity are the bases of all our desires and efforts. He insisted on the need to assess our need

for physical facilities, or else how it leads to disharmony. He also reminded the need to learn and utilize our intelligence effectively to create a physical facility and lead a happy life. He trained the teachers on how to promote these in our classroom teaching and pedagogy practices. Dr. A.V.N. Rao in the noon session resourced the participants by providing his thought-provoking ideas and opinions on "Human Aspirations". He raised the importance for a student to understand values in human aspirations so that he can recognize the connectedness with every individual correctly and it becomes easy to live in harmony with every human being- thus laying the foundation for an undivided society- from family to world family. He reminded that available sources should be utilized properly and also highlighted the importance of being content with what we have, and respecting others and helping them.

*Lecture by Prof Suresh Babu on "Harmony in Society and Nature"*

The role of "Trust & Respect" in building a value-based society was discussed in a session delivered on the fourth day of FDP by Dr. A.V.N. Rao. He outlined how knowing and understanding one's self, and the importance of building sound relationships with people around him and society. And lead the discussion into the definition of Trust and Respect and their importance in peaceful relationships with society. He said that the student needs to be trained to desire to see others happy and earn their trust from them. To maintain integrity and consistency in relationships, he insisted on the self-examination of any lack of competence that leads others to hurt or loss and the need for the right understanding of the intention of all the

human beings around us. He gave hints and a strategic plan for teaching the students to make them understand how this would improve his competence in others and in himself. He also lead the group to define "respect" as 'individuality' by gathering their opinions towards its definition and to understand how the sense of individuality is the prime object of respect. "Society and Nature" and its relationship with Universal human values were discussed in the noon session by Dr. G. Suresh Babu, wherein he introduced different levels of society and how an individual should be mature enough to accept everyone to bring harmony and happiness for himself.

*Lecture by Prof Sreenivas Samra on Professional Ethics*

On the final day of the FDP, "Competence in Professional Ethics" was discussed by the Resource Person-Prof P. Sreenivas Samra, CBET, Hyderabad. He insisted that developing ethical competence in the individual (profession) is the only effective way to ensure professional ethics and said that value education acts as a resource to achieve it. He guided the participants to understand that competence in a profession will only be the manifestation of one's right understanding, with illustrations. The need for clarity about the comprehensive human goal, Confidence in oneself, Clarity and confidence in ethical human conduct, and its correlation with sustained personal as well as collective happiness and prosperity on professional grounds was highlighted. In light of these, he added that one's ability to identify and develop appropriate technologies, production systems etc adhering to people and eco-friendly principles.

# CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY

## DEPARTMENT OF PHYSICS Faculty Development Programme on UNIVERSAL HUMAN VALUES & ETHICS 15-19<sup>th</sup> July, 2019

About College: CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY established in the Year 1979, esteemed as the Premier Engineering Institute in the States of Telangana and Andhra Pradesh, has been promoted by a Group of Visionaries with an objective to facilitate the Engineering and Management Education and contribute towards meeting the needs of Skilled and Technically conversant Engineers and Management Professionals across Industries. The Institute, committed to Education and Innovation, about 40 Years, has emerged as a Dream Destination for: Students seeking to excel in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to source well-rounded Engineers. With the Students being the singular Objective, the Institute has established excellent Academic Infrastructure such as State of the Art Laboratories, Library, Sports, Hostel, and other Infrastructure for Extra and Co-Curricular Engagements, in the serene Ambience of 50 Acres to inspire, encourage and pursue Academics.

About FDP: As per the guidelines of AICTE, it is mandatory to complete Universal Human Values course by every undergraduate student of Engineering. It is also a component during the Student Induction Program for the newly joined students. Main Purpose behind this initiative is to set a healthy daily routine, create bonding in the batch as well as between faculty and students, family and in turn society. It is of utmost importance that the faculty members/teachers are well equipped and prepared to teach UHV and The FDPs like this will help in training the faculty members.

Registration: Teachers engaging or interested to engage UHV classes in AICTE approved institutions are eligible for participation. As the programme is of more interactive nature, number of participants is limited to 30. The participants are selected on first come first serve basis. The selected participants will be intimated by 10<sup>th</sup> July, 2019. There is no registration fee.

Guidelines for participation: The programme is scheduled daily from 10:00AM to 4:00PM. Attendance to all sessions is mandatory. Certificates will be awarded to all the participants who submit assignments/project report.

CIRCULAR

Institute Innovation Council of CBIT (IIC) is organizing a 'Talk on Water Conservation and Environmental Sustainability' by Dr. P. Ananda Raman, Director and Mentor, FITJEE, Hyderabad on 30<sup>th</sup> January, 2020 from 11:15 AM to 12:15 noon in the Assembly Hall (above canteen). All the students of Mechanical (¼), Civil (¼), Production (¼), Chemical (¼) & Biotechnology (¼) are advised to attend the Lecture. For any further queries in this regard, contact Shreeyesh Reddy Ph. No. 9000980804 - Member, IIC.

Attendance for these students will be taken by their own respective lecturers. Heads of the Mechanical, Civil, Production, Chemical and Biotechnology departments are advised to instruct the concerned faculty to monitor the student's attendance for that period and the concerned faculty are also instructed to attend the Lecture.

### Objectives of the Guest lecture:

The main objective of the guest lecture is to learn sustainable development and how to seek reconcile economic growth, environmental balance and social progress, ensuring that all people have the same opportunities and can lead a better life without compromising the planet. The goals of water conservation efforts include-ensuring availability of water, energy conservation, habitat conservation. Water conservation objectives protect natural water bodies and their aquatic environments. These objectives relate to the volume and quality of water to remain in rivers for the protection of a natural water body and its aquatic environment. The main Aim or Objectives of saving water is to deliver pure water to urban areas in an effective and efficient manner. To increase water supply services to all areas efficiently. Students should know the importance of water for living things so as to save water for future uses.

### Outcomes of guest Lecture:

Students learn how to conserve water by reducing wear and tear on major resources such as water and wastewater treatment plants and the distribution systems that deliver water to the public. They also learn that by using less water we can also enable more flexible during times when there is a water shortage. Conserving water resources, even in areas without shortages, reduces the need to build dams or extract water from rivers, decreases wastewater produced and treated at sewage plants, lowers energy requirements for treating and transporting water and wastewater, and reduces greenhouse gas emissions. Students also learn that conserving water resources, even in areas without shortages, reduces the need to build dams or extract water from rivers, decreases wastewater produced and treated at sewage plants, lowers energy requirements for treating and transporting water and wastewater, and reduces greenhouse gas emissions.

## ABOUT THE COLLEGE

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY, established in the Year 1979, esteemed as the Premier Engineering Institute in the States of Telangana and Andhra Pradesh, has been promoted by a Group of Visionaries with an objective to facilitate the Engineering and Management Education and contribute towards meeting the needs of Skilled and Technically conversant Engineers and Management Professionals across Industries.

The Institute, committed to Education and Innovation, over the 40 Years, has emerged as a Dream Destination for Students seeking to excel in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to source well-rounded Engineers.

The Stake Holders of the Institute have been relentlessly endeavouring to position CBIT as an Institution that is a Leader and an Innovator in the Ecosystem of Engineering and Management Higher Education.

With the Students being the singular Objective, the Institute has established excellent Academic Infrastructure such as State-of - the Art Laboratories, Library, Sports, Hostel, and other Infrastructure for Extra and Co-Curricular Engagements, in the serene ambience of 50 acres to inspire, encourage and pursue academics.

In its relentless strive for academic excellence, CBIT has scaled great heights both Nationally and Internationally in Industry and Global Universities.

## DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS (MCA)

Master of Computer Application Programme was started in the department of CSE in the year 1991 with an intake of 10 and subsequently increased to 60 in the year 2000. The MCA department was formed and began to function independently since 2008. The Department has well qualified and experienced faculty.

## ABOUT THE WORKSHOP

It's a power-packed training organized for young and dynamic minds on college campus. Topics in the workshop center upon strengthening fundamental concepts. Python is a general-purpose language, which is used to build and develop engineering applications which has tremendous requirement in software industry which is powered by tools/libraries. Professionally, Python is very good for backend web development, data analysis, artificial intelligence, machine learning and scientific computing. Many developers are using Python to build productivity tools, games, and desktop apps, hence there are plenty of resources to help the students to build very useful software products at par to meet the requirements in software industry.

The intended workshop will impart the python applications to students at group and individual exercises, case studies, quizzes, concept hand-outs etc.

### Benefits of the Workshop

- Hands-on expert guided training
- Access to Python power-points, research papers and other learning resources
- Opportunity to interact with industry experts for career guidance.

### Importance of Python programming skills

- To become a sought after professional.
- For aspiring Data Scientists, Python is probably the most important language to learn because of its rich ecosystem. Python's major advantage is its breadth. For example, R can run Machine Learning algorithms on a preprocessed dataset, but Python is much better at processing the data.

### TARGET AUDIENCE

The workshop is immensely useful for staff and students of all streams of B.E / B.Tech, M.E. / M.Tech, MBA & MCA.

**Note: Participants are suggested to bring their own laptops.**

### SESSION CONTENTS ON DAY 1

- Introduction to Python
- Why so much Buzz around Python?
- Environment Setup & Installation
- Basic Data types in Python
- Control Structures in Python
- List, Tuple & Dictionary in Python
- Functions in Python

### SESSION CONTENTS ON DAY 2

- Engineering Applications of Python
- What is Data Science & Machine Learning
- What is Raspberry-Pi chip? (Electronics)
- Use of Mechatry ( Mechanical Engg.)
- Electrical Python for calculation
- Use of BioPython
- API integration Case Study

### RESOURCE PERSON

**NAME: ANUP JAYANT KELKAR**

Founder & CEO of SPRINGBOARD  
Director , Python Academy , Nagpur  
Technical Advisor in TechQuadra.  
(www.techquadra.com)

Participants shall be provided with

- Workshop Kit
- Working Lunch
- Participation Certificate.

**A REPORT ON WORKSHOP TITLED "PYTHON PROGRAMMING FOR  
ENGINEERING APPLICATIONS" CONDUCTED BY DEPT. OF MCA**

**DATES OF WORKSHOP : 26<sup>th</sup> – 27<sup>th</sup> July 2019**

**PLACE: PLACEMENT CELL LABS, CBIT**

**About the Workshop:**

It's a power-packed training organized for young and dynamic minds on college campus. Topics in the workshop center upon strengthening fundamental concepts. Python is a general-purpose language, which is used to build and develop engineering applications which has tremendous requirement in software industry which is powered by tools/libraries. Professionally, Python is very good for backend web development, data analysis, artificial intelligence, machine learning and scientific computing. Many developers are using Python to build productivity tools, games, and desktop apps, hence there are plenty of resources to help the students to build very useful software products at par to meet the requirements in software industry.

The intended workshop will impart the python applications to students at group and individual exercises, case studies, quizzes, concept hand-outs etc.

**Benefits of the Workshop**

- Hands-on expert guided training
- Access to Python power-points, research papers and other learning resources.
- Opportunity to interact with industry experts for career guidance.

**Importance of Python programming skills**

- To become a sought after professional.
- For aspiring Data Scientists, Python is probably the most important language to learn because of its rich ecosystem. Python's major advantage is its breadth. For example, R can run Machine Learning algorithms on a preprocessed dataset, but Python is much better at processing the data.

## SESSION CONTENTS ON DAY 1 (26<sup>th</sup> July, 2019)

Day 1	Contents
	<b>Forenoon</b>
I Session	Introduction to Python Why so much Buzz around Python?
II Session	Environment Setup & Installation
	<b>Afternoon</b>
III Session	Basic Data types in Python Control Structures in Python
IV Session	List , Tuple & Dictionary in Python Functions in Python

## SESSION CONTENTS ON DAY 2 (27<sup>th</sup> July, 2019)

Day 1	Contents
	<b>Forenoon</b>
I Session	Engineering Applications of Python What is Data Science & Machine Learning
II Session	What is Raspberry-Pi chip? (Electronics)
	<b>Afternoon</b>
III Session	Use of Mechpy ( Mechanical Engg.) Electrical Python for calculation
IV Session	Uses of BioPython API integration Case Study Valedictory Ceremony

The Workshop was a grand success. The participants were very happy with the hands-on experience on Python. They also learnt various areas in which Python was used. The participants were from different streams of engineering consisting of students and staff from various colleges.

Constructive feedback was given by the participants with few suggestions and requested for a one week workshop on the same topic.

## About the Course

### Preamble

SCM centrally links the Production, Shipment and Distribution of the Products and thereby managing Supply Chain is the key to cut costs and ensure timely delivery to the Customer by having controls on Internal Inventory Management, Production, Distribution, Sales and Inventories of the Company Vendors.

With an objective to orient the Executives to efficiently manage SCM so that the Company stays ahead of the changing trends and continues to add value to its bottom line, CBIT School of Management Studies has planned Program covering the critical areas that contribute to the Value through efficiencies to have a real and lasting impact.

### Objectives

The Program provides a Hands-on Experience to the Participants to master the Skills of handling:

- Transportation issues
- In-Plant logistics
- Taxation (GST)
- Sales and Documentation
- Digital Marketing
- Supply Chain risk and resilience
- Challenges in Business Logistics and Supply Chain Management

### Target Audience

Executives who are currently Employed in SCM and also those who intend to make a Career will be benefited from this Program.

## DETAILS OF THE PRE-PROGRAM ACTIVITIES OF EDP

A total number of 500 EDP brochures were printed. Out of which, 450 were distributed in various logistics and transportation companies. Through, Hyderabad Goods Transport Association (HGTA), 300 EDP brochures were despatched to its members. In addition to this, 100 EDP brochures were also sent through electronic mail. Approximately, 40 companies accepted the EDP invitation and confirm their participation in person. Furthermore, 15 more companies responded to digital correspondence and accepted the invitation to attend the EDP. The queries of the participating companies were well addressed either through an e-mail or through a personal call. But we have decided to allow 23 participants only.

# India on Moon

**I**ndia has successfully launched the Chandrayaan-2 mission on July 22, 2019. The mission will send an orbiter, lander and rover to explore the moon's south pole. Chandrayaan-2's Vikram lander is expected to land around Sept. 8 2019.

ISRO said, "India's Geosynchronous Satellite Launch Vehicle (GSLV MkIII-M1), successfully launched the 3840 kg Chandrayaan-2 spacecraft into an earth orbit today (July 22, 2019). The spacecraft is now revolving round the earth with a perigee (nearest point to Earth) of 189.7 km and an apogee (farthest point to Earth) of 45,475 km. Today's flight marks the first operational flight of the GSLV Mk III. After a smooth countdown lasting 20 hours, GSLV MkIII-M1 vehicle majestically lifted off from the Second Launch Pad at the Satish Dhawan Space Centre, SHAR (ISRO SHAR), Sriharikota at the scheduled launch time of 14:53hrs (2:43 pm) Indian Standard Time (IST) with the ignition of its two B200 solid strap-on boosters. All the subsequent flight events occurred as scheduled."

In the similar days, a series of other milestones will be achieved as India's Chandrayaan-2 mission progresses. The mission will explore the moon's south pole and return samples to the Earth. The mission is expected to last for 1 year. The mission is being managed by the Indian Space Research Organisation (ISRO).

"Efforts to do Chandrayaan-2 will further encourage our bright youngsters towards science, top quality research and innovations. Thanks to Chandrayaan-2's Vikram Programme will give us a great boost. Our existing knowledge of the Moon will be significantly enhanced."

## Pedagogy workshop for undergraduate and post graduate science and mathematics teachers

A three day workshop was organized on "Pedagogy workshop for undergraduate and post graduate science and mathematics teachers" by oriental college of pharmacy and research, Oriental University, Indore from 28 June 2019, to 28 June 2019, which is sponsored by IISER Pune, Supported by Department of Biotechnology (DBT), Department of Science and Technology (DST), Govt. of India, Knowledge partner: Newton Bhawan Fund, British Council.

Training programmes were arranged for all the teachers representing different universities and colleges of various states like Rajasthan, Maharashtra, Uttar Pradesh and Madhya Pradesh. The work shop was attended by around 100 teachers.

Honorable chancellor Dr.K.L.Thakral and vice chancellor Dr.Dhruv (Gh) welcomed the resource persons, Convener Prof.(Dr.)M.K.Gupta (Dean pharmacy) conducted this event with an objective to upgrade the skills of teachers. These practices are meant to encourage lifelong acquisition and retention of knowledge as well as practical application in daily life.

The workshop was conducted by 8 experts of from the fields of Science, maths, physics and chemistry, these educators spoke on methods of teaching, pointing out the important areas and assessed each of them individually. It helps to discover inherent strengths and intrinsic skills of every individual.

MHRD-SPARC Project on Future of Earth Jamia Millia Islamia (JMI), Vice-Chancellor, Prof. Najam Akhtar today inaugurated the MHRD- SPARC (Scheme for Promotion of Academic and Research Collaboration) project sanctioned to Department of Electrical Engineering, JMI on Future of Earth: Green and Renewable Technologies.

Dr. Abteshauz Haque, Principal Investigator (PI) of MHRD -SPARC project briefed the audience about the project and other academic and research activities.

Dr. Haque introduced foreign PI Dr. Hui Wang from Aalborg University to the audience.

Prof. Z. A. Jeffery, Head of the Department, Electrical Engineering, JMI informed about the research activities going on in the department.

Prof. Bheem, Dean, Faculty of Engineering & Technology, JMI emphasized the importance of the research on renewable energy sector and challenges need to be addressed.

Prof. Hui Wang, in his address spoke about the reliability issue in research of power electronics used in renewable energy and congratulated Dr. Haque and Department of Electrical Engineering for developing state of the art lab.

in just 6 years.

VC, JMI Prof. Najam Akhtar congratulated Dr. Haque and his research team for getting this important project.

Prof. Akhtar specially talked about the efforts of the PhD students K VS Bharath and Muhammad Ali Khan working on the project. These students will be visiting Denmark for the research work related to the project.

The function was attended by Prof. Kafeel Ahmad-Director Research, Prof. Zahid Ahmad -Director Academics, Dr. A. A. A. Fair-Controller of Examinations, Prof. Syedur Mehal Khan-Director Games and Sports and Prof. Zahoorulhaq, HoD, Electrical Engineering Department, JMI and several students.

## Executive Development Program

CBIT School of Management Studies, CBIT organized a two day Executive Development Program (EDP) at its campus in which Junior and Senior level executives from different Logistics firms have participated. The Chief Guest of opening ceremony was Mr. G. Ramachandra Murthy, Director and Head Planning-India arker Supply Chain Management, Dr. Reddy's Laboratories. He delivered a very enlightening lecture that inspired students to reflect on SCM as prospective job line. Member, BOM Mr. Sabarsh Reddy, shared his expertise on Logistics/Supply Chain from around the globe. Other prominent resource persons were Mr. A.V. Rao, Vice President Operations - (Country Head), Associated Food Carriers Ltd, Mr.V.B.K.Rao, Assistant Professor, CBIT School of Management Studies and Mr. M N Rao, General Manager, Corporate Business Development, IBS Group of Companies. The hands on experience of over twenty five plus years of these industry stalwarts shed light on practical implications of GST and Marketing Dynamics in today's digital era. Valuechain session was presided over by Principal CBIT, Dr. P. Ramender Reddy. Judging on the basis of the enthusiasm of students by their participation, proposal was made to conduct more of such programs in other fields of study in fe-

## MBIT organized G.U.COST sponsored Workshop

MBIT, which is recently converted from only Girl's to Co-Education, has organized a two days workshop on "Applications of MATLAB Software in various engineering Disciplines" sponsored by GUCOST on 18th & 19th June, 2019. This workshop initiated with inaugural function on 18th June, 2019. In inaugural, Dr. S.G. Patel, Secretary, CVM presided over the function. Mr. Manishbhai Kothari was invited as chief guest, who is Managing Director of Rhizo Machines, Foundry Technology. Mr. Mehal Shah was invited as guest of honor, who is a CEO and director of Blaringerwates Company.

At the end of program, vote of thanks was presented by Workshop Coordinator Prof. Chirag Patel. Amongst the Speakers, We had Mr. Saraj Gewande from DesignTech, Pune. He gave an overview of new features and tools added in Matlab.

Dr. Anur Ganesha who is Professor and Head, Computer Engineering Department, Charusat University. He discussed Artificial Intelligence with participants. He gave insight of sub branches of Artificial Intelligence like Machine Learning and Deep Learning.

Dr. Saurabh Shah is presently working as Director (Research), Director (Academics & Skill Development), Dean (Technology) and Professor in Computer Engineering Department since February 2018 at C. U. Shah University. He shared with participants about many open source tools and how they can be used.

More than 75 participants participated across Gujarat from places like Ahmedabad, Vadodra, Surat and Navsari. The Success of this workshop was due to never ending support of Er. Bhikshubhai Patel;

## Question Practice for M.Tech and M.Sc. Students

IIT Bhubaneswar conducted registration for Ph.D. and PG students on 17th July, 2019 and 18th July, 2019, respectively. An Orientation programme for these students will be conducted on 20th July 2019 to welcome and orient them to the systems of the Institute. Director Prof. R.V. Raja Kumar will address the fresher batch on 20th July 2019 at 10 am followed by Prof. V.R. Peddreddi, Dean, Student Affairs and Dr. P.R. Sahu, Dean, Academic Affairs at the ground floor common hall of the new Bhubaneswar Hall of residence. Prof. Raja Kumar said that the M. Tech and Ph.D. students constitute an important class of students who have done well in their Bachelors, proved themselves typically in the university system and come to IIT for specializing in a narrow area of their domain. Prof. Kumar said that the institute also implemented EMS reservation for M.Tech and M.Sc. students.

## SUMMARY OF FEEDBACK ON EXECUTIVE DEVELOPMENT PROGRAM

(22<sup>nd</sup> and 23<sup>rd</sup> July, 2019)

Mostly all the participants stoutly agreed that communication from the organizer's side was disseminated properly and well in advance. All the partakers' consent that the content covered in various sessions of EDP was useful and fitted well to their area of expertise, rather 50% very strongly agreed on the same. All but one seemed to have gained practical insights from the program as reported in the feedback forms. Inculcation of workshops on documentation has been suggested by few participants. Also having both the parties i.e. service provider and receiver was suggested for real time experiences. Systematized and organized effort of the organizing committee has been well appreciated by 70% majority. The level of delivery and content of training program as established was at the appropriate level. The use of audio-visual aids during the sessions was much appreciated.

There was a unanimous agreement that the resource persons addressing various sessions were well-informed and practiced and their presentation skills were much appraised. Regarding the coverage of content by speakers, the concurrences did not come very strongly. However, the qualities of teaching at the appropriate pace and problem solving abilities were not only agreed upon but also cherished. When asked about the duration of the program, 80% opted to stick with a two day program only. The inclination was for conduct on weekends than working days. This duration choice can be interpreted in two different ways, one being that the demeanour was so suitably efficient that a comprehensive training was possible in these two days. The second could be that the commitment of indulgence is not possible beyond this time period. But, as 60% have evaluated the executive development program as excellent, the second interpretation becomes vague.

CIRCULAR

This is to inform that our department is organizing a TEQIP sponsored one day workshop on "Patent Searching Skills" on 20<sup>th</sup> July, 2019 from 9:30 AM to 4:15 PM. In the morning session the expert will be delivering seminar related to Patent Searching and clinical trials. In the afternoon session all participants will be having hands on training session. Fourth year students also will be attending this workshop as part of core training for their placements. A certificate of participation will be given to all participants who attend the workshop. I request all faculty to utilize this opportunity to learn about Patent Searching Skills.

## Report -One day workshop on Patent Searching

The 20th of July saw scores of biotechnology students come out and attend the seminar of Patent Searching - Search strategies and Techniques by Mr. Penden Purushotham Rao, manager - life sciences division, Dolcera ltes pvt ltd. This seminar was unlike many others due to its interactive and cogent nature. It started with the speaker giving a brief introduction on what a patent was, how it looked, how it is useful and a detailed explanation about the application number, patent number, filing date, how to write the abstract and where to file the patent. Participants were explained that for something to be valid to patent, it must be innovative, have an industrial application, must be non obvious etc. and also about when an invention is non-patentable. Then he explained about all the requirements to be fulfilled for a patent to be successfully acquired and especially the importance of filing date or priority date.

Participants were then introduced to patent search and different reasons to conduct a patent search like to gather information about the market, to avoid infringing someone's patent, for patent valuation etc. Participants were explained different criteria to search for patents like using keywords, patent classification, reference numbers, names of inventors etc. Different types of Patent searches used such as patentability search using prior art, freedom to operate search, landscape search and infringement search were also introduced. Advanced search methods such as using boolean operators like OR, AND, NEAR, NOT & XOR etc. for keywords searching, classification based searches, using patent databases like wipo patentscope, espacenet etc were also explained. Then he went on to explain the various nuances related to patents like the fact that there needs to be secrecy while you file patent and the fact that you can not publish a paper if you want to patent it.

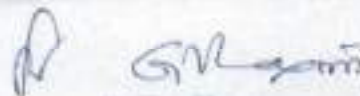

Participants were also introduced to various databases for searching scientific articles, clinical trials, product related information etc. Participants also got to know about the various career opportunities in intellectual property rights both in india and

abroad. Finally the session ended with a hands on session which helped us to wrap our heads around all that was explained and properly understand patent searching strategies. the students were divided into seven teams and each team was given a task to complete which included searching for patents and products. Each group was able to complete the task with the help of sri Purushotham.

The usefulness of this seminar can't be understated. Participants got to know about how important intellectual property rights are and how useful they are in both industry and research so as to protect our invention. Participants also got to know about various job opportunities in intellectual property rights like patent attorney. To conclude all of us had something to gain from this seminar which was a resounding success.

Event Name: One-day workshop on "Patent searching Skills"

Venue and Date: Department of Biotechnology, CBIT, on 20-07-2019.

Description: Dr. P. Purushotham Rao manager of the life sciences division from DOLCERA information technology services Pvt. Ltd, Hyderabad gave lectures and hands-on experience related to patent searching skills.

#### **Expected outcomes of the Patent searching skills workshop**

A patent search deals with search/ research/ data mining which involves patents in one way or the other, either directly or indirectly. Patent searchers don't just involve searching patents, but also comprise scouting non-patent and legal literature searches which are linked to certain patent-oriented projects.

Patent searching is a key tool for organizations across the globe, which is now increasingly sensitive to innovation as a parameter to success and growth. To keep an upper edge, an organization evolves its road map on multiple factors where patent searching is used as a strategic tool to provide strategic inputs, thereby making patent searching itself as one end of the strategy.

1. Increase awareness about this less explored job perspective for Biotechnology students and Enhances students' employability in this area
2. Participants will have an understanding of patents and their Importance in increasing the scientific value of a company
3. Students will have hands on experience in searching different patent databases

#### **Details of the Expert**

Mr. P. Purushotham Rao,  
Manager with 10 years of experience in patent searching and analysis  
Life sciences division,  
Dolcera Information Technology Services Pvt Ltd. - A patent analysis and market research company

#### **Proposed Expenditure: Rs 14000/-**

- **Honorarium for speaker/Expert:** He will be engaging the participants for full day (Morning and Evening sessions). He might be paid according to college norms
- **Transport Charges for Expert:** As he will be coming on his own from Uppal, To & Fro transport charges might be paid as per college norms

Circular

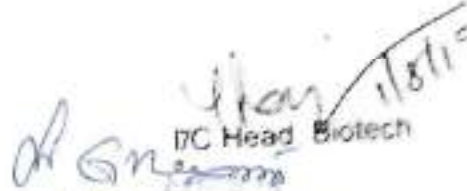

Please make a note of the following points regarding research day

1. As per college instructions, all students who are doing projects/posters under your guidance have to submit their abstracts in the attached template by Aug 10th, 2019.
2. The list of students under your guidance will be circulated to you by tomorrow. Please ensure that all students under your guidance adhere to the deadlines as mentioned in the brochure.
3. Any expenditure incurred towards the projects will be reimbursed by the college. However, you can advise your students to give a letter mentioning the approximate amount (budget) for the project. Students have to initially spend the amount on their own and upon producing the bills accurately the amount will be reimbursed. (Bills are compulsory advice the students regarding this)  
**Note: I need the approximation of budgets from you wrt student projects by Aug 6th, 2019.**
4. Faculty are also requested to present their areas of interest /research as posters as advised by Principal sir (Deadline: Aug 10th, 2019 and Yesterday I have sent whatsapp msg regarding this). The below-attached poster template can be followed for the same.
5. All faculty are advised to give wide publicity (to your peers working in other organizations viz. degree colleges, snist) for our research day celebrations by forwarding the Brochure, poster template and abstract template attached in this mail.

I request all of you to take up this activity very sincerely and seriously to make this event a grand success. Our Biotechnology department must be outstanding in the display of posters and projects, as management is very kind enough to do whatever we are asking for our department and we must keep up this trust.

3/9/19

Dr. S. Venkata Mohan  
Principal Scientist  
BEES  
CSIR-Indian Institute of Chemical Technology  
Warm greetings,

The Department of Biotechnology, Chaitanya Bharathi Institute of Technology will be organising Neozion-2019, a national level technical symposium as a part of Sudhee-2k19. The conference will gather students and researchers from various institutions who will be presenting their work in the field of Biotechnology. As one of the leading figures at the junction of environmental science and Bioengineering, we hope to invite you to be our guest speaker during the opening ceremonies on September 13th, 10:00 AM to 11:00 AM. We appreciate it if you could discuss your works on treating negatively valued waste to produce value added products and harness sustainable bio-energy and inspire the attendees to research in such areas and move towards a sustainable future.

13/9/19

We hope you will be able to fit this event in your busy schedule. The participants and organizers will benefit a lot from your expertise on the topic.

Thank you.

CIRCULAR

It is proposed to organize an Alumni Talk No. 05/2020 on "**Genome Editing: Hacking the Code of Life**" to the IV, VI and VIII Semester Students of B.Tech. (Biotechnology) on 24.06.2020 from 10:00 AM to 11:00 AM through online mode as part of the CBIT Alumni Theme for 2020, **The Knowledge Partners**. **Ms. Mani Deepika Mallavarapu, working for CCMB, Habsiguda, Hyderabad, an Alumna of CBIT, 2019 Batch of Biotechnology, will deliver the talk.** All the above said Students are directed to attend the same. Other interested Students and Faculty may also attend.

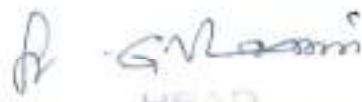

PRINCIPAL

To  
The Head of the Department of Biotechnology, for information and with a request to arrange for circulation among all the concerned Faculty and Students under your control.

C.C. to All Directors, Joint Directors, COE, Head-HR, for information.

C.C. to the Advisor-RCG, CBIT, for kind information.

**A BRIEF REPORT**

On

Biotechnology-Alumni Talk conducted on **24<sup>th</sup> June, 2020; 10.00 - 11.00 AM**  
CISCO WEBEX Meeting : <https://meetingsapac24.webex.com/meet/pr912492202>

Name of the Knowledge Partners	Ms. Mani Deepika Mallavarapu (2019 batch of Bio-Technology)
Designation	Project Research Fellow, CSIR-CCMB, Hyderabad, India
Topic of presentation	<b>Genome Editing: Hacking the Code of Life</b>
<b>Overview of Session</b> Dr. V. Aruna, Asst. professor, Biotechnology gave a brief introduction about Ms. Mani Deepika Mallavarapu, Project Research Fellow, CSIR-CCMB, Hyderabad. The lecture session was started with introduction to "Central Dogma" which is the main theme of the protein synthesis pathway in the cell and how to focus on changes happening in DNA level. Then, a thorough discussion about genome editing was presented. Finally, CRISPR (Clustered Regularly Interspaced Short Palindromic Repeats) mechanism was narrated in details with respect to genome editing. This editing process has a wide variety of applications including basic biological research, development of biotechnology products, and treatment of diseases. The CRISPR-Cas9 system is a prokaryotic immune system that confers resistance to foreign genetic elements such as those present within plasmids and phages. There was Q/A session for both students and faculties after the talk.	
Target Participants: All the students of B. Tech Biotechnology (II-Semester: Total 36 Students; IV-Semester: Total 42 Students; VI-Semester: Total 26 Students; VIII-Semester: Total 20 Students) and Faculties of Biotechnology department were attended the session.	
<b>Outcome of the Session</b> <ul style="list-style-type: none"><li>• A thorough knowledge about the genome editing was learned</li><li>• How CRISPR-CAS mechanism is helpful to edit the DNA sequence was also understood</li></ul>
