SUSTAINORATE

EVENT DATE: 10-11-2023

VENUE: D-Block Seminar Hall

NUMBER OF REGISTRATIONS: 42

NUMBER OF PARTICIPANTS: 14 (Only Second Years)

DESCRIPTION

The SustainOrate presented by Engineers Without Borders (EWB) CBIT during 2023 on 10th November was an elocution event conducted in the college. It was an enriching event which dealt with topics like sustainability. We chose the topic sustainability as it is a part of our club's vision to bring a sustainable future, also to bring awareness among the students.

Public speaking can be daunting for many students, but elocution competitions provide a platform for them to overcome stage fright and build self-confidence. The experience of delivering speeches or recitations in front of an audience boosts their self-assurance and enables them to handle future speaking engagements with greater ease.

A handwritten signature in black ink, appearing to read 'Lalitha', is written above a horizontal line.

OUTCOME

Overall, the event proved to be a success. It allowed students to ideate and deliver speeches in an efficient manner.

Mornachapalli Oka it Event Report

Permission Letter:

About The Event:

The CBIT NSS members visited Moranchapalli village, which had been severely affected by recent floods in July 2023. They donated around 450 kilograms of rice bags and 200 kilograms of fresh vegetables collected through their "FIST FULL OF RICE" donation campaign.

The impact of their visit was immediate and profound. The donated supplies provided much-needed relief to the flood-stricken community, addressing their immediate nutritional needs.

Yet, this visit was more than just delivering supplies. The NSS students engaged with the villagers, listening to their stories and concerns. Many shared heartbreaking accounts of homes and livelihoods lost to the floods, underscoring the ongoing support required.

The visit underscored the power of empathy and community engagement. It showcased the importance of being present and showing solidarity in times of crisis.

This visit exemplified the NSS club's dedication to making a positive impact on society. It left a lasting impression on both the NSS students and the villagers, emphasizing the resilience of the human spirit in the face of adversity.

On 09-12-2023, Department of Civil Engineering under the aegis of Parivrita Club Council for Green Revolution-An Environmental Organization and Council for Earth Leadership and Sustainability (CELS) organised Seminar on “Climate Impacts: Role of Technology”.

Dr. Sai Bhaskar Reddy Nakka Director, The Earth Center, Executive and Management committee member Council for Green Revolution (CGR) given lecture on global warming climate change is a significant environmental and social issue worldwide. Climate change, often referred to as global warming, is a result of increasing levels of atmospheric CO₂ and other greenhouse gases emitted primarily by human activities such as cars and factories. The consequences of climate change encompass not only global warming but also alterations in precipitation, sea level changes, and more frequent extreme weather events. These impacts have been affecting us for some time now, and they are becoming increasingly evident.

Dr Babu Rao Kalapala, Retired Scientist, IICT and environmental campaigner explained that climate change is a pressing global issue caused by various factors, including carbon emissions, volcanic eruptions, and solar radiation. Human activities like fossil fuel combustion, deforestation, and vehicular pollution play a significant role. These changes have led to more frequent and severe extreme weather events and threaten biodiversity.

Sub: Massive Tree Plantation Drive – MeriLiFE Mission 2023 Participation Reg.

Sir /Madam,

As you are aware that the Ministry of Education, Govt. of India has launched the MeriLiFE Mission on the occasion of “**World Environment Day**” on 5th June, 2023. In order to take the Govt. initiative further, AICTE has requested all the AICTE approved Institutions/Colleges vide AICTE letter No. AICTE/SDC(RB)/Tree Plantation-MeriLiFE/1 dated June 3rd, 2023 to involve all the students, faculty and staff members to plant at least one tree having suitable utility in the respective region.

Despite of repeated requests, it is observed that the very few institutions have participated and contributed in the plantation drive so far. Hence, it is decided that all AICTE approved institutes should participate in this initiative mandatorily and submit the information at <https://forms.gle/hpPxzHNvRw7ZRGfw5>

AICTE has also written letters to the State Govt. Departments like Forest Department, Technical Education Department and District Magistrates to support AICTE approved institutions in this initiative. You may check the letters sent to the authorities in your region at <https://pilot.aicte-india.org/meriLife/assets/document/LetterToAllGovtDept.pdf> and may request them for the support in this initiative. You are also requested to organize group activity for taking pledge as **Pro Planet Person** at the link <https://drive.aicte-india.org/meriLife/>

In view of the above, all the AICTE approved institutions are once again requested that the MeriLiFE Massive Tree Plantation Drive 2023 should be given utmost priority mandatorily by extending your sincere support and active cooperation to make the noble initiative a grand success. The institution wise Progress Report will be made available to the Ministry on receipt of satisfactory information from the institutes in this regard. The top 100 institutes with maximum number of tree planted will be awarded with “**Certificate of Appreciation**” by the AICTE.

Thanks & Regards,

(Prof. T.G. Sitharam)

REPORT ON PLANTATION

As a part of AICTE:MeriLiFE-Massive Tree Plantation Drive 2023, Chaitanya Bharathi Institute of Technology organized a tree plantation programme. It is widely recognized that the entire world is grappling with the issue of global warming. Planting trees has emerged as a highly significant endeavor to combat and recover from such challenges in today's context.

A campaign on "One Student-One Tree" was introduced to all students, aiming to inspire them to engage in tree planting by sowing saplings. The entire student body and staff actively took part in this initiative. On August 7th, 2023, a tree plantation event was meticulously organized, with free saplings procured from the local government nursery. Participants included the Principal, Heads of Departments, faculty members, members of the Environmental Club "Chaitanya Parivrita," NSS Volunteers, and students.

The planting process commenced with students and staff members planting saplings one by one. The initial phase involved planting saplings within the institute campus' sports grounds, followed by extending the plantation effort to the surrounding areas.

Principal, CBIT delivered an impassioned speech during the event, shedding light on the vital importance of tree plantations and fostering greater awareness on this crucial subject.

In the end, faculty coordinator thanked the staff and students for coming and participating in that fruitful activity, giving their precious time. Overall the programme was a huge success, empowering students with substantial knowledge of the environment and plants.
