## **Event Summary:**

Oasis 2.0, a summer event dedicated to providing water and food for animals and birds, was held at Chaitanya Bharathi Institute of Technology. Organized by a team of nature enthusiasts and volunteers from Chaitanya Spandana, the aim of this event was to create a welcoming and nurturing environment for local wildlife during the scorching summer months. @CitizensForAnimals provided the water bowls to support this initiative.

The event featured several activities and initiatives. Puddles were strategically placed in shaded areas to offer a cool and safe drinking spot for birds and animals. These puddles were regularly filled with fresh water to ensure a steady supply throughout the day. Additionally, feeding stations were set up with bird seeds, grains, fruits, and nuts, attracting a variety of bird species and providing them with sustenance.

Oasis 2.0 proved to be a successful summer event that not only provided essential resources for animals and birds but also educated and inspired the community to take an active role in wildlife conservation. By creating awareness and fostering a deeper appreciation for the natural world, Oasis 2.0 served as a catalyst for positive change and reinforced the importance of preserving and protecting our local ecosystems.

## **Volunteer Testimonial(Rashmitha):**

Hi! First of all, thanks to the Chaitanya Spandana club for conducting such a useful event. As a volunteer for the Oasis 2.0 program, I've had the privilege of participating in a truly impactful initiative aimed at creating water puddles for animals and birds. This program has not only been a fulfilling experience but has also highlighted the critical role such initiatives play in supporting local wildlife.

Through the Oasis 2.0 event, we've witnessed firsthand how strategically placed water puddles can serve as vital sources of hydration for animals and birds, especially during dry and hot seasons. These puddles have become essential watering holes, attracting various species and contributing significantly to their well-being and survival.

Moreover, being part of this program has been a reminder of our responsibility to coexist harmoniously with nature. By providing these simple yet essential resources, we are actively contributing to the conservation of local biodiversity and promoting a sustainable ecosystem. Thanks to my department for planning a wonderful event and thanks to all the participants who made my day.

I am grateful for the opportunity to have been involved in the Oasis 2.0 event. It has been inspiring to see the positive impact of our efforts on wildlife and to support such a meaningful cause. I look forward to continuing my involvement and advocating for the importance of preserving natural habitats for generations to come.

## **EVENT SUMMARY:**

During a recent survey near Ameerpet, Chaitanya Spandana identified ZPHS Ameerpet-1, where the classroom blackboards were in poor condition. The boards had significant cracks, allowing water to seep in and cause damage during the monsoons. This defect made it difficult for students to take notes and thoroughly understand the concepts being taught.

To address this critical issue, our team decided to fund and install 11 new greenboards (chalkboards). We strategically placed 5 boards in the primary school and 6 in the high school on the 12<sup>th</sup> of July, to ensure all students benefit from the new installations.

The reaction from the students was incredibly heartwarming. Their faces lit up with joy and excitement when they saw the new boards being installed. The improved learning environment immediately boosted their enthusiasm and engagement in the classroom.

Seeing the children so happy and knowing that our efforts will significantly enhance their learning experience was deeply rewarding for our team. We are committed to continuing such impactful initiatives and look forward to creating more positive changes in the future.

Our mission is to ensure every student has access to quality educational tools, and we are grateful for the opportunity to make a difference in their lives.

## **A REPORT ON A SEMINAR ON AWARENESS SESSION ON PMS AND PCOD**

**Event:** A Report on a seminar on Awareness session on PMS and PCOD

**Date:** 16-02-2024

**Venue:** Assembly Hall above Canteen

**Participants:** Over 150 participants

Chaitanya Suraksha organized a seminar focusing on the common problem among women which is PMS and PCOD. The event was held on the CBIT campus on February 16, 2024. Renowned consultant Dr. Manasa Reddy from Yello Clinics and Ankura Hospitals led the seminar.

The seminar's goal was to dissect the rising incidence of PCOD and PMS in young women by educating them about these conditions. The seminar's main goal was to inform and increase young women's awareness of PCOD and PMS. The goal of the seminar was to outline the causes and safety measures that women should take to lead healthy, peaceful lives. The seminar is beneficial for women who experience it. The organizers gave a brief introduction to the seminar at the beginning, emphasizing the significance of understanding PMS and PCOD. Y Ramadevi presented Dr. Manasa Reddy a bouquet welcoming the presence.

After that, Dr. Manasa Reddy took the lead and started her talk, covering a variety of PCOD and PMS-related subjects. She began by outlining the numerous hormones involved in the process as well as the biology of PCOD and PMS. She then discussed common menstrual issues that women deal with, like PDD referred to "Premenstrual Dysphoric Disorder." PMDD is a severe form of premenstrual syndrome (PMS) that causes significant distress or impairment in

various areas of life due to mood changes and other. She also explained Premenstrual syndrome, or PMS as it is commonly known, is a collection of emotional and physical symptoms that develop in the days preceding menstruation. Polycystic Ovary Syndrome, or PCOD for short, is a hormonal disorder that affects many women who are fertile. It is characterized by polycystic ovaries, excess levels of male hormones, and irregular or prolonged menstrual periods. The speaker also discussed how to properly care for people with PMS and PCOD. The seminar provided the young women with direction and awareness along with the enthusiastic staff members. There was an engaging Q&A session after the seminar. Every participant asked the speaker a variety of questions during the highly interactive session, which empowered and educated everyone.

The seminar organized by Chaitanya Suraksha was attended by over 200 young women, indicating its success. The seminar was successful in informing and enlightening young women and staff women about the importance of raising awareness. The presentation by Dr. Manasa Reddy was educational and covered a range of menstrual topics, such as common issues that women encounter and upholding menstrual hygiene. The audience had the chance to ask questions and get any doubts they had answered during the Q&A period. At last at the time of vote of thanks Dr. Manasa Reddy was offered with a gift by Dr. Krishnaveni. All things considered, the seminar was a step toward giving women the confidence to take control of their menstrual hygiene and health. It is hoped that initiatives like Chaitanya Suraksha's will continue to educate and empower women.

LOCKED, was an exciting event featuring five themed doors waiting to be unlocked! Each door presented a unique challenge, with themes ranging from superheroes and space exploration to crime, history, and the eerie world of the haunted. Participants chose to tackle the challenges individually or in teams of two, three, or four members. With both easy and hard challenges behind each door, teams strategically overcame obstacles to unlock them. The team that successfully unlocked all five doors with the highest points has emerged victorious.
