ABOUT THE WORKSHOP

Digital literacy is crucial in today's world as it enables individuals to navigate and thrive in a technology-driven environment. It enhances employability, improves communication and collaboration, and provides access to vast information for learning and growth. Digital literacy fosters critical thinking, online safety, and responsible digital citizenship. It boosts productivity, empowers individuals, promotes inclusivity, and helps people adapt to rapid technological changes. By fostering creativity and supporting lifelong learning, digital literacy is essential for personal, professional, and societal success in the modern world.

WORKSHOP OBJECTIVE

This workshop aims to enhance digital literacy and provide technological empowerment to the non-teaching staff, equipping them with the necessary skills and tools for effective digital operations and communication in the modern workplace.

WORKSHOP OUTCOME

- Equip participants with knowledge on safe and efficient digital practices, including cybersecurity and data management.
- Empower non-teaching staff to utilize modern technologies.
- Foster technological self-sufficiency, allowing staff to troubleshoot basic digital issues.
