ABOUT THE EVENT

It comprised of four brain-scribbling rounds:

Round 1 – Questions Only: The participants were supposed to interact only by questioning back and forth swiftly. Answer statements and exceeding the time limit led to disqualification. Winning this round ensured entry into round 2.

Round 2 – Memory Game: Qualified Participants from round 1 were made into a team of four. A sentence having three words must be repeated by each in the said order, but the said words will arithmetically increase in quantum in the same order. One who misses the order, gets eliminated.

Round 3 – Bursting the Balloons: Participants will again be divided into teams of 4 each and will be handed balloons. One participant from the attacking team will go into the court of defender's team and try to poke their balloons with toothpick. The team with the maximum score, i.e. busted more balloons, wins.

Round 4 - The luxury Task: The participants will have to make a “wothee card” by playing the three levels, each will fetch the participants the requisite items to make the said card. Each level will fetch the participant money to buy the things required to make the card. In the beginning, participants will have to make paper cup pyramids, then recite laddu table, then assemble the pens and then write about one's-self. One who makes the card at the earliest will win the game.

The event commemorating World Water Day 2024, with the theme "Water for Peace," was organized by the Confederation of Indian Industry (CII), Telangana. Chaitanya Parivrita, the Environmental Club of CBIT, took the initiative to gather students and facilitate their participation in this significant event. We extend our gratitude to the CII for organizing this impactful event and inviting CBIT students to participate. The objective of the event was to raise awareness about the critical importance of water conservation and sustainable management of freshwater resources in fostering peace and sustainable development.

Event Highlights:

1. Seminar on "Water for Peace":

The seminar provided a platform for insightful discussions on the role of water in fostering peace and sustainable development. Experts and speakers shed light on various aspects, including the importance of water diplomacy, conflict resolution through water management, and the impact of water scarcity on social stability. Attendees gained valuable insights into the interconnectedness of water conservation and global peace efforts.

2. Quiz Competition on Water:

A quiz competition was held to engage participants and test their knowledge about water-related issues. By participating in discussions and activities, students gained a deeper understanding of the importance of water sustainability in fostering peace and advancing global development goals.

In conclusion, the collaborative efforts between CII Telangana and Chaitanya Parivrita resulted in a successful event that brought together students, experts, and stakeholders to advocate for water conservation and peace. It underscored the significance of collective action in addressing pressing environmental challenges and working towards a more sustainable and peaceful future. As we celebrate this day, let us consider making small changes to our water consumption practices that can have a positive impact on the environment.
