#### TiE Hyderabd Inspirational and Motivational talk for the students of CBIT

#### Report on TiE Hyderabad for Entrepreneurship related activities

CBIT has taken membership with TiE Hyderabad for Entrepreneurship related activities under IIC for it's students. TiE Hyderabad has announced Education to Entrepreneurship Program of TiE Grad Plus 2022 on **9th May, 2022**. The Inauguration along with Signing of MoU was carried out at CBIT Hyderabad. There aws a day-long event with following major activities.

#### Following Guests from TiE Hyderabad addressed the students and faculties.

- Mr Bhanu Prakash Varla, Chair TIE Grad Plus (<a href="https://hyderabad.tie.org/BhanuPrakashVarla">https://hyderabad.tie.org/BhanuPrakashVarla</a>)
- Dr Balaji Bhyravbhatla, Board Director TiE Hyderabad (<a href="https://hyderabad.tie.org/DrBalajiBhyravbhatla">https://hyderabad.tie.org/DrBalajiBhyravbhatla</a>)
- Mr Satish Madiraju, Resident Mentor CBIT (<a href="https://hyderabad.tie.org/satish-madiraju">https://hyderabad.tie.org/satish-madiraju</a>)
- Vamsi Krishna J, Assistant Director & Bhanu Prakash, Program Associate from TIE Hyderabad.

#### **Activities:**

First half of the Morning session was TiE Grad Kick-off Session with Address by Principal, CBIT, Address and Program Details by TiE Hyderabad along with exchange of MoU (Venue: Main Conference hall near office of the Principal, Time: 10:00am to 11:30 am). All HoDs, Directors, Joint Directors, IIC and EDC members attended.

During the second part of the morning session and rest of the day, TiE Hyderabad addressed the students on Entrepreneurship related Topic. **Inspirational and Awareness talk on Why Entrepreneurship and Education to Entrepreneurship**. This was followed by Idea Bootcamp where the students clarified their doubts and discussed how to go ahead with start-ups. Smart India Hackathon teams were also called for interaction.

The Following points were covered by the TiE Team

- Idea Generation and concept building.
- collaborative development as Team
- communication and effective presentation
- How to solve real, complex problems and creativity
- Venture capital funding and scaling up and Business model and how to pitch.
- Idea/Protype evaluation and advise to students.
- Support from TiE Hyderabad and Ideathons.
- Direct Interaction with the students and doubt clearing.

Students learnt the idea development and product development cycle. Students learnt how to come up with their own unique business proposals, and deliver multiple pitch presentations. The proposed Entrepreneurship education will benefit those entering the fields of science, technology, and business. Tie Hyderabad will also be arranging many such programs for the benefit of our students under the scope of the MoU in future.

Inspirational and Awareness talk on Entrepreneurship and Education to Entrepreneurship

# IPR Work shop Discussion Session with Start ups and Innovators, Incubatees, students to finalise the Patent Drafts and session on the Art of Drafting IPRs

Dates: 29th May and 8th June 22

#### B1. TITLE (If you have it ready, else leave it.)

appeAR - Introduction of AR,Holographic Displays in Education to increase comprehension and knowledge transfer between students and teachers.

#### B2. ABSTRACT (If you have it ready, else leave it.)

Education is the primary foundation block for empowerment among children. In the last decade, education standards have evolved rapidly in urban areas compared to rural areas. Urban always had an upper edge through ease of access to technology. Students often pick various learning strategies to understand the concept better.

#### B1. TITLE (If you have it ready, else leave it.)

Design of Al-Driven Smart Garment for Early Detection of Breast Cancer

#### B2. ABSTRACT (If you have it ready, else leave it.)

Breast cancer is the fastest growing cancer type in the world. The World Health Organization claims it's the most common type of cancer in women and is, more so, on the rise in developing countries. Healthcare is given less precedence among women in third world countries and this reality is established by many researches and reports. The major threat millions of women are facing all across the globe id breast cancer. This has become the fastest growing and most common type of cancer among females. The following statistics mentioned in the Fig. 1 and Fig. 2 give a shocking proof which alarms the priority and importance of the dangerous problem to deal with. Even more, so developing countries like India, many are suffering this greater problem as mentioned in Fig.3 due to poorly developed health care facilities.

#### B1. TITLE (If you have it ready, else leave it.)

Orange Squadron - Women Safety Device and Cloud based Crime Mapping Tool

#### B2. ABSTRACT (If you have it ready, else leave it.)

Orange Squadron is a cost effective IoT based digital assistant device integrated with a smartphone through an app for women safety and the data collected from the app acts as a crime mapping tool for the Law Enforcement Agencies.

When the victim is in danger she can trigger the IoT tactical push button for 3 seconds, it will send SMS mobile alert to Family/Friends/Emergency Rescue Team with her live location and key medical details like blood group, diabetic condition, blood pressure, medical allergies, and medical insurance policy #.

The data from the smartphone app is integrated securely into Cloud for real time crime mapping data tool to help the Law Enforcement Agencies to scrutinize the SOS alert messages to know the crime

occurring locations/time of SOS trigger for taking preventive and corrective measures to make cities/rural areas smart, safe and sustainable.

Prior Existing knowledge/technology/product/process.

The startups were guided how to p[prepare the PIRs and these IPRs are being processed for filing.

### A Report on the Self-Driven IIC Activity on "EMPOWERMENT OF WOMEN THROUGH INNOVATION AND ENTREPRENEURSHIP"

Speaker: Prof. G. Surender Reddy,

Chief Mentor, Laghu Udyog Bharati, Telangana State, Chief, Strategy & Business Development & Corporate Advisor, Butterfly Fields Pvt. Ltd., Chief Advisor, Sagar Asia Group of Companies, National Convener, 31 STEM Forum, Hyderabad, Advisor & Mentor, BYST (CII), Director, SIMANOR LLC (USA)

**Date:** 24.04.2021

Time: 11:00AM - 12:30 PM

Mode: Online through Microsoft Teams

No. of participants: 135

Hosted by: Dr. E. Jalaja, Associate Professor, SMS-CBIT.

Video Link:

https://drive.google.com/file/d/17GwylNVM0VPDc\_Pp1vvuQN12w34JYmyz/view?usp=sharing

Report by: Dr. E. Jalaja, Associate Professor, SMS-CBIT.

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized an IIC Self – Driven Activity on the topic "Empowerment of Women through Innovation & Entrepreneurship". This Session has started with the welcome speech by of Dr. U. K. Chowdhury, Director Innovation & Incubation cell, CBIT. He has highlighted the importance of innovations in the current situations. Later Prof. G. Surender Reddy, Chief Mentor Laghu Udyog Bharathi, has stressed on the following points

- Importance of Entrepreneurship
- Challenges faced by entrepreneurs
- Entrepreneurship among men and women
- How women entrepreneurs are better
- Necessity for women entrepreneurship

More than 135 participants have attended this session. Among them nearly 20 are faculty members of different departments and remaining are students from both MBA and Engineering. Prof. G. Surender has announced extending the support to CBIT, in financial assistance and in other aspects.

# ACIC CBIT Research & Entrepreneurship Foundation Bio-Ideathon

#### **Date & Details:**

- 11<sup>th</sup> October 2021
- Total participants: 14 Teams
- Mode of Conducting the event : Online through Cisco Webex
- Out of the 14 teams 6 teams were shortlisted for second round conducted on 12<sup>th</sup> November 2021.
- After evaluation by experts Top 3 Innovations/Finalists were selected and offered for Incubation facility in ACIC CBIT

#### **Purpose:**

• To encourage students of Bio Technology towards Innovation and Entrepreneurship and solve the problems

#### **Themes of the Bio-Ideathon**

- Food Processing
- Environmental Biotechnology
- Agriculture
- Nano biotechnology
- Biochemical engineering
- Healthcare and biomedical devices
- Biosensors
- Biofuels
- Pharmaceutical Biotechnology

#### **Judges Panel**

- 1) Sri R. Bhubesh Kumar, Director Food & Agriculture, RICH, Govt. of Telangana
- 2) Dr Ramjee Pallela, COO, AIC-CCMB

#### **Photographs of the event**

### EVENTS ORGANIZED BY COMPUTER SCIENCE ENGINEERING ALONG WITH IIC

#### **EVENT:** Innovative programming and problem solving skills

#### **Topics Covered:**

- 1. Innovative Solutions for real world problems using problem solving
- 2. Thinking and designing solutions using programming
- 3. Problem solving methodology
- 4. Process of starting up in the field of programming skills
- 5. Business incubation Program and Startup challenges using skills of programming

#### **Summary:**

- Innovative programming and problem solving skills is the event named as-Kodecrypt, it is one of the flagship event under Headstart, which tests the programming skills and innovative ways to solve a problem in real world using programming skills. The event conducted in 3 rounds.
- Round 1 Basic programming MCQ questions to test the problem solving skills of a student, Round 2 & 3 are online coding rounds to test the thinking and designing skills of a student. Kodecrypt Wild card Questions is an extra layer where in people who solve at the earliest qualify. Total 190 students Participated in this Event.
- Event improves the students to think for innovative solutions to problems to start their own startups and other business in their carrier.

#### **Student Coordinators:**

# Mirza Akber Namazi CSE1 ¾ Mohammed Zubair CSE2 ¾ Ahmed Vineeth Sharma-CSE1 3/4

**Event:** Innovative design eye catching User Interfaces (UI) for web applications

#### **Topics Covered:**

- 1. New Innovative design Solutions for real world problems
- 2. Thinking and designing solutions for real problems
- 3. Design methodology for various problems using web designing issues
- 4. Process of starting up in the field to solve various problems
- 5. Business incubation Program and Startup challenges using skills for web applications

#### **Summary:**

- Innovative design eye catching User Interfaces (UI) for web applications Design freaks is an event for establishing various design and popular event of Headstart which focuses on how well a person can design solutions for various problems. Total of 113 students participated in this evnet.
- Round 1: MCQ's related to basic design concepts of Web design solutions
- Round 2: constitutes of some practical stuff like creating some components of a web page
- Round 3: The participants need to develop a static website which would be evaluated and winner will be decided.
- Event helps the students to think for innovative design solutions to problems to start their own businesses to begin their carrier.

<a href="mailto:sp=sharing">sp=sharing</a>

**Event: Technical Project or Prototype Presentation and Competition.** 

#### **Topics Covered:**

- 1. New Innovative design Solutions for real world problems by building proto types
- 2. Providing design solutions for real problems by implementing case studies
- 3. Innovative new design methodology for various problems using prototypes
- 4. Process of starting up in the field to solve various problems
- 5. Business incubation Program and Startup challenges using skills with the help of proto types.

#### **Summary:**

• Technical project presentation event is a platform which provides awestruck opportunity to showcase best of the projects you worked on!! 17teaas of 40 students participated in this event.

- Projects make 60% of entire resume which is a summary of the student's entire career! This event will be guided by the judges who have been a great backbone and made CBIT College in the entire nation which alone had 5 winning teams in Smart India Hackthon conducted by the central government! Grab this platform to clear all your confusions and get a boost!
- This Event will provide a platform to come and see different projects in different domains and gain knowledge and take guidance to solve many real world problems.

**Event: Ideathon Presentation** 

**Topics Covered:** 

1. New Innovative Ideas which provide Solutions for real world problems

2. Presenting new ideas and design solutions for various problems with help of some

case study ideas

3. New design methodology ideas for various problems with example prototypes ideas.

4. Process of starting up in the field to solve various problems

5. Ideas to implement Business incubation Program and Startup challenges for their

carrier building process

**Summary:** 

• Idea Presentation is named as Poster presentation under headstart conducted by CSE

Department along wit IIC, Total of 09 students presented their ideas.

• Ideathon is a platform which provides you with an amazing opportunity to showcase

students ideas on a unique platform in the form of a poster presentation.

• Posters are legitimate and popular presentation format for research and clinical vignettes.

They efficiently communicate concepts and data to an audience using a combination of

visuals and text.

• This event helps to student to think in all aspects for a problem to find an innovative

solution to the problem and also to improve the skills to present their ideas for startups

and business

# Faculty Development Programme on Establishment & Management of Business Incubators (10-12 March 2022)

Venue: Chaitanya Bharati Institute of Technology, Hyderabad

#### **Objectives:**

- Appreciate significance of Incubators in promotion of innovation & entrepreneurship
- Policies & Programmes for promotion of Business Incubators
- Grass root innovations, issues and challenges
- Role of academic institutions in successful operation of Business Incubators
- Develop business networks for commercialization of innovations

#### **Target Audience:**

Faculty members of Degree Colleges, Engineering colleges and other Academic Institutions

#### **Expected Outcome:**

The participants will be familiar with various schemes of Government of India for setting-up of business incubators, scope to establish Business Incubators through Rajiv Gandhi National Institute of Youth Development, effective management of Business Incubators.

#### **Brief Report on Program:**

In India Business Incubators exist since 1980 which were supported by the Government of India but later private sector also entered in setting-up of Incubators. The main objective of the business incubators is to produce successful business ventures that create jobs and wealth in the country. A good number of Institutions including private sector are now managing Business Incubators and many others are keen to setup the same. To create awareness on significance of Incubation Centers, design of revenue model for its successful management apart from sharing of experiences in promoting innovative businesses, **ni-msme** has organized Faculty Development Programme on "Establishment & Management of Business Incubators" during 10-12 March 2022 at Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad. A total of 51 faculty members and researchers from 6 Institutions have participated in the programme.

Dr. P.Ravinder Reddy, Principal of CBIT has inaugurated the programme in presence of Mr. K. Surya Prakash Goud, Programme Director & Faculty of Umakanta Choudhury, Director (Innovation& ni-msme and Dr. Incubation) of CBIT. Dr. Ravinder highlighted role of Incubation centers in promotion of Startups, commercialization of technologies and also interventions need to be taken up by the Technical Institutions. Dr. Umakanta Choudhury, Mr. K. Surya Prakash Goud and Dr. Sandip Chattopadhyay of Chandradeep Solar Research Institute (CDSRI) have deliberated on Innovation, Incubation, Entrepreneurship, SME Promotion through Skill Development and Schemes to establish incubation centers. Dr. K. Bhavannarayana gave inputs on Structure and Establishment of Business Incubators where as Mr. Balarama K. Varanasi discussed on techno-commercial services offered by the incubators. Mrs V Swapna, Faculty of ni-msme highlighted role of intellectual property facilitation center in promotion of innovation and shared ni-msme services to innovators and MSMEs with regard to IPR. Dr. B. Subbarayudu, Principal Scientist of Indian Institute of Millet Research (IIMR) shared experiences of IIMR in promotion of innovative agri-businesses and financial services provided. Dr. Umakanta Choudhury explained need for IPR policy for Incubation centre as well as IPR policy of their Institute, CBIT. Mr. Goud encouraged to takeup cluster development activities to promote innovations in MSME sector. The participants have discussed on various issues in promotion of innovation as well as setting-up of incubation centre. The participants also visited Incubation center of CBIT and observed innovations related to 3D printing. The participants thanked ni-msme for organizing the programme and expressed to organize on regular intervals support large number of colleges to set-up incubation centers. Dr. Ravinder Reddy distributed the certificated. The programme concluded with a vote of thanks proposed by Mr. K. Surva Prakash Goud.

#### **Programme Schedule**

	Session	Theme	
		Registration & Inauguration	
	1	Innovation, Incubation & Entrepreneurship	
10 March 2022	II	SME Promotion through Skill Development	
10 March 2022	III	Discussion: Institution as Incubator to Promote	
		Innovative Businesses	
	IV	Schemes to Establish Incubation Centers	

	1	Characteristics, Structure and Establishment of Business Incubator			
11 1 1 2022	II	Managing Incubators: Techno-managerial services through Mentoring and Networking			
11 March 2022	III	Introduction to IPR and Role of Facilitation			
		Center in Promotion of Innovation			
	IV	Promotion of Innovative Agri-ventures &			
		Financing Innovative Businesses			
	1	Visit to Incubation Centre			
	II	Cluster Development Approach and Promoting			
		Innovation in Cluster			
12 March 2022	III	Managing Incubators: Incubation Policies,			
		Services & Partnerships			
	IV	Group Discussion			
		Feedback and Valedictory			

#### **Programme Photos:**

#### Faculty Development Programme on Establishment & Management of Business Incubators (10-12 March 2022)

#### Venue Chaitanya Bharathi Institute of Technology Gandiper, Hyderabad

## NATIONAL INSTITUTE FOR MICRO SMALL AND NEDIUM ENTERPRISES ("surroutly hower as bostonic healthcap of the all tracking of particular tracking" (An Organization of the Ministry of MSME, Gol & ASCRNOT-2815 Get/Reg) Yourserfgords, Psychostad - 280 645 (hebits)

#### Content

- Opportunities & Challenges for Innovators and Innovative Businesses
- Institution as Incubator for promoting Innovation & Entrepreneurship
- · Creating Business Incubators for Start-ups
- · Managing Business Incubators
- · Role of Stakeholders in Success of Business Incubators
- · Business Networks through Incubators
- · Financing Innovative Businesses
- · Policies & Programmes for promotion of Business Incubators

#### Faculty Development Programme on Establishment & Management of Business Incubators (10-12 March 2022)

#### Rationale

Everywhere new ideas and new knowledge are created every day. Business Incubators renovate them into real innovation by creating a new economic activity which provides employment opportunities and also creates wealth. Incubators assists startups by providing an integrated package of work space, shared office services, access to specialized equipment and machinery along with value added services like fund raising, legal services, business planning, technical assistance and networking support.

In India Business Incubators exist since 1980 which were supported by the Government of India but later private sector also entered in setting-up of Incubators. There are two types of Business Incubators, one which focuses on promotion of technology based enterprises and assist in completion of the technologies under development and are generally located at or near universities, R&D institutes, and Science and Technology parks and another promote regional and national economic growth through job creation and utilizing local resources. Hence, main objective of the business incubators is to produce successful business ventures that create jobs and wealth in the country. There are more than 300 Incubators in the country. Recently, the Government of India has initiated to establish 100 Innovation Centers in the country through Atal Innovation Mission.

A good number of Institutions including private sector are now managing Business Incubators and many others are keen to setup the same. ni-msme organizing Faculty Development Programme on "Establishment & Management of Business Incubators" during 10-12 March 2022 to create awareness on significance of Incubation Centers, design of revenue model for its successful management apart from sharing of experiences in promoting innovative businesses at Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad.

#### Objectives

- Appreciate significance of Incubators in promotion of innovation & entrepreneurship
- Policies & Programmes for promotion of Business Incubators
- Grass root innovations, issues and challenges
- Role of academic institutions in successful operation of Business Incubators
- Develop business networks for commercialization of innovations

#### National Institute for MSME (ni-msme) - The Premier Institute

National Institute for MSME (ni-msme), the pioneer institute in the field of MSME is playing a major role in providing pro-business environment to foster the progress of MSME towards success and prosperity. The raison detre of this Institute is to assist the Government in formulating policies for micro, small and medium enterprises and to help the practicing and potential entrepreneurs through a host of services like training, research, consultancy, information, education and extension.

Set up in 1962, National Institute for MSME (ni-msme) has made valuable contributions by creating an impressive record of achievements beyond the Indian shores, enabling other developing countries to get the benefit of the Institute's facilities and expertise. The Institute is associated with prestigious world bodies such as UNIDO, UNESCO, ILO, CFTC, UNICEF, AARDO and GIZ.

ni-msme's intellectual activities are pursued by its four Schools of Excellence, viz., School of Enterprise Development (SED), School of Enterprise Management (SEM), School of Entrepreneurship and Extension (SEE) and School of Enterprise Information and Communication (SEIC). The Institute has been publishing Small Enterprise Development and Management Extension (SEDME) Journal since 1974 in the domain of small enterprises, attracting contributors and users not only from every corner of the country but also from other developing as well as developed nations.

The Institute is having theme focused Centers like National Resource Centre for Cluster Development (NRCD) for helping the MSMEs by implementing the Cluster Development Approach. At present, the Institute is involved in development of more than 50 Rural, Artisan, Industry clusters across the nation and supporting to KVIC, Coir Board, NBCFDC, NSFDC and various state Governments for development of Handlooms, Handicrafts, Food Processing and Textiles Clusters. Intellectual Property Facilitation Centre for MSMEs (IPFC) provide IP advisory services to various research and academic institutions, Clusters, SMEs, Start-ups and Individual innovators. Around 350 SMEs & Start-Ups got benefited from IP registrations including 102 Trade Marks, 41 Patents, 4 Copyrights, 6 Industrial Designs and one Geographical Indication. Goods and Services Tax Cell (GSTC) provide GST registrations and tax compliances, Entrepreneur Development Cell (EDC) and Livelihood Business Incubator (LBI) supports MSMEs for creating a favorable ecosystem for entrepreneurial development in the country. The Institute stores and supplies information that helps to make a successful entrepreneur who is well versed in the intricacies of business and can participate in business activities intelligently and diligently through its Small Enterprises National Documentation Centre (SENDOC).

The Institute has trained more than 5,48,815 participants by organizing around 16,198 programmes which includes prospective/existing entrepreneurs and officials from various Ministries of Govt. of India and State Governments. ni-msme has also imparted skill training to 1,18,531 educated unemployed youth by conducting 3908 Entrepreneurship and Skill Development Programmes (ESDPs). The Institute is implementing ITEC Scheme of Ministry of External Affairs, Govt. of India since 1967 and trained 10,600 International Executives from 143 developing countries. The Institute has also completed more than 947 research and consultancy projects.

The management of the Institute rests with the Governing Council appointed by the Govt. of India. The governing body acts through the Director General. The present Director General is Dr. S. Glory Swarupa.

# EVENTS ORGANIZED BY COMPUTER SCIENCE ENGINEERING ALONG WITH IIC

#### **EVENT:** Innovative programming and problem solving skills

#### **Topics Covered:**

- 1. Innovative Solutions for real world problems using problem solving
- 2. Thinking and designing solutions using programming
- 3. Problem solving methodology
- 4. Process of starting up in the field of programming skills
- 5. Business incubation Program and Startup challenges using skills of programming

#### **Summary:**

- Innovative programming and problem solving skills is the event named as-Kodecrypt, it is one of the flagship event under Headstart, which tests the programming skills and innovative ways to solve a problem in real world using programming skills. The event conducted in 3 rounds.
- Round 1 Basic programming MCQ questions to test the problem solving skills of a student, Round 2 & 3 are online coding rounds to test the thinking and designing skills of a student. Kodecrypt Wild card Questions is an extra layer where in people who solve at the earliest qualify. Total 190 students Participated in this Event.
- Event improves the students to think for innovative solutions to problems to start their own startups and other business in their carrier.
- Links: https://drive.google.com/folderview?id=10wsSZORlt6wGsgN2rV474cVcVMvvM9g8

#### **Resource Persons**

Dr Y Ramadevi Prof, Head Dept of CSE

Smt A. Sangeetha Asst Prof CSE Dept

Smt. S. Durga Devi Asst Prof CSE

Sri M. Venkata Krishna Asst Prof CSE

#### **Student Coordinators:**

# Mirza Akber Namazi CSE1 ¾ Mohammed Zubair CSE2 ¾ Ahmed Vineeth Sharma-CSE1 3/4

**Event:** Innovative design eye catching User Interfaces (UI) for web applications

#### **Topics Covered:**

- 1. New Innovative design Solutions for real world problems
- 2. Thinking and designing solutions for real problems
- 3. Design methodology for various problems using web designing issues
- 4. Process of starting up in the field to solve various problems
- 5. Business incubation Program and Startup challenges using skills for web applications

#### **Summary:**

- Innovative design eye catching User Interfaces (UI) for web applications Design freaks is an event for establishing various design and popular event of Headstart which focuses on how well a person can design solutions for various problems. Total of 113 students participated in this evnet.
- Round 1: MCQ's related to basic design concepts of Web design solutions
- Round 2: constitutes of some practical stuff like creating some components of a web page
- Round 3: The participants need to develop a static website which would be evaluated and winner will be decided.
- Event helps the students to think for innovative design solutions to problems to start their own businesses to begin their carrier.

#### **Resource Persons:**

Smt Vanitha Asst Prof CSE Dept Smt Kavita Agrawal, Asst Prof CSE Dept Sri Ramana Reddy, Asst Prof CSE Dept

#### **Student Coordinators:**

G Varsha, CSE CBIT

P Sai Akhil, CSE CBIT

<a href="mailto:sp=sharing">sp=sharing</a>

**Event: Technical Project or Prototype Presentation and Competition.** 

#### **Topics Covered:**

- 1. New Innovative design Solutions for real world problems by building proto types
- 2. Providing design solutions for real problems by implementing case studies
- 3. Innovative new design methodology for various problems using prototypes
- 4. Process of starting up in the field to solve various problems
- 5. Business incubation Program and Startup challenges using skills with the help of proto types.

#### **Summary:**

• Technical project presentation event is a platform which provides awestruck opportunity to showcase best of the projects you worked on!! 17teaas of 40 students participated in this event.

- Projects make 60% of entire resume which is a summary of the student's entire career! This event will be guided by the judges who have been a great backbone and made CBIT College in the entire nation which alone had 5 winning teams in Smart India Hackthon conducted by the central government! Grab this platform to clear all your confusions and get a boost!
- This Event will provide a platform to come and see different projects in different domains and gain knowledge and take guidance to solve many real world problems.

#### **Resource Persons**

**Event: Ideathon Presentation** 

**Topics Covered:** 

1. New Innovative Ideas which provide Solutions for real world problems

2. Presenting new ideas and design solutions for various problems with help of some

case study ideas

3. New design methodology ideas for various problems with example prototypes ideas.

4. Process of starting up in the field to solve various problems

5. Ideas to implement Business incubation Program and Startup challenges for their

carrier building process

**Summary:** 

• Idea Presentation is named as Poster presentation under headstart conducted by CSE

Department along wit IIC, Total of 09 students presented their ideas.

• Ideathon is a platform which provides you with an amazing opportunity to showcase

students ideas on a unique platform in the form of a poster presentation.

• Posters are legitimate and popular presentation format for research and clinical vignettes.

They efficiently communicate concepts and data to an audience using a combination of

visuals and text.

• This event helps to student to think in all aspects for a problem to find an innovative

solution to the problem and also to improve the skills to present their ideas for startups

and business

## EVENTS ORGANIZED BY DEPARTMENT OF BIOTECHNOLOGY IN ASSOCIATION WITH IIC, ARIIA

**EVENT:** Entrepreneurship for Life Sciences

#### **Topics Covered:**

- 1. Scope of Innovations in Life Sciences Sectors
- 2. Scope of innovation and commercialization in Genetics and Genetic Engineering
- 3. Scope of Innovation and commercialization in Antibiotic Resistance.
- 4. Scope of Innovation and commercialization in Biomedical nanotechnology
- 5. Scope of Innovation and commercialization in Diagnostics
- 6. Scope of Innovation and commercialization in malarial research
- 7. Areas of Innovations/research
- 8. Wise availability of Biopharma products
- 9. Products ready for commercialization in biotechnology

#### **Summary:**

- The talk was started by questioning and describing "What is Entrepreneurship?" and "What are different opportunities for biotechnology students?".
- The talk/interaction was gradually built up towards the point that, in the present day one should learn to see possibilities everywhere.
- In the talk participants were able to learn about innovation and commercialization in the various fields of life sciences.
- The speaker also emphasized on COVID aspect and specially about ventilators devices

#### **Meeting Link:**

### **Resource Persons:**

## Dr.Zahoorullah.S.MD,

Chief innovation officer, ATAL Incubation Centre, ALEAP Industrial estate JNTU, Kukatpally, Hyderabad.

## **Coordinators:**

#### Mrs. S. Sumithra

## **IIC Session report on "Innovation in the Age of Disruption"**

Date: 22<sup>nd</sup> August 2022

Time: 11:00 AM to 12:45 PM

**Topic: Innovation in the Age of Disruption** 

Speaker: Prof. Umakanth Choudhury, Prof. & Director, I&I, CBIT

Program Coordinators: Mr P Varaprasad Goud, Assistant Professor, CBIT-SMS

Mrs M Sangeetha, Assistant Professor, CBIT-SMS

No. of Participants: 75

Expenditure amounting to: Nil

Mode of Session: Offline, CBIT

**Objective:** To make participants aware of innovation and disruptive technologies.

#### Benefits in terms of learning/skill/knowledge obtained:

The following points were discussed with the participants.

- 1. Introduction to Product innovations.
- 2. The speaker has motivated the participants to come up with innovative products which will be served in attaining sustainable goals.
- 3. Disruptive technologies seem to have a huge impact on the way businesses function and can cause major disruptions to industries and markets.
- 4. Real time examples of Product Innovations and different forms of Product Innovations.
- 5. Idea generation about how Innovations can be done.
- 6. The verbalizer has explicated the students on how to leverage innovation to respond to transmute, concretely change driven by digital transformation.
- 7. Students were incentivized to endeavor innovation in products, thereby engendering a value addition to the society and the Nation.

- 8. It was additionally stressed that innovation can be utilizable for them to build their dream of becoming an entrepreneur & preparing them for their future life.
- 9. The program benefited the students i.eThey were able to understand the meaning of innovation and disruption.
- 10. Examples of disruptive innovation were discussed like AI, block chain, IoT, Cloud computing etc.
- 11. The students have got an idea on the way that they can transform their ideas into prototype/reality. The session was very interactive, queries asked by the participants were answered by Prof. Umakanth Choudhury.

#### **Self driven activity**

#### Innovative programming and problem-solving skills

#### EVENTS ORGANIZED BY COMPUTER SCIENCE ENGINEERING ALONG WITH

IIC

March 3 rd and 4 th 2021

Category of Event: Innovation/Entrepreneurship/ Game development

No of Students Attended: No of Faculties attended:

#### **EVENT: Innovative programming and problem solving skills**

**Topics Covered:** 

- 1. Innovative Solutions for real world problems using problem solving
- 2. Thinking and designing solutions using programming
- 3. Problem solving methodology
- 4. Process of starting up in the field of programming skills
- 5. Business incubation Program and Startup challenges using skills of programming

#### Summary:

- Innovative programming and problem solving skills is the event named as-Kodecrypt, it is one of the flagship event under Headstart, which tests the programming skills and innovative ways to solve a problem in real world using programming skills. The event conducted in 3 rounds.
- Round 1 Basic programming MCQ questions to test the problem solving skills of

student,

Round 2 & 3 are online coding rounds to test the thinking and designing skills of a student. Kodecrypt Wild card Questions is an extra layer where in people who solve at the earliest qualify.

Total 190 students Participated in this Event.

Event improves the students to think for innovative solutions to problems to start their own startups and other business in their carrier.

## **Capacity Building Program**

#### **Date & Details:**

• 29<sup>th</sup> November 2021

 Capacity Building Program on Future Technologies of 3D Printing for Innovative Products

Number of participants : 100Mode of conducting: Online

#### **Purpose:**

• In this fast pacing technological world the necessity of Innovative is very much necessary for ease of life and to solve pain points. It's crucial to do tasks in a creative, quick, effective, and waste-free manner. The topic of discussion in this session was how to implement any idea in the real world and how 3D scanning and printing technologies are assisting entrepreneurs in creating their products. Students were given a tour of Makde 3d.in Company's tools and products to better understand how businesses are incorporating 3D technologies into the product development cycle.

#### **Resource persons:**

# **Chaitanyam- Freshmen Ideathon**

## **Dates & Details:**

 9<sup>th</sup> January2022- First Boot camp to Aspiring students regarding CHAITANYAM-Freshmen Ideathon and Introduction to Innovation and Entrepreneurship Total participants: 389

Mode of conducting the event: Offline

 13<sup>th</sup> January 2022-Second Boot camp to Aspiring students regarding CHAITANYAM-Freshmen Ideathon and Introduction to Innovation and Entrepreneurship

Total Participants: 95

Mode of conducting the event: Offline

• 27<sup>th</sup> to 29<sup>th</sup> January 2022- CHAITANYAM-Freshmen Ideathon (Prelims)

**Total Participants: 275** 

Mode of conducting the event: Online

• 31<sup>st</sup> January to 2<sup>nd</sup> February 2022- CHAITANYAM-Freshmen Ideathon (Fianls)

Total Participants: 60

Mode of conducting the event: Online

#### **Purpose:**

- Boot camps: To Encourage First year students of all degrees, Rural Innovators, Drop outs and School students to think about problems in the society and provide sustainable solutions we have planned CHAITANYAM-Freshmen Ideathon. In this regard boot camps are called for and conducted to explain about SDGs, Innovation & Entrepreneurship and Sectorial areas
- Chaitanyam-Freshmen Ideathon is exclusively organized for first years of all degrees, Drop outs, School students and rural innovators to encourage them in providing sustainable solutions to the society or community problems. 3 categories of participation we kept to inculcate inclusive innovation ecosystem
  - All women teams (all the team should be only girls),
  - PwD teams (Team lead should be PwD) and
  - General teams (Both boys and girls can form as a team).

# **Resource Person**

- Dr. U.K. Choudhury, Prof. & Director(I&I)
- Dr. Narahari Sastry, Prof ECE
- Dr N V Srinivasulu, Prof Mechanical Engineering
- Dr. Dr. Rajanikanth Aluvalu, Associate Professor Information Technology
- Dr. M.K. Kaushik, Centre Head ACIC CBIT
- Dr. Chandramouli Akula, Founder LAALM

# **Outcome of the event**

Huge response in terms of registrations and all women team & PwD participation. The statistics are as follows:

•	Teams registered	:	122
•	total participants	:	275
•	Exclusive Women Teams	:	40
•	PwD teams	:	03
•	General Teams	:	79
•	No. of schools/Colleges participated	:	14,
•	No. of States participated	:	03
•	No of SDGs addressed by all the participants.	:	10
•	shortlisted teams for the Final round presentation	on:	29

- 14 Teams are announced as winners of Chaitanyam Freshmen Ideathon in all 3 categories
- Shortlisted candidates are considered for the next phases and ACIC-CBIT will support in IPR Filing as per the guidelines (for the interested).

# **Photographs of the event**

# Winning teams

# **Design Thinking – Capacity Building Program**

## **Date & Details:**

- 26<sup>th</sup> to 27<sup>th</sup> February 2022
- Total participants: 260
- Mode of Conducting the event : Online through Cisco Webex

## **Purpose**

All the Companies/Startups follow Design Thinking process to develop their products which are user friendly and has got rich experience. Design Thinking make engineers to empathize about the problem, ideate by all the team members and then come to a final conclusion..

## **Resource Persons:**

Mr. Vikas Tavanandi, Interaction Designer Alumini of IIT Delhi

# **Session Outcomes:**

Mr. Vikas, Resource person clearly explained about all the phases of Design thinking by giving real time examples to the participants. He also introduced one of the Design Thinking tools called MIRO to practice and ideate

## **Promotional Poster**

# **Session Photographs:**

# **World Intellectual Property Rights Day**

# **Date & Details:**

- 26<sup>th</sup> April 2022
- Total participants:80
- Mode of Conducting the event : Offline

# **Purpose:**

Every year, on April 26, people throughout the world celebrate World Intellectual Property Day. The purpose of the day is to create public awareness about the importance of intellectual property rights, including patents, copyright, trademarks, and designs. This year the theme of World Intellectual Property Day is "IP and Youth: Innovating for a Better Future" and celebrates youth's creativity.

**Event Photographs:** 

# **Idea to Prototype First Cohort**

# **Date & Details:**

- 28<sup>th</sup> May 2022
- Total participants:65
- Mode of Conducting the event : Offline

# **Purpose:**

Idea to prototype is ACIC CBITs Flagship event where finalists of Ideathon are incubated and see that the ideas are converted into prototypes.

# **Pannelist:**

- 1. Shri. R. Bhubesh Kumar Director, Food & Agriculture, Research and Innovation Circle of Hyderabad, Govt. of Telangana
- 2. Shri. Surender Reddy, Chief Mentor & Director, Butterfly Edufields Pvt. Ltd.
- 3. Dr. Umakanta Chowdary, Director I&I, CBIT Dr.
- 4. M.K.Kaushik, Center Head, ACIC CBIT R&E Foundation:

# **Outcomes:**

I2P 1.0 was conducted and 8 teams out of 10 teams have developed their prototype and showcased their prototypes

## **Event Photographs:**

# **Innovate for Menstrual Waste Hackathon 2022**

# **Date & Details:**

- 30<sup>th</sup> May 2022
- Total participants:350
- Mode of Conducting the event : Online for Prelims and Offline for finals

# **Purpose:**

The Innovate 4 Menstrual Waste Hackathon – 2022 is jointly organized by WaterAid and the Telangana State Innovation Cell, ITE&C Department, Government of Telangana, India. The Hackathon aims to find solutions for treatment and disposal of used menstrual absorbents in a manner that is safe for the users (girls and women), environment friendly and can be up-scaled within current waste management systems and processes. This hackathon will aim at finding answers to challenges of menstrual waste management at household level, community level (village/ habitation/ basthi etc.) and at institution level (schools, Anganwadi Centers, healthcare facilities etc.). Apart from innovative technologies to address the issue, the hackathon looks forward to finding end to end solutions for menstrual waste management in both urban and rural contexts. ACIC CBIT joined hands with TSIC as Scaling Partners..

#### **Pannelist:**

- 1. Shri. Jayesh Ranjan, Principal Secretary of I&C and IT, Govt. of Telangana.
- 2. Dr. Shanta Thoutam, CIO, TSIC, Govt. of Telangana

#### **Outcomes:**

Menstrual Waste Hackathon 2022 - Pre Hackathon conducted on 24-05-2022 in online mode at ACIC CBIT Foundation. Top 3 will go to state level finals.

## **Event Photographs:**

# Prelims:

Finals

# Agri Aavishkar ~ Ideathon 2022

# **Date & Details:**

• 8<sup>th</sup> to 9<sup>th</sup> July 2022

• Total registrations :50 teams

• Total Participants: 31 teams

• Mode of Conducting the event : Online

# **Purpose:**

- The problem statements collected from farmers during the Community Outreach Programs were the problem statements for Agri Aavishkar Ideathon.
- The 18 shortlist problem statements which could be solved using engineering Technologies was the overall theme for the Ideathon.
- To accumulate innovative and cost effective solution to the problems faced by the farming community from the student/innovators
- The shortlisted candidates were allotted a prototype grant depending on the TRL level of the solution offered

## **Pannelist:**

- 1. Shri. R. Bhubesh Kumar Director, Food & Agriculture, Research and Innovation Circle of Hyderabad, Govt. of Telangana
- 2. Dr. M.K.Kaushik, Center Head, ACIC CBIT R&E Foundation
- 3. Dr. U.K. Choudary, Director Innovation and Incubation CBIT
- 4. Faculty of CBIT

## **Promotional Posters**

# ACIC CBIT R&E FOUNDATION

**IDEATHON (12P 2.0)** ON 8TH & 9TH JULY 2022

PCP-Prize money converted to prototype grant for three categories

CATEGORY 1:

High complexity (upto TRL 6 or 7) upto ₹30,000/for 4 Teams

CATEGORY 2:

Moderate complexity (upto TRL 4 or 5) anto ₹22,000/for 3 Teams

CATEGORY 3:

Low complexity (upto TRL 2 or 3) upto ₹15,000/for 3 Teams

Registration Fee: ₹250/- per Team

Last Date: 4th July 2022

REGISTER NOW

acic chit@chit.ac.in

# **Outcomes:**

The ideas of the 31 teams were screened over two days.by the Jury 18 teams were shortlisted based on the effectiveness of the solution and they were categorized into three groups based on the complexity of solution offered. Further these shortlisted candidates will undergo 5 months (cohort) of mentoring, capacity building, prototype development and testing.

# **Event Photographs:**

# **UAV and UGV Capacity Building Program**

# **Date & Details:**

• 19<sup>th</sup> July 2021

 Capacity Building Program on Unmanned Ariel Vehicle and Unmaned Ground Vehicle

• Number of registrations: 38

• Number of participants: 29

• Mode of conducting: Offline at CBIT Hyd Campus

#### **Purpose:**

 In this fast pacing technological world the necessity of Innovative is very much necessary for ease of life and to solve pain points It is important for the coming generations to understand the new technologies in the maket. The capacity building program was organized by TiHAN, IIT Hyderabad in collaboration with ACIC CBIT. The workshop is hands-on and participants will get certified from TiHAN,IIT HYDERABAD

#### **Resource persons:**

1. Prof. G. V. V. Sharma – IIT Hyderabad

# Ideathon-2021

## **Date & Details:**

- 06<sup>th</sup> December 2021- 08<sup>th</sup> December 2021
- IDEATHON 2021 to both Circuit & Non Circuit Branches
- Number of participants: 130
- Mode of conducting: Online

#### **Purpose:**

- The theme of IDEATHON 2021 was to address Sustainable Development Goals and bring awareness among budding engineers, Innovators, Faculty and Rural Innovators.
- The participants have taken up the challenges faced by the community and gave some technological solutions to address those problems. We have designed our Ideathon in such a way that both Circuit (ECE, EEE, CSE & IT) & Non Circuit (Mechanical, Civil, Chemical & Bio Technology) branches participate and give solutions in their respective domains.

## **Statistics of the Ideathon:**

•	No. of Teams Registered	:	47
•	No. of Students	:	130
•	No. of Colleges Participated	:	11
•	No. of Schools Participated	:	01
•	No. of States Participated	:	03
•	No. of SDGs addressed:	;	10
•	No. of Women Lead Teams Registered	:	08

## **Resource Persons:**

- 1. Dr. UK Choudhury, Prof. & Director, , Incubation & Innovation, CBIT
- 2. Dr.M.K. Kaushik, Centre Head, ACIC CBIT
- 3. Faculty from CBIT
- 4. Ateeq Hussain, Young Professional ACIC CBIT

Day 2

Day 3

# ACIC CBIT Research & Entrepreneurship Foundation

# **IPR Workshop Sessions**

#### **Date & Details:**

• 27<sup>th</sup> December 2021

• Total participants: 150

• Mode of Conducting the event : Online through Cisco Webex

### **Resource Persons:**

S.No	Speaker Name	Topic
1	Mr. Tapan Brahma IPR Expert	Introduction to IPR, Evolution of Patenting System, Indian Patenting System, Prior Art Search
2	Ms. Khushboo Newtia IPR Attorney	Types and Structure of Patenting Applications (Product/Process Patent, Design Patent, Copyright, Trademark, Patentability of Inventions. Provisional and Complete specifications.
3	Mr. Afzal Hasan IPR Attorney	Drafting of Patent specification and Claims, Interpretation, Patent Publication.
4	Mr. Vijay Kumar Makram IPR Attorney	Procedure for Filing of Patent Application in India PCT system for International Filing, IPR (Copyright) filing procedure.

### **Session Photographs:**

#### **Forenoon Sessions**

#### Afternoon Session

# ACIC CBIT Research & Entrepreneurship Foundation

# **Community Outreach Program Report**

#### **Purpose of Visit:**

The vision of the outreach program is twofold:

- To interact with local /Unserved & Underserved communities regarding community problems and eventually come out with innovative solutions which can be taken up by Community Innovators/Students/Startups/Faculty/Researchers
- To scout for Rural Innovations/ Grass root Innovations or Innovators and support themthrough ACIC CBIT to make market-ready products and enhance their livelihoods

#### **Village visited:**

Maharajpet Village, Shankarpally Mandal, Rangareddi District, Telangana State (501503), India

#### **Date & Details:**

- The visit happened on 02-11-2021 (10 am to 4 pm)
- 70 Students, 15 Faculty, and ACIC Staff were part of the Community OutreachProgram
- The village has about 300 Houses with a population of about 1500 residents (1134 voters)

#### **Problem Statements Identified:**

- 1) Inappropriate disbursement of Pensions & Information regarding government schemes
- 2) No Pharmacy nearby
- 3) Improvement in infrastructure and sophisticated facilities in health center (doctors only visit on Wednesday)
- 4) Many kids are there in the village but there is no Pediatrician
- 5) Transportation problem from Village to Main Road (Intra Transport Facility)
- 6) Skilling in Tailoring & Embroidery

- 7) Due to heavy rains electric shocks near transformers
- 8) Skill enhancement courses for the youth of the village
- 9) Pigs and Peacocks problem in agriculture
- 10) Income generative avenues for villagers (Revenue Generation)
- 11) School requires facilities (Computer facilities, Wifi and Clean water, Revamping Washrooms, Condition of the school has to be enhanced)
- 12) Old people are looking for small-scale jobs
- 13) Drainage Problem at few areas due to that Mosquito issues
- 14) Skilling in Music, Dance, and Musical Instruments
- 15) Last mile connectivity for crop produce
- 16) Guidance regarding pesticide usage in crops and monitoring of crops
- 17) Old and PWDs facing problems in getting pensions and medicines
- 18) Karate training
- 19) Rain harvesting system in houses (Road level is low, facing so many problems when it rains)
- 20) Capacity Building Programs in essential technologies and latest technologies (Word, Excel, ATM Operation, Financial Education, etc.)
- 21) Snakes are coming due to overgrowing of bushes
- 22) Most of them are addicted to raw liquor/ adulterated liquor which indeed diminishestheir livelihood- counseling required
- 23) Network issues in the village

#### **Expected Outcome:**

Students, Faculty, Researchers, Startups, and Community/Grassroot Innovators should take upthese issues and come out with a solution that solves the community issue and make their life easier.

#### **Resource persons:**

- 1. Dr. UK Choudhury, Prof. & Director, , Incubation & Innovation, CBIT
- 2. Dr.M.K. Kaushik, Centre Head, ACIC CBIT
- 3. Faculty from CBIT
- 4. Mr. Atheeq Hussain, Young Professional

## **Photographs of the event:**

#### Community Outreach Program & Capacity Building Program (17-03-2022)

**Community Outreach Program:** Planting & Distribution of Fruit Bearing plants and Medicinal Plants to Proddatur Villagers

**Capacity Building Program:** To address the lack of Organic Content in the soil the capacity building program on soil preparation is arranged for all farmers of Proddutur village in the Model field of Bharateeyam Ram Garu (Resource Person & Model Field Farmer)

#### Date & Time:

• 17-03-2022, 6.30am to 1pm

#### Village:

• Proddatur Village, Shankerpally Mandal, RR District, Hyderabad, Telangana

#### **About Village:**

Proddatur is a Village in Shankarpally Mandal in Rangareddi District of Telangana State, India. It belongs to the Telangana region . It is located 20 KM towards North from District head quarters Hyderabad. Proddutur Village Total population is 2431 and number of houses are 564. Female Population is 52.9%. Village literacy rate is 54.6% and the Female Literacy rate is 24.4%. ST population is 1.2% and SC population is 22.8%

#### Attended by:

- Dr. Prasad (PRO, CBIT)
- Mr. Tulasiram (Associate Professor, MBA Dept., CBIT)
- Mr. Atchuta Rao (Founder, C-SED)
- Dr. M.K. Kaushik (Center Head, ACIC CBIT Foundation)

#### Brief about the event:

- Agriculture, deforestation, and other factors have degraded and eroded topsoil at alarming rates. Globally, 52% of agricultural land is already degraded. The planet is in crisis. If current rates of soil degradation continue, this would be the end of life as we know it. In 20 years, 40% less food is expected to be produced for 9.3 billion people.
- Poor soil leads to poor nutritional value. Today's fruits and vegetables already contain 90% fewer nutrients. 2 billion people suffer from nutritional deficiencies leading to a multitude of diseases.
- Depleted soils cannot absorb and regulate water flows. Lack of water retention leads to water scarcity, droughts & floods. Organic matter can hold up to 90% of its weight in water and release it slowly over time. This is a big help in drought-prone areas.

(Source: https://consciousplanet.org/soil)

#### **Community Outreach Program:**

To address the above issues as an Atal Community Innovation center we reached out to our nearby community (Poddatur Village) and distributed 100 fruit bearing plants and medicinal plants to villagers and asked them to update the growth of plants in the next outreach program. The long term vision is to increase soil strength and micro entrepreneurship. If villagers can grow their seasonal fruits, vegetables and medicinal plants then they can keep whatever is required for their livelihood and sell it at the model center for their income. The villagers also can concentrate on value addition products to grow their incomes. This way innovation and entrepreneurship activities can be induced in the villagers. The future plan is to do capacity building on Entrepreneurship, Marketing and Digital skills so that their micro businesses can sustain themselves.

### **Capacity Building Program:**

Soon after sapling distribution in the village all the farmers are assembled at Model Farm which is created & maintained by Bharateeyam Ram and Atchuta Rao where Organic and Inorganic farming practices are done to show the difference. Our resource persons Bharteeyam Ram and Atchuta Rao clearly explained about soil preparation and practices used for organic farming. They have practically shown the difference between organic farming and inorganic farming. Farmers felt very happy and asked many questions on how to do the organic farming practice in their fields also. School children were also brought to a capacity building program to train the younger generation about the soil and its importance.

Report of Community Outreach Program to address Dryland Farmers of Zahirabad

## Report of Community Outreach Program (06-05-2022) at Zahirabad

Date: 06-05-2022

Place: No 13, ARANYA House-6-88, New housing Colony, Pastapur Village, Zahirabad, Telangana

50231

**Organizers:** ACIC CBIT R&E Foundation, Research and Innovation Circle of Hyderabad (RICH), Aranya Agricultural Alternatives & Beedakanne Farmer Producer Organisation

**Purpose**: An interaction session with dryland farmers of zahirabad to understand their problems and best practices.

#### **Resource Persons/Organizers:**

- Shri. R. Bhubesh Kumar Director, Food & Agriculture, Research and Innovation Circle of Hyderabad, Govt. of Telangana
- Dr. M.K.Kaushik, Center Head, ACIC CBIT R&E Foundation
- Shri. Krishna Raya, Aranya Agricultural Alternatives
- Shri. Padma, Aranya Agricultural Alternatives
- Shri. Narsayya, Aranya Agricultural Alternatives

#### Participants:

- Farmers -representing rainfed and irrigated farming systems
- Development specialists
- Farmer Producer Organisation
- Rural Innovators in the region

#### Background:

- Agriculture, deforestation, and other factors have degraded and eroded topsoil at alarming rates. Globally, 52% of agricultural land is already degraded. The planet is in crisis. If current rates of soil degradation continue, this would be the end of life as we know it. In 20 years, 40% less food is expected to be produced for 9.3 billion people [1].
- Poor soil leads to poor nutritional value. Today's fruits and vegetables already contain 90% fewer nutrients. 2 billion people suffer from nutritional deficiencies leading to a multitude of diseases [1].
- Depleted soils cannot absorb and regulate water flows. Lack of water retention leads to water scarcity, droughts & floods. Organic matter can hold up to 90% of its weight in water and release it slowly over time. This is a big help in drought-prone areas [1].
- To address the above issues to the dryland farmers and to understand small farmers (Less than 3 acres) difficulties and requirements this outreach program is arranged.
- To understand their best practices, and few other best practices are also suggested to get good vields
- To introduce and discussion about farm mechanization tools which helps small farmers

#### **Objectives:**

- To interact with the farming community to identify problems faced in all stages of crop production and sales
- To screen and shortlist problem statements which could be solved using engineering technologies
- To develop methodologies to conduct a ideathon/hackathon involving students, innovators and start-ups in the region, so as to develop innovative solutions

#### **Problem Statements Identified from Interaction:**

- 1. Wheat Cleaning machine
- 2. Seed Bank Storage (With Temperature and oxygen maintenance for the sustenance of seeds)
- 3. Automated Pot Irrigation & IoT based monitoring system for irrigation
- 4. Grains dryer machine
- 5. Motorized and Manual cycle seeder for small farmers
- 6. Seed sowing machine for multiple crops with variable seed diameters
- 7. Weeder machine adjustable to different widths (Beneficial if it covers 2 rows and major requirement is for 2 to 3 inch depth)
- 8. Vehicle for plucking the crop produce in wetlands (Burada Segway) (July-August crops we can test)
- 9. Pulse, Grains Cleaning machine (1 quintal/hour or 1000 quintal/Month with Single phase)
- 10. Tiller machine for small crops (shredding crop residue and mixing it in soil)
- 11. Prick/stick model moisture sensor
- 12. Minatuarized grading machine for vegetables
- 13. Foxtail and little millet dehusking and dehulling machine
- 14. Automatic Pounding machine
- 15. Safflower oil scraper
- 16. Handheld stitching machine (Eg: For Gunny bag)
- 17. Farm Yard Manure spreader
- 18. Identifying seed chemistry and growth strategy/process

#### Way Forward:

- Call for Ideathon/Hackathon (Promotions will start from 16th May)
- Online and Youtube live sessions to create awareness and introduction to Ideathon/Hackathon
- Team should consist of 3 to 5 Members
- Submissions close by 31st May
- Release of Problem statements to registered teams (1st to 3rd June)
- Tentative date for Ideathon/Hackathon (6th & 7th June)
- Top 3 to 5 teams will be incubated and taken forward for product development
- 3 to 5 Prize money will be supported by ACIC CBIT (Prize money should be utilized for product development- Milestone based)
- Sponsorship for Product development

## **Community Outreach Program Report**

#### **Purpose of Visit:**

The vision of the outreach program is twofold:

- To interact with local /Unserved & Underserved communities regarding community problems and eventually come out with innovative solutions which can be taken up by Community Innovators/Students/Startups/Faculty/Researchers
- To scout for Rural Innovations/ Grass root Innovations or Innovators and support themthrough ACIC CBIT to make market-ready products and enhance their livelihoods

#### **Village visited:**

Anthapaguda Village, Rangareddy District, Hyderabad Telangana-501111

#### **Date & Details:**

- The visit happened on 18<sup>th</sup> June 2022 (10 am to 4 pm)
- ACIC Staff were part of the Community Outreach Program
- The village has about 410 hectors with a population of about 1106 residents
- Information about the village
  - Female Population is 46.4% ,,
  - Village literacy rate is 50.9%
  - Female Literacy rate is 38.8%.

### Summary of visit

Meeting with Surpach and Panchayat officers of both Anthapaguda and Ravulapalli villages and explained them about ACIC CBIT and the opportunities provided by the innovation center to bring innovation and entrepreneurship culture in the community. The leaders of few Self Help groups and Youth associations were also present in the meeting

#### **Expected Outcome:**

Students, Faculty, Researchers, Startups, and Community/Grassroot Innovators should take upthese issues and come out with a solution that solves the community issue and make their life easier.

Capacity Building programs will be conducted for local youth in Electronics & Computers and Innovation & Entrepreneurship to invigorate Innovation mindset and Livelihood enhancement.

#### **Resource persons:**

- 1. Dr.M.K. Kaushik, Centre Head, ACIC CBIT
- 2. Mr. Ateeq Hussain, Young Professional, ACIC CBIT Dr.

#### Village visited:

Ravulapalli Village, Rangareddy District, Hyderabad Telangana-501111

#### **Date & Details:**

- The visit happened on 18<sup>th</sup> June 2022
- ACIC Staff were part of the Community Outreach Program
- The village has a population of about 1740 residents with 444 houses
- Information about the village
  - Female Population is 49.4% ,,
  - Village literacy rate is 63.3%
  - Female Literacy rate is 25.7%.

#### **Summary of visit**

Meeting with Surpach and Panchayat officers of both Anthapaguda and Ravulapalli villages and explained them about ACIC CBIT and the opportunities provided by the innovation center to bring innovation and entrepreneurship culture in the community. #### **Village visited:**

Gandipet Welfare Society, Hyderabad Telangana

### **Date & Details:**

- The visit happened on 21st June 2022
- ACIC Staff were part of the Community Outreach Program

#### **Summary of visit**

Visit to Gandipet Welfare society to understand the good work they are doing in waste management in gandipet and surrounding community. We spoke on the technologies and processes they use in handling dry waste, wet waste and reject waste. We also explored synergies in doing joint outreach programs to communities in bringing awareness about waste managment and best practices

#### **Expected Outcome:**

Students, Faculty, Researchers, Startups, and Community/Grassroot Innovators should take upthese issues and come out with a solution that solves the community issue and make their life easier.

Capacity Building programs will be conducted for local youth in Electronics & Computers and Innovation & Entrepreneurship to invigorate Innovation mindset and Livelihood enhancement.

Report of Community Outreach Program to address District Health
Officials of Vikarabad

## Report of Community Outreach Program (24-06-2022) at Zahirabad

Date: 24-06-2022

Place: District Panchayat Resource Centre Vikarabad, Vikarabad District-501101

**Organizers:** ACIC CBIT R&E Foundation, Research and Innovation Circle of Hyderabad (RICH), DMHO Vikarabad & ICMR-NIN

**Purpose:** An interaction session with Health Officials of Vikarabad to understand their problems, skills required and best practices.

#### **Resource Persons/Organizers:**

- Shri. R. Bhubesh Kumar Director, Food & Agriculture, Research and Innovation Circle of Hyderabad, Govt. of Telangana
- Dr.J. Sreenivasa Rao, Deputy Director, ICMR-NIN
- Dr.D.D. Thukaraam Bhatt, District Medical & Health Officer
- Dr. M.K.Kaushik, Center Head, ACIC CBIT R&E Foundation
- Dr. Sushmitha Sunder, Head of Life Science, RICH
- Mr. Aravind, Project Manager, Life Sciences, RICH
- Mr. Ateeg Hussain, Young Professional, ACIC CBIT R&E Foundation

#### Participants:

- Health dept supervisor staff
- Community health officers
- Health Educators
- Public Health Nurses
- MPHEO : Multi purpose health extension officers
- MPHS: Multi purpose health supervisors (male & female)
- MPHA: Multi purpose Health Assistants (only female)
- ICDS: Integrated child development scheme (CDPO's: Child development project officers, ACDPO's: Assistant child development project officers, supervisors)
- District Medical and Health Officer
- Counselor, Vikarabad

#### **Community Outreach Program Focus Areas:**

- Community Sensitization (Health, Nutrition, related government programs etc.)
- Community mobilization, health planning, participation in community health and allied activities
- Survey of health and related events

- Mobilizing, counseling and supporting the community to demand and seek health services
- Identifying, managing or referring cases of illness
- Supporting health service delivery through home visits, first-aid and immunizations sessions
- Maintaining data and participating in community-level health planning

### **Objective**

- 1. To interact with the asha workers to identify problems faced in all stages of delivery of health initiatives in the community
- 2. To screen and shortlist problem statements which could be solved using engineering technologies.
- 3. To develop methodologies to conduct a ideathon/hackathon involving students, innovators and start-ups in the region, so as to develop innovative solutions

#### **Problem Statements Identified from Interaction:**

- 1. Handheld IoT Device to check Blood Hemoglobin
- 2. Multigrain Mix (Health Supplement)
- 3. Zinc, calcium, vitamin C, Iron-Standard & substandard tablets identification
- 4. Monitoring and reporting of anganwadi food system- portion tracker (Existing App)
- 5. Educational tool/ Awareness/Comic Book for Menstrual health and nutrition requirements for women
- 6. AR/VR product to educate kids on Nutrition
- 7. Psychometric Analysis tool to identify Champion Health attendee
- 8. Communication tools for Champion Health attendee- Influencer & Articulator
- 9. App for Health workers- End to end information dissemination
- 10. Awareness programs in the community regarding over usage of fertilizers and superstitious beliefs
- 11. Stress management software for Health Professionals
- 12. Yoga and Meditation sessions for Health Professionals

## **Event Photo Gallery:**

- To interact with local /Unserved & Underserved communities regarding community problems and eventually come out with innovative solutions which can be taken up by Community Innovators/Students/Startups/Faculty/Researchers
- To scout for Rural Innovations/ Grass root Innovations or Innovators and support themthrough ACIC CBIT to make market-ready products and enhance their livelihoods

#### Village visited:

Ootpalle, Shamshabad Mandal Rangareddi District Hyderabad Telangana

### **Date & Details:**

- The visit happened on 25<sup>st</sup> June 2022
- ACIC Staff were part of the Community Outreach Program

#### **Summary of visit**

Community Outreach Program to Ootpalle village to understand the skill requirements of SHGs, Women and Youth. We have gathered sarpanch, village officers, SHG leaders, and other association leaders to explain about ACIC CBIT and how it helps in creating innovation & entrepreneurship ecosystem

#### **Expected Outcome:**

Students, Faculty, Researchers, Startups, and Community/Grassroot Innovators should take upthese issues and come out with a solution that solves the community issue and make their life easier.

Capacity Building programs will be conducted for local youth in Electronics & Computers and Innovation & Entrepreneurship to invigorate Innovation mindset and Livelihood enhancement.

### **Resource persons:**

#### **Village visited:**

Gopularam Village, Shankarpalle Rangareddy District, Hyderabad Telangana-501503

#### **Date & Details:**

- The visit happened on 28<sup>th</sup> December 2021 (10 am to 4 pm)
- CBIT Faculty, and ACIC Staff were part of the Community OutreachProgram
- The village has about 285 houses with a population of about 1214 residents
- Interesting information in this village is
  - Female Population is 50.5 %,
  - Scheduled Tribes Population is 2.3 %,
  - Scheduled Caste Population is 52.3 %,
  - Village literacy rate is 46.9%
  - Female Literacy rate is 19.9%.

#### **Summary of visit**

- The ACIC-CBIT team spoke with Gopularam Srivinivas' Sarpanch, who is very involved in fostering community growth. He stated that his town had a large number of high school and college dropouts as well as certain inherent skills.
- Together with him, ACIC CBIT hopes to carry out various capacity-building initiatives that will improve the villagers' standard of living and encourage innovation and entrepreneurship.

#### **Expected Outcome:**

Students, Faculty, Researchers, Startups, and Community/Grassroot Innovators should take upthese issues and come out with a solution that solves the community issue and make their life easier.

Capacity Building programs will be conducted for local youth in Electronics & Computers and Innovation & Entrepreneurship to invigorate Innovation mindset and Livelihood enhancement.

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized an IIC (Institution's Innovation Council) — Impact Lecture series as part of MIC program on the topic "Design Thinking and Product Innovation." Dr. U. K. Choudhury has started the session by welcoming guests and has shared a brief note on the importance of these sessions for students and faculty. Sri Ravi kant, has highlighted the following points in his session

- Explained about the business and the challenging environment entrepreneurs need to work.
- Provided a detailed explanation to designing thinking.
- Elaborated on the qualities of innovator and highlighted the quality empathy which is the most essential to understand the customer and to design and develop the product.
- Provide glimpses on prototyping and the care to be taken while developing the prototype.
- Highlighted the top 10 skills required for 2020- 2030 for the students
- With relevant examples he explained the business value creation model and process.
- Specified that design thinking is a Human-centric approach

109 participants have attended this session. Apart from students, faculty of CBIT, faculty from different college and employees from the industry have joined the session. Everyone has expressed their at most satisfaction in attending this session.

#### **Screenshots of the session:**

Chaitanya Bharathi Institute of Technology(A)

**Department of Biotechnology** 

Industry Name: ALEAP WE HUB, Hyderabad, Telangana

Date of Visit: 26-11-2021

Target students: B. Tech Biotech V Sem (51 students and 5 faculties)

A Brief report:

As part of Industrial visit, Dept. of Biotechnology in association with IIC has organized a one-

day visit to ALEAP-WE HUB, Pragathinagar, Hyderabad on 26th November of 2021. This

programme was utilised by 51 students of 3<sup>rd</sup> years (5<sup>th</sup> semester) and 5 faculties including Dr

C. Obula Reddy, Dr V. Aruna, Dr. B. Mishra, Dr. B. Sumithra & Dr. Y. V. Kiran coordinated

the visit.

Students and Faculty travelled through the college bus and reached the destination at 11.30

AM. Dr Zahoorullah S.Md, Chief Innovation Officer of We- HUB addressed the students and

presented the orientation about the goals of WE- Hub and different start-ups activities involved

with ALEAP in their conference room. He demonstrated about each and every process that are

part of ALEAP and detailed about how this incubator fosters different young entrepreneurs

especially women to start-up and scale up by providing support in funding, mentoring and for

growth. Finally, motivated the students to come up with new innovative ideas and to build their

start-ups by synergizing with WE- HUB.

Later, students were formed into three groups and were taken to view & understand actual

manufacturing units of ALEAP. The 4 units visited include Biotechnology, Bio - plastics, 3D

printing, solar panel assisted food drying and food production unit where biscuits making &

packaging were explained. With this, students and the teacher guides returned to college by

4.10 pm.

**Outcome of the Industry Visit:** 

Through this visit, students gained knowledge about various types of industries and the

associated challenges. This also ignited the students with identifying different entrepreneurial

opportunities and objectives that enable them to build their start up.

# Photos of the visit

# ACIC CBIT Research & Entrepreneurship Foundation

# **Community Outreach Program Report**

#### **Purpose of Visit:**

The vision of outreach program is twofold:

- To interact with local /Unserved & Underserved communities regarding community problems and eventually coming out with innovative solutions which can be taken up by Community Innovators/Students/Startups/Faculty/Researchers
- To scout for Rural Innovations/ Grassroot Innovations or Innovators and support them through ACIC CBIT to make it market ready product and enhance their livelihoods

#### **Village visited:**

Maharajpet Village, Shankarpally Mandal, Rangareddi District, Telangana State (501503), India

#### **Date & Details:**

- Visit happened on 02-11-2021 (10am to 4pm)
- 70 Students, 15 Faculty and ACIC Staff were part of the Community outreach Program
- Village has about 300 Houses with a population of about 1500 residents (1134 voters)

#### **Problem Statements Identified:**

- 1) Inappropriate disbursement of Pensions & Information regarding government schemes
- 2) No Pharmacy nearby
- 3) Improvement in Infrastructure and Sophisticated facilities in health center (only Wednesdays doctors are visiting)
- 4) Many kids are there in the village but there is no Pediatrician
- 5) Transportation problem from Village to Main Road (Intra Transport Facility)
- 6) Skilling in Tailoring & Embroidery

- 7) Due to rains electric shocks near transformer
- 8) Skill enhancement courses to villagers of youth
- 9) Pigs and Peacocks problem in agriculture
- 10) Income generative avenues for villagers (Revenue Generation)
- 11) School requires facilities (Computer facilities, Wifi and Clean water, Revamping Washrooms, Condition of the school has to be enhanced)
- 12) Old people are looking for small scale jobs
- 13) Drainage Problem at few areas due to that Mosquito issues
- 14) Skilling in Music, Dance and Musical Instruments
- 15) Last mile connectivity for crop produce
- 16) Guidance regarding pesticide usage in crops and monitoring of crops
- 17) Old and PWDs facing problem in getting pension and Medicines
- 18) Karate training
- 19) Rain harvesting system in houses (Road level is low, facing so many problems when it rains)
- 20) Capacity Building Programs in essential technologies and latest technologies (Word, Excel, ATM Operation, Financial Education etc.)
- 21) Snakes are coming due to overgrowing of bushes
- 22) Most of them addicted to raw liquor/ adulterated liquor which indeed diminishing their livelihood- counseling required
- 23) Network issues in the village

#### **Expected Outcome:**

Students, Faculty, Researchers, Startups, Community/Grassroot Innovators should take up these issues and come out with a solution which solves the community issue and make their livelihood easier.

# Chaitanya Bharati Institute of Technology Institute Innovation Council Self Driven Activity

Development and Project Management
of Innovative Product.
Entrepreneurial Ecosystem and Student Involvement

# **New product Innovation, Research and Development**

Research as Noun: A careful study of a subject, especially in order to discover new facts or information about it

Research and Development: Work that tries to find new products and processes or to improve existing ones

Basic research, also called pure research or fundamental research, is a type of scientific research with the aim of improving scientific theories for better understanding and prediction of natural or other phenomena.

Applied research is a methodology used to solve a specific, practical issue affecting an individual or group. This scientific method of study and **research** is used in business, medicine, and education in order to find solutions that may improve health, solve scientific problems/develop new technology.

**Invention** refers to the creation of a brand new product or device.

Conversely,

**innovation** is an act of making changes to the existing product or the process by introducing new ways or ideas.

- The term 'invention', is defined as the act of creating, designing or discovering a device, method, process, that has not existed before.
- In finer terms, it is a novel scientific idea conceived through research and experimentation that turns into a tangible object.
- It can be a new process of producing a product or may be an improvement upon a product or a new product.
- Inventions can be patented, the invention must be novel, have value and non-obvious.
- The word 'innovation' itself signifies its meaning, as the transformation of an idea into reality or translating it into the products demanded by the customers.
- In the purest sense, innovation can be described as a change that adds value to the products or services; that fulfills the needs of the customers.
- It is when something new and effective is introduced to the market, that fulfills the needs of the customers by delivering better products and services.
- Innovation can be an introduction or development of new product, process, technology, service or improving/redesigning the existing ones that provide solutions to the current market requirements.

#### Basic Research.

• Basic research has as its objective "a more complete knowledge or understanding of the subject under study, without specific applications in mind."

# Applied Research.

Applied research is directed toward gaining "knowledge or understanding to determine the means by which a specific, recognized need may be met." In industry, applied research includes investigations directed "to discovering new scientific knowledge that has specific commercial objectives with respect to products, processes, or services."

# Development.

Development is the "systematic use of the knowledge or understanding gained from research, directed toward the production of useful materials, devices, systems or methods, including design and development of prototypes and processes

# This can be summarized as following research activities:

- Producing significant advances across the broad front of understanding of natural and social phenomena—basic research
- Fostering inventive activity to produce technological advances—applied research and development
- Combining understanding and invention in the form of socially useful and affordable products and processes—innovation
- Converting it into a business for self reliance and solving the employment issue.

## **R&D** and Innovation with focus on Applied Research & innovation. Linkage for Entrepreneurship.

- Complexity of the technology .
- Many disciplines have to be coordinated and it's the manager who brings the many components together so they can function smoothly, each making an optimal contribution to the R&D organization.
- the art of integrating the efforts of its many participants.
- Three pronged R&D/Start-up approach
- R&D/Start-up organizations' focus on information, the work itself involves considerable uncertainty since the output can never be predicted perfectly from the various inputs used.
- Uncertainty, therefore, gives R&D enterprises a unique quality, and people involved in research and development have some unique characteristics.
- The obvious ones are training and high aptitude.
- Perhaps, more importantly, people working in R&D have been socialized differently from others.
- This process occurred during their graduate training, since in order to do well they had to work autonomously and show some initiative and curiosity.
- People are more independent and articulate . . . So they need to be handled differently." A progressive manager would be well advised to use few sticks and every available carrot.
- Also, accepting "odd" behavior (some people would call immature) and granting considerable autonomy to the researcher are highly desirable.
- sharing of scientific knowledge.
- Managing an R&D organization, then, is essentially the art of integrating the efforts of diverse, creative, intelligent, and autonomous individuals.
- Considering the important role R&D plays in the economic well-being of a nation, the profitability of a business enterprise, the effectiveness of a technology-based governmental agency (e.g., the Department of Defense) we have many opportunities available for us to become an entrepreneur.

**Product Innovation:** Product innovation can come in three different forms:

- 1) The development of a new product
- 2) An improvement of the performance of the existing product
- 3) A new feature to an existing product

**Process Innovation:** Process is the combination of facilities, skills, and technologies used to produce, deliver, and support a product or provide a service.

**Business Model Innovation:** Business model innovation does not necessarily imply changes in the product or process, but in the way as it is brought to the market or directly delivered to customers.

# SKILL MATRIX

SELF- AWARENESS	SELF- MANAGEMENT	SOCIAL AWARENESS	RELATIONSHIP MANAGEMENT
Emotional self-awareness	Emotional self-control	Empathy	Influence
	Adaptability		Coach and mentor
	Achievement orientation	Organizational awareness	Conflict management
			Teamwork
	Positive outlook		Inspirational leadership

# EQ vs. IQ

EQ is emotional intelligence, which, as stated above, is all about identifying emotions in ourselves and others, relating to others, and communicating about our feelings.

IQ, on the other hand, is cognitive intelligence. This is the intelligence that people are generally most familiar with, as it is the type that is most often referred to when the word "intelligence" is used. It is also the type that is most often measured through testing and estimated through things like grade-point average.

Self-awareness, self-management, social awareness, and relationship management.

# **5 Key Skills in the Emotional Intelligence Framework**

This <u>emotional intelligence framework</u> has been adapted to fit business and organizational contexts. In this organizational context, there are a few sub-skills and abilities under each component that contribute to higher emotional intelligence and greater success as an employee, group member, and organization member:

## Self-Awareness:

- Emotional awareness: recognizing one's emotions and their effects;
- Accurate self-assessment: knowing one's strengths and limits;
- Self-confidence: sureness about one's self-worth and capabilities.

# Self-Regulation:

- Self-control: managing disruptive emotions and impulses;
- Trustworthiness: maintaining standards of honesty and integrity;
- Conscientiousness: taking responsibility for personal performance;
- Adaptability: flexibility in handling change;
- Innovativeness: being comfortable with and open to novel ideas and new information.

# Self-Motivation:

A alaine and advisors atvissing the improves on mannet a lateral and a second and

# •Empathy/Social Awareness:

- Empathy: sensing others' feelings and perspective, and taking an active interest in their concerns;
- Service orientation: anticipating, recognizing, and meeting customers' needs;
- Developing others: sensing what others need in order to develop, and bolstering their abilities;
- Leveraging diversity: cultivating opportunities through diverse people;
- Political awareness: reading a group's emotional currents and power relationships.

# Social Skills:

- Influence: wielding effective tactics for persuasion.
- Communication: sending clear and convincing messages.
- · Leadership: inspiring and guiding groups and people.
- Change catalyst: initiating or managing change.
- Conflict management: negotiating and resolving disagreements.
- Building bonds: nurturing instrumental relationships.
- Collaboration and cooperation: working with others toward shared goals
- Team canabilities: creating group synergy in pursuing collective goals

Q

MORE

# How do Hype Cycles work?

Each Hype Cycle drills down into the five key phases of a technology's life cycle.

- Innovation Trigger: A potential technology breakthrough kicks things off. Early proof-ofconcept stories and media interest trigger significant publicity. Often no usable products exist and commercial viability is unproven.
- Peak of Inflated Expectations: Early publicity produces a number of success stories often
  accompanied by scores of failures. Some companies take action; many do not.
- Trough of Disillusionment: Interest wanes as experiments and implementations fail to deliver.
   Producers of the technology shake out or fail. Investments continue only if the surviving providers improve their products to the satisfaction of early adopters.
- Slope of Enlightenment: More instances of how the technology can benefit the enterprise start to crystallize and become more widely understood. Second- and third-generation products appear from technology providers. More enterprises fund pilots; conservative companies remain cautious.
- Plateau of Productivity: Mainstream adoption starts to take off. Criteria for assessing provider viability are more clearly defined. The technology's broad market applicability and relevance are clearly paying off.

# Hype Cycles help you:

- Separate hype from the real drivers of a technology's commercial promise
- Reduce the risk of your technology investment decisions
- Compare your understanding of a technology's business value with the objectivity of experienced IT analysts

## **Academic Research Organizations**

Academic research is usually small-scale basic research carried out in academic departments of universities by students or research associates under the direction of university professors who also teach.

# Research takes too long.

- Our need to solve the alternative fuel problem is now, not three years from now. We just can't wait for years for researchers to study the problem.
- We need answers more quickly than researchers provide them.
- The research program is too esoteric. We need solutions that are practical.
- Researchers study the problem to death to find a 100 percent solution. What is wrong with a
  quicker solution that is not quite 100 percent?
- This problem seems to go on forever.
- We always hear about your previous accomplishments. How about the future? What can we expect from you next year and the year after?

# Other questions related to the issue of what to research often include the following:

- How should user needs be considered?
- Who are the real users?
- How should a comprehensive and responsive research program be formulated?
- How should the tradeoffs between long-range research needs and short-range or immediate requirements be made?

# Another approach that an R&D manager could utilize would be a two-part strategy:

- First, empathize with the sponsor's needs and be responsive in a genuine manner. This would translate to providing interim solutions, to the degree possible, for critical problems. Explain to the sponsor the limitations and uncertainties involved.
- Second, educate the sponsor regarding the nature of the research enterprise. Focus on why it is in his
  or her best interest to follow a systematic, though time-consuming, process of research and
  development.
- so that solutions developed are scientifically valid, are appropriate to the problem at hand, and truly provide a more advantageous solution to the problem than the existing technology does.
- This could involve undertaking a mix of research activities ranging from basic research that might take three to five years, to applied research that might provide some solutions within one to two years

# The basic elements required for an R&D organization are:

(1) people, (2) ideas, (3) funds, and (4) Infrastructure and cultural elements.

- These four basic ingredients have to be coordinated with skill by the management of R&D organizations in order to achieve high productivity and excellence.
- It is obvious that the most important element is creative people. Such people have the bright ideas and skills to do research and then translate research results into useful products.
- However, these people must be organized into structures that permit effective cooperation.

#### **ELEMENTS NEEDED FOR AN R&D ORGANIZATION or START-UP**

#### **PEOPLE**

Identified four different personality traits relevant for engineers:

- *Creative Type*. Creative types are idea generators, comfortable with abstract problem solving and have a preference for working alone.
- *Entrepreneurial Type*. Entrepreneurial individuals are more likely to take and manage risk while giving the profitability of a product or project high priority.

**Analytical Type.** Analytical people do well with complexity and prefer to have order and organization while also avoiding risk.

• **Development Type.** Development-oriented personalities tend to gravitate toward team projects and maintain high energy levels while cooperating with others.

#### **People**

- People in R&D organizations normally would have graduate training and relatively high aptitude. They are socialized
  during their graduate training to work autonomously and show considerable initiative.
- People who are most likely to succeed in an R&D organization are analytical, curious, independent, intellectual, and introverted and enjoy scientific and mathematical activities.
- Such people tend to be complex, flexible, self-sufficient, task-oriented, and tolerant of ambiguity.
- An anecdote will help convey more clearly what is special about R&D personnel.
- The famous German scientist Hermann Helmholtz put a sign up on his lab: "Do not disturb."
- This was all that his students and collaborators were able to see for a month.
- After some 30 days Helmholtz emerged with an important new theory that eventually led to the development of radio and television.
- The person who is not easily discouraged and is sure of his or her goals and how to reach them is more likely to persist. Interaction with peers is also essential, since most new ideas are generated not by reading the literature but by talking with others who are working on similar problems.

#### Ideas

• Ideas in an R&D organization are generated through a unique communication Network, brain storming, meetings, seminars, workshops etc.

#### **Funds**

- In general, funding sources for R&D organizations are different from those for any similar large enterprise.
- This funding support, coupled with research productivity benefits that accrue to society at large rather than the individual or the sponsoring organization, gives R&D organizations a unique characteristic.

#### Culture

- For an R&D organization, objective elements such as research laboratory facilities and equipment and office buildings are different from those of other organizations.
- Subjective elements such as rules, laws, standard operating procedures and unstated assumptions, values, and norms for an R&D organization are also different.
- Management decisions affecting individuals are thus critically evaluated and questioned by the researchers.

- 1. Artificial intelligence (AI) and machine learning. The increasing ability of machines to learn and act intelligently will absolutely transform our world. It is also the driving force behind many of the other trends on this list.
- 2. The Internet of Things (IoT). This refers to the ever-growing number of "smart" devices and objects that are connected to the internet. Such devices are constantly gathering and transmitting data, further fueling the growth in Big Data and AI.
- 3. Wearables and augmented humans. What started with fitness trackers has now exploded into a whole industry of wearable technology designed to improve human performance and help us live healthier, safer, more efficient lives. In the future, we may even see humans merge with technology to create "augmented humans" or "transhumans."
- **4. Big Data and augmented analytics.** Big Data refers to the exponential growth in the amount of data being created in our world. Thanks to augmented analytics (highly advanced data analytics, often fueled by AI techniques), we can now make sense of and work with enormously complex and varied streams of data.
- 5. Intelligent spaces and smart places. Closely linked to the IoT, this trend is seeing physical spaces like homes, offices, and even whole cities becoming increasingly connected and smart.
- **Blockchains and distributed ledgers.** This super-secure method of storing, authenticating, and protecting data could revolutionize many aspects of business particularly when it comes to facilitating trusted transactions.

- 7. **Cloud and edge computing.** Cloud computing where data is stored on other computers and accessed via the internet has helped to open up data and analytics to the masses. Edge computing where data is processed on smart devices (like phones) will take this to the next level.
- 8. **Digitally extended realities.** Encompassing virtual reality, augmented reality, and mixed reality, this trend highlights the move towards creating more immersive digital experiences.
- 9. **Digital twins.** A digital twin is a digital copy of an actual physical object, product, process, or ecosystem. This innovative technology allows us to try out alterations and adjustments that would be too expensive or risky to try out on the real physical object.
- 10. **Natural language processing.** This technology, which allows machines to understand human language, has dramatically changed how humans interact with machines, in particular giving rise to...
- 11. **Voice interfaces and chatbots.** Alexa, Siri, chatbots many of us are now quite used to communicate with machines by simply speaking or typing our request. In the future, more and more businesses will choose to interact with their customers via voice interfaces and chatbots.
- 12. **Computer vision and facial recognition.** Machines can talk, so why shouldn't they "see" as well? This technology allows machines to visually interpret the world around them, with facial recognition being a prime example.
- 13. Robots and cobots. Today's robots are more intelligent than ever, learning to respond to their environment and perform tasks without human intervention. In certain industries, the future of work

- 14. **Autonomous vehicles.** The 2020s will be the decade in which autonomous vehicles of all kinds cars, taxis, trucks, and even ships become truly autonomous and commercially viable.
- 15. **5G.** The fifth generation of cellular network technology will give us faster, smarter, more stable wireless networking, thereby driving advances in many other trends (e.g., more connected devices and richer streams of data).
- 16. **Genomics and gene editing.** Advances in computing and analytics have driven incredible leaps in our understanding of the human genome. Now, we're progressing to altering the genetic structure of living organisms (for example, "correcting" DNA mutations that can lead to cancer).
- 17. Machine co-creativity and augmented design. Thanks to AI, machines can do many things including creating artwork and designs. As a result, we can expect creative and design processes to shift towards greater collaboration with machines.
- 18. **Digital platforms.** Facebook, Uber, and Airbnb are all household-name examples of digital platforms networks that facilitate connections and exchanges between people. This trend is turning established business models on their head, leading many traditional businesses to transition to or incorporate a platform-based model.
- 19. **Drones and unmanned aerial vehicles.** These aircraft, which are piloted either remotely or autonomously, have changed the face of military operations. But the impact doesn't stop there search and rescue missions, firefighting, law enforcement, and transportation will all be transformed by drone technology. Get ready for passenger drones (drone taxis), too!

- 20. **Cybersecurity and resilience.** As businesses face unprecedented new threats, the ability to avoid and mitigate cybersecurity threats will be critical to success over the next decade.
- 21. **Quantum computing.** Quantum computers unimaginably fast computers capable of solving seemingly unsolvable problems will make our current state-of-the-art technology look like something out of the Stone Age. As yet, work in quantum computing is largely restricted to labs, but we could see the first commercially available quantum computer this decade.
- 22. **Robotic process automation.** This technology is used to automate structured and repetitive business processes, freeing up human workers to concentrate on more complex, value-adding work. This is part of a wider shift towards automation that will impact every industry.
- 23. Mass personalization and micro-moments. Mass-personalization is, as you might expect, the ability to offer highly personalized products or services on a mass scale. Meanwhile, the term "micro-moments" essentially means responding to customer needs at the exact right moment. Both are made possible by technologies like AI, Big Data, and analytics.
- 24. **3D** and **4D** printing and additive manufacturing. Although this may seem low-tech compared to some of the other trends, 3D and 4D printing will have very wide applications and will be particularly transformative when combined with trends like mass-personalization.
- 25. Nanotechnology and materials science. Our increasing ability to understand materials and control

Table 1.1 Market leaders in 2015

Industry Market leaders		Innovative new products and services	
Cell phones	Samsung; Apple	Design and new features	
Internet-related industries	Google; Facebook New services		
Pharmaceuticals	maceuticals Pfizer; GlaxoSmithKline Impotence; ulcer treatme		
Motorcars Toyota; BMW		Car design and associated product developments	
Computers and software development	Intel; IBM and Microsoft; SAP	Computer chip technology, computer hardware improvements and software development	

Table 1.2 World's most innovative companies

2014 Rank	Company	Revenue growth 2012–13 % change	R&D spending 2012–13 % change
1	Apple	9.2	32.4
2	Google	19.2	17.1
3	Samsung	17.0	27.8
4	Microsoft	5.6	6.1
5	IBM	-4.6	-1.2
6	Amazon	21.9	43.8
7	Tesla Motors	387.2	-15.3
8	Toyota	-3.9	-6.9
9	Facebook	54.7	1.1
10	Sony	-5.7	-18.8

# **Guidelines for Successful Entrepreneurship**

SI no.	Preferred Qualities for Entrepreneurship
1	The student should be a Creative thinker, able to express his ideas clearly, multi-tasking and able to prioritise the tasks to be executed.  Determination Persistent, eager to act, confront obstacles, not deterred by roadblocks Sticking with failing strategy, focus on big picture
2	Should participate in idea competitions (SIH, MSME proposals etc), and/or should have discussed some of his innovative idea with the faculty members, mentors with brief write-up describing the proposal/innovative idea.
3	He should be able to collaborate with others for team working, must be prepared to take responsibility
4	He should be a Knowledge-seeker, interested for in-depth information, able to create a clear roadmap for any new idea to be pursued.
5	Assertive in communication, should be able to build network for getting help from other students and others
6	Aware of technical challenges being faced by industry and society. Interested in solving the problems faced by the society.
7	Good at planning and ready to take calculated risk. Aware of contingency plan. Aware about Business plan.
8	Seminars, idea presentation on any platform, Patent, paper publication etc.
9	Sincerity, discipline
10	Knowledge in Finance Management and Labour laws

# Thank you

My Story - Motivational Session by Successful Innovators.

## by Mr Venkatesh Yerramala

LMI Facilitator and CEO at Confluence Center for Sustainable Development & Confluence International

**Type:-** IIC Calendar Activity

Presentation was started by Mr Venkatesh Yerramala by defining the meaning of START UP as a Venture founded by one or more entrepreneurs to develop a unique product or service and release in the market.

Startups refer to new businesses that intend to grow large beyond the solo founder(s).

For success of any START UP value delivery to the customer is the most important criteria.

Mr Venkatesh has explained about the concept named "Unicorn" which refers to START Ups valued for 1 Billion US Dollars from India and specifically about Dawin Box, Unicorn from Hyderabad.

Then presentation was about what makes a startup successful and presenter spoke about the value delivery + execution giving the desired results of value delivery to customers, market captured and thus profits.

Mr Venkatesh has also explained briefly the principles to successful StartUp such as market validation, design thinking, partnering, entrepreneurial learning and designing business model.

Few reasons for start-Up failures such as without testing it on small scale first, lack of management, wrong business models, lack of focus, no market need, disharmony on team, inexperience, running out of cash, etc., should be thoroughly assessed and take all the measures to avoid failure situation.

Presentation ended with brief introduction to use of business model canvas.

The 21st century has given birth to the ultimate beacon of capitalism – entrepreneurship. These days, swarms of people graduating from university throw in the risk dice and hope to get sizable rewards from the entrepreneurship game. An entrepreneur's career revolves around taking risks, planning, organizing, streamlining, leading and managing a business venture in a competitive market.

These individuals have a burning idea that wants to manifest itself to change people's lives in a way that is not only innovative but is also able to fetch profits for the shareholders of the business. Although it's not everyone's cup of tea, entrepreneurship has certainly fascinated millennials more than others. The big kahunas of the tech world today – Mark Zuckerberg, David Karp, Daniel Ek, etc. are millennials who started off humbly, but have scaled soaring heights. Today's entrepreneurs are tearing down the wall of traditional business models by implementing processes that are viable, sustainable and in-sync with the new generation workforce.

Some of the punchy reasons why entrepreneurship appeals so much to people as a career option are:

- To be their own boss and run their own show.
- To generate an idea that could solve people's problems and to execute a business plan from the ground-up.
- To create new job opportunities, thereby helping a national economy to thrust unemployment rates down.
- To explore all facets of business sales, marketing, human resources, finance, product and project management, administration, and even customer support
- To be associated with other like-minded people who share the same fiery passion for product and business

Entrepreneurship is a field that bursts open a world of possibilities for people who are smart, hardworking, creative, business-savvy and systematic. Countries like Switzerland, United States, India, Germany and Canada are rife with venture capitalists who are always hungry to invest their capital in the right idea and with the right people.

## REPORT ON CBIT-IIC-IMPACT LECTURE SESSION-1 Lecture-1

Speaker: Sri Kunnwar Vijay Parmar

A Social Entrepreneur, Nominated Innovation Ambassador Expert by IIC (Institution's Innovation council, Ministry of Education). Launched India's 1st farm tourism start-up. Innovated World's 1st Start-up Game and Program. Founder – SKILLEIT and Banni Khera Farms.

Topic: Strategic Management of R&D and Innovation Ecosystem

Date: 05.10.2021

Time: 12:45 PM

**Mode of Conduction**: Online through cisco webex

No. of Participants: 260

Video links for two sessions.

## Report:

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized an IIC – Impact Lecture series as part of MIC program on the topic "Strategic Management of R&D and Innovation Ecosystem". This Session has started by welcoming the guest. Sri Kunnwar Vjay Parmar has highlighted the importance of innovations in the current situations in a simple and most easy way so that students have no problem in understanding. He has highlighted the following points in his session with most suitable examples

- **About social innovation and its importance** He said that social innovation is some thing which people will do based on general observation in his/her life. He even emphasized that innovation is linked to one's own skills and the availability and utility of resources present.
- The process of social innovation Mr. Parwar mentioned that ideation or innovation should be done fast, and it should not take more time where others are ahead of you. It should take 3 months of time in finishing. He advised the students that While working on any innovation, they should be within the four walls, instead they should go to the field and be in the market to learn the realities of the market.
- What is R&D and Innovation Ecosystem He clearly explained the essentials for innovation, like the environment, mindset, resources and the encouragement. He emphasized on managing the resources judicially.
- **Initiation from other organizations** Organizations who have social innovated and the ministries which play a crucial role in sanctioning the licenses.
- What is s strategy and the role it is having in innovation He specified that ideas should have sustainability. Highlighted the importance of strategically defining each step of innovation to get clarity and to be ahead of others. Instructed the necessity of partnering with other organizations because of budget issues, or technology issues or because of any other matters.
- Students thinking makes the difference It can happen only when the student is observing their premise and instead of discussing the problem, they need to find the solution. With this innovation is guaranteed.

More than 266 participants have attended this session. Apart from students, faculty of CBIT, faculty from different college and employees from the industry have joined the session. Everyone has expressed their at most satisfaction in attending this session.

# 25.10.2021 - REPORT ON CBIT-IIC-IMPACT LECTURE SESSION 2 Lecture-1

Speaker: Sri Ravi Kant, CTO Banking, GCC, Global Delivery expert.

The Theme of Lecture: Design Thinking and Critical Thinking

Title of the Lecture: Design Thinking and Product Innovation

Date: 25.10.2021

**Time:** 12:45 PM

Mode of Conduction: Online through cisco webex

No. of Participants: 109

Meeting Link:

https://cbithyd.webex.com/cbithyd/j.php?MTID=m391ee2965cc1d2eb98adf0d14a23a367

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized an IIC (Institution's Innovation Council) – Impact Lecture series as part of MIC program on the topic "Design Thinking and Product Innovation." Dr. U. K. Choudhury, Prof. & Director (Innovation & Incubation) has started the session by welcoming guests and has shared a brief note on the importance of these sessions for students and faculty. Sri Ravi Kant, has highlighted the following points in his session

- Explained about the business and the challenging environment entrepreneurs need to work.
- Provided a detailed explanation to designing thinking.
- Elaborated on the qualities of innovator and highlighted the quality empathy which is the most essential to understand the customer and to design and develop the product.
- Provide glimpses on prototyping and the care to be taken while developing the prototype.
- Highlighted the top 10 skills required for 2020- 2030 for the students
- With relevant examples he explained the business value creation model and process.
- Specified that design thinking is a Human-centric approach

109 participants have attended this session. Apart from students, faculty of CBIT, faculty from different college and employees from the industry have joined the session. Everyone has expressed their at most satisfaction in attending this session.

# 25.10.2021 - REPORT ON CBIT-IIC-IMPACT LECTURE SESSION 2 Lecture-2

**Speaker**: Ms. Ritu Srivastava, Founder Skilleit.

The Theme of Lecture: Startups

Title of the Lecture: Success Mantra and Execution of a successful Startup -

**Entrepreneurship** 

**Date:** 25.10.2021

**Time:** 2:15 PM

Mode of Conduction: Online through cisco webex

No. of Participants: 109

## **Meeting Link:**

https://cbithyd.webex.com/cbithyd/j.php?MTID=m391ee2965cc1d2eb98adf0d14a23a367

Video Link: (Both Sessions recorded at a stretch, Second half of recording is Session-2)

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized an IIC (Institution's Innovation Council) — Impact Lecture series as part of MIC program on the topic "Success Mantra and Execution of a successful Startup - Entrepreneurship." Ms. Ritu Srivastava has highlighted the following points in her session:

- Explained the importance of Intrapreneurship. How through intrapreneurship, many startup firms have started and were successful.
- Stressed on the entrepreneurial mind-set and qualities they should have.
- Detailed on the start-up stages with relevant examples
- Elaborated on Angle investors and the process and how the students can approach them for financial requirements.
- Highlighted the essential success parameters to concentrate on.

109 participants have attended this session. Apart from students, faculty of CBIT, faculty from different college and employees from the industry have joined the session. Everyone has expressed their at most satisfaction in attending this session.

# Chaitanya Bharathi Institute of Technology, Hyderabad

## **IIC-CBIT**

# **IIC Calendar Activity**

Title of the Session: "Design Thinking (Prototyping, Validation) Workshop Design Thinking (Prototyping, Validation) Workshop" (IIC Calendar Activity)

**Speaker of the session**: **Ritu Srivaastava,** Co-Founder, Skilleit, Nominated Innovation, Ambassador Expert by IIC

Date: 25.2.2022

Time: 2.45 pm to 4.15 pm

Online Meeting Link: ( Hybrid Mode Student offline and Resource person online <a href="https://cbithyd.webex.com/cbithyd/j.php?MTID=m2bde6cdce8dbfd51032c27af33db3d2c">https://cbithyd.webex.com/cbithyd/j.php?MTID=m2bde6cdce8dbfd51032c27af33db3d2c</a> Scope:

- Outline the steps in design thinking
- Case Study Design thinking
- Types of Prototyping and its validation

# **Learning Outcome of the session:**

- Explain the various steps involved in design thinking
- Demonstrated case study with food delivery app
- Summarized about user personas, empathy task flow etc.
- Described about minimum value product.
- Discussed about types of Prototyping and its validation.

Participant Attended: Students – 112; faculty: 18

#### Poster:

# Chaitanya Bharathi Institute of Technology, Hyderabad IIC-CBIT

# **IIC Calendar Activity**

**Title of the Session**: Entrepreneurship and Innovation as Career Opportunity

**Speaker of the session**: **Kunnwar Vijay Parmar**, Founder, Skilleit. A social entrepreneur & Innovator. Nominated-Innovation Ambassador by MHRD's Innovation Cell, Innovated-World's 1st Startup Game & Reflector Stick for Blind, Founded India's 1st Farm Tourism Start-up.

Date: 25.02.2022

Time: 01.15 pm to 02.45 pm

# **Online Meeting Link:**

https://cbithyd.webex.com/cbithyd/j.php?MTID=m2bde6cdce8dbfd51032c27af33db3d2c

# Scope:

- Entrepreneurship, Intrapreneur, StartUps and Innovation etc
- Options for the career Opportunities

# **Learning Outcome of the session:**

- Illustrated about Entrepreneurship, StartUps and Innovation.
- Summarized Atma Nirbhar and Atma prerit
- Innovation with career opportunity was explained with examples

Participant Attended: Students – 112; faculty: 18

#### Poster:

# Chaitanya Bharathi Institute of Technology, Hyderabad IIC-CBIT

# **IIC Calendar Activity**

**Title of the Session**: "Process of Innovation Development & Technology Readiness Level (TRL) & Commercialisation of Lab Technologies & Tech-Transfer". (IIC Calendar Activity)

**Speaker of the session: Ashu Agrawal,** India Lead & Global Founding Team Member, Asia Tech Journal | Core Focus-Legal, Finance & Venture Capital, South Delhi, Delhi, India

Date: 12.2.2022

Time: 2.30 pm to 4.00 pm

# **Online Meeting Link:**

https://cbithyd.webex.com/cbithyd/j.php?MTID=m50b6a49733c937eacc70db01589d3211

# Scope:

- Stages of Process of Innovation Development
- Post 2020 and Digit transformation
- Outline the Technology Readiness Level
- Summarisation of Commercialisation of Lab Technologies &
- Steps involved in the Tech-Transfer

# **Learning Outcome of the session:**

- Based on the customer requirement and identification of gap in the market
- Consumer behaviour and elements of design thinking
- Stages of Technology Readiness Level
- Commercialisation and Technology Transfer

Participant Attended: 137 (faculty and students)

#### :Report:

Department of CSE, Women Development Cell CBIT in association with SWECHA is organizing an Online Session on SHE (Speak Hear Empower) TALKS: "Equality For Women Is Progress for All" - Session 2

Date & Time: 26th February at 2PM -3PM

**Link:** https://virtual.swecha.org/b/rav-2w9-z0l-foe

Agenda: SHE (Speak Hear Empower) TALKS: "Equality For Women Is Progress for All" -

Session 2

#### **Recording Link:**

 $\underline{https://virtual.swecha.org/playback/presentation/2.3/e9961cc301c5d1c3b8386126f5ac1c82f29ee4b1-1645863617542}$ 

#### **Objective:**

To secure a sound and sustainable economic development, nations should empower and educate women and girls.

Speaker Profile: Name: Srujana Botcha

Executive Committee Member at Swecha Telangana, FSMI Currently working as a Senior Gaming QA Engineer in Indium Software

#### **Presentation:**

During the event **Ms Srujana** addressed that Gender-based discrimination, trafficking in women and girls, integration difficulties, under-representation in politics, unequal access to resources, unequal employment strategies, and lack of access to basic services, are the key factors behind the unequal status of migrant women. However, it is no longer acceptable to live in a world where young girls are taken out of school and forced into early marriage, where women's employment opportunities are limited, where women are seriously underrepresented in decision making processes and where the threat of gender-based violence is a daily reality. Ms Ravali , Member Swecha said that it was the time to uphold women's achievements, recognize challenges and focus greater attention on women's rights and gender equality to mobilize all people to do their best. The event took place in online mode through BigBlue Button streaming service. Ms.I.Srujana , Asst Prof delivered the vote of thanks. Event enthusiastically hosted by Prof. Y.Ramadevi , HOD, CSE Department. Total 60 participants has joined the session. The event was successfully coordinated by Ms.I.Srujana and Dr.G. Vanitha.

#### How do Hype Cycles work?

Each Hype Cycle drills down into the five key phases of a technology's life cycle.

- Innovation Trigger: A potential technology breakthrough kicks things off. Early proof-ofconcept stories and media interest trigger significant publicity. Often no usable products exist and commercial viability is unproven.
- Peak of Inflated Expectations: Early publicity produces a number of success stories often
  accompanied by scores of failures. Some companies take action; many do not.
- Trough of Disillusionment: Interest wanes as experiments and implementations fail to deliver.
   Producers of the technology shake out or fail. Investments continue only if the surviving providers improve their products to the satisfaction of early adopters.
- Slope of Enlightenment: More instances of how the technology can benefit the enterprise start to crystallize and become more widely understood. Second- and third-generation products appear from technology providers. More enterprises fund pilots; conservative companies remain cautious.
- Plateau of Productivity: Mainstream adoption starts to take off. Criteria for assessing provider viability are more clearly defined. The technology's broad market applicability and relevance are clearly paying off.

#### Hype Cycles help you:

- Separate hype from the real drivers of a technology's commercial promise
- Reduce the risk of your technology investment decisions
- Compare your understanding of a technology's business value with the objectivity of experienced IT analysts

#### **Academic Research Organizations**

Academic research is usually small-scale basic research carried out in academic departments of universities by students or research associates under the direction of university professors who also teach.

#### Research takes too long.

- Our need to solve the alternative fuel problem is now, not three years from now. We just can't wait for years for researchers to study the problem.
- We need answers more quickly than researchers provide them.
- The research program is too esoteric. We need solutions that are practical.
- Researchers study the problem to death to find a 100 percent solution. What is wrong with a
  quicker solution that is not quite 100 percent?
- This problem seems to go on forever.
- We always hear about your previous accomplishments. How about the future? What can we expect from you next year and the year after?

#### Other questions related to the issue of what to research often include the following:

- How should user needs be considered?
- Who are the real users?
- How should a comprehensive and responsive research program be formulated?
- How should the tradeoffs between long-range research needs and short-range or immediate requirements be made?

#### Another approach that an R&D manager could utilize would be a two-part strategy:

- First, empathize with the sponsor's needs and be responsive in a genuine manner. This would translate to providing interim solutions, to the degree possible, for critical problems. Explain to the sponsor the limitations and uncertainties involved.
- Second, educate the sponsor regarding the nature of the research enterprise. Focus on why it is in his
  or her best interest to follow a systematic, though time-consuming, process of research and
  development.
- so that solutions developed are scientifically valid, are appropriate to the problem at hand, and truly provide a more advantageous solution to the problem than the existing technology does.
- This could involve undertaking a mix of research activities ranging from basic research that might take three to five years, to applied research that might provide some solutions within one to two years

#### The basic elements required for an R&D organization are:

(1) people, (2) ideas, (3) funds, and (4) Infrastructure and cultural elements.

- These four basic ingredients have to be coordinated with skill by the management of R&D organizations in order to achieve high productivity and excellence.
- It is obvious that the most important element is creative people. Such people have the bright ideas and skills to do research and then translate research results into useful products.
- However, these people must be organized into structures that permit effective cooperation.

#### **ELEMENTS NEEDED FOR AN R&D ORGANIZATION or START-UP**

#### **PEOPLE**

Identified four different personality traits relevant for engineers:

- *Creative Type*. Creative types are idea generators, comfortable with abstract problem solving and have a preference for working alone.
- *Entrepreneurial Type*. Entrepreneurial individuals are more likely to take and manage risk while giving the profitability of a product or project high priority.

**Analytical Type.** Analytical people do well with complexity and prefer to have order and organization while also avoiding risk.

• **Development Type.** Development-oriented personalities tend to gravitate toward team projects and maintain high energy levels while cooperating with others.

#### **People**

- People in R&D organizations normally would have graduate training and relatively high aptitude. They are socialized during their graduate training to work autonomously and show considerable initiative.
- People who are most likely to succeed in an R&D organization are analytical, curious, independent, intellectual, and introverted and enjoy scientific and mathematical activities.
- Such people tend to be complex, flexible, self-sufficient, task-oriented, and tolerant of ambiguity.
- An anecdote will help convey more clearly what is special about R&D personnel.
- The famous German scientist Hermann Helmholtz put a sign up on his lab: "Do not disturb."
- This was all that his students and collaborators were able to see for a month.
- After some 30 days Helmholtz emerged with an important new theory that eventually led to the development of radio and television.
- The person who is not easily discouraged and is sure of his or her goals and how to reach them is more likely to persist. Interaction with peers is also essential, since most new ideas are generated not by reading the literature but by talking with others who are working on similar problems.

#### Ideas

• Ideas in an R&D organization are generated through a unique communication Network, brain storming, meetings, seminars, workshops etc.

#### **Funds**

- In general, funding sources for R&D organizations are different from those for any similar large enterprise.
- This funding support, coupled with research productivity benefits that accrue to society at large rather than the individual or the sponsoring organization, gives R&D organizations a unique characteristic.

#### Culture

- For an R&D organization, objective elements such as research laboratory facilities and equipment and office buildings are different from those of other organizations.
- Subjective elements such as rules, laws, standard operating procedures and unstated assumptions, values, and norms for an R&D organization are also different.
- Management decisions affecting individuals are thus critically evaluated and questioned by the researchers.

Table 1.1 Market leaders in 2015

Industry	Market leaders	Innovative new products and services
Cell phones	Samsung; Apple	Design and new features
Internet-related industries	Google; Facebook	New services
Pharmaceuticals	Pfizer; GlaxoSmithKline	Impotence; ulcer treatment drug
Motorcars	Toyota; BMW	Car design and associated product developments
Computers and software development	Intel; IBM and Microsoft; SAP	Computer chip technology, computer hardware improvements and software development

Table 1.2 World's most innovative companies

2014 Rank	Company	Revenue growth 2012–13 % change	R&D spending 2012–13 % change
1	Apple	9.2	32.4
2	Google	19.2	17.1
3	Samsung	17.0	27.8
4	Microsoft	5.6	6.1
5	IBM	-4.6	-1.2
6	Amazon	21.9	43.8
7	Tesla Motors	387.2	-15.3
8	Toyota	-3.9	-6.9
9	Facebook	54.7	1.1
10	Sony	-5.7	-18.8

5 Stages in the Design Thinking Process

- The first stage of the Design Thinking process is to gain an empathic understanding of the problem you are trying to solve.
- This involves consulting experts to find out more about the area of concern through observing, engaging and empathizing with people to understand their experiences and motivations, as well as immersing yourself in the physical environment so you can gain a deeper personal understanding of the issues involved.

- During the Define stage, you put together the information you have created and gathered during the Empathise stage.
- This is where you will analyse your observations and synthesise them in order to define the core problems that you and your team have identified up to this point.
- You should seek to define the problem as a <u>problem statement</u> in a human-centred manner.

- During the third stage of the Design Thinking process, designers are ready to start generating ideas.
- You've grown to understand your users and their needs in the Empathise stage, and you've analysed and synthesised your observations in the Define stage, and ended up with a human-centered problem statement.

The design team will now produce a number of inexpensive, scaled down versions of the product or specific features found within the product, so they can investigate the problem solutions generated in the previous stage.

- Designers or evaluators rigorously test the complete product using the best solutions identified during the prototyping phase.
- This is the final stage of the 5 stage-model, but in an iterative process, the results generated during the testing phase are often used to *redefine* one or more problems

#### **DESIGN THINKING: A NON-LINEAR PROCESS**

#### What is a Gantt chart?

A Gantt chart is a horizontal bar chart used to illustrate the timeline of a project and its tasks. This gives your team a visual overview of your project schedule, upcoming milestones, and overall project timeline.

Each horizontal bar in a Gantt chart represents a task, and the length of each bar represents the amount of time that step or task will take. When you zoom out to look at the full picture, Gantt charts give project managers and teams an overview of what work needs to get done, who's doing it, and when.

Gantt charts typically include the following components:

- Date and duration of tasks
- Tasks
- Task owner
- Milestones

Most Gantt charts also offer additional context about how project tasks connect to each other, who they're assigned to, and what important deadlines and milestones are coming up. With a dynamic Gantt chart, team members have ata-glance insight into what they're responsible for and how their work impacts the project as a whole.

- In 1910, Henery Gantt independently popularized a similar chart in the United States, which he devised in order to represent how long factory workers spent on a given task.
- These two systems have since been merged to create what we know of today as the modern-day Gantt chart.
- From tracking factory employees' tasks, Gantt charts then became a popular way to track.
- Originally, Gantt charts were drawn on paper—which meant that, whenever the schedule changed, the charts had to be redrawn.
- Later, project managers used pieces of paper or blocks to represent the Gantt chart bars, so they could move them around as needed.
- What is a Gantt chart used for? While you can use a Gantt chart for a variety of projects and programs, it's helpful to understand what Gantt charts are commonly used for and why:
- Build and manage complex projects: The bigger the project, the more tasks there are to manage. Gantt charts can help project managers easily visualize a project and break it down into smaller tasks.
- Monitor task dependencies: Project delays happen. Gantt charts help project managers automate task dependencies, which ensures that the next phase or task doesn't start until the previous one has finished.
- Keep track of project progress: Gantt charts allow you to monitor progress and milestones, making it easy to adjust your project plan if needed.

#### Creating a Gantt Chart

You can see an example in figure 1, below:

Figure 1 – A Gantt chart

#### Example

Your organization has won a tender to create a new "Software as a Service" product, and you're in charge of the project.

You decide to use a Gantt chart to organize all of the necessary tasks, and to calculate the likely overall timescale for delivery.

You start by listing all of the activities that have to take place, and you estimate how long each task should take to complete. Your list looks as follows:

Task	Length
A. High level analysis	1 week
B. Selection of server hosting	1 day
C. Configuration of server	2 weeks
D. Detailed analysis of core modules	2 weeks
E. Detailed analysis of supporting modules	2 weeks
F. Development of core modules	3 weeks
G. Development of supporting modules	3 weeks
H. Quality assurance of core modules	1 week
I. Quality assurance of supporting modules	1 week
J. Initial client internal training	1 day
K. Development and QA of accounting reporting	1 week
L. Development and QA of management reporting	1 week
M. Development of management information system	n 1 week
N. Client internal user training	1 week

#### Step 2: Identify Task Relationships

The chart shows the relationship between the tasks in a project. Some tasks will need to be completed before you can start the next one, and others can't end until preceding ones have ended. For example, if you're creating a brochure, you need to finish the design before you can send it to print.

These dependent activities are called "sequential" or "linear" tasks.

Other tasks will be "parallel" – i.e. they can be done at the same time as other tasks.

You don't have to do these in sequence, but you may sometimes need other tasks to be finished first. So, for example, the design of your brochure could begin before the text has been edited (although you won't be able to finalize the design until the text is perfect.)

Identify which of your project's tasks are parallel, and which are sequential. Where tasks are dependent on others, note down the relationship between them. This will give

#### Note:

In Gantt charts, there are three main relationships between sequential tasks:

- Finish to Start (FS) FS tasks can't start before a previous (and related) task is finished. However, they can start later.
- Start to Start (SS) SS tasks can't start until a preceding task starts. However, they can start later.
- Finish to Finish (FF) FF tasks can't end before a preceding task ends. However, they can end later.

A fourth type, **Start to Finish (SF)**, is very rare.

#### Tip 1:

Tasks can be sequential and parallel at the same time – for example, two tasks (B and D) may be dependent on another one (A), and may be completed at the same time. Task B is sequential in that it follows on from A, and it is parallel, with respect to D.

#### Tip 2:

To minimize delivery times, you'll need to do as much work in parallel as you sensibly can. You also need to keep the **scope** of the project as small as possible.

#### Example

Task	Length	Type*	Dependent on
A. High level analysis	1 week	S	
B. Selection of server hosting	1 day	S	A
C. Configuration of server	2 weeks	S	В
D. Detailed analysis of core modules	2 weeks	S, P to B, C	A
E. Detailed analysis of supporting modules	2 weeks	S, P to F	D
F. Development of core modules	3 weeks	S, P to E	D
G. Development of supporting modules	3 weeks	S, P to H, J	E
H. Quality assurance of core modules	1 week	S, P to G	F
I. Quality assurance of supporting modules	1 week	S	G
J. Initial client internal training	1 day	S, P to G	C,H
K. Development and QA of accounting reporting	1 week	S	E

Task	Length	Type*	Dependent on
L. Development and QA of management reporting	1 week	S	E
M. Development of Management Information System	1 week	S	L
N. Client internal user training	1 week	S	I, J, K, M

<sup>\*</sup> P: Parallel, S: Sequential

#### Step 3: Input Activities Into Software Or a Template

You can draw your charts by hand or use specialist software, such as **Gantto**, **Matchware**, or **Microsoft Project**. Some of these tools are cloud-based, meaning that you and your team can access the document simultaneously, from any location. (This helps a lot when you're discussing, optimizing, and reporting on a project.)

Several Gantt templates have been created for **Microsoft Excel**, and you can also find free templates with a quick search online.

New Product Plan: By Week 13 15 5 11 12

Figure 2 – Example Gantt chart

**Business Analyst** 

As your project moves along, it will evolve. For example, in our scenario, if quality assurance of core modules revealed a problem, then you may need to delay training, and halt development of the management information system until the issue is resolved.

Update your chart to reflect changes as soon as they occur. This will help you to keep your plans, your team, and your sponsors up to date.

#### **Key Points**

Gantt charts are useful for planning and scheduling projects. They help you assess how long a project should take, determine the resources needed, and plan the order in which you'll complete tasks. They're also helpful for managing the dependencies between tasks.

Gantt charts are useful for monitoring a project's progress once it's underway, too. You can immediately see what should have been achieved by a certain date and, if the project is behind schedule, you can take action to bring it back on course.

#### PRELUDE

श्रियः प्रसुते विषदः रुणद्धि, यशांसि दुग्धे मलिनं प्रमार्ष्टि । संस्कार सौधेन परं पुनीते, शुद्धा हि बुद्धिः किलकामधेनुः ॥

History stands testimony to India being the fulcrum of advancement of knowledge through global intellectual ideation. India achieved all round excellence in the study of Science, Philosophy, Medicine, Astronomy and Arts, having attracted scholars from across the globe to its educational hubs at Nalanda and Taxila. Even the temple towns such as Varanasi and Ujjain were epicenters of intellectual stimulation.

Since time immemorial, Indian Acharyas, Gurus and Pundits have been revered and respected for their immense knowledge. Today, we are witness to the outstanding contributions being made by Indian Diaspora in the arena of global academics and research. Scientists and academicians of Indian origin have carved out a position of preeminence across the world's top global academic and research institutions. Our global Indian scientific fraternity is a shining example of India's contribution to the world at large.

Government of India has always recognized the emotional connect of 'Pravasi Bharatiya' towards their roots and has implemented various initiatives to support the warmth of these bonds. This emotional connect can be instrumental in fostering the nation's growth and development objectives, especially in the fields of science, education, research and entrepreneurship.

Inauguration by Hon'ble Prime Minister of India.

Date: 02 October 2020

### CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (AUTONOMOUS)

# ABOUT COLLEGE:

Students over 42 Years, it has emerged as a is one of the premier Engineering Institute in INDIA, pioneer in Telangana state Dream Destination for Students seeking to which is at idyllic surroundings of Gandipet Lake, Hyderabad. The Institute, committed to Education and Innovation, started with three-Degree Courses in Engineering with 200 in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to Teaching Methodology, Research Projects source well-rounded Engineers. Stringent Academic Standards, Industry compliant from Private and Public Sector Industries in Consultancy Practice, enabled the Institute to establish its Identity in the Technical Arena and is Ranked No. 1 amongst the Private Engineering Colleges in both the Telugu Management and Speaking States. Engineering

Brilliant and meritorious candidates with good EAMCET rank are seeking admission. CBIT students are grabbing the opportunity of entering into MNCs through college placement cell.

# ABOUT EEE DEPARTMENT:

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited four times by NBA. The intake was increased from 60 to 120 from the academic year 2013-14. The Department started offering a PG course in Power Systems & Power Electronics. The Department has highly is having well equipped labs with latest Hardware qualified and experienced faculty. The Department & Software. The Department is endowed with Lakhs for PE, PS & SEM Labs, Consultancy several AICTE-MODROBS Projects worth 33 Projects worth 20 Lakhs and RPS worth of 11 Lakhs. The Department is recognized as Research Centre in 2017 by Osmania University to carry out This workshop is the outcome of MODROBS research for the award of Ph.D. degree.

project sanctioned by AICTE,

File no: 9-1/RIFD/MODROB/POLICY-1/2018-19

# OUTCOMES OF THE WORKSHOP

Participants will be

- Able to acquire the concepts to special electrical machines.
- Familiar with latest control techniques of special electrical machines.
- Able to know about industry suitability of special electrical machines.
  - This workshop will be a Curtain raiser for the researchers to abreast the technologies in the respective domain.

Keeping this concept in view EEE Dept is organizing a two day workshop on Emerging Novel Technologies Related to Advanced Machines "ENTRAM-2022" March 2022. The main objective of the workshop is to enhance the professional development of Students, Staff and Industry persons in the usage of Special Electrical Machines.

Resource persons will be drawn from National Premier Organizations such as BHEL.. The workshop mainly encompasses about the

> Brushless DC Motor

following

> Switched Reluctance Motor

> Permanent Magnet Synchronous Motor

> V/F control of 3-phase Induction Motor

## Ist Day

(29-03-2022, Tuesday)

## Inaugural Session (10:00 am to 10:50am)

Registration of the participants and inauguration followed by, Introduction to the Programme

All the participants introduced themselves and a brief insight into the program was given

By Prof. G. Suresh Babu Head-EEE, CBIT(A)

#### Key-Note (10:45 am to 11:00pm)

Key-Note Address

by

Prof. U.K. Choudhury Director (I&I)-CBIT(A)

## Session-I (11:00 am to 12:00pm)

Concept of Switched Reluctance Motor (SRM)

An elaborate insight into this topic were taken up

by

Prof. U.K. Choudhury Director (I&I)-CBIT(A)

## Session-II (12:00pm to 01:00pm)

Switched Reluctance Motor (SRM)

Video Demonstration followed by Live Interaction

With

M/S Anshuman Technical Group

Session-III (15:45 pm to 17:15pm)

Overview of Brushless DC Motor (BLDC)

An elaborate insight into this topic were taken up

by

Er. P.C. Reddy MD-IMRC

Session-IV (12:00pm to 01:00pm)

Brushless DC Motor (BLDC)

Video Demonstration followed by Live Interaction

With

M/S Anshuman Technical Group

2nd Day

(30-03-2022, Wednesday)

Session-I (10:00 am to 11:10pm)

A Single BLDC Motor - Can Create an Entrepreneur

An elaborate insight into this topic were taken up

by

Dr. Chandra Sekhar, MD. 7S Technologies & Technical Advisor RFC.

Session-II (11:15 am to 12:30pm)

An Overview of PMSM & DFIG

An elaborate insight into this topic were taken up

by

Prof. U.K. Choudhury Director (I&I)-CBIT(A)

## Session-III (01:30pm to 02:30pm)

PMSM & DFIG

Video Demonstration followed by Live Interaction

With

M/S Anshuman Technical Group

## Session-IV (02:30 pm to 03:30pm)

Feedback & Valedictory

Participants gave feedback to the coordinators of the workshop

## **Blockchain for Digital Transformation**

12 - 16 August, 2021

#### Topics

Introduction to Blockchain

Blockshain-Based Next-Generation Smart Geid

Transactions

Crypto-Carroncies and New Fungible Tokens (NFTs)

Research Challenges in Blockchain for Financial Applications

Data Security Issues and Challenges

Surveillance Mindela

#### Resource Persons

Dr. Amir Sangroya, Scientist, TCS Research & Innovation, Gurugram, Harrans

Dr. Debashish Das, Assoc. Prof., Dept. of CSE, III Jodhpur Dr. Arun Kr., Scientist, TCS Research & Innovation. Gurugiam. Hayanz Dr. M. Swanny Dan, Professor, Dept. of CSE, & Joint Director - Academics (Informatics), CBIT(A) Dr. L. Pratap Reddy, Professor, JNTUH and Working President, Swecha, Hyderabad

#### Objectives of the STTP

To introduce the concepts of Blockclain and platforms.

To provide Blockchain use cases in various domains. To Introduce Crypso-Currencies and Non-Fungible Tokens.

To acquaint the participants with research challenges in Blockchain.

#### **Expected Outcomes**

The participants will acquire an overview of the structure and mechanisms of Blockchain. The participants will get acquainted with cryptocurrencies and non-fungible tokens. The participants will gain an understanding of research trends in blockchain.

#### CHIEFPATRON

#### PATRON

#### CHAIRPERSONS

Kavi Kireeti Dr. V. MALAKONDA REDDY,

REDDY,
President Emeritus, CBIT

Sri. N. SUBASH, President, CBIT Dr. P. Ravinder Reddy, Principal, CBIT (A) Dr. Y. Rama Devi, Prof. & Head, Dept. of CSE, CBIT (A)

#### CONVENERS

Prof. N. Rama Devi, Professor, Dept. of CSE, CRIT(A) Dr. T. Sridevi, Associate Professor, Dept. of CSE, CBIT(A) Dr. Rupesh Mishra, Assistant Professor, Dept. of CSE, CBIT(A)

Tinnings

Session-1: 6:20 PM - 7:20 PM Session-2: 7:30 PM - 8:30 PM \*No Registration Fee\*

# REPORT ON FIVE-DAY INTERNATIONAL SHORT TERM TRAINING PROGRAM (STTP) ON BLOCKCHAIN FOR DIGITAL TRANSFORMATION ORGANIZED BY DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING, CBIT, FROM 12.08.2021 TO 16.08.2021

Short term training programmes are very helpful in knowledge enhancement process. Dept of Computer Science and Engineering , CBIT has organized five-day international short term training program (STTP) on blockchain for digital transformation from 12.08.2021 to 16.08.2021 under the esteemed supervision of CBIT Management, Principal, Head of CSE Dept.

STTP was inaugurated in the gracious presence of honorable Chief guest Dr. Srujan Kotikela, Texas A&M University USA, Dr. P. Ravinder Reddy-Principal, CBIT, Dr. Y. Rama Devi, Head of CSE Department, CBIT, on 12.08.2021 at 6.30 pm.

There were 685 participants from various states like Tamil nadu, Karnataka, Telangana, Andhra Pradesh, Himachal Pradesh, Madhya Pradesh, Maharashtra, Jammu and Kashmir, West Bengal, Uttar Pradesh, Odisha, Jharkhand, Uttarakhand, Delhi, Assam, Harayana, Gujarat, Rajasthan, Bihar, and outside the country such as USA, Saudi Arabia, Ethiopia, Oman.

#### Day1 (12.08.2021):

The program was inaugurated on 12.08.2021 at 6.30 pm by Chief guest Dr. Srujan Kotikela, Texas A&M University USA, Dr. P. Ravinder Reddy ,Principal, CBIT, Dr. Y. Rama Devi , Head of CSE Department , CBIT.

Dr. Mesfin Abebe , Dept of CSE, ASTU, Ethiopia was the Keynote speaker for the first session. Dr. Mesfin Abebe has enlightened participants about framework for malware detection, and Machine Learning model . Dr. Amit Sangroya, scientist at TCS Innovation Labs ,Delhi, India was the speaker for the second session. He gave introduction to the blockchain technology, applications and its concerns. Dr. Srujan Kotikela explained about an emerging area "Root of Trust for Decentralized Identity". He shared his in-depth knowledge about DID architecture, DID document, DID operations and chain of trust.

#### Day2 (13.08.2021):

Dr. Debasis Das was the speaker for second day. He is working as Associate Professor in IIT Jodhpur. His research interests include Vehicular Ad-Hoc Networks (VANETs), Block chain, Internet of things, Machine Learning, Artificial Intelligence. He has been awarded the Early Career Research (ECR) award from Science and Engineering Research Board (SERB), Department of Science and Technology. He has many research collaborations with premier institutions in India and out side India.

In session1 Dr. Debasis Das has given an enlightening talk on Block chain based Next Generation in Smart Grid Transactions. He discussed about the importance of renewable source of energy specially focusing on solar energy. He shared his work related to design of an efficient, secure, safe, fair and sustainable smart grid system.

Session2 was interactive where Dr. Debasis Das has focussed on the various real time problems which can be solved with Blockchain technology. The security issues encountered with block chain, achievement of decentralization, immutability and transparency for smart grid data was discussed.

Dr. Debasis Das giving talk on Block chain based Next Generation in Smart Grid Transactions.

#### Day 3 (14.08.2021):

The speaker for the day was Mr. Arun Kumar Jindal. He is a Scientist at TCS Research and Innovation Labs, Delhi, India. At TCS Research, he works in the Cyber Security and Privacy Research Group. His current research interests are in the area of secure and private AI systems. His efforts and contributions have led to several product offerings from TCS which are deployed in various geographies.

In the first session Mr. Arun Kumar Jindal gave introduction to Cryptographic Hash function. It can be applied to block of data of any size, produces a fixed length output, and is easy to be applied to any given message. The property of collision resistance also referred to as strong collision resistance was discussed. He discussed about about Various padding schemes to increase the size of the message. Merkel Damgard Strengthening is one such way of padding the message.

In the second session Arun Kumar Jindal gave a talk on Cryptocurrency-BitCoin which is a decentralized, digital or virtual currency for security, immune to government interference or manipulation. He also discussed about public key infrastructure, Bit-coin Account and signature, Transaction Order, High Level Solution, Proof of Work and Block rewards in BitCoin. He also shared his knowledge about Non Fungible Token (NFT) which functions like cryptographic tokens, unlike cryptocurrencies like Bitcoin. Comparison between NFT and Internet was shown.

Mr. Arun Kumar Jindal giving talk on introduction to Cryptographic Hash function

#### Day 4 (15.08.2021):

Dr. Debasis Das was the speaker for fourth day. He is working as Associate Professor in IIT Jodhpur. He gave a talk on Research Challenges in Blockchain for Financial Applications.

In the first session, Dr. Debasis Das gave an introduction to core trends in CS Research such as Blockchain, increasing role of AI, Smart Grid, 5G and Future Networks, Internet of Things, Quantum Computing and Quantum Communications. He discussed about role of Blockchain in financial transactions like payment transparency, digital currencies and distributed ledger technologies. Dr. Debasis Das explained about the new protocol called FinBlock which promises to have a lower transaction processing time and higher transaction throughput by introducing the pipelining into Blockchain and reducing one round of broadcasting of transactions.

In the second session, Speaker discussed about Framework for recommendation system and the evaluation criteria like comparing to baseline techniques in predicting anomalies, performance of Urban Anom in predicting particular anomaly category, different parameter setting affecting the performance, and how performance varies with different combination of modules in joint architecture. The session was interactive and fruitful.

Dr. Debasis Das explaining about Framework for recommendation system

Dr. Debasis Das interacting with participants

#### Day5: 16.8.2021

- Dr . M. SwamyDas , professor, Dept of Computer Science and Engineering, Joint director-Academics , CBIT was the speaker for fifth day. Sir Enlightened participants about Data security issues and challenges.
- Dr. L. Pratap Reddy, Professor, JNTUH and Working President, Swecha, Hyderabad was the speaker for  $2^{nd}$  session. Sir shared his indepth knowledge about Surveillance models and discussed interesting case studies.

Dr. M. Swamy Das explaining about comparison between Web1.0, Web 2.0, Web 3.0

Dignitaries with Participants during valedictory session

#### Feedback on the session titled "Data Security Issues and Challenges"

#### About the Content of the Session

The session content was relevant for me 283 responses

The content of session was very comprehensive and not repeated 283 responses

The overall content of the session was excellent

283 responses

The speaker had very strong expertise in the area and made session very interesting 283 responses

#### Feedback on the session titled "Surveillance Models"

#### About the Content of the Session

#### The session content was relevant for me

283 responses

The content of session was very comprehensive and not repeated 283 responses

The overall content of the session was excellent

283 responses

#### **About Speaker and Teaching**

The speaker had very strong expertise in the area and made session very interesting 283 responses

## Overall, how satisfied are you with this STTP?

283 responses

# Knowledge and Information Exchange met your expectations 283 responses

## Did the STTP achieve the programme objectives? 283 responses

Knowledge and Information Exchange will be useful/applicable in your research work 283 responses

Overall feedback about organising team for their timely responses and smooth functioning of virtual sessions:

283 responses

Will you participate in future programs organised by CSE CBIT(A)? 283 responses

# According to you, provide the stunning speaker of this STTP: 283 responses

### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

### Five-Day International Short Term Training Program(STTP) on Blockchain for Digital Transformation

Day-2, 13th Aug. 2021, Attendance and Feedback

Session Topic: Blockchain-Based Next-Generation Smart Grid Transactions Dr. Debashish Das, Assoc. Prof., Dept. of CSE, IIT Jodhpur

Timestamp	Email Address	Name of the Participant	Department / Branch / Division	Details of Institution / Organization with Address	The session content was relevant for me	The content of session was very comprehensive and not repeated	The overall content of the session was excellent	The speaker had very strong expertise in the area and made session very interesting

### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Five-Day International Short Term Training Program(STTP) on Blockchain for Digital Transformation

Day-4, 15th Aug. 2021, Attendance and Feedback

Session Topic: Research Challenges in Blockchain for Financial Applications Dr. Debashish Das, Assoc. Prof., Dept. of CSE, IIT Jodhpur

Timestamp	Email Address	Name of the Participant	Department / Branch / Division	Details of Institution / Organization with Address	The session content was relevant for me	The content of session was very comprehensive and not repeated	The overall content of the session was excellent	The speaker had very strong expertise in the area and made session very interesting

## DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING Five-Day International Short Term Training Program(STTP) on Blockchain for Digital

Day-5, 16th Aug. 2021, Attendance and Feedback

A-The session content was relevant for me. B-The content of session was very comprehensive and not repeated

C-The overall content, of the session was excellent, D-The speaker had very strong expertise in the area and made session very interesting Session 1: Data Security Issues and Challenges, Dr. M. Swamy Das, Professor, Dept. of CSE, & Joint Director -Academics (Informatics), CBIT(A) Session 2: Surveillance Models , Dr. L. Pratap Reddy, Professor, JNTUH and Working President, Swecha, Hyderabad Session-1 Session-2

### REPORT ON ALUMINI TALK

This session on "Alumini Talk" by Mr. Jagannath Saragadam on "Resume Building, Internships, Projects, Job Prospects and Masters" on 21.10.2021. 50 Students have attended; the meet recording link is given below:

https://drive.google.com/file/d/1zz8BeQuJ9rRXwoqK0tqvqZCGAb8IynNv/view?usp=share link

Youtube Link:

https://youtu.be/p775-rKEuNU

### Video Recording:

Chat History:

00:16:34.187.00:16:37.187

IT HEAD: PI. post your queries in the chatbox and will be answered at the end of the session.

00:20:42.633,00:20:45.633

Vishal- 301: sir u said u worked on certain projects, can you speak about what kinda projects

00:22:25.207.00:22:28.207

Paramjeet Singh: Sir, can you tell more about hackathons, , what skills are required to go on with the first

hackathon

00:24:26.184.00:24:29.184

Mayush: when you started your internship, how did you maintain a work life balance?

00:25:37.472.00:25:40.472

Koppu Eshwar: Sir Can you suggest some tips to enhance our coding skills especially competitive one

00:28:39.698,00:28:42.698

Ameya Pedgaonkar: Sir can you please tell about your journey towards foreign studies.. Like did you write any

exams like GRE and how was its preparation phase..

00:30:42.082.00:30:45.082

dineesha peddineni: Sir who did get an opportunity to work as a research assistant

00:31:09.493.00:31:12.493 dineesha peddineni: How\*

00:31:52.585.00:31:55.585

306 Arshia Begum: Sir ,How to manage time? I mean we will be having mini project ,have to prepare for

examinations and internship/training classes.

00:33:12 639 00:33:15 639

Sreelatha: Sir do you think recruitment is biased to certain fields !? like I heard that it's easy to get a web dev job

rather than a data science job in India.

00:35:10.847.00:35:13.847

Varala Sai pranav: Sir what are the major domains we can choose for masters

00:36:52.854.00:36:55.854

Ameya Pedgaonkar: Sir did you prepare for GRE, made SOP's along side while doing a job, or did you do it

during the college phase

00:37:46.498,00:37:49.498

L. Shiva Theja: Sir what is the role of your internship and could specify the syllabus

00:39:48.030.00:39:51.030

ishika gupta: Sir, you mentioned that MS coursework is stressful. Can you elaborate on what aspects of MS are

stressful

00:39:48.421,00:39:51.421manoj kumar paliviri: Sir, what were the mistakes you've committed during your college days(like choosing the wrong specialization, or missed few concepts that needed to be covered), If you

did how did you cope up with it? (We don't want to do the same mistakes again though.)

00:42:04.396,00:42:07.396

042 Nishanth artham: Sir , when is the correct time to prepare for GRE

00:42:45.478,00:42:48.478

Vishal- 301: sir can we do(learn) certain things that will be useful further those aren,t part of these 8sem's syllabus ...except internships

00:42:55.117,00:42:58,117

Rithvik Ramdas: Sir, did you do any certification courses during your college days?? If yes, then was it the advanced level of what you have learnt in college or a new course

00:44:42.072,00:44:45.072

042 Nishanth artham: Sir , from where did you do your GRE preparation (resources)

00:50:58.338,00:51:01.338

Uday Reddy: Sir, first internship means what can u explain

00:54:27.017,00:54:30.017

Aditya K: how did you land your first internship

00:54:31:332,00:54:34.332

Uday Reddy: Sir,is internship is compulsory

00:54:34.854.00:54:37.854

Anuraag: Sir, what were your prerequisites for getting your first internship

00:56:16.268,00:56:19.268

Alfred Pennyworth: Anna America poyi andharu chaduvtaara leka antha dabba e na

00:57:24.413.00:57:27.413

Koppu Eshwar: Regarding mini project, we can see a lot of readymade stuff available in the web. Is it okay to blindly copy and paste them..? if not how to choose a good theme?

00:58:45.513,00:58:48.513

Jeevan kumar: What do you prefer? Learning and then working or working and learning

01:00:19.335,01:00:22,335

Jagannath Saragadam: add me on: https://www.linkedin.com/in/jagannathsrs/

01:00:31.369,01:00:34.369

Varala Sai pranav: can we also make ml projects like flask based

01:00:59.989,01:01:02.989

L. Shiva Theja: Sir can we choose the topic of mini projects every time same topic so that we can ace in one topic or do we need to change the topic so that we can explore the topics

01:01:30.376,01:01:33.376

L. Shiva Theja: Same Topic means same technology

Head Dept. of IT CBIT, Hyderabad

### **Report on Paper Presentation 2022**

Department of IT has organized, student technical paper presentation during 23<sup>th</sup> and 24<sup>th</sup> March, 2022.

Students from all over the state participated and made it a grand success. **Dr. Pragati Priyadarshinee** and **Sri K. Rajesh Kannan** were the faculty coordinators. C. Sumanth and Ch.
Manasa were the student coordinators from third year IT.

### **Paper Presentation**

Paper presentation is a competition where each participant is required to make a paper about their project, it helps to enhance participant's ability in Writing or making papers in English as well as to present it, and also to broaden the mind of the participants.

### **Rounds:**

It has a total of three rounds

### Round 1:

In this round, the participants need to submit their Abstract.

### Round 2:

In this round, the shortlisted participants need to submit their full paper.

### Round 3:

In this round, each participant has to explain about the project and present it in front of the judges.

### **Evaluation:**

It is all about how you put your topic or present your topic in front of the audience. They see the way you present your topic, the way you put your points, your presentation style, your language and how promptly and effectively you answer their questions and then present it in front of the judges

Judges:

Dr. A. Obulesh (Vidya Jyothi Institute of Technology)

Dr. Sankar Sarma K V S S R S (University of Hyderabad)

Dr. A. Rajnikant (Chaitanya Bharathi Institute of Technology)

Awards and rewards:

The majority of participants were mainly of M.Tech students and the winners are two M.Tech students from 16 finalists

The papers presented are evaluated by a bench of judges and a cash price of INR 2000 is awarded to the winning team. The participants virtually presented their papers.

His profile is available on https://www.linkedin.com/in/sadashivborgaonkar/

Report by: Dr. E. Jalaja, Associate Professor, SMS-CBIT.

School of Management Studies, Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized a webinar on "Role of Lean Manufacturing & Six Sigma in Improving business and Entrepreneurial Opportunities", on 20th January 2020 from 11:00AM to 1:30 PM. This session has started with the welcome speech by Dr. E. Jalaja, Associate Professor, CBIT-SMS. She has welcomed the Guest Speaker Mr. Sadasiva Borgoankar, Founder Director ACTSol & Associates and Dr. S. Saraswathi, HOD-SMS, faculty colleagues, and participants. Dr. S. Saraswathi, Associate Professor, CBIT-SMS has addressed the audience and highlighted the usefulness of six sigma and lean manufacturing in shaping the career of the students. Dr. Anil Kumar has introduced the guest profile to the audience and then Mr. Sadasiva has started is session.

He introduced the topics lean manufacturing and six sigma, then highlighted the following concepts

- 1. TIMWOODS concept
- 2. 5 S Framework
- 3. PDAC
- 4. DMAIC
- Value Chain
- 6. Waste Management

He emphasized on the relevancy of each concept in attaining six sigma and lean manufacturing by improving the process activities. He discussed the concept with real life examples and presented the students with relevant videos. He asked the students to do courses on six sigma and lean manufacturing so that they can enhance their career with the certificate.

The session has come to an end by proposing vote of thanks by Dr. M. Narender, Assistant Professor, CBIT-SMS.

The data could be incomplete due to the large number of meeting participants.

# A Report on the Webinar "DEMYSTIFYING PATENTS"

Speaker: Mr G Sravan Kumar, Patent Attorney with the Indian Patent Office and a Consultant

Sravan Kumar is a Patent Attorney with the Indian Patent Office and a consultant in providing strategies to protect patents, designs and other IPs. He is having over a decade of experience in drafting and prosecution of patent matters before the Indian Patent Office, USPTO, EPO and other jurisdictions. The drafting and prosecution of patent applications is in the areas of electronics/ semiconductors, advance wireless communication, 5G NR, NB-IoT, computer networks, software, embedded systems, mechanical, biomedical devices, etc. before the Indian Patent Office, USPTO and other jurisdictions. Also, assisting in preparing, filing and prosecution of design applications.

Also, conducting patentability searches and providing patentability opinion along with the strategy to be followed in filing the patent applications. Prosecution of Patent Applications - Reviewing Examination Reports/ Office Actions, providing opinion and necessary strategy to clients on both formal and technical objections raised by the Examiners. He conducts Webinars/ Seminars on Indian Patent System, Strategies on IP for start-ups, etc.

**Date:** 30.01.2021

**Time:** 10:30AM – 12:00 PM

Mode: Online through Teams

No. of participants: 81

Hosted by: Dr. Sowmya Kethi Reddi, Assistant Professor, & Dr Mandhakini Paruthi, Assistant

professor SMS-CBIT.

Report by: Dr. Sowmya Kethi Reddi, Assistant Professor, SMS-CBIT.

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad has organized a Webinar on "**DEMYSTIFYING PATENTS**". The main objective of this webinar is to demystifying intellectual property (IP) and especially patents to researchers, faculty members and other academicians. The webinar will enable the participants to convert their creative ideas or concepts into IPs. Also, the researchers tend to publish paper rather than file patents. This webinar help in providing strategies to protect the patents and other related IPs. Later G Sravan Kumar stressed the following points:

- What is an Intellectual Property (IP) and types of IP's
- Power of IP
- Importance of IP
- Patent Do's and Don'ts
- Types of Patent applications
- Patent Specification structure
- Common mistakes

More than 81 participants have attended this session. Among them Internal Faculty, Other college faculty members, research scholars and students inside and outside of MBA.

- Online Workshop on "Investor Awareness" was organized by Dr. P. KARTHIKA on 05.02.2021 from 14:30- 16:00. The target audiences were students of CBIT-SMS. The no. of participants was 100.
- ➤ The objectives of the Program were:
- To introduce the students to the world of financial markets
- To enable the students to learn the basics of financial markets
- To make the students understand the power of compounding.
- > The Outcome of the Program:

Students were able to understand how powerful the power of compounding with the real-time example and also the various instruments available for the investors in the markets to generate decent returns.

Dr.P. KARTHIKA, Asst. Prof, SMS, Kongu Engineering College, Erode addressing the participants.
