About CBIT (AUTONOMOUS)

Chaitanya Bharathi Institute of Technology(A) established in 1979, is the No.1 premier Institution for Technical Education in Telangana State, located at Gandipet, Hyderabad.The college offers Nine UG and Eleven PGe courses in Engineering and Management. CBIT has been awarded 'A' Grade by NAAC – UGCand all UG and 5 PG programees are NBA-AICTE accredited. It is also the first ISO 9001-2008 certified Institute in the State.

About 'School of Management Studies'

The School started functioning since 1996 with the objective of moulding the young graduates into Professional Managers.It is endowed with well qualified and experienced faculty and committed supporting staff. This school is attracting the top layer of students through ICET who are offered good placement opportunities. The school is known for conducting seminars, workshops, faculty development programs to provide a platform to discuss various issues relating to business and management. This Schoolis a member of various professional bodies such as AIMS, FAPCCI etc.

About AIMS

[Association of Indian Management Schools \(AIMS\)](#), is a networking organization of business schools in India, grown into a powerful network of over 698 top management schools of national and international repute in the country. One of the major activities of **AIMS** is its policy advocacy role to safeguard the interests of B-Schools in all respects. It promotes management education with a focus on quality, manpower training and development, management research, curriculum development and takes all such steps on its own or in collaboration with other agencies for rejuvenating Management Education in India.

About FDP

MBA faculty today requires special skills: challenge, provoke and inspire. How can our faculty be more skillful to direct students to learn on their own? How can we bring out the best in every student? How can we make the classrooms crucibles for leadership? Can we facilitate our students to test their judgments? Unless we are capable of empowering students, explore complex ideas, reflect on their leadership styles, and embrace new models and methods for effective business management, as faculty we cannot say that we are doing a better job. Unless the tasks underlying teaching-learning process are real, the impact cannot be real.

The only way to meet high expectations of our students is to demonstrate exceptional commitment, dedicating long hours of preparation for the lectures. It may involve extensive reading, writing notes and lessons plans, and collaborative analysis among peers. Teaching comes first, and then the rest (like research, writing, and administrative duties) follow. There is no better reward for a faculty than an exciting, energized classroom that's thoughtfully choreographed to unfold unexpected insights. Unless the teachers are transformed, they cannot be good at sculpting students into professionals capable of assuming responsibility in business world. Hence this FDP is designed to be totally interactive

Themes

- How to prepare to conduct a Lecture
- How teaching Management subjects is different from teaching other disciplines? :
- Qualities of a good teaching methodology/pedagogy
- Best teaching practices in Finance/ Marketing/ HR
- Ethical orientation.

Pedagogy

Activity/Case based, Exercises and Problem solving methodologies/Techniques. It is designed to be totally interactive.
