3.2.1.1: Total Grants from Government and non-governmental agencies for research projects , endowments, Chairs in the institution during the last five years (INR in Lakhs)

ADDITIONAL INFORMATION

S.no.	Item description	Page.no
1	Scheme for mobilization research	2-3
2	Orders for additional coordinators for research projects	4-112

Additional Information

3.2.1 Grants received from Government and non-governmental agencies for research projects, endowments, Chairs in the institution during the last five years (INR in Lakhs) (2) & 3.2.2 Percentage of teachers having research projects during the last five years (2) 3.2.4 Average Percentage of departments having Research projects funded by government and non-government agencies during the last five years

Scheme for Mobilizing Resources

As an established academic institution, CBIT maintains excellent rapport with several reputed both academic, R&D institutions and Industry and executed a good number of sponsored and consultancy projects on its own and also with collaboration. Resource mobilization is one of the key elements in our academic institute as it directly affects the ambitious Vision and Mission of the institute. Meticulous planning is made to generate the necessary funds in a timely cost-effective manner. Once the sufficient resources are made available, the institute is bound to grow and make a mark not only at national level but also at international level also.

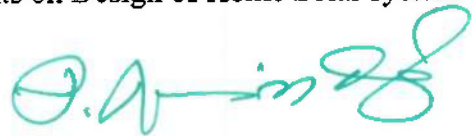

The main sources of funds are student fees. However, for meeting the upcoming requirements for research and teaching learning resources, maintaining the infrastructure the Institution intends to mobilizes its resources through:

- Funded projects from AICTE,
- Funded projects from DST Government of India and DST Telangana.
- Funds generated through consultancy offered,
- Industry linked laboratories,
- The Alumni, who also provide financial and non-financial support for various activities in the institute.
- Fee collected by conduct of FDP, conferences, workshops etc.

Some of the important achievements of CBIT in the area of Research, Innovation, Incubation, Academia and Industry Interaction and MoUs are as follows.

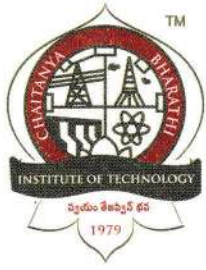

- Established Research and Entrepreneurship HUB with the State-of - the- Art facility with a built-up area of 35000 Sq. Ft.

- ii. MSME Incubation Centre has been established
- iii. NITI Aayog has sanctioned funding for the establishment of ATAL Community Innovation Centre (ACIC), a new initiative under Atal Innovation Mission (AIM). The Building with necessary infrastructure is established, the SPV, ACIC-CBIT Research and Entrepreneurship Foundation (Section 8 Company) has been Registered.
- iv. CBIT allocated 3% of Annual Financial budget for the Innovation, Research and Incubation activities.
- v. The Innovation and Incubation Policy of CBIT encourages the Students, Faculty, Start-up and MSME companies for Incubating their Ideas with ACIC or MSME Incubation centre.
- vi. Collaboration with Cornell University and University of Pittsburgh for Artificial Heart Development (CBIT has allocated a budget of Rs. 50 Lakhs and completed successfully).
- vii. MoU with Curtin University, Australia for establishing a Centre of Excellence for future Learning has been signed.
- viii. MoU with Research and Innovation Circle of Hyderabad (RICH) for strengthening Innovation and Incubation activities.
- ix. MoU with NHAI to facilitate research projects in the latest trend in highway, transportation sector and use of alternative resource material.
- x. CBIT is introducing AICTE approved academic programs in emerging areas like Artificial Intelligence, Machine Learning, Data Science, IoT and Cyber Security from the current academic year.
- xi. CBIT has Faculties with wide Industrial and Research Experience.
- xii. CBIT's graduates have become successful Entrepreneurs in diversified Industrial Sectors.
- xiii. Close liaison with Industry and Research Institutes with a number of MoUs is progressing with reputed Industries, Institutions and Organizations.
- xiv. CBIT has partnered with Energy Swaraj Foundation (ESF) under the aegis of AICTE and has been awarded an Appreciation Letter and a Certificate from ESF for Energy Literacy Drive by certification of 745 Students on Design of Home Solar system.

Sir

Sub: Submission of Project Proposal – “Development of Software Modules for Spoofing IRNSS and Beidou Signals” – reg.
Ref: Telephonic Conversations and discussions

Greetings from Chaitanya Bharathi Institute of Technology (CBIT) !!!

With reference to the technical discussions held, we hereby submit the Project Proposal on “Development of Software Modules for Spoofing IRNSS and Beidou Signals”. Dr.A.D.Sarma, Professor, ECE Dept. and Director, R&D, CBIT is the Principal Investigator of the project. The main objective of the project is to develop software modules for spoofing IRNSS and Beidou signals. To fulfill the aim of the project, it is proposed to generate spoofing signals for Beidou and transmit both Beidou and IRNSS spoofed signals. Later, the performance of the developed spoofer application will be evaluated for its efficacy. Also, advanced spoofing detection algorithms for detecting IRNSS and Beidou spoofed signals will be developed. The project is proposed for a period of 30 months with a budget of 49.55 lakhs and four deliverables. The institute shall provide the necessary facilities for carrying out the project and ensure the deliverables as per schedule. Kindly do the needful to provide an opportunity to work on the proposed project.

Yours Sincerely

Dr.P.Ravinder Reddy

Sub: Submission of Project Proposal – “Design of Compact Low Loss Rectangular to Cylindrical Iris Power Coupler for W-band Applications” – reg.
Ref: Telephonic Conversations and discussions

Greetings from Chaitanya Bharathi Institute of Technology (CBIT) !!!

With reference to the technical discussions held, we hereby submit the Project Proposal on “Design of Compact Low Loss Rectangular to Cylindrical Iris Power Coupler for W-band Applications”. Dr.Vinodh Kumar Minchula, Associate Professor, ECE Dept. and Research Coordinator is the Principal Investigator of the project. The main objective of the project is to design an iris power coupler between rectangular waveguide and cylindrical cavity to transfer the maximum power from the signal generator source to the load by minimizing the reflections. The project is proposed for a period of 18 months with a budget of 23.88 lakhs and four deliverables. The institute shall provide the necessary facilities for carrying out the project and ensure the deliverables as per schedule. Kindly do the needful to provide an opportunity to work on the proposed project.
