## Faculty Development Programme on Establishment & Management of Business Incubators (10-12 March 2022)

### Rationale

Everywhere new ideas and new knowledge are created every day. Business Incubators renovate them into real innovation by creating a new economic activity which provides employment opportunities and also creates wealth. Incubators assist startups by providing an integrated package of work space, shared office services, access to specialized equipment and machinery along with value added services like fund raising, legal services, business planning, technical assistance and networking support.

In India Business Incubators exist since 1980 which were supported by the Government of India but later private sector also entered in setting-up of Incubators. There are two types of Business Incubators, one which focuses on promotion of technology based enterprises and assist in completion of the technologies under development and are generally located at or near universities, R&D institutes, and Science and Technology parks and another promote regional and national economic growth through job creation and utilizing local resources. Hence, main objective of the business incubators is to produce successful business ventures that create jobs and wealth in the country. There are more than 300 Incubators in the country. Recently, the Government of India has initiated to establish 100 Innovation Centers in the country through Atal Innovation Mission.

A good number of Institutions including private sector are now managing Business Incubators and many others are keen to setup the same. **ni-msme** organizing Faculty Development Programme on “Establishment & Management of Business Incubators” during 10-12 March 2022 to create awareness on significance of Incubation Centers, design of revenue model for its successful management apart from sharing of experiences in promoting innovative businesses at Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad.

### Objectives

- Appreciate significance of Incubators in promotion of innovation & entrepreneurship
- Policies & Programmes for promotion of Business Incubators
- Grass root innovations, issues and challenges
- Role of academic institutions in successful operation of Business Incubators
- Develop business networks for commercialization of innovations

## National Institute for MSME (ni-msme) - The Premier Institute

**National Institute for MSME (ni-msme)**, the pioneer institute in the field of MSME is playing a major role in providing pro-business environment to foster the progress of MSME towards success and prosperity. The raison d'être of this Institute is to assist the Government in formulating policies for micro, small and medium enterprises and to help the practicing and potential entrepreneurs through a host of services like training, research, consultancy, information, education and extension.

Set up in 1962, **National Institute for MSME (ni-msme)** has made valuable contributions by creating an impressive record of achievements beyond the Indian shores, enabling other developing countries to get the benefit of the Institute's facilities and expertise. The Institute is associated with prestigious world bodies such as UNIDO, UNESCO, ILO, CFTC, UNICEF, AARDO and GIZ.

**ni-msme's** intellectual activities are pursued by its four Schools of Excellence, viz., School of Enterprise Development (SED), School of Enterprise Management (SEM), School of Entrepreneurship and Extension (SEE) and School of Enterprise Information and Communication (SEIC). The Institute has been publishing Small Enterprise Development and Management Extension (SEDME) Journal since 1974 in the domain of small enterprises, attracting contributors and users not only from every corner of the country but also from other developing as well as developed nations.

The Institute is having theme focused Centers like National Resource Centre for Cluster Development (NRCD) for helping the MSMEs by implementing the Cluster Development Approach. At present, the Institute is involved in development of more than 50 Rural, Artisan, Industry clusters across the nation and supporting to KVIC, Coir Board, NBCFDC, NSFDC and various state Governments for development of Handlooms, Handicrafts, Food Processing and Textiles Clusters. Intellectual Property Facilitation Centre for MSMEs (IPFC) provide IP advisory services to various research and academic institutions, Clusters, SMEs, Start-ups and Individual innovators. Around 350 SMEs & Start-Ups got benefited from IP registrations including 102 Trade Marks, 41 Patents, 4 Copyrights, 6 Industrial Designs and one Geographical Indication. Goods and Services Tax Cell (GSTC) provide GST registrations and tax compliances, Entrepreneur Development Cell (EDC) and Livelihood Business Incubator (LBI) supports MSMEs for creating a favorable ecosystem for entrepreneurial development in the country. The Institute stores and supplies information that helps to make a successful entrepreneur who is well versed in the intricacies of business and can participate in business activities intelligently and diligently through its Small Enterprises National Documentation Centre (SENDOC).

The Institute has trained more than 5,48,815 participants by organizing around 16,198 programmes which includes prospective/existing entrepreneurs and officials from various Ministries of Govt. of India and State Governments. **ni-msme** has also imparted skill training to 1,18,531 educated unemployed youth by conducting 3908 Entrepreneurship and Skill Development Programmes (ESDPs). The Institute is implementing ITEC Scheme of Ministry of External Affairs, Govt. of India since 1967 and trained 10,600 International Executives from 143 developing countries. The Institute has also completed more than 947 research and consultancy projects.

The management of the Institute rests with the Governing Council appointed by the Govt. of India. The governing body acts through the Director General. The present Director General is Dr. S. Glory Swarupa.

Dear Sir,

We convey our profound thanks for attending "Mechanica 2022" (as a part of SUDHEE – 2022 Celebrations) and delivering Keynote address on the topic of "Disruptive Technologies in Defence and Aerospace Applications."

Our staff, students and participants were ignited and inspired by your talk on this occasion.

We are looking forward to have more and more such fruitful interactions in future also.

Thanking you.

With Best Regards,

## Synopsis of Alumni Activities in MED in 2021

The mechanical department of CBIT has conducted interactive sessions with seniors of 2019, 2020 and 2021 passed out batches. These CBIT Alumni have interacted with the 100 plus students who are pursuing Mechanical Engineering and have shared their rich experience for the benefit of the future aspirants. The Alumni speakers were from prominent companies like BYJUS, HYUNDAI, TECHNIPFMC, HYUNDAI TRANSYS, GODREJ and HUL.

A guest lecture was conducted by our Alumni of 1992 batch, Mr Vikas Jain, Vice President, Reliance Industries Ltd., on the occasion of Superannuation of Mr B Suryanarayana, Associate professor, MED, CBIT on 30 Sep 2021. The topic of guest lecture was related to Supply Chain enabling Modern Retail logistics. This session has benefitted 100 plus students in raising their awareness and understanding the current business model.

An Online awareness session on MS programmes was arranged on 28 Nov'21 for the benefit of the students who would like to pursue MS programmes in future. The interaction session was delivered by our Alumni Mr Srujan of 2019 batch, who is presently pursuing MS in Supply Chain Engineering at Georgia tech, USA.

Mechanical Engineering has organised Guest lectures on World Entrepreneurship Day celebrations at CBIT.

The following Guest lectures were delivered in connection with World Entrepreneurship Day celebrations at CBIT.

A guest lecture was delivered Mr. Venkatesh Yerramalla , CEO, Confluence Centre for Sustainable Development on 19 Aug 2021 . He is an Alumni of 1992batch. Mr Venkatesh spoke on the topic Building successful Start-ups. During his lecture he emphasized on market validation, design thinking, partnering, and entrepreneurial learning for making a start-up successful. He also discussed about the Business model canvas and its importance. Mr venkatesh also said that the entrepreneurs should develop passion and must analyse and understand the customer thoroughly. The programme was attended by about 200 students.

On 24/08/2021 there was an interactive session on the topic "Entrepreneur in current scenario opportunities and challenges by Mr. Prasad Kandimalla MD & CEO , LAZULINE BIOTECH PVT LTD. Mr Prasad ia an alumni of 1992 batch. In his talk Mr.Prasad said Entrepreneurship is a philosophy and opportunities would always exist. He also said that opportunities can be created by doing things differently. In his lecture he focused on 5 R's and 4 S's .i.e Reseach, Resources , Relationships, Risk and mitigation and role models – Strategy ,sustainability, standards and scalability.

Mr.Navneet Kumar who is the Executive Head, Hexagon Capability Centre, delivered a lecture on "Entrepreneur outlook in organizations - possibilities and constraints" on 24/08/2021 in the second session.. Mr.Navneet is an alumni of 1991 batch. He compared the rolls of Entrepreneur and Employee and discussed how an employee in an organization can have an entrepreneurial outlook. He also emphasized on how an employee can add value to an organization . He gave examples of entrepreneurs like Ambani, Sekhar Kammala, Dr Malkonda Reddy and like A.P.J Abdul Kalam.

### **Abstract / About the Programme:**

The major goal of this session is to give an awareness to faculty members about proposing edited book proposals with various publishing houses like Springer, IGI-Global, DE-Gruyter's etc. Session also covers best practices to be followed for getting quality book chapters from potential authors. Speaker will discuss in detail with the proposal forms, guidelines to be followed and timelines.

### **Name of the Speaker:**

**Dr. Mayuri Mehta**

Professor | Department of Computer Engineering,  
Sarvajani University, Surat, India

### **About the Speaker:**

Dr. Mayuri is a passionate learner, teacher and researcher. Her areas of teaching and research include Data Science, Healthcare Informatics, Machine Learning/Deep Learning, Computer Algorithms and Python Programming. Her 22 years of professional experience includes several academic and research achievements along with administrative and organizational capabilities. She is awarded the “Researcher of the Year Award (Engineering, Female)” by 3rd International Business and Academic Excellence Award (IBAE-2021) committee for her Exceptional Calibre and Outstanding Performance as Academician, Researcher, Mentor, Advisor, and a Thought Leader. She has 4 granted International innovation patents, 4 published patents and 1 granted copyright. She has co-edited two books: (1) Tracking and Preventing Diseases with Artificial Intelligence and (2) Knowledge Modelling and Big Data Analytics in Healthcare with Springer and CRC Press respectively. Her book on "Explainable AI: Foundations, Methodologies and Applications" with Springer is in process. She has worked on several academic assignments in collaboration with professors of universities across the globe. Her AI-powered Healthcare project was approved for funding. She has also received funds several times from Gujarat Council on Science and Technology (GUJCOST). She has received fund from Student Start-Up & Innovation Policy (SSIP), Government of Gujarat, India for filing 2 patents. She has served in several International Conferences in different positions. She has conducted 70+ sessions in International Conferences, Short Term Training Programs (STTPs) and Faculty Development Programs (FDPs). With the noble intention of applying her technical knowledge for societal impact, she is working on several AI-powered research projects in Healthcare in association with doctors doing private practice and doctors of Medical Colleges. She is a member of professional bodies such as IEEE, ISTE, CSI.

## Report on Writing Effective Edited Book Proposal

On 14<sup>th</sup> May 2022, the session was organized under the IEEE CBIT student branch, a book proposal is a document intended to convince a publisher that your project is economically viable for their publishing house. It needs to persuade its reader that your idea has enough commercial potential that the publisher should take the risk of putting money and resources into your book. When writing your proposal it is important to think about your audience. It is very likely that your proposal will be read by someone who does not know you or anything about your subject. With this in mind, how can you describe your project in such a way that it sounds interesting and compelling, and above all, economically viable? And remember, convincing this reader is only the first step. If they get behind your project, they will then have to convince the publisher's sales team and/or finance department that it is worth the risk. Dr. Mayuri is a passionate learner, teacher and researcher. Her areas of teaching and research include Data Science, Healthcare Informatics, Machine Learning/Deep Learning, Computer Algorithms and Python Programming.

### WEBINAR NOTICE

- Topic : **Emerging Trends in Embedded Systems**  
Guest : **Mahesh Patil**  
Speaker : **Associate Director, C-DAC, Hyderabad**  
Venue : <https://us02web.zoom.us/j/7241852239?pwd=UWViWjBYaIY5OXJZaU41OC9oY1pOZz09>  
Meeting ID: 724 185 2239  
Passcode: 307382  
Date : **05 March 2022**  
Time : **11:00 AM – 12:15 PM**

### Abstract

The talk will provide an overview of Embedded Systems ecosystem and unleash the emerging trends in this domain. It will be augmented with the supporting technologies that makes it possible to develop end-to-end applications based on Embedded Systems. We will discuss few interesting applications and also walk through some good practices in designing and developing projects around Embedded Systems. The talk will also provide an insight on the skills that are necessary for being an Embedded Systems engineer and provide pointers on how it can be acquired.

Keywords that will be touched upon include: Processors, Drivers, Bare Metal, RTOS, Embedded OS, IoT, Protocols, AI, Blockchain.

### About the Speaker

Prof. Mahesh U. Patil is Associate Director, HoD, Cyber Security (R&D) at Centre for Development of Advanced Computing (C-DAC). His major area of R&D includes Cyber Security, Embedded Systems, Mobile, IoT Security, Blockchain and Education & Training. He is BoS member for NIT, Warangal, ECE. He has delivered 100+ talks at various R&D and Academic Institutes across the country. He has published several research papers and is currently pursuing PhD proposed towards developing binary analysis techniques for providing security posture of Embedded Systems firmware.

“EMERGING TRENDS IN EMBEDDED SYSTEMS”**

**ORGANISED BY CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(A)**

**in association with IEEE-CIRCUITS AND SYSTEMS SOCIETY, Hyderabad**

**on Saturday, 5<sup>th</sup> March 2022**

**11:00 AM – 12:30 PM**

An exclusive webinar session provides an overview of the embedded systems ecosystem and outlines the supporting technologies needed to enable end-to-end application development based on embedded systems. The special focus was on some best practices for developing embedded application Projects and given an insight on the skills necessary to become an Embedded System Engineer. About 63 participants including, faculty, UG students from VI Sem (ECE), and ME (ES&VLSI), attended the webinar. **Prof. Mahesh U. Patil, Associate Director, C-DAC, Hyderabad**, is the webinar speaker

Prof. Mahesh U. Patil spoke about a range of job opportunities in Embedded System and shared pointers on how they can be acquired. Towards the end of the talk, he discussed some of the ongoing research works in Embedded Systems. The talk followed a discussion.

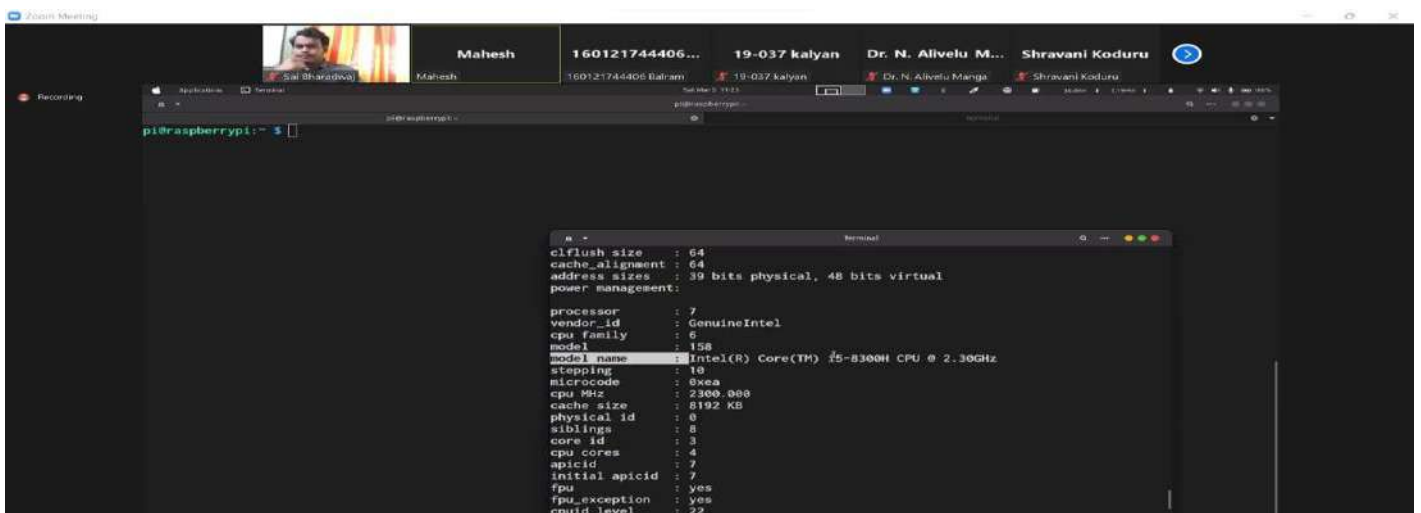

Feedback: The speech was wonderful, insightful, and well presented! Excellent session, challenging, and thought-provoking received positive feedback from the participants.

**Abstract**

In this talk, Sri.Kalyan will touch up on the lifecycle of a startup along with the lifecycle of the entrepreneurs association with the startup. He will discuss how to ideate a startup, evaluating the idea and subsequent bootstrapping a startup till the first customer stage of a startup along with the right combinations, the right investments and valuation stages of a startup. The stress while discussing the ideating a startup section would be on innovation and the latest consumer and marketing trends that the startups are catering to. The talk will be followed by an open Q & A with range covering the entire lifecycle of a startup.

**About the speaker**

Sri. Kalyan Gudladana, is a Masters graduate from University of Texas, Dallas in 1997 and was a B.Tech graduate from KLCE and has worked in various architect and leadership roles in large multinational companies

like, Alcatel, Nortel, Bally Technologies along with multiple startups before starting his own entrepreneurship journey almost a decade ago. The first startup was merged with BSE listed Delta Corp and is currently in the process of scaling the current startup to international markets. The areas that Kalyan has worked on primarily are in telecommunications, Gaming, Core AI/ML, Healthcare & Cloud Technologies.

## Report on A Webinar on “Brainstorming and Bootstrapping a Startup” (Code: CBIT/TP-Webinar/I011/ECE/D004/2022)

A webinar on “Brainstorming and Bootstrapping a Startup” was conducted by R&D Centre, CBIT and ECE Department on 12 February 2022 during 10 a.m to 11.30 a.m. Sri. Kalyan Gudladana, Founder & MD, TYkhe Gaming Pvt Ltd (India), TYkhe Gamilng LLC (USA), delivered talk about the lifecycle of a startup along with entrepreneurs association with the startup. He discussed about how to ideate, evaluating the idea and subsequent bootstrapping a startup till the first customer stage of a startup along with the right combinations, the right investments and valuation stages of a startup.

While discussing the ideating a startup section, the stress was on innovation and the latest consumer and marketing trends that the startups are catering to. About 22 faculty and 35 students attended the webinar. The participants included both UG and PG students and the faculty. The

webinar benefitted the students (both PG & UG) and faculty in understanding the importance of lifecycle in startups and real time use-cases.

FOR DIGITAL TRANSFORMATION ORGANIZED BY DEPARTMENT OF COMPUTER SCIENCE AND  
ENGINEERING , CBIT, FROM 12.08.2021 TO 16.08.2021**

Short term training programmes are very helpful in knowledge enhancement process. Dept of Computer Science and Engineering , CBIT has organized five-day international short term training program (STTP) on blockchain for digital transformation from 12.08.2021 to 16.08.2021 under the esteemed supervision of CBIT Management, Principal, Head of CSE Dept.

STTP was inaugurated in the gracious presence of honorable Chief guest Dr. Srujan Kotikela, Texas A&M University USA, Dr. P. Ravinder Reddy-Principal, CBIT, Dr. Y. Rama Devi , Head of CSE Department , CBIT, on 12.08.2021 at 6.30 pm.

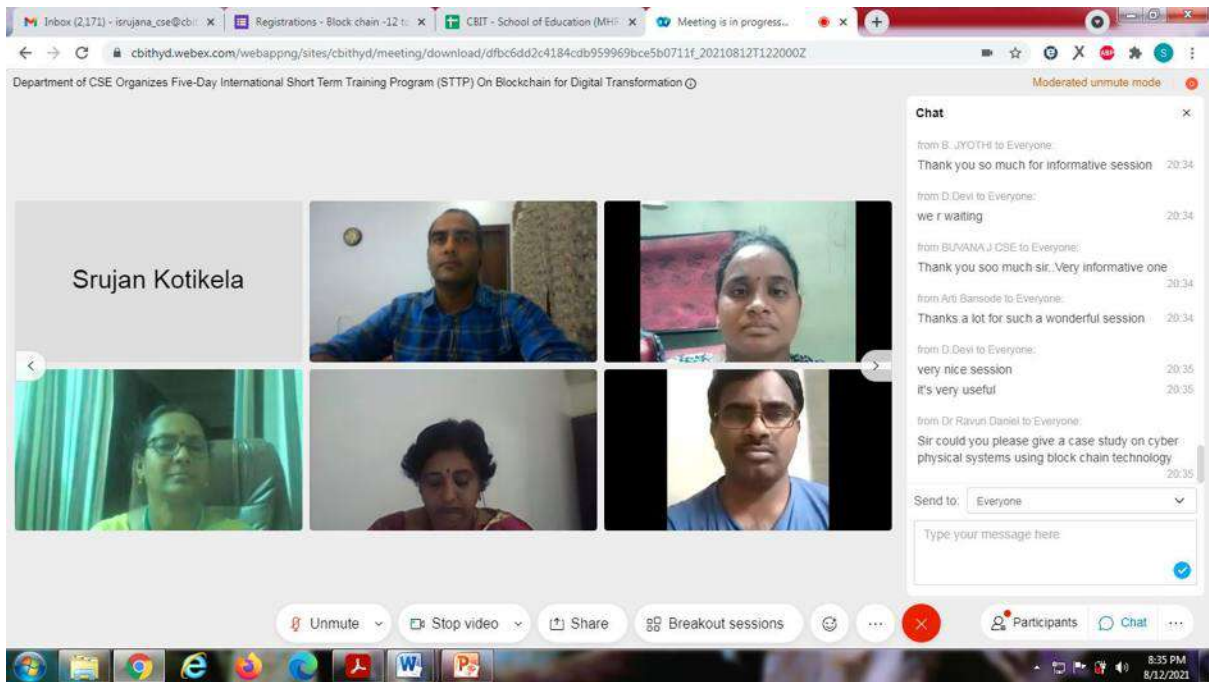

There were 685 participants from various states like Tamil nadu, Karnataka, Telangana, Andhra Pradesh, Himachal Pradesh, Madhya Pradesh, Maharashtra, Jammu and Kashmir, West Bengal, Uttar Pradesh, Odisha, Jharkhand, Uttarakhand, Delhi, Assam, Harayana, Gujarat , Rajasthan, Bihar, and outside the country such as USA, Saudi Arabia, Ethiopia, Oman .

**Day1 (12.08.2021) :**

The program was inaugurated on 12.08.2021 at 6.30 pm by Chief guest Dr. Srujan Kotikela, Texas A&M University USA, Dr. P. Ravinder Reddy ,Principal, CBIT, Dr. Y. Rama Devi , Head of CSE Department , CBIT.

Dr. Mesfin Abebe , Dept of CSE, ASTU, Ethiopia was the Keynote speaker for the first session. Dr. Mesfin Abebe has enlightened participants about framework for malware detection, and Machine Learning model . Dr. Amit Sangroya, scientist at TCS Innovation Labs ,Delhi, India was the speaker for the second session. He gave introduction to the blockchain technology, applications and its concerns. Dr. Srujan Kotikela explained about an emerging area “Root of Trust for Decentralized Identity”. He shared his in-depth knowledge about DID architecture, DID document, DID operations and chain of trust.

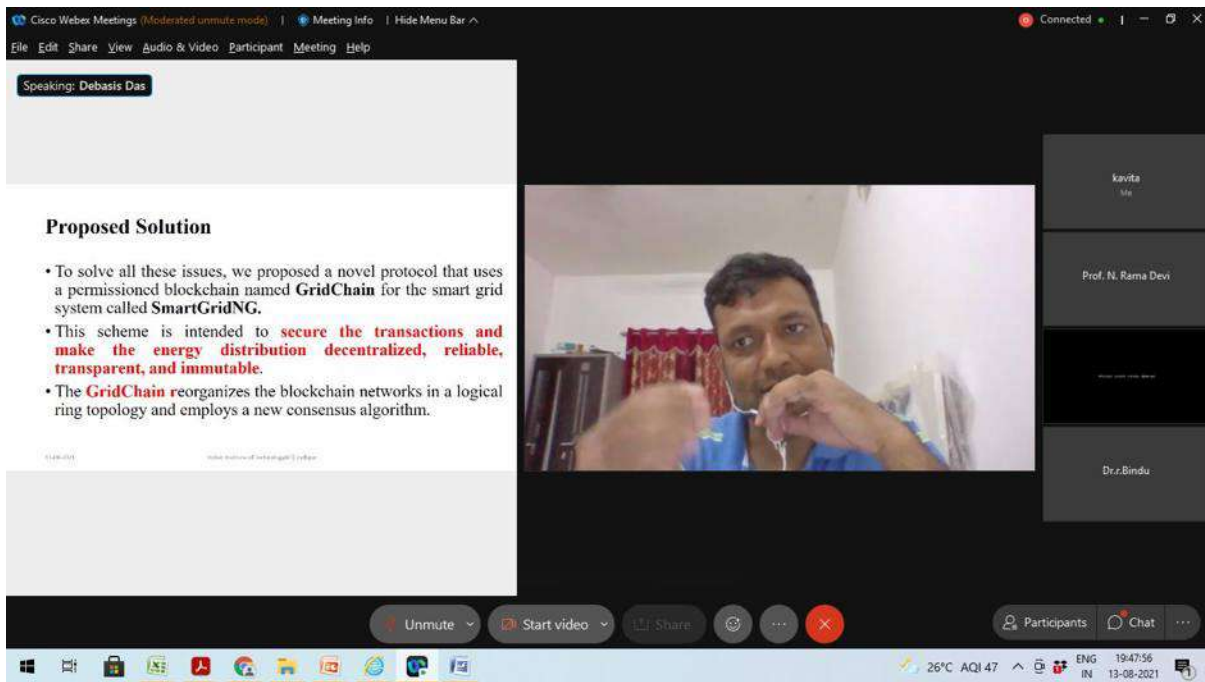

## Day2 (13.08.2021) :

Dr. Debasis Das was the speaker for second day. He is working as Associate Professor in IIT Jodhpur. His research interests include Vehicular Ad-Hoc Networks (VANETs), Block chain, Internet of things, Machine Learning, Artificial Intelligence. He has been awarded the Early Career Research (ECR) award from Science and Engineering Research Board (SERB), Department of Science and Technology. He has many research collaborations with premier institutions in India and out side India.

In session1 Dr. Debasis Das has given an enlightening talk on Block chain based Next Generation in Smart Grid Transactions. He discussed about the importance of renewable source of energy specially focussing on solar energy. He shared his work related to design of an efficient, secure, safe, fair and sustainable smart grid system.

Session2 was interactive where Dr. Debasis Das has focussed on the various real time problems which can be solved with Blockchain technology. The security issues encountered with block chain, achievement of decentralization, immutability and transparency for smart grid data was discussed.

### Day 3 (14.08.2021):

The speaker for the day was Mr. Arun Kumar Jindal. He is a Scientist at TCS Research and Innovation Labs, Delhi, India. At TCS Research, he works in the Cyber Security and Privacy Research Group. His current research interests are in the area of secure and private AI systems. His efforts and contributions have led to several product offerings from TCS which are deployed in various geographies.

In the first session Mr. Arun Kumar Jindal gave introduction to Cryptographic Hash function. It can be applied to block of data of any size, produces a fixed length output, and is easy to be applied to any given message. The property of collision resistance also referred to as strong collision resistance was discussed. He discussed about about Various padding schemes to increase the size of the message. Merkel Damgard Strengthening is one such way of padding the message.

In the second session Arun Kumar Jindal gave a talk on Cryptocurrency-BitCoin which is a decentralized, digital or virtual currency for security, immune to government interference or manipulation. He also discussed about public key infrastructure , Bit-coin Account and signature, Transaction Order, High Level Solution, Proof of Work and Block rewards in BitCoin. He also shared his knowledge about Non Fungible Token (NFT) which functions like cryptographic tokens, unlike cryptocurrencies like Bitcoin. Comparison between NFT and Internet was shown.

#### Day 4 (15.08.2021):

Dr. Debasis Das was the speaker for fourth day. He is working as Associate Professor in IIT Jodhpur. He gave a talk on Research Challenges in Blockchain for Financial Applications.

In the first session, Dr. Debasis Das gave an introduction to core trends in CS Research such as Blockchain, increasing role of AI, Smart Grid, 5G and Future Networks, Internet of Things, Quantum Computing and Quantum Communications. He discussed about role of Blockchain in financial transactions like payment transparency, digital currencies and distributed ledger technologies. Dr. Debasis Das explained about the new protocol called FinBlock which promises to have a lower transaction processing time and higher transaction throughput by introducing the pipelining into Blockchain and reducing one round of broadcasting of transactions.

In the second session, Speaker discussed about Framework for recommendation system and the evaluation criteria like comparing to baseline techniques in predicting anomalies, performance of Urban Anom in predicting particular anomaly category, different parameter setting affecting the performance, and how performance varies with different combination of modules in joint architecture. The session was interactive and fruitful.

## Day5: 16.8.2021

Dr . M. SwamyDas , professor, Dept of Computer Science and Engineering, Joint director-Academics , CBIT was the speaker for fifth day. Sir Enlightened participants about Data security issues and challenges.

Dr. L. Pratap Reddy, Professor, JNTUH and Working President, Swecha , Hyderabad was the speaker for 2<sup>nd</sup> session. Sir shared his indepth knowledge about Surveillance models and discussed interesting case studies.

The screenshot shows a Cisco Webex meeting interface. The main content is a presentation slide titled "The History of the Web". On the left, a graph plots "APPLICATION COMPLEXITY" against a "TIMELINE" from 1990 to 2020. The graph shows an upward curve with markers for Web 1.0 (around 1990), Web 2.0 (around 2000), and Web 3.0 (around 2020). On the right, a table compares the three eras:

Web 1.0	Web 2.0	Web 3.0
Mostly read-only	Widely Read-write	Portable and personal, RW & Executable
Company focus	Community focus	Individual focus
Home pages	Blogs/Wikis	live-streams/waves
Owning content	Sharing content	Consolidating content
Web forms	Web applications	Smart applications
Directores	Tagging	User behaviour
Page views	Cost per click	User engagement
Banner advertising	Interactive advertizing	Behavioural advertising
Ecosystem, connect info.	Connect people, Interaction	Connect knowledge understand itself
Britanica online /web	Wikipedia /social web	Semantic web
HTML/Portal	XML, RSS, 2D	RDF/RDFS, 3Dportal

The meeting interface also shows a list of participants on the right, including the host "CSE Dept., CBIT" and other attendees like "Prof. M Swamy Das".

Dr. M. Swamy Das explaining about comparison between Web1.0, Web 2.0 , Web 3.0

The screenshot shows a web browser window displaying a meeting page. The address bar shows the URL: "cbithyd.webex.com/webappng/sites/cbithyd/meeting/download/dfbc6dd2c4184cdb959969bce5b0711f\_20210816T122000Z". The page title is "Department of CSE Organizes Five-Day International Short Term Training Program (STTP) On Blockchain for Digital Transformation". The meeting interface includes a grid of video feeds for participants, a list of participants on the right (101 total), and a control bar at the bottom with options like "Unmute", "Stop video", "Share", and "Breakout sessions". The system tray at the bottom right shows the time as 9:05 PM on 8/16/2021.

A Brief report on the *National Level Hands-on workshop on “GitHub”*, organised in virtual mode on 23.10.2021 by Departments of IT and CSE

The Departments of IT and CSE together organised a National Level Hands-on workshop on “GitHub” on 23.10.2021 in virtual mode. The session was scheduled from 09:30AM to 12:30PM. The resource person for the event is Mr Revanth Rellabandi, Alumna of the Department of Information Technology, CBIT(A). The faculty coordinators of the event are Ms. T. Prathima, Ms. A. Sirisha, Assistant Professors from Department of IT and Ms Kavita Agrawal, Mr M Venkata Krishna Reddy, Assistant Professors from Department of CSE. This program is open to all students of all branches. We have received 1930 registrations from different states of India like Maharashtra, Uttar Pradesh, Kerala, Tamil Nadu, Madhya Pradesh, Andhra Pradesh, Telangana etc. The No. of Participants who attended is 576. 1921 views received on YouTube by the time this report is prepared i.e., 23.10.2021 2:55pm.

Inaugural of the workshop was hosted by Ms Kavita Agrawal. Prof. K Radhika, Head of the Department of IT addressed the participants about the College and Department of IT, Prof. Y Ramadevi, Head of the Department of CSE addressed the participants about the Department of CSE, Ms T Prathima addressed the participants about the event, Ms A Sirisha introduced Resource Person Mr Revanth Rallabandi. The technical support was provided by Mr Rajesh Kannan, Assistant Professor, Dept. of IT for the event in live streaming and certificate generation.

Github is software built for developers, it is development platform where we can host and review code, manage projects, and build software alongside multitude of developers. Git also tracks the history of changes to a project’s source code, including what specifically has been changed, who has changed what and when without any overrides, this is called version control. Version control is “a system that records changes to a file or set of files over time so that you can recall specific versions later.” Even when developers work on each other’s files at the same time, Git’s version control system will inform them that they’re about to overwrite somebody else’s work! Github can be used as a publishing tool, as a version control system, as a collaboration tool

The session was scheduled to demonstrate the following aspects of Github:

- Repository: The most fundamental element of Github, a repository is essentially a projects' folder. Repositories store every single project file, its documentation and its revision history of every document.
- Commit: Commits are the most frequented activities by a developer using github. A commit is like saving an updated file to its original folder

- Clone: are copies of repository that sit on the developers computer instead of a sever.
- Branch: is a parallel version of a repository. It is contained within the repository, but does not affect the primary or master branch allowing the user to work freely without disrupting the live version
- Fetch: Fetching refers to getting the latest changes from an online repository without merging them in. Once these changes are fetched you can compare them to your local branches
- Fork: A fork is a personal copy of another users repository that lives on your githubs account. Fork allows to freely make changes to a project without affecting the original
- Push: Pushing refers to sending committed changes to a remote repository such as GitHub.com. For instance, any local changes , can be pushed so that others may access them.
- Issue: Issues are suggested improvements, tasks or questions related to the repository. Issues can be created by anyone (for public repositories), and are moderated by repository collaborators. Each issue contains its own discussion forum, can be labeled and assigned to a user.
- Blame: The role of the Blame feature on GitHub passes ‘blame’ on the version of the code file that resulted in an error occurring.
- Merge: Merging takes the changes from one branch (in the same repository or from a fork), and applies them into another. A merge can be done automatically via a Pull Request via the GitHub.com web interface if there are no conflicting changes, or can always be done via the command line.

### Objectives of the Workshop:

- i. Introduce code sharing platform GitHub to share and manage project code.
- ii. To make students competent to participate in Hackathons.
- iii. Encourage students to take up open source projects by utilising the code available from git repository.
- iv. To enable students to make their code visible to others.

## CIRCULAR

CBIT Coding School and CDC are organising Preplacement training for V Semester students in online mode in the webex link provided in the circular. The Objectives of the In house training session are:

1. To make students familiarise with Computer Science topics relevant to Campus placements in Software Industry
2. To revise the Object Oriented Programming features through Java
3. To teach Python Programming
4. To enable students to prepare for InfyTQ Certification.

Heads of respective Departments are requested to **collect attendance cum feedback form** after every class through respective teachers as per V Semester time table and **attendance must be posted in the student ERP immediately** after the class in consultation with AEC. Sample attendance cum feedback form will be shared through email. End of the day the feedback cum attendance forms may be mailed to [director\\_cdc@cbit.ac.in](mailto:director_cdc@cbit.ac.in)

Students are informed to **attend the programme online and submit attendance cum feedback form** after every class

The courses to be covered for the said students of CSE, IT, ECE and MCA are as follows (Detailed syllabus is attached):

**A Brief Report on the preplacement training programme held online**

CBIT Coding School and CDC has organised Preplacement training for UG V Semester students of CSE, IT, ECE and MCA students in online mode. The Objectives of the In house training session are as follows:

1. To make students familiarise with Computer Science topics relevant to Campus placements in Software Industry
2. To revise the Object Oriented Programming features through Java
3. To teach Python Programming
4. To enable students to prepare for InfyTQ Certification.

The courses to be covered for the students of CSE, IT, ECE and MCA are as follows:

S.No	Topic	No. of Hours
1.	Python Programming (P)	08
2.	Java Programming (J)	17
3.	Data Structures and Algorithms (D)	13
4.	Data Base Management System (B)	10
5.	Operating System (O)	12

A Brief report on the Guest Lecture on  
***“Journey of a program from .C to .EXE and it’s Memory Management”***

organised on 19.02.2022 by Career Development Cell, CBIT.

The Career Development Cell (CDC) of CBIT has organised a guest lecture on “Journey of a program from .C to .EXE and it’s Memory Management” on 19.02.2022. The session was scheduled from 09:30AM to 12:30PM. The resource person for the event is Mr K Durga Naveen, CEO, COIGN & GoalStreet. The faculty coordinators of the event are Ms. T. Prathima, Assistant Professor from Department of IT and Ms. P. Vimala Manohara Ruth, Assistant Professor from Department of CSE. This program is open to all students of all branches. There are 1063 student participants from the states Tamil Nadu, Andhra Pradesh and Telangana. A total of 1,303 views are received on YouTube by the time this report is prepared i.e., 03.03.2022 12:52pm.

The inaugural of the Guest Lecture was by Ms T. Prathima who addressed the participants about the event, Ms Rimsha, student of IT Department, introduced Resource Person Mr K Durga Naveen. The technical support was provided by Mr Rajesh Kannan, Assistant Professor, Department of IT, for the event in live streaming and certificate generation.

The world is driven towards automation for accuracy and reducing human effort. The stages of automation development were explained in detail which included applications, technologies, languages, backend components and libraries. The dissection of turbo C was performed such as editing, pre-processing, compiling and executing the programs. The scope and lifetime of variables and the allocation of memory to these variables in main memory was demonstrated with various examples. Memory Management of Random Access Memory (RAM) and the various memory allocations in RAM such as code, stack and heap were illustrated with simple and effective examples and analogies. It was an interactive session where most of the student queries were covered by the speaker. The session ended with vote of thanks proposed by Ms. Divya, Student, Biotech.

**Objectives of the Guest Lecture:**

- i. To learn the process of converting Source Code to Executable Code.
- ii. To understand Memory management during program execution.

## **Report on Design Thinking and Success Journey as Entrepreneur**

**Delivered by Ms.Niveda Ravikumar ,**

**Founder and Director- Bliss Natural Sanitary napkins On 26<sup>th</sup> Febraury  
2022**

Ms Niveda R an Entrepreneur who is the Founder Bliss Natural Pads has addressed the students and shared her success story of growing into an entrepreneur from a Project given by her mentor during her last semester undergraduate program. She motivated the students towards startups and also emphasized on the various steps of design thinking and the approach to be followed to trouble shoo the problems eveloveing in this process of growing as an entrepreneur.

She has won many awards to her credit:

1. Ist chattra Vishwakarma Award
2. Innovation Most promising Student Innovator Award
3. I3 sidbi Mitra award
4. iCreate award

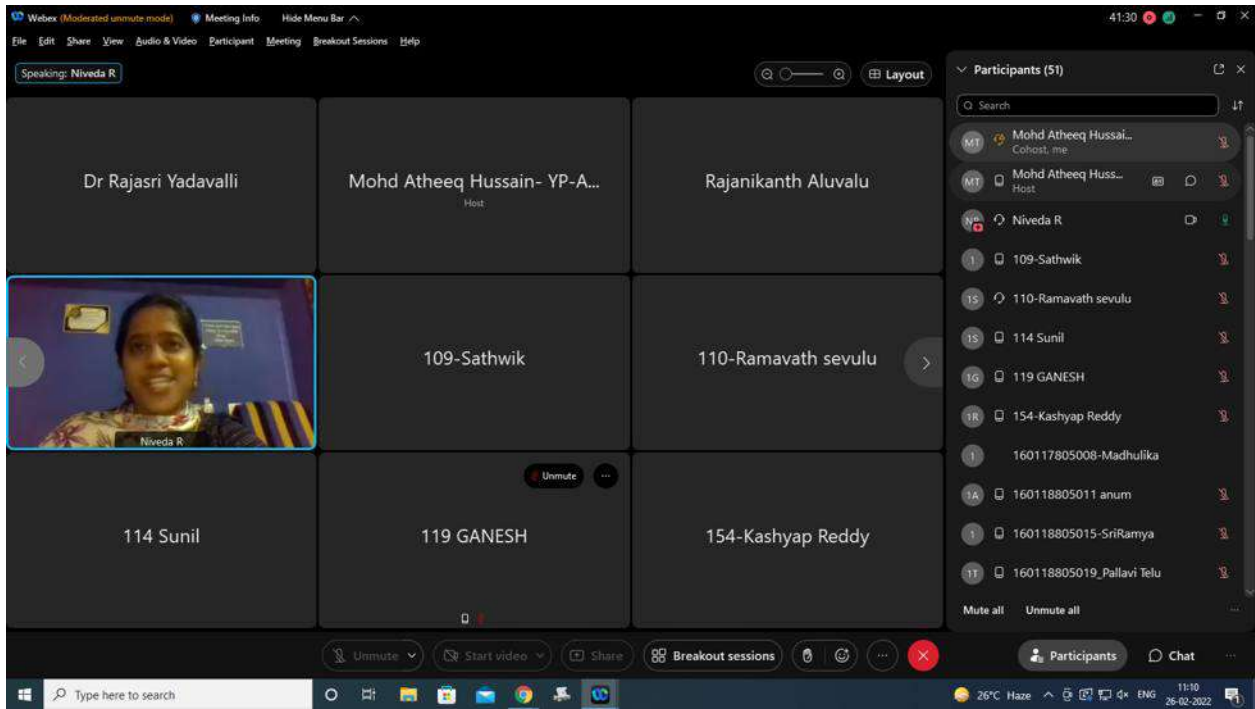

5+ innovation awards

1. Kovai Wonder women awards
2. 1st in cbe science and technology festival
3. Chinnikrishnan innovation awards
4. Suya Sakthi virudhugal
5. Pen shakthi virudhugal
6. Suriya Karigai award

Mr. Patrick Widmann, AI Startup consultant and Startup mentor from Germany delivered a session on “Turning Social ideas into Scalable businesses” on February 24th 2022 @ 06:30 PM under IIC -CBIT.

He spoke on the importance of various community-based innovations and opportunities available. He discussed with various case studies, how innovations can be converted into businesses and scaling them.

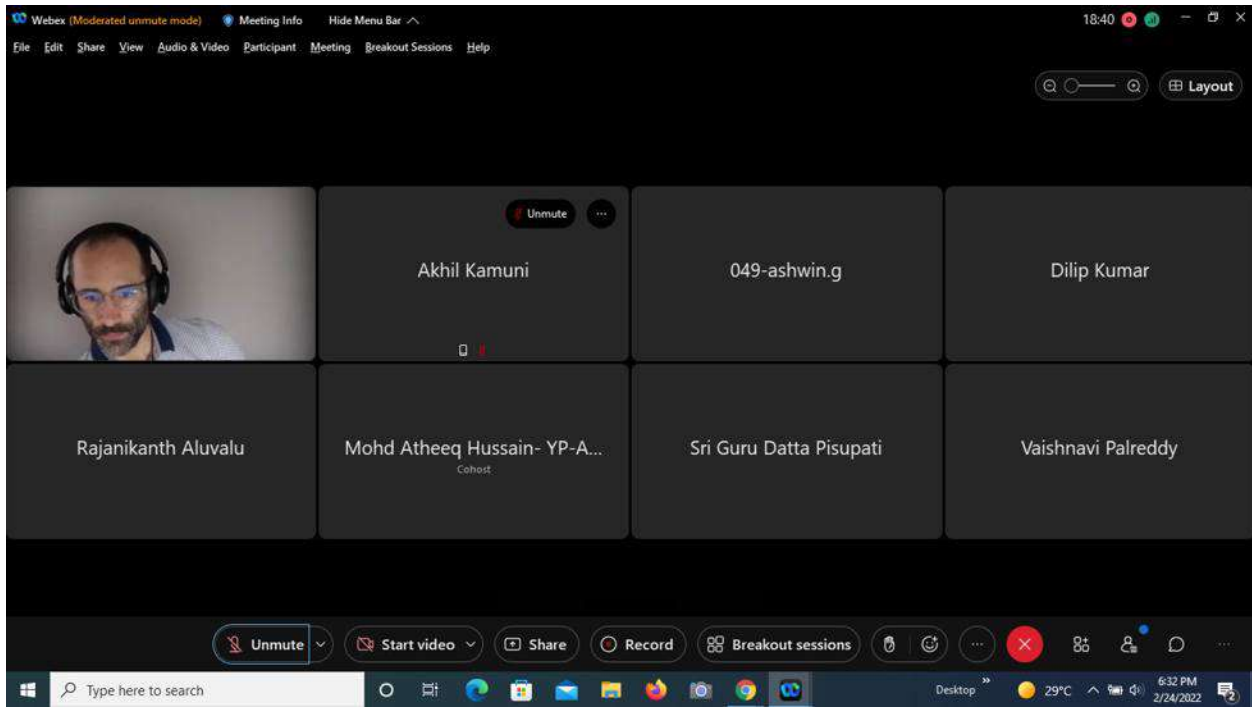

Students have gained a lot of insights from him, especially on social innovation. He motivated students to work on social ideas. Students from all branches of engineering, MBA and Faculty participated in the event.

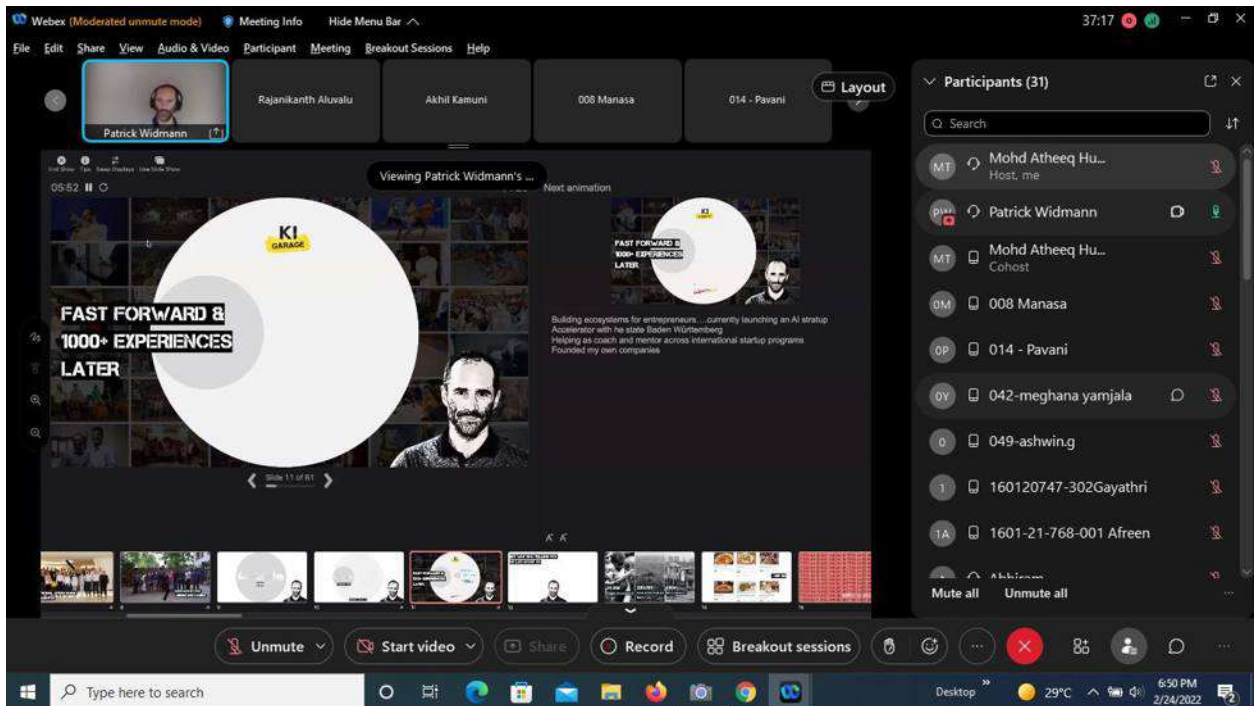

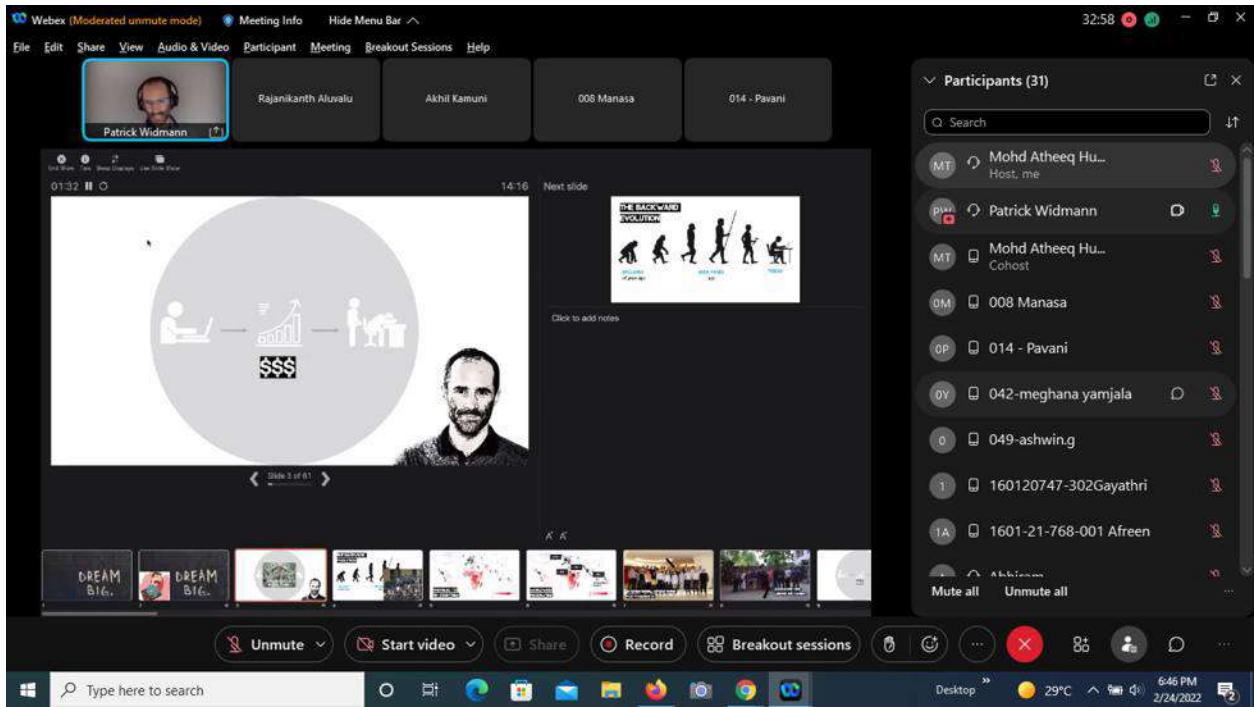

Dr. Rajanikanth Aluvalu, Associate Professor, Department of IT and Mr. Athee Hussain, Young professional, ICIC, CBIT Coordinated the event under the guidance of the Director. Dr. U.K. chowdharygaru.

In earlier years, Patrick managed the international operations and strategy for 9 international markets in one of Europe's leading omnichannel retail groups. Later he lived for several years in India and helped to develop Social Startup Accelerators by acting as a startup coach, digital advisor, and establishing bridges between the continents. Currently, he is building an AI ecosystem in Germany, in cooperation with the state Baden-Württemberg, to nurture the entrepreneurial potential of world-class scientific research at the leading tech universities. Besides being a startup founder himself, he engages as a mentor across various international startup programs to connect and develop the global ecosystem.

THE GLOBAL GOALS

When you start on working on social problems: Good to check SDGs

- First time world aligned and on a social mission
- Let me first start with the SDGs... I hope you heard about it!!
- Due to that, the world was on a good way to fight the social issues
- From UN
- Since 2016, 16 years
- Until 2030
- Direction for governments, NGOs & Entrepreneurs
- Sub goals: SDG target 3.8 on Universal Health Coverage (UHC)

The Sustainable Development goals are inspirational and incredibly ambitious. Among many things, they collectively urge the world to achieve rapid development, sustainable growth, fair distribution, climate action, gender equality and stronger institutions. If we could attain the SDGs, we would truly live in a better world but who is doing that???

Workshop on**

**"Recent Trends and Challenges  
on block chain Technology"**

**About CBIT(A):** Chaitanya Bharathi Institute of Technology (Autonomous) has an ecosystem which caters to Research, Consultancy, Start-Ups, Incubations, Strategic Collaborative Associations with Industries and Foreign Universities. The Institute is pioneering the development of an Artificial Heart in Collaboration with SHARE India / Pittsburgh University and Cornell University, USA. CBIT(A) has been standing as a temple of learning for the past 43 years. UGC has granted Autonomous status from the Academic Year 2013-14 onwards.

**About IT Department:** The department comprises of committed and well qualified staff. The intellectual ambience in IT Department is conducive to the overall development of the students and the discipline of IT as a whole. During the year 2020-21 sanction is accorded for two new programmes in emerging technologies: B.E (AI & DS) thus enhancing the intake of students from 180 to 300. The vision of IT Department is to become a centre of excellence in the field of center of excellence in the field of information technology that yields pioneers and research experts who can contribute for the socio-economic development of the nation.

**About the Workshop:**

Technologies and computing systems are becoming ubiquitously integrated into our daily lives. Blockchain is a digital disruptive technology compared to the internet, promising innovations in the financial, commercial and other areas. Blockchain technology is fairly simple yet very profound and is an emerging technology platform for developing decentralized applications and data storage. Powered by cryptography, Blockchain enables confidentiality, privacy and security of data and user identities. Blockchain is considered the future backbone of digital transactions because of the way it secures and regulates digital relationships.

**OBJECTIVES OF THE WORKSHOP**

To introduce the concepts of Blockchain and Platforms To provide Blockchain use cases in various domains  
To acquaint the participants with research challenges in Blockchain

**EXPECTED OUTCOMES**

Upon successful completion of the workshop,  
The participants will acquire an overview of the concepts and mechanisms of block chain.

**GUIDELINES FOR PARTICIPANTS**

- Web Links are updated on WhatsApp Group.
- E-Certificate will be issued to all the Participants, after successful completion of the Online Workshop.
- Participants need to mark their attendance in the google form which is circulated during the Session.

Subject: Proposal of a coding club

Respected Sir,

The students of our college are proud of the excellent functioning of many clubs in our college. We, as students, believe that through the means of clubs, we often improve our personality. Clubs help students to know each other very well and we think it would be best if we can use them to gain industry-based knowledge and technical skills. We, as students of Information Technology, felt that we lack such exposure to competitive coding and the pandemic made it even more difficult. We believe the need to build a strong foundational network in our college which extensively worked for the student body to develop the culture of coding and other technical skills.

Hence, we propose to start a coding club for CBIT, that is the **UNITED CODERS CLUB** of CBIT or the UC3. The proposed coding club would cater to all the students and would be an open-source club. We brainstormed a lot of plans for the club, and we plan to implement them step by step. The club would ensure in creating a proper atmosphere to the students, guiding them to insights about the coding culture and opportunities available in the technical world. Here is a glimpse of the activities and events that we plan for the club:

1. A social media handle to circulate information among students.
2. Interviews with industrial experts to share their experiences and learnings.
3. Roadmaps and Cheat sheets for coding career.
4. Monthly Challenges/ Bootcamps // Ideation.
5. Frequent Hackathons for spreading idea about real life problem solving.
6. Blogs and Podcasts relating to the technical world.
7. Seminars on Competitive Programming and Open Source Community.

We sincerely request you to grant us the permission to create this club. We strongly believe this would be of great benefit to the student body and help in their professional endeavors.

Thanking You,  
Yours Sincerely,

## INTERNATIONAL CONFERENCE ON BIOTECHNOLOGY AND INTERDISCIPLINARY TECHNOLOGIES (iCBIT-2021)

November 8th 2021 - November 12th 2021

[icbit21.cbbit.org.in](http://icbit21.cbbit.org.in)

### ABOUT THE INSTITUTION

CBIT is one of the premier Engineering Institutes in India, pioneer in Telangana State, which is at idyllic surroundings of Gandipet Lake, Hyderabad. The college offers Nine UG and Eleven PG programs. CBIT Students are prepared and perfected to secure Placements in reputed MNCs. The Institute has been accredited by NAAC – UGC with 'A' Grade and various programs are accredited by NBA – AICTE.

The UGC has granted Autonomous Status from the Academic Year 2013-14 onwards. Stringent Academic Standards, Industry Compliant Teaching Methodology, Research Projects from Private and Public Sector organisations Industries in Engineering and Management and Consultancy Practice, enabled the Institute to establish its Identity in the Technical Education and is Ranked No. 1 amongst the Private Engineering Colleges in both the Telugu Speaking States.

### ABOUT THE DEPARTMENT

The department was established in the year 2005 with an intake of 60 in UG (B.Tech), Biotechnology program the department has good infrastructural facilities and has 8 full-fledged laboratories and R&D equipped with modern equipment. The department also has well-qualified faculty and technical staff. The department has full pledged assistance and technological feedback for strengthening the areas of R & D from Osmania University, HCU, ICRISAT, DRR, APAU, NIAB etc.

The department has MoU's with national and international academics organization, research institutes viz: Curtin University, CSIR-IICT, Hyderabad, Green bubble algal works Pvt. Ltd. and SVAK life sciences.

### ABOUT THE CONFERENCE

The iCBIT - International Conference on Biotechnology and Interdisciplinary Technologies 2021\* comes up with a leading associative platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, as well as practical provocations, confronted and solutions accepted in the fields of Biotechnology. The main aim of the conference is to bring cooperatively leading academic scientists, researchers and research scholars to exchange and share their research experiences and practices on all aspects of Biotechnology and Interdisciplinary Technologies. iCBIT 2021 includes Keynote sessions led by eminent scientists, oral presentations of sub-disciplines, poster presentations, ideathon, workshops, and events for school students. It is the eventual virtual meeting place for all the experts worldwide for new associative scientific cooperations and networking. With its scientific sessions, you are provided assertiveness to probe the present-day technologies and developments that are specific to your research area. No doubt the Conference has a wide extent of topics and pursued in aligned sessions related to the specific area of research.

#### Scientific sessions/Track:

iCBIT- 2021 is comprised of various tracks and sessions designed for oral/poster presentations to offer comprehensive sessions that address current issues in the field of Biotechnology.

Each session starts with invited talk by eminent scientists/academicians/industry persons followed by oral/poster presentations by the participants. Abstracts of the keynote, invited lectures and contributory presentations(oral/poster) would be published in Conference Proceedings with ISBN number.

High-quality original research work might be considered for publication in International Journal (Scopus-Indexed, Elsevier). Mere acceptance of the abstract in the conference would not qualify the manuscript for publication in the special issues of journals.

### EVENTS

- Technical events (paper and poster presentations)
- Panel discussion (Bio-interlocution)
- Workshops on biostatistics and bioinformatics
- Bio-Ideathon'21
- School event - Biotechnica

### THRUST AREAS (for technical sessions )

- Agricultural Engineering & Plant Biotechnology (APB)
- Animal Biotechnology, Tissue Engineering and Regenerative Medicine (ATR)
- Bioinformatics, Drug Design, Genomics and Proteomics (BDG)
- Biomaterials and Biomedical Engineering (BBE)
- Bioprocessing and Environmental Engineering (BPE) Food, Nutrition and Pharmaceutical Biotechnology (FNP)
- Biosensors, Bioelectronics and Nanobiotechnology (BBN)
- Biofuels and Renewable Energy (BRE)

## TENTATIVE SCHEDULE

	Forenoon (9:30 -12:30 IST)	Afternoon (13:30 - 16:30 IST)
<b>DAY 1</b> 8/11/21	Inaugural ceremony and keynote address	Technical sessions (Oral and poster presentation)
<b>DAY 2</b> 9/11/21	Technical sessions (Oral and poster presentation)	Technical sessions (Oral and poster presentation)
<b>DAY 3</b> 10/11/21	Workshop 1 and Workshop 2 (Parallel Sessions)	Workshop 1 and Workshop 2 (Parallel Sessions)
<b>DAY 4</b> 11/11/21	Workshop 1 and Workshop 2 (Parallel Sessions)	Panel Discussion with Industry, Research and academics personnels
<b>DAY 5</b> 12/11/21	Bio-Ideathon'21 (Round 2)	<ul style="list-style-type: none"> <li>• Bio-Ideathon'21 Round 2 (Continued) School event (Parallel sessions)</li> <li>• Valedictory session</li> </ul>

Papers and posters presented in ICBT-2021 may be submitted to the below journals (Based on journal's scope). Each registered delegate can submit only one paper to the selected journal. Please visit the websites of appropriate journals (Links given below) for 'instruction to authors' and the 'guidelines' for submission.

## REGISTRATION DETAILS

### For Indian participants

• Industry personnel	750 INR
• Faculty / Research scholars	500 INR
• Students	250 INR
• Delegates (Participation only)	100 INR

### For International participants

• Faculty / Research scholars	50 USD
• Students	25 USD
• Delegates	10 USD

4th year -45

3rd year -56

2nd year -59

-----  
total      160

If more than 5 registrations from an Institute then a group discount of 10% per person will be given

Any publication charges by the journals have to borne by the participants at an extra cost other than registration fee, if applicable.

\*\*\*Hard copies of certificates will be issued to all participants\*\*\*

\*\*\*Best oral and poster awards will be given for all technical sessions\*\*\*

### CIRCULAR

It is proposed to organize an Alumni Talk No. 01/2021 on "**Precision Medicine and its Applications**" to the III, V and VII Semester Students of B.Tech (Biotechnology) on 10.12.2021 from 02.30 PM to 03.30 PM through online mode as part of the CBIT Alumni Theme for 2021, **The Knowledge Partners**. **Dr. Prerana Bhan, Senior Manager, Product Development Division, R & D Dept., ACT Genomics Co. Ltd., an Alumnus of CBIT, 2011 batch of Biotechnology, will deliver the talk.** All the above said students are directed to attend the same and the attendance will be taken by the concerned Class Teachers. I/c Head, Department of Bio-Technology, is advised to instruct the concerned Faculty to take attendance of the respective students during the Session. Other interested Students and Faculty of other departments may also attend.

PRINCIPAL

To

All Heads of the Departments / Sections, for information and with a request to arrange for circulation among all the faculty members and students under their control.

CC: All Directors, COE, HR & PRO for information.

<b>Name of the Knowledge Partners</b>	Dr Prerana Bhan (2011 batch of Bio-Technology)
<b>Designation</b>	Senior Manager, product Development Division, R&D Department, ACT Genomics Co.Ltd
<b>Topic of presentation</b>	<b>Precision Medicine and its applications</b>

**Overview of Session**

Mr Caleb Joel from final year Biotechnology introduced Dr Prerana Bhan, Senior Manager, product Development Division, R&D Department, ACT Genomics Co.Ltd.

The lecture session was started with introduction to “Diseases and diagnosis”. The symptom driven diagnosis of diseases as a whole earlier, but now the environment lifestyle and individual defense against a disease and unique genetic profile are taken into account now cancer moonshot project by Barack Obama after human genome project and cancer genome Atlas that started back in 1995 - all these to develop pharmacogenomics concepts paradigm shift from chemotherapy to targeted therapy and then to immunotherapy giving an example of cancer. One of the major factors that affect drug response of an individual is genetic variation the 3 genetic alterations like point mutations, copy number alterations (gain or loss) and chromosomal rearrangement 2 types of variants - germline and somatic driver genes, driver mutations and cancer hallmarks harbouring a genetic variation could help prevent or even cure certain cancers breast cancer - HER2 amplification - therapy is herceptin; lung cancer - EGFR gene mutation - Tarceva and Iressa targeted therapies are under study. US, UK, Asia have patients battling cancer. They are trying to collect genomic data from their population and healthy tissues. Genome sequencing is carried out to obtain health DNA sequence to be compared with that of abnormal (cancerous) cells. Polymorphism is different among populations. advances in precision medicine in Taiwan and India and other initiatives around the world existing conventional molecular diagnostics, techniques like RT-PCR, Sangers DNA sequencing (focusing on specific small portions of the genome) and hence costly. Scientists are therefore planning to come up with something less expensive, more efficient with high throughput advancements. need exists because many tests are to be run and many healthcare professionals are in need for high throughput sequencing technology to reduce cost and time and focus on large portions of DNA). Companion diagnostics, a field of pharmacogenomics. The major goal of genetic testing is to not only diagnose a diseases but to also have an prognosis factor. In Next generation sequencing (NGS), illumina is the widespread machinery used as sequencing technology, how NGS improved detection sensitivity, clinical applications of NGS in presicion cancer medicine, cancer prevention > early detection > treatment selection > disease monitoring, how can AI help in developing precision medicine

Erica Tsai - done collaboration projecta and produced a number of papers - joined genetic

testing company and started studying precision medicine. they work together on in vitro diagnostics, inspired us to dream big and learn more by sharing her experience

There was Q/A session for both students and faculties after the talk.

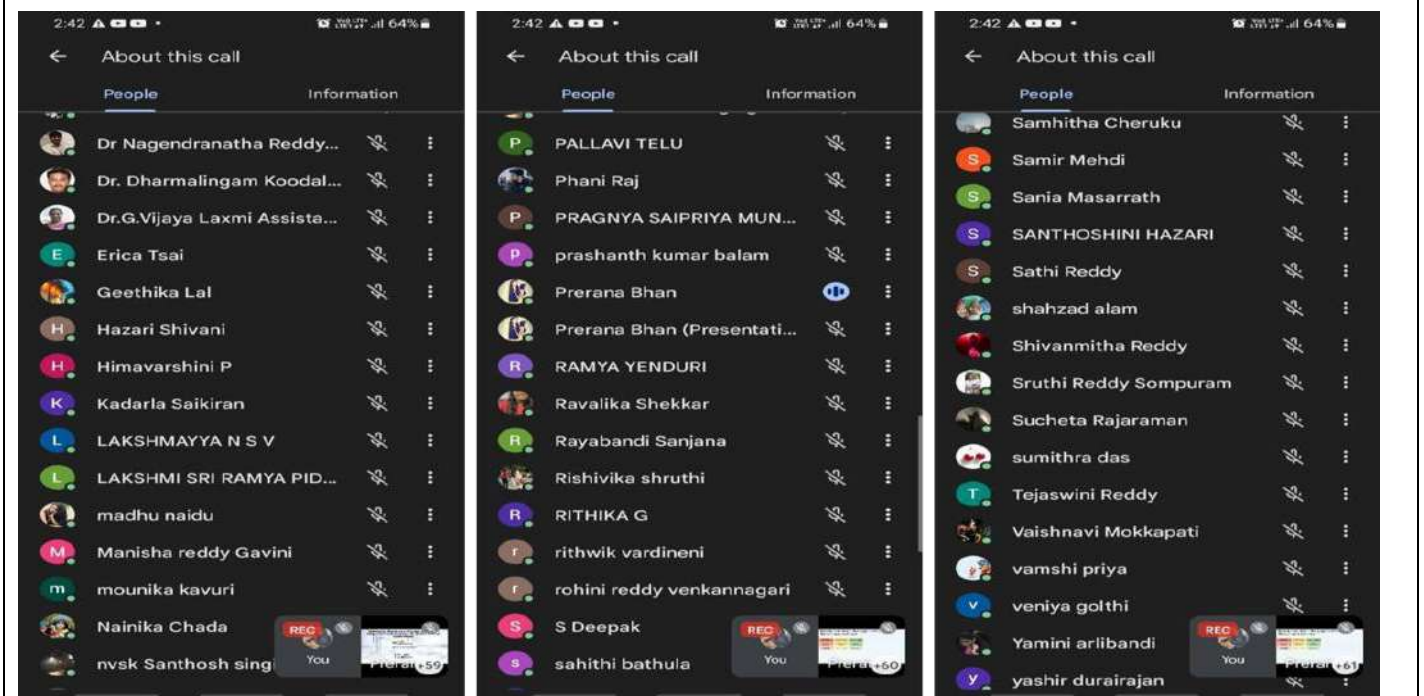

Vote of thanks by Ms. Mounika from 3rd year Biotechnology

**Target Participants:** All the students of B.Tech Biotechnology (70 participants) and Faculties of Biotechnology department have attended the session.

### Outcome of the Session

- A thorough knowledge about the precision medicine was learned
