B.Tech, Biotechnology

4<sup>th</sup> year, Sem-7

As part of one-week "One Lab" event at CCMB, a group of B.Tech Biotechnology students from Semester 7 had the privilege to visit the esteemed research institution. This visit aimed to provide us with a deeper understanding of the cutting-edge research conducted at CCMB and its applications in the field of biotechnology.

Our visit commenced with an informative orientation program that acquainted us with the diverse research projects underway at CCMB. This session was instrumental in giving us an overview of the institution's work and its significance in the scientific community.

**1. Genomics: Applications and Scope** (Dr. Aneek Das Bhowmik, Senior analyst):

Dr. Aneek Das Bhowmik delivered a captivating talk on "Genomics: Applications and Scope." His presentation shed light on the pivotal role genomics plays in modern biology and its wide-ranging applications, from understanding genetic disorders to personalized medicine.

**2. Stem Cells: Architects of Life's Blueprint During Development** (Debabrata Jana, PhD Scholar):

Following Dr. Bhowmik's presentation, Debabrata Jana, a PhD scholar at CCMB, delivered an enlightening talk on "Stem Cells: Architects of Life's Blueprint During Development." He elucidated the significance of stem cells in embryonic development and tissue regeneration.

**3. Stress and Depression: It's Not All in the DNA** (Annapoorna, PhD Scholar):

Annapoorna, another PhD scholar at CCMB, delved into the topic of "Stress and Depression: It's Not All in the DNA." Her presentation explored the intricate interplay of genetics and environmental factors in understanding stress and depression, emphasizing that these conditions are multifaceted.

**Research Project Exhibitions:**

After the orientation program, we had the opportunity to visit different stalls showcasing various research projects at CCMB. These included:

- **Crop Improvement of Samba Mashuri Rice:** We learned about the ongoing efforts to enhance the yield and quality of Samba Mashuri rice through genetic interventions.

- **Developmental Biology:** This exhibit provided insights into the intricate processes governing the development of organisms from a single cell to complex multicellular organisms.
- **Cell and Stem Cell Biology:** We explored the world of stem cells and their role in regenerative medicine and tissue engineering.
- **Science and Society:** This stall highlighted the importance of scientific research in addressing societal challenges.
- **Genomics and Epigenetic Regulation:** We gained knowledge about the role of genomics and epigenetics in understanding the regulation of gene expression.

### **Gene-Health Connect Mobile Science Exhibition:**

Our visit concluded with an engaging tour of the "Gene-Health Connect" mobile science exhibition. This exhibition showcased the latest advancements in genetics and their implications for healthcare and disease prevention.

### **Conclusion:**

The industry visit to CCMB proved to be an enriching experience for us as B.Tech Biotechnology students. We gained valuable insights into cutting-edge research areas and their real-world applications. The presentations by renowned scientists and scholars broadened our horizons and deepened our appreciation for the field of biotechnology. We extend our heartfelt gratitude to CBIT and CCMB for hosting us and providing this invaluable learning opportunity.

The Department of BioTechnology is organizing an Alumni Talk No. 02/2023 on 06.09.2023 from 11:00 AM to 12:00 Noon through offline mode, as part of the 'CBIT Alumni Theme for 2023, The Knowledge Partners'. The details of the talk and the Alumnus speaker are as follows:

Title of the talk : **Exploring Career Options While Pursuing a B.Tech in Biotechnology**  
Speaker Name : **Mr. Mohith Reddy Arikatla**  
Venue : **M-002 (Biotech Seminar Hall)**

**Mr. Mohith Reddy Arikatla** is an Alumnus of CBIT, 2022 batch of B. Tech. Biotechnology. Currently, Student in MS Computational Biology program at Weill Cornell Medicine, Cornell University, New York

All the students of B. Tech (Biotechnology) of II, III and IV year, are required to attend the talk. The attendance will be taken by the concerned class teachers. Interested students and faculty of other departments are welcome to attend.

### **A BRIEF REPORT**

**On**

**Biotechnology-Alumni Talk conducted on 06<sup>th</sup> September, 2023; 12:00 - 1.00 PM**

**Venue : M-002 (Biotech seminar hall)**

<b>Name of the Knowledge Partners</b>	<b>Mr. Mohith Reddy Arikatla (2022 batch of Biotechnology)</b>
<b>Designation</b>	Master's Student, Computational Biology Program, Weill Cornell Medicine, Cornell University, New York, USA.
<b>Topic of presentation</b>	<b>Exploring career options while pursuing a Btech in Biotechnology</b>

#### **Background of the Talk**

Biotechnology is a vast field with numerous opportunities, and gaining exposure to different career paths can help you make informed decisions about your future. Exploring careers while pursuing biotechnology can be an exciting and beneficial endeavor. The biotechnology industry is dynamic and continually evolving, making it an exciting field for those who are passionate about science, innovation, and making a difference in the world.

#### **Overview of Session**

**Dr. V. Aruna**, Associate professor Biotechnology hosted the meeting and gave a brief introduction about **Mr. Mohith Reddy Arikatla**, Master's Student, Computational Biology Program, Weill Cornell Medicine, Cornell University, New York, USA.

**Mr. Mohith Reddy Arikatla** started the session by sharing his experience in exploring the Biotechnology field that involved a series of steps and a range of considerations. Mr. Mohith mentioned that a career in biotechnology offers a wide range of opportunities to work at the intersection of biology, chemistry, and technology to solve complex problems and make a positive impact on society. He gave great insights on the different career paths and roles within the field of biotechnology like **Biomedical Researcher/Scientist, Bioprocess Engineer, Clinical Researcher, Quality Control, Biotech Entrepreneur, Forensic Scientist** to name a few.

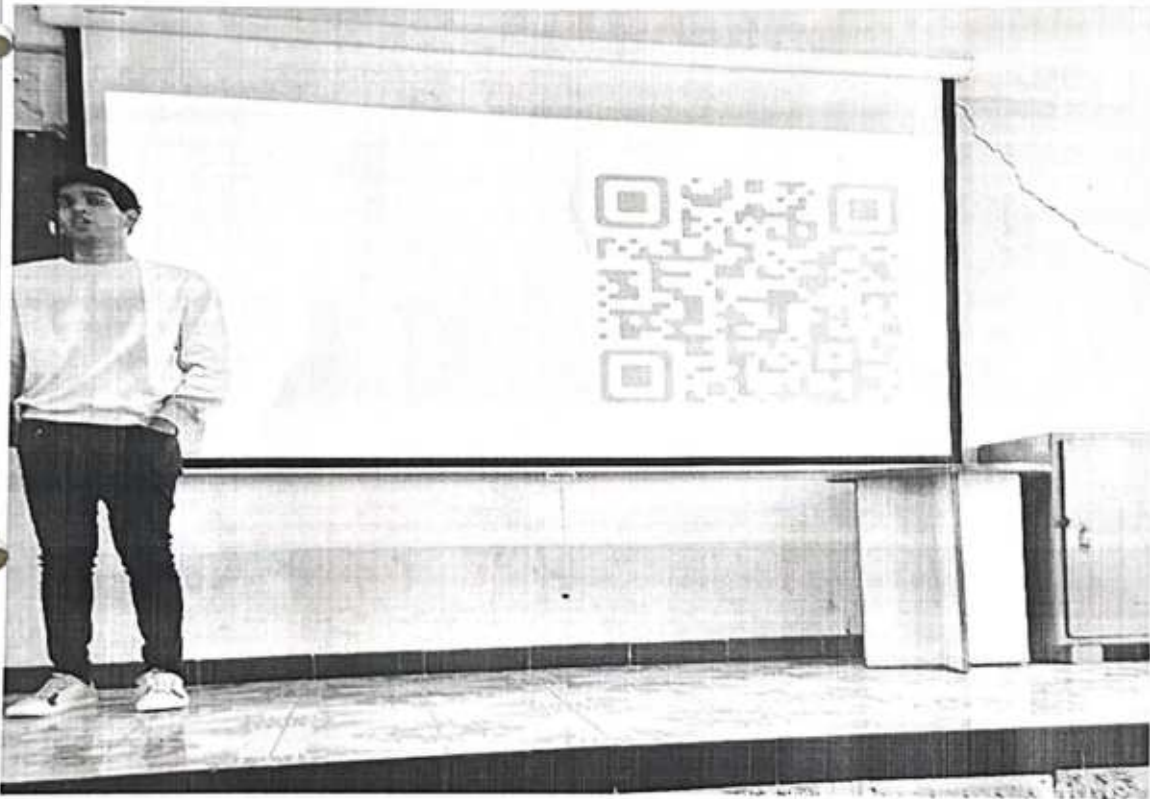

The session was interactive as students keenly participated in knowing the different career paths in Biotechnology. He got into detail on how he started his journey right from college and the ups and downs he encountered on the way to choosing a career. He started by joining as a **Phyto research intern at Inocure Tech Pvt Ltd** and finding his passion towards **Computational Biology**. He made a point that exploring careers while pursuing biotechnology is an ongoing process and to do something that you are interested in and passionate about. As you gain knowledge and experience, your career goals may evolve, and you may discover new interests within the field; to stay open to opportunities, keep learning, and adapt your path as needed to align with your passion and aspirations. He suggested kickstarting the journey by joining Internships and Co-op Programs, research institutions, to get hands-on experiences, to network with professionals, attending Conferences and Workshops, seeking Career Counseling and mentoring from faculty. There was a Q/A session for both students and faculties about Masters in Biotechnology, application process and choosing the right University after the talk. Vote of thanks was given by **Dr. Ashoutosh Pandey (HoD, Department of Biotechnology)**.

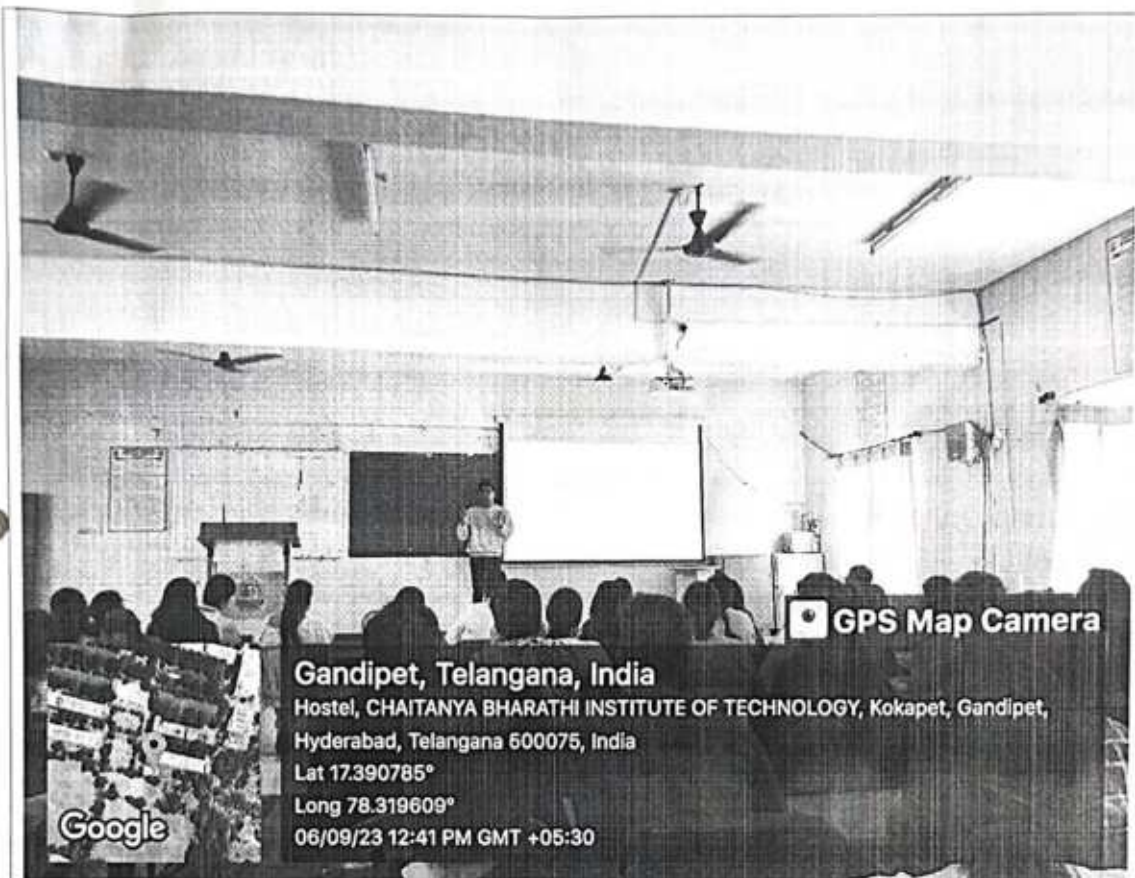

**Target Participants:**

All the students of B.Tech Biotechnology (III-Semester; VI-Semester; VII-Semester) and Faculties of Biotechnology department attended the session.

**Outcome of the Session**

- Deep insights on different career paths in Biotechnology field and how one can choose among the various paths available
- Biotechnology as an emerging field offers a wide range of opportunities for those who are passionate about science, innovation, and making a difference in the world.
- Detailed road map to pursue a career in Biotechnology which can be either a masters program, research program or work in the field.

Dear Prof. C. V. Narasimhulu,

Thank you so much for your invitation. It is my great honor to deliver a lecture in your university even in this short notice.

I will be at the reception place of Hotel Fairfield by Marriott, Gachibowli, Hyderabad at 8:30 a.m. on 19th September, Tuesday, 2023.

Below is my lecture title.

Highlighting the molecular mechanism underlying pancreatic cancer development:  
a tip for using artificial intelligence tool

<https://www.eurekalert.org/news-releases/973958>

## Highlighting the molecular mechanism underlying pancreatic cancer development

Researchers visualized the protein binding site of the (pro)renin receptor known to be involved in pancreatic cancer development using an artificial intelligence-based protein structure prediction program. They predicted the 3D shape of this receptor and revealed the presence of hand-shaped grooves, allowing for the binding of multiple proteins. This study provides the

**件名:** Invitation for delivering a 'Guest Lecture' at 'Chaitanya Bharathi Institute of Technology (Autonomous)' CBIT, Hyderabad- Requested - Reg.

Dear Professor,

Greetings from CBIT !!!

It gives me immense pleasure to invite you for giving a 'Guest Lecture' on topic of 'Prospects of Food Biotechnology for Chemical Engineering and Biotechnology' at our institution of great repute, i.e., 'Chaitanya Bharathi Institute of Technology (Autonomous)' CBIT, Gandipet, Hyderabad-500075-India.

The target audience for this lecture will be III and IV year students belonging to Chemical Engineering Undergraduate Program and Biotechnology Undergraduate Program. The date and time for the 'Guest Lecture' is 19th September, Tuesday, 2023, 10:00 AM to 11:00 AM at CBIT, Gandipet, Hyderabad.

You will be provided local transportation both to and from your place of stay to CBIT, Hyderabad. To facilitate your seamless participation for this lecture, the CBIT transportation will be provided from Hotel Fairfield by Marriott, Gachibowli, Hyderabad at 8:30 a.m. on the said date, i.e., 19th September, Tuesday, 2023.

I request you to accept our invitation to this 'Guest Lecture', and enlighten students and faculty of CBIT on the topic of Food Biotechnology.

With Best Regards,

Prof. C. V. Narasimhulu,  
Principal, CBIT,  
Gandipet, Hyderabad - 500 075.

## Brief Biography of Prof. Akio Ebihara

Dr. Akio Ebihara is currently working as a Professor of Faculty of Applied Biological Sciences, Gifu University, Japan. He received B.Sc. (1996) and Ph.D. (2001) degrees from University of Tsukuba, Japan. His main area of Ph.D. research is Biotechnology. He worked as a postdoctoral researcher (2001-2006) and a team leader (2006-2008) at RIKEN SPring-8 center (Japan), and has trained in protein X-ray crystallography using the synchrotron radiation available at SPring-8. Since 2008, Dr. Ebihara has worked as a faculty of Gifu University in the area of biochemistry.

His research interests are structure-based understanding of protein function and enzymatic catalysis, production of recombinant protein for clinical applications, and developing a point-of-care-testing of a biomarker. He has extensively investigated a series of proteins involved in Renin-Angiotensin System, which is a key regulator of blood pressure and plays a critical role in the pathogenesis of cardiovascular diseases. This research is being undertaken with the collaboration with University of Dhaka, Bangladesh.

Dr. Ebihara has contributed to establishing academic collaboration with Department of Chemical Engineering, Indian Institute Technology Guwahati. He visited this Department in December 2017 to provide a lecture at Indian Institute of Chemical Engineers, Guwahati Regional Centre. The Indo-Japan Bilateral Symposium on “Future Perspective of Bioresource Utilization in North-Eastern Region of India (IJBS17)” was jointly organized by Indian Institute Technology Guwahati and Gifu University and was held in February 2018. He worked with Prof. Vimal Katiyar and Prof. Ramgopal V.S. Uppaluri to implement this symposium. Dr. Ebihara is now working as an academic coordinator of “International Joint Master's Degree Program in Food Science and Technology between Indian Institute Technology Guwahati and Gifu University”, which was launched in 2019.

## Unveiling the Molecular Mechanisms of Pancreatic Cancer Development

DECCAN NEWS SERVICE

■ hyderabad

Highlighting the molecular mechanism underlying pancreatic cancer development Professor Akio Ebihara is a world renowned expert of Protein Science, and his work is primarily in renin-angiotensin systems. today, he visited CBIT campus on invitation of Principal Prof. C. V. Narasimhulu, and gave a talk on the topic of 'Highlighting the molecular mechanism underlying pancreatic cancer development: a tip for using artificial intelligence tool'. He said Pancreatic cancer will soon become the second leading cause of cancer-related death mainly due to a lack of early diagnosis. Artificial intelligence is being applied in various aspects of diagnosing medical conditions. In his review, he summarized the current

literature on the application of artificial intelligence in the diagnosis and management of premalignant lesions that would otherwise progress to pancreatic cancer. He also discussed about joint study program of Indian students in Japan.

To,

The Principal,  
CBIT, Hyderabad

**Sub: Guest Lecture, Honorarium, and Transportation- for Professor Akio Ebihara,  
Gifu University, Japan**

Dear Sir,

Kindly give permission to organize a guest lecture by Professor Akio Ebihara, a distinguished expert in the field of Biological Sciences, from Gifu University, Japan. This lecture is of significant importance to CBIT students, particularly those studying Biotechnology and Chemical Engineering. Details of the proposed guest lecture are as follows:

**Guest Speaker:** Professor Akio Ebihara

**Affiliation:** Gifu University, Japan

**Date, Time** 19th September, 2023, 10:00 AM to 11:00 AM

**Venue:** N Block hall

To ensure the success of this event and to honor Professor Ebihara for his valuable time and expertise, we kindly request your support in arranging the following:

**Honorarium:** We propose providing an honorarium of Rs. 3000/- in cash (instead of cheque) to Professor Akio Ebihara in cash as a token of our appreciation for his contribution to our institution.

**Transportation:** We also request CBIT Management to provide transportation **both to and from IIT Hyderabad** for Professor Ebihara. This will facilitate his seamless participation in the lecture.

Sincerely,

Dr. Ashoutosh Panday  
Professor and HoD,

### A BRIEF REPORT

On

Biotechnology-Alumni Talk conducted on 27<sup>th</sup> September, 2023; 03:00 – 04:00 PM

Offline mode (M-002- Biotechnology Seminar Hall)

Name of the Knowledge Partners	Ms. Rithika Gorrepati (2022 batch of Biotechnology)
Designation	Intern, Corporate Innovations, T-Hub, Hyderabad.
Topic of presentation	From Campus to Career: Why Timing Isn't Everything
<b>Background of the Talk</b> T-Hub is a Hyderabad-based startup ecosystem that facilitates collaboration between startups, venture capital firms, corporations, governments, and academics. T-Hub enables and strengthens an innovation-hungry ecosystem.	
<b>Overview of Session</b> <b>Dr. C. Nagendranatha Reddy</b> , Associate Professor Biotechnology, hosted the meeting and gave a brief introduction to Ms. Rithika Gorrepati, currently Intern, Corporate Innovations, T-Hub, Hyderabad.  <b>Ms. Rithika Gorrepati</b> started the talk by narrating her accomplishments and experiences in academics as well as co-curricular activities at CBIT. She was a very proactive student and has actively participated in many cultural and technical events and published research papers. She worked on many projects and interned at reputable biotechnology companies like Dr. Reddy's and Laurus Laboratories. Despite securing a decent CGP and having interned at top biotechnology companies, she couldn't find a place to settle herself immediately after graduating. She addressed the confusions that every youngster, including herself, had experienced and that every youngster would experience, and she presented some practical solutions to overcome them. She then detailed how, as a biotechnology graduate, she was hired as an intern at T-Hub. She has educated us on the mission, functioning, and career prospects at T-Hub, which is India's largest prototyping center. She has underlined the importance of developing soft skills such as communication, empathy, critical thinking, problem solving, and so on, which are essential to survive in the existing innovative world. She has motivated the students to see how best they can utilize the facilities at T-Hub so that every individual developing an idea can implement it. A vote of thanks was given by Dr. Ashoutosh Pandey.	

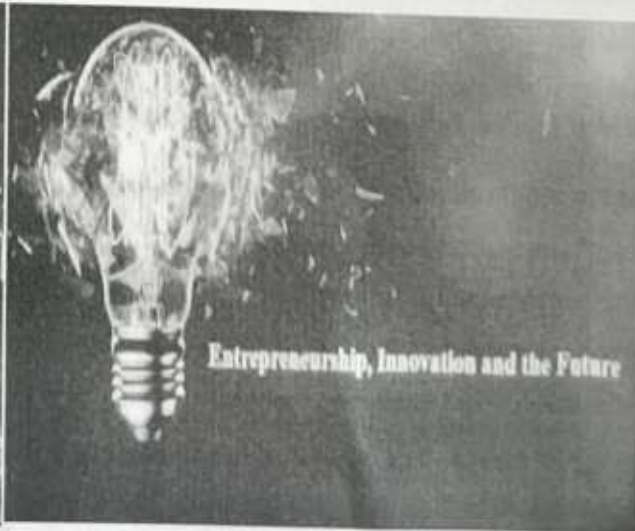

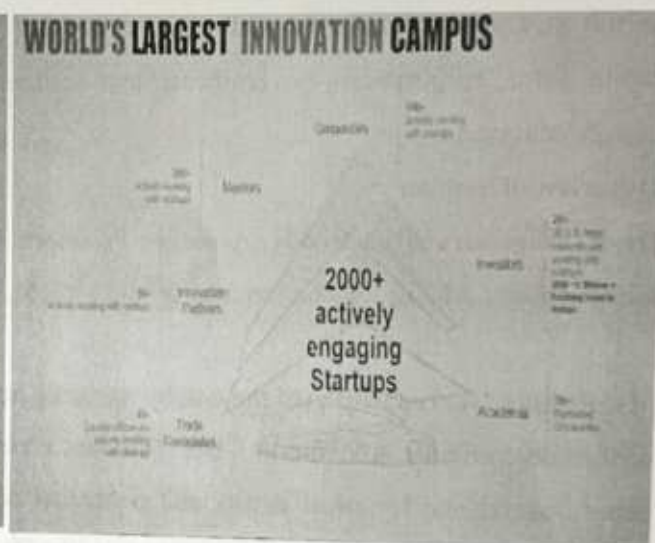

### Target Participants:

All the students of B. Tech Biotechnology (II, III and IV year) and Faculty of Biotechnology department attended the session.

### Outcome of the Session

- To always think positively and never give up.
- To learn diverse skills that improve adaptability.
- Concentrate on the principles that cannot be replaced by automation.
- Few non-core opportunities for the Biotechnology graduates.
- How T-Hub is nurturing every individual to foster their skills and ideas.

### Snapshot during the session

## Change is Constant

It is not the strongest of the species that survives,  
nor the most intelligent that survives.  
It is the one that is most adaptable to change.

Learn it, embrace it, accept it and then apply it

## Soft Skills

Being a good coach

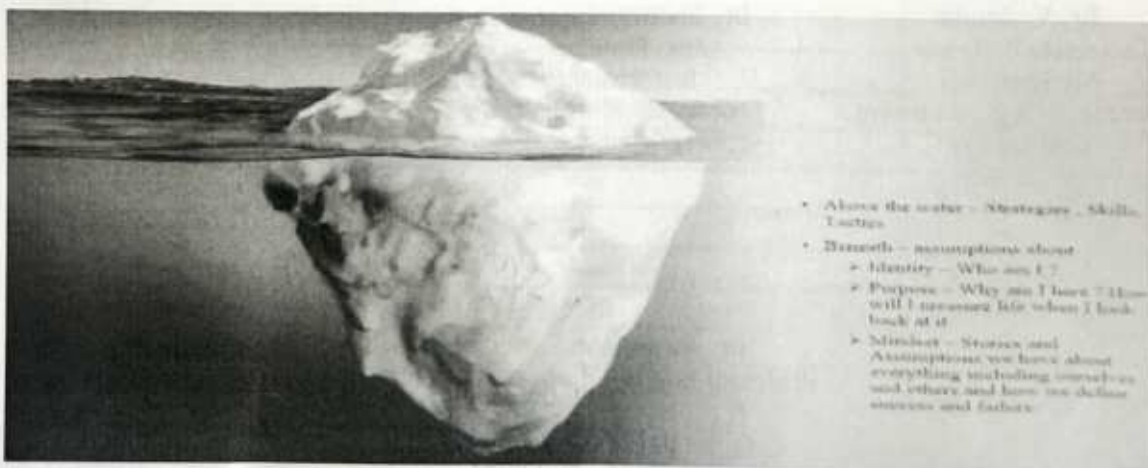

Communicating and listening well

Initiative

Empathy

Critical thinking and problem solving

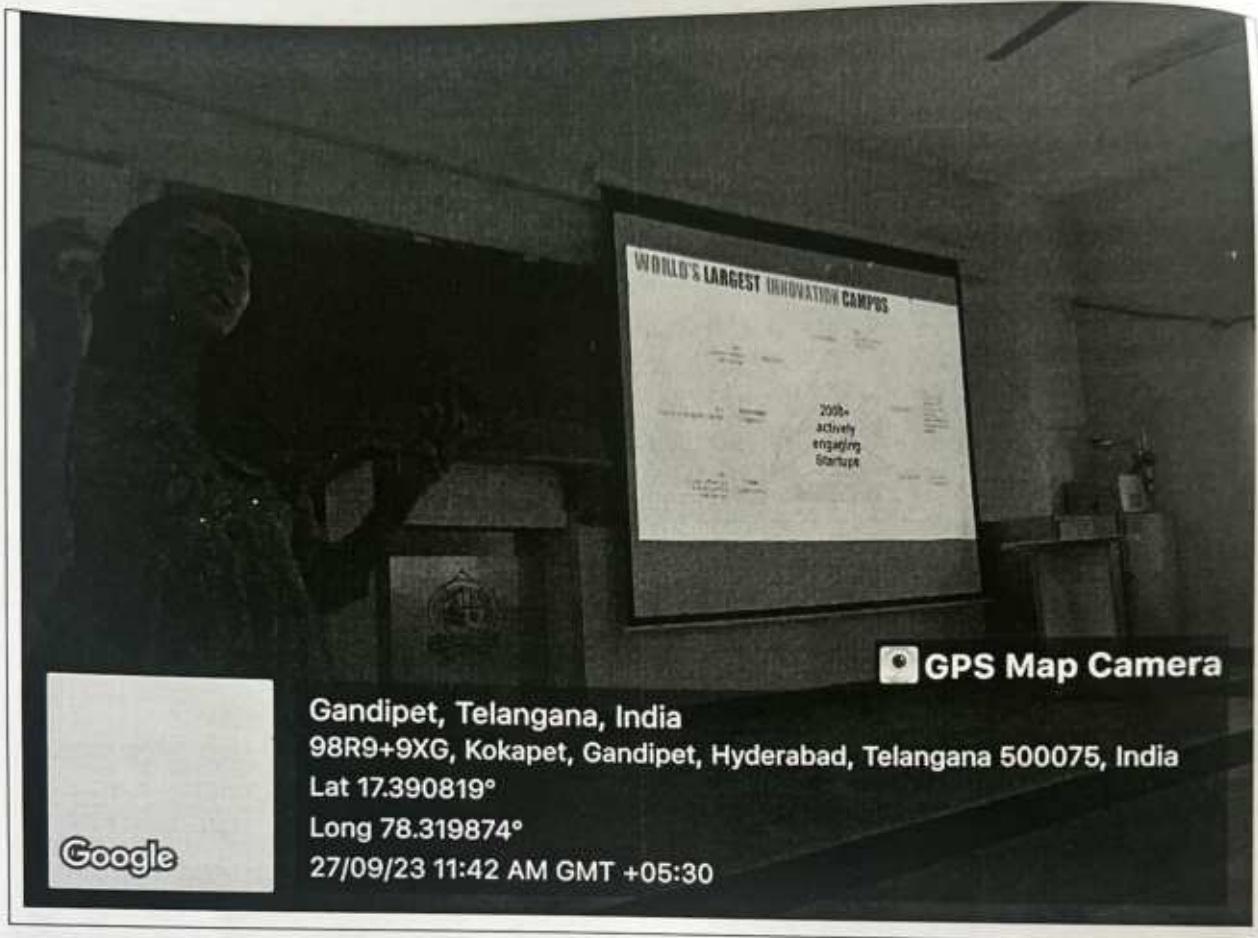

Being able to make connections across  
subjects/areas

- Above the water - Strategies, Skills, Tactics
- Beneath - assumptions about
  - > Identity - Who am I?
  - > Purpose - Why am I here? How will I measure life when I look back at it?
  - > Mindset - Stories and Assumptions we have about everything including ourselves and others and how we define success and failure.

#### A BRIEF REPORT

On

Biotechnology-Alumni Talk conducted on 03<sup>rd</sup> October, 2023; 03:00 – 04:00 PM

Offline mode (M205)

Name of the Knowledge Partners	Ms. Anushka Bera (2023 batch of Biotechnology)
Designation	Student, MBA from Symbiosis Institute of Business Mangement, Bengaluru.
Topic of presentation	<b>Passion, Leadership and Beyond: A roadmap from Biotechnology to Managerial Opportunities</b>

#### Background of the Talk

Anushka Bera was one of the prominent student who walked out of CBIT with an impeccable performance in both academics and extra-curricular activities. She is a Bharatanatyam dancer and she was a semi-finalist in INDIA'S GOT TALENT Season 5 currently pursuing her MBA at SYMBIOSIS, Bengaluru

#### Overview of Session

A brief introduction about the speaker was given by Jyothika Meenakshi from final year B.tech Biotechnology

And, the talk began and covered the following points

#### **JOURNEY OF ANUSHKA BERA:**

- *From a school kid to a semi-finalist in a dance competition*
- *Her happy days at CBIT*
- *2023: an MBA odyssey*

The session started with a question by the dynamic speaker which followed:

***If you were given a chance to choose one thing that you would do for the rest of your life, what would be that thing?***

The question made the audience ponder their minds to come up with an answer, some active students answered communication, singing, learning, being happy etc. based on their personality and self-awareness. After listening to the answers, the cool speaker amazed the audience with a different approach to the question i.e. why one should fix with only one thing in life, as life is full of opportunities to explore which made the audience think deeply. Later the speaker dived into her story, which involves her journey as a dancer at the age of four to get a placement at Deloitte.

#### ***From a school kid to a Semi-finalist in a dance competition***

The speaker started practicing dance at the age of four and excelled in various dance competitions without affecting her academics with proper time management and dedication. She passed her 10<sup>th</sup> board (CBSE) with a 9.8 CGPA, with a B grade in Mathematics and a popular tag in the school due to her involvement in most of the activities in school. She was quite aware that mathematics was not her cup of coffee so after discussing it with her parents her interest in science made her embark on BiPC for her intermediate that too in Sri Chaitanya College which are well known as not less than to concentration camps of World War. On a

fine day, out of the blue comes a surprise call from Star Plus, India got talent/Dance Plus for a dance audition, she made her decision with her father's support to go to Mumbai for 6 months leaving her academics at stake. She really had a blast at the dance competition and returned to Hyderabad to continue her intermediate after her dance competition journey had a climax at the semi-finals. While she started focussing on her academics she was clueless about the syllabus as she was 6 months behind and after having a discussion with her lecturers she decided to concentrate on IPE exams as of now. When she topped IPE with decent marks she started thinking about cracking NEET but it is not a cakewalk as she needed to prepare both 1<sup>st</sup> year and 2<sup>nd</sup> year syllabi in the 2<sup>nd</sup> year itself and she was clear about her choices that she didn't want her to dedicate her life to medicine, hence she wisely dropped the idea of cracking NEET. After researching a lot (which involved checking all the clubs) she ended up landing in CBIT in Biotechnology as she was interested in Science.

Our speaker quoted words of wisdom she got from her dancing teacher:

*"There are three important things in your life, Anushka, first comes health without which we won't be able to do anything in our life, second goes to education where the importance of education needs no words to explain and the third thing is dance, which you love. Anushka never ever compromises about these three things to become the best version of yourself"*

These words from her dance teacher were her constant motivation in her life to achieve wherever she stands now, tackling all the obstacles with a pleasant smile.

### ***Her happy days at CBIT***

Our speaker with over-the-top skills and diverse interests made into various clubs at the CBIT in her 1st year. She was clear from the first that the more we learn and are surrounded with like-minded people the better the chances of getting into becoming the superior version of yourself. She started as a dancer at Chaitanya Samskruthi and later became the President of the prestigious club. She managed all her club activities without comprising her academics, credit goes to her effective planning. She shared an incident where she got an opportunity as a delegate at CBIT MUN despite having not much knowledge about it she managed to participate actively with the help of her peers, people around her who cheered her, encouraged her, scolded her, whatever they did she took everything with an optimistic attitude and made it to organize CBIT MUN in the following years, which is quite remarkable. She advised the audience to explore things and don't be afraid of unpredictability to get to know about the things they love doing, because at the end of the day the fun we are having with the work we do and our mental peace matters. Mostly she emphasized being part of various clubs and networking with people, which is a great deal in the present technology era.

Anushka was stubborn with her life choices so she sat down and researched, self an analysis of herself, and found that she was very passionate about Leadership which made her life take an epic swift from Biotechnology to MBA.

### ***2023: an MBA odyssey:***

The major outbreak in her life was made when she started preparing for the CAT exam in late June when the exam was scheduled in November or so. Everyone knows the competition and complexity of the CAT exam but our speaker with her dedication and commitment paved her way into SYMBIOSIS, Bengaluru, one of the elite institutions offering MBA programs. One of the major obstacles she faced during her MBA was justification for her shift from Biotechnology to an MBA program out of nowhere. She was 21 years old in the class filled with the 24-30 age group people, but she managed to do well and communicate with everyone she attributes this ability to the clubs was exposed to and the life lessons she learned during for life journey. Recently there were placements going at Deloitte, where 160 students gave interviews, and 4 students were shortlisted for the offer our speaker was one among them even though she had only 4-5

months of academic exposure at Symbiosis. When asked, how she was able to crack the interview, she serenely credited her thirst for learning the things she loves and being passionate about life. When asked why the speaker didn't choose dance as a career option apart from an MBA, she calmly replied that there were tons of great dancers and skillful MBA students but for her becoming a dancer with an MBA degree sounded a pretty cool deal and hence she chose MBA without leaving dance as a career.

#### **Target Participants:**

All the students of B. Tech Biotechnology (III and IV year) and Faculty of Biotechnology department attended the session.

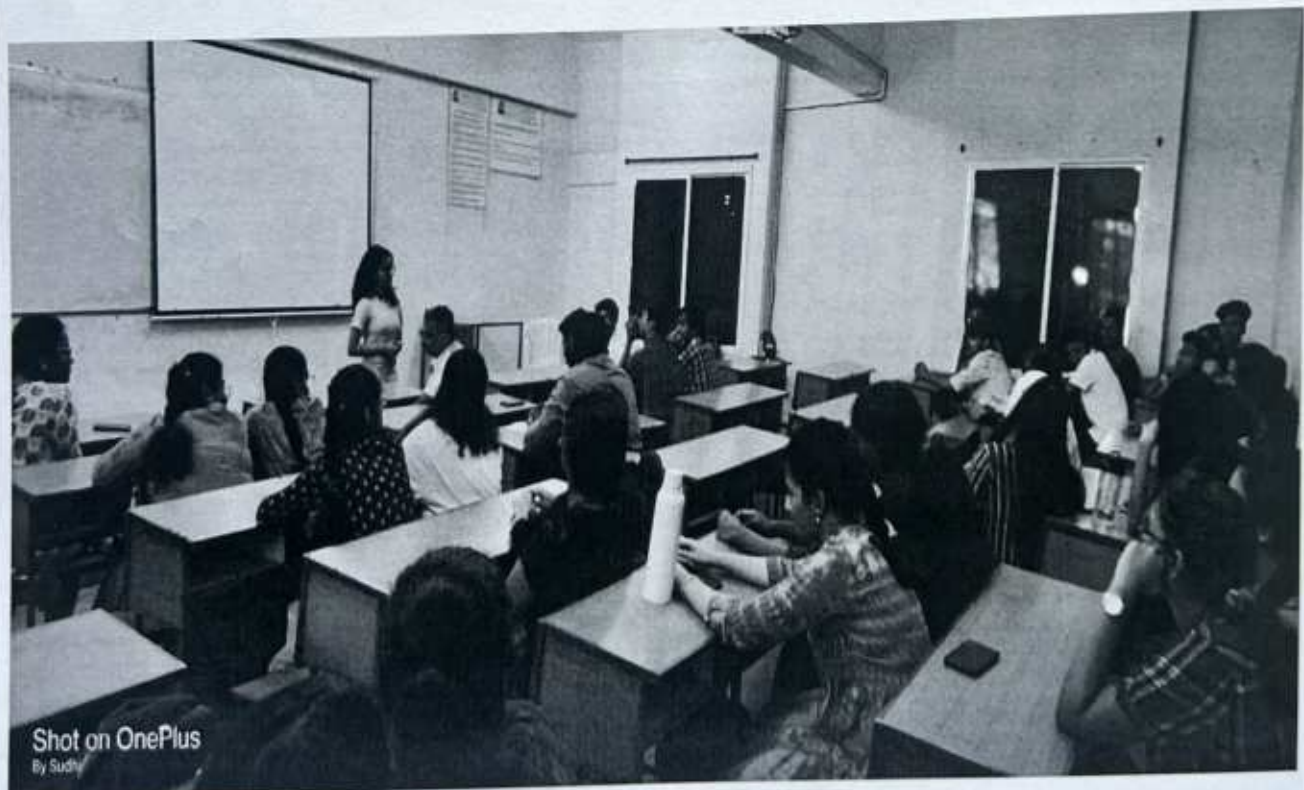

#### **Outcome of the Session**

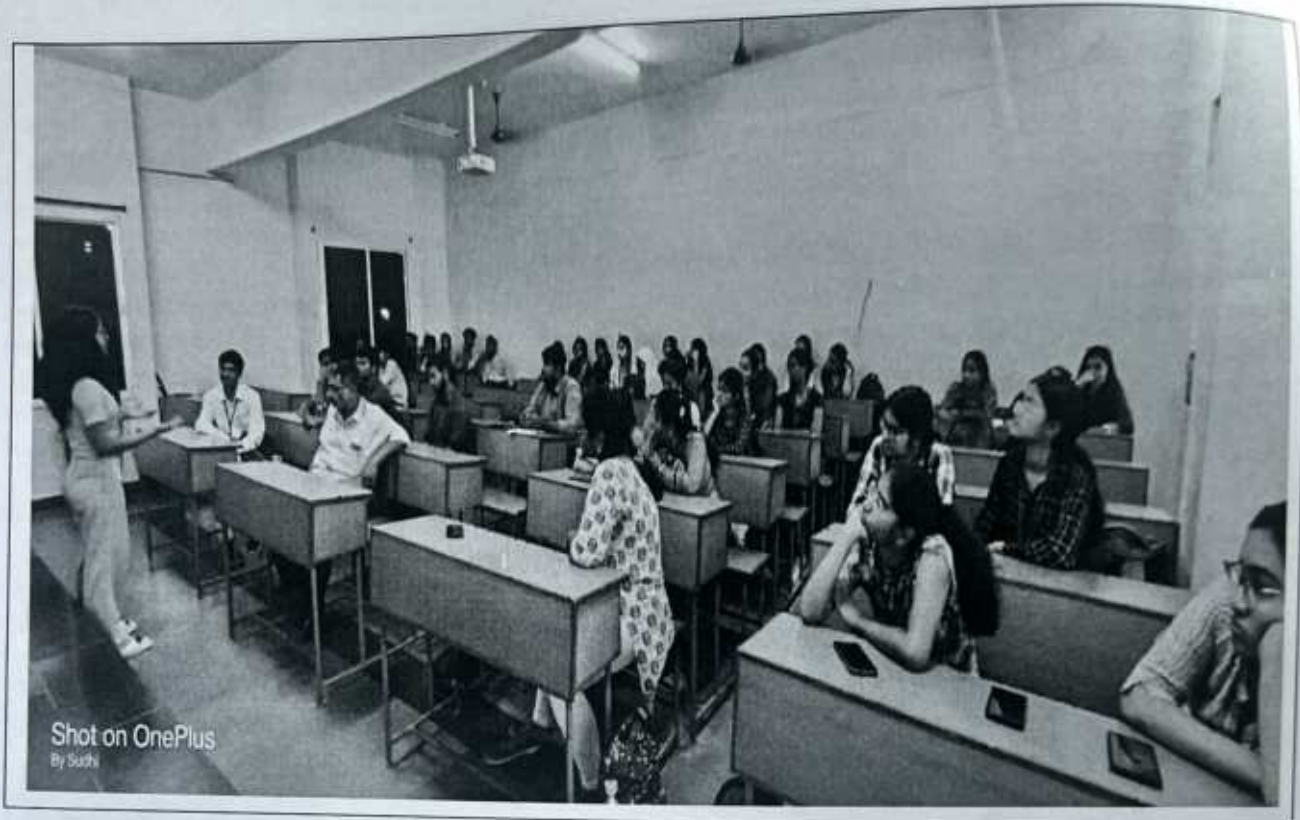

The session was concluded with the following insights from the speaker.

- Sat down and self-analyze yourself from within to know yourself i.e. be in the quest for self-improvement
- Participate and be involved in most of the club activities to get a nice exposure to quite a lot of different things then decide what you truly love and are passionate about.
- Don't let the fear of unpredictability and ignorance about things stop you from doing new things but enjoy learning things with an optimistic approach surrounded by minded people.

**The audience found the talk to be very insightful and inspirational with a lot of lessons to learn and incorporate in their lives**

## **Report on the Guest lecture by Dr. Jagadeesh Gandla regarding “Current Trends in Biotechnology”**

Date: 11.10.2023

Venue: ‘N’ Block Seminar Hall

Time: 02:30 PM to 04:05 PM

On the 11<sup>th</sup> of October 2023, The Bioengineering and Biotechnology Club of CBIT (BBCC) in collaboration with the Department of Biotechnology and Biotechnology Department FAB A Coordinators; Dr. S. Sumithra and Dr. Sanjeeb Kumar Mandal, hosted a Guest Lecture by Dr. Jagadeesh Gandla, COO of The Federation of Asian Biotechnology Association (FABA), for I, II, III & IV Years of B. Tech Biotechnology students. The session was held during the timeslot of 02:30 PM to 04:05 PM at “N” Block Seminar Hall with the following agenda:

- To determine the required skills for graduating students to improve employability.
- To update and enlighten students on growing domains in the Healthcare Industry.
- To emphasize the need for experience in technologies such as AI, Big data, Gene editing etc.
- To indicate the importance of One Health, Precision Medicine, and sustainable healthcare for the future.

The following pattern was observed during the session:

1. The honorable guest, Dr. Jagadeesh Gandla, received a welcoming bouquet from BBCC Faculty Coordinator Dr. G. Vijaya Laxmi. Afterward, an introduction of the speaker highlighting their domain and accomplishments in the field of Biotechnology.
2. This was followed by a presentation from the speaker, elaborating on the Federation of Asian Biotechnology Association, and their role in upskilling graduates of biotechnology. Continuing, Dr. Jagadeesh shared insights into their previous work and the projects they've led in the domain of infectious diseases like Taenia Sodium Taenosis and Neurocysticercosis.
3. Moving forward, the speaker delivered a presentation on the upcoming trends in biotechnology, incorporating various technologies such as Artificial Intelligence, CRISPR Technology, Synthetic Biology, Genome Sequencing, and Biomanufacturing. Furthermore, he necessitated the need for students to be adept at the above fields to improve chances of employment and further education, in India and Abroad.
4. Subsequently, Dr. Jagadeesh also spoke about the mounting importance of the One Health Program. This initiative seeks to equitably oversee healthcare for humans, animals, and the environment. He also remarked upon the requirement of socio-economic development in the healthcare & biotechnology

fields, emphasized upon Precision Medicine, and promoted the ideology of equally accessible healthcare to all sectors of society.

5. Following the engaging presentation, the guest was honored by the esteemed faculty of the Department of Biotechnology, including a shawl felicitation by Dr. C. Obula Reddy and a memento presented by Dr. V. Aruna.
6. Later, our distinguished guest, Dr. Jagadeesh Gandla, had a warm exchange with Prof. Ashoutosh Panday, the Head of the Biotechnology Department, and Prof. C. V. Narasimhulu, the Principal of Chaitanya Bharathi Institute of Technology (CBIT). They engaged in a productive conversation about potential future collaborations, encompassing workshops, establishment of training sessions for life sciences students, facilitated through CBIT as the platform, conferences, and seminars. The prospect of establishing a student chapter was also explored as a promising initiative to inspire and empower biotechnology students to venture into entrepreneurship, aligning with India's burgeoning leadership in the field of Biotechnology.

In conclusion, our heartfelt gratitude extends to the esteemed speaker, Dr. Jagadeesh Gandla, for enlightening the students of the Biotechnology Department on the importance of proficiency in the latest advancements in Biotechnology and enhancing our employability skills through these techniques. We also express our appreciation to our BBCC Faculty Coordinator, Dr. G. Vijaya Laxmi, for her motivation and support in orchestrating invigorating events to aid students in fulfilling their aspirations. Additionally, we extend our thanks to the Biotechnology Department FABAs Coordinators; Dr. S. Sumithra and Dr. Sanjeeb Kumar Mandal, for organizing such an informative session for the students.

## INDUSTRIAL VISIT TO

(Gachibowli, Hyderabad – 500032)

**Indian Immunologicals** was established by the **National Dairy Development Board (NDDB)** in **1982**, as its unit, with the objective of making vaccines available to farmers at an affordable price. The unit was corporatized as Indian Immunologicals Limited in the year 1999. IIL started manufacturing human vaccines in 1998 on a specific request by the Government of India. IIL is the second company in the world and first in India to launch purified vero cell rabies vaccine (PVRV) and markets it under the brand – **Abhayrab**. This led to the discontinuation of use of older and unsafe sheep brain derived vaccine (also termed Nerve Tissue Vaccine – NTV) in the country.

Indian Immunologicals Ltd (IIL) is the market leader in veterinary and human biologicals in India. It manufactures over **150+ products**. IIL operates one of the largest plants in the world for veterinary vaccines. IIL has adequate infrastructure and cold chain distribution capability to reach out to various parts of India and world market. IIL is a major player in the human vaccine market in India, focusing on the pediatric and rabies vaccine segments. IIL is also a major supplier of pediatric vaccines to India's large Universal Immunization Programme

**VISION:** Shaping Global Healthcare by Spearheading the One Health Initiative.

**MISSION:** To Innovate, Produce and Market Quality Healthcare Products and Services to Improve and Extend lives.

### **IIL and One Health**

The International Business team, by strength of working closely with both the Animal Health and Human Health Ministries in respective countries, is taking the One Health initiative forward with the international community. IIL is closely associated with some National Rabies Control Programs as preferred suppliers for both Human and Animal Rabies Vaccine for the country to implement a structured, integrated Rabies Control Program guided by WHO to achieve the objective of “**Zero by 30**” i.e. Zero Dog Mediated Rabies Death by 2030. **Cysvax** is a revolutionary product offered by IIL. It is the worlds' first and the only solution for the unique zoonotic disease, Porcine cysticercosis, that affects humans more than the animals but needs intervention at the animal stage.

### **ANIMAL HEALTH**

The Animal Health Division of IIL offers a variety of Therapeutic products for Livestock and Companion animals to enhance their productive and reproductive status along with prophylaxis against certain diseases. The product portfolio comprises Vaccines, Formulations and Nutraceuticals. Few of them are listed below.

<b>Brand Name</b>	<b>Product Description</b>
<b>LIVESTOCK VACCINES</b>	
Productivity in livestock is severely impacted with the presence of a few bacterial, viral and protozoan borne disease.	
Raksha Ovac	prophylactic vaccination against Foot and Mouth Disease in bovines, sheep and goats.
Raksha HS + BQ	vaccination against Hemorrhagic Septicemia and Black Quarter in bovines
Bruvax Plus	prophylactic vaccination against Brucellosis in female calves, and non pregnant and non lactating animals.
Cysvax®	Cysvax is a biotechnologically derived immunological veterinary vaccine. Cysvax is indicated for active immunization of pigs against porcine cysticercosis
<b>COMPANION VACCINES</b>	
The common diseases against which the pets can be vaccinated include – Rabies, Infectious Canine Hepatitis, Canine Distemper, parvovirus, leptospirosis and kennel cough.	
Raksharab	immunization in dogs and other domestic animals against rabies for prophylactic use and post bite therapy.
Megavac 6	prophylactic vaccination against Canine Distemper, Hepatitis, Parvovirus and Leptospirosis in dogs.
Megavac-P	prophylactic vaccination against canine parvo in dogs.
Starvac-R	immunization in dogs and other domestic animals against rabies for prophylactic use.
<b>FORMULATIONS</b>	
A wide range of formulations are available that provide proper care for animals. Antibiotics, Antiprotozoal, Parasiticides, NSAIDs, Infusions, Vitamins and mineral supplements are available for treating specific diseases and health anomalies of animals.	
Nimovet	Nimesulide Injection 10 % w/v
CalSagar Plus	Calcium feed granuels for better health and more milk
Goudhara Shakti	Bypass Fat With Yeast Culture & Herbal Additives For Higher Fat and More Milk
GarbhaMin	Chelated Minerals and Coated Vitamins
Calgonate	Calgonate is a mixture of calcium gluconate and boric acid.
<b>NUTRACEUTICALS</b>	
The term “Nutraceuticals” is derived from two words nutrition and pharmaceutical meaning feed or feed supplements for health and medicinal purposes. In short, all feed supplements come under nutraceuticals having specific role to maintain good health of animal and to prevent nutrition deficient diseases.	
GouMix Mineral Mixture	Prophylactic vaccination against Porcine Cysticercosis
Oxfenvet	Broad spectrum anthelmintic against Lungworms, Roundworms and Tapeworms
Gousac	Rumen Specific Yeast Culture
Goudhara Shakti	Bypass Fat With Yeast Culture & Herbal Additives For Higher Fat and More Milk
CalSagar Plus	Calcium feed granuels for better health and more milk

## **HUMAN HEALTH**

Human Biologicals Institute (HBI) is a division of Indian Immunologicals Ltd, involved in the Human Health Business. HBI has emerged as a leading player in the vaccine segment in India and Nepal. HBI was established in the year 1998, when the Govt. of India requested IIL to produce a modern tissue culture anti-rabies vaccine to phase out the unsafe Nerve Tissue Vaccine (NTV). Today, IIL is the leading player in human vaccines. Few of them are listed below.

<b>Brand Name</b>	<b>Product Description</b>
<b>VACCINES</b>	
Abhayrab	lyophilized, purified, inactivated Rabies vaccine that contain inactivated rabies. Thiomersal is used as preservative.
Vaxtar-5	sterile, turbid white uniform suspension of purified Diphtheria, Tetanus toxoid, Pertussia, Hepatitis B, and Hemophilus influenzae type-B (HiB). It is available in single (1 dose of 0.5mL vial) as well as multiple doses (10 dose vial of 5mL).
Elovac-B	non-infectious recombinant DNA vaccine. It is a sterile, slightly white turbid suspension of purified major surface antigen of HBV.
TeddyVac	Diphtheria and Tetanus vaccine (Adsorbed) for Adults and Adolescents (Td vaccine) is supplied as a liquid formulation in a glass vial. It is a whitish turbid suspension of Diphtheria toxoid and Tetanus toxoid adsorbed on Aluminium phosphate, which is used as adjuvant. Thiomersal is added as preservative.
<b>HORMONES</b>	
Inceptova HCG	Highly Purified Chorionic Gonadotrophin (HCG) for Injection 2000/ 5000/ 10000 IU. HCG supports the normal development of an egg in a woman's ovary and stimulates the release of the egg during ovulation.
Inceptova HMG	Human Menopausal Gonadotrophin (HMG) for Injection 75/150 IU. HMG, also known as menotropin is a purified preparation of the naturally occurring hormones follicle-stimulating hormone (FSH) and luteinizing hormone (LH). HMG stimulate the ovaries to develop many follicles and mature eggs.
Progeshield	Hydroxyprogesterone Caproate Injection USP, indicated for the prevention of spontaneous preterm births in women with a singleton gestation who have previously had a spontaneous preterm birth
Ovacore	Ovacore comprises of a combination of Dehydroepiandrosterone (Sustained Release) (75mg) , Coenzyme Q10 (100mg) and melatonin (3mg). components of OVACORE helps to improve the overall requirements for conceiving and increase the chances of positive pregnancy.
<b>FORMULATIONS</b>	
VivaCaD	soft-gelatin capsule containing calcium and calcitriol (vitamin D3) along with other vitamins used in the prevention and treatment of osteoporosis and other conditions, requiring additional/supplementation of calcium and/or vitamin D3, mostly in people above 50 years of age.
Vivaflora	probiotic product specifically designed for women to help combat vaginosis and its recurrence.
Momsvibe	Vitamins with Minerals & Amino acid Tablets, containing 22 Vitamins, Minerals, Micronutrients and Antioxidants with Lysin® Forte Se 70mcg. It meets the recommended values of essentials for Pregnancy and Lactating Mothers.
Menovibe	Vitamins with minerals and isoflavanoids Tablet, containing 26 essential vitamins, minerals & antioxidants to support during and after Menopause. It meets the recommended values of essential nutrients for menopause.

IIL is one of the leading suppliers of Animal Health and Human Health products to the State and Central Government ministries and its agencies. IIL ranks very high among its customers and distinctly differentiates others with its broad technical support; and customer service.

IIL is a major supplier of **Foot and Mouth disease (FMD)** vaccine to FMD Control programme (FMD-CP) since 2003, which is now known as NADCP (National Animal Disease Control Programme). IIL's presence has significantly contributed in controlling FMD in the country. IIL also support Government in its National Control Programme for prevention and cure of other diseases such as Brucellosis, PPR and CSF.

Through its exclusive Cooperative animal health field network, IIL caters to the technical service needs of the dairy farmers in the Cooperative milk shed areas. This vertical creates awareness among dairy farmers on issues related to animal health through its extensive activities at District Cooperative Societies (DCS) and Cooperative Milk Unions. Continued Medical Education (CME), Video On Wheels (VOW), Vaccination Camps and Farmer Contact Programme (FCP) activities are conducted regularly to improve animal health status.

IIL has been exporting Animal Health vaccines and formulations & Human Health vaccines, across the world for **more than fifteen years**. IIL's global footprint started by supplying Foot and Mouth Disease (FMD) vaccine to United Nations Food and Agriculture Organization (UNFAO) to support their animal health rehabilitation program across the developing countries.

## **Industrial visit Report – National Institute of Animal Biotechnology (NIAB), Hyderabad on 28th, December 2023**

Date of visit: 28-12-2023

Duration: 1day

**Industry Name: National Institute of Animal Biotechnology, GOI,Hyderabad.**

**About NIAB:** NIAB is the premier central govt institute established in 2016 under the aegis of Department of Biotechnology, UoH, Hyderabad. It is a premier institute dedicated for the doing research in animal biotechnology to improve the livestock and production of therapeutics in the prevention of animal diseases.

NIAB offers Projects, internships, workshops and providing a platform to do the advances in animal research which led to the award of PhD.

**Techniques demonstrated to the students:**

- 1) Operation of confocal microscope
- 2) Phase contrast Microscope
- 3) Inverted Microscope
- 4) FACS
- 5) HPLC
- 6) RT-PCR

**Distinguished Lecture:**

Our students got chance to listen the distinguished lecture delivered by eminent scientists as a part of **one day outreach Programme(IISF-2023)**, on advances in Biomedical research and development in India.

He enlightened the students about how India became the global leader in manufacturer and supplier of vaccines and medicines.

**Our students got opportunity to interact with eminent scientists and understand the pivotal role of animal biotechnology**

**INVITATION FOR ONE DAY OUTREACH PROGRAMME (ISF -2023)  
 AT NIAB, HYDERABAD on 28<sup>th</sup> DECEMBER, 2023**

Dear Sir/Madam,

We wish to introduce ourselves that we are National Institute of Animal Biotechnology (NIAB) under the aegis of Department of Biotechnology (DBT), Ministry of Science and Technology, Government of India. We are the research organization involved in the research work and translational approach to strengthen the livestock health, productivity and efforts to enhance the livelihood of farmers in the country through animal health.

DBT under the ONE DAY OUTREACH PROGRAMME (ISF -2023) the scientist in the various institute of DBT to interact with the students and the faculties in the various schools and colleges. Hence, we have taken this opportunity to invite the student of your school/college science/Biotechnology students to visit our institute and participate in the discussion on the various aspects of the science, which will be encouraging and boosting to the young minds about happening science around the world.

Hence, we request you to select ten students (5 Boys+5 Girls) along with your two science faculties to participate in ISF-2023 at NIAB on 28.12.2023.

We are looking for your positive response and wish that this will be a fruitful interaction, more encouraging to the students and phenomenal session.

We will be beholden for your support and co-operation.

Thanking you in anticipation

With regards

## CIRCULAR

The Department of MCA is organizing an Alumni talk on 13-02-2024 from 2.30 PM to 4.00 PM through online mode. The details of the talk and the Alumnus speaker are as follows:

Title of the talk	:	"Enterprise Content Management Systems"
Speaker Name	:	Mr. Rishabh Verma
Date & Time	:	13-02-2024, 2.30 PM – 4.00 PM
Venue	:	Lab I & Lab II of MCA

Mr. Rishabh Verma is an Alumnus of CBIT, 2019 batch of MCA, currently working as Software Engineer & Adobe Certified Developer, Capgemini, Mumbai.

All the students of MCA of II and IV semesters are required to attend the talk. The attendance will be taken by the concerned class teachers. Interested students and faculty of other departments are welcome to attend.

The faculty coordinators for the Alumni talk are Mr. P. Krishna Prasad and Dr. M. Ramchander.

A REPORT ON THE NATIONAL LEVEL WEBINAR ON  
“Enterprise Content Management Systems”

**The details of the webinar are given below**

Topic	:	A Webinar on “Enterprise Content Management Systems”
Guest Speaker	:	Mr. Rishabh Verma, Software Engineer & Adobe Certified Developer, Capgemini, Mumbai.
Venue	:	CBIT – MCA LABS (ONLINE)
Date	:	13-02-2024
Time	:	2.30 PM - 3.30 PM
Webex link	:	<a href="https://cbithyd.webex.com/cbithyd/j.php?MTID=m2469f53e0d7597b17e7210aab8f55701">https://cbithyd.webex.com/cbithyd/j.php?MTID=m2469f53e0d7597b17e7210aab8f55701</a>

### About the Speaker:

Mr. Rishabh Verma is a certified Adobe Experience Manager Developer, with result oriented and proven track record in implementing solutions. Proficient in AEM technologies including Slightly Apache Sling and OSGi configurations.

### Faculty Coordinator:

1. Mr. P.Krishna Prasad, Asst. Professor, Dept. of MCA, CBIT(A).
2. Dr. M.Ramchander, Asst. Professor, Dept. of MCA, CBIT(A).

### Student Coordinators

1. Supraja, MCA IV Semester
2. Vamshidhar, MCA II Semester

### Participation

The total number of participants as it is mainly for the MCA 1<sup>st</sup> and 2<sup>nd</sup> students were 90

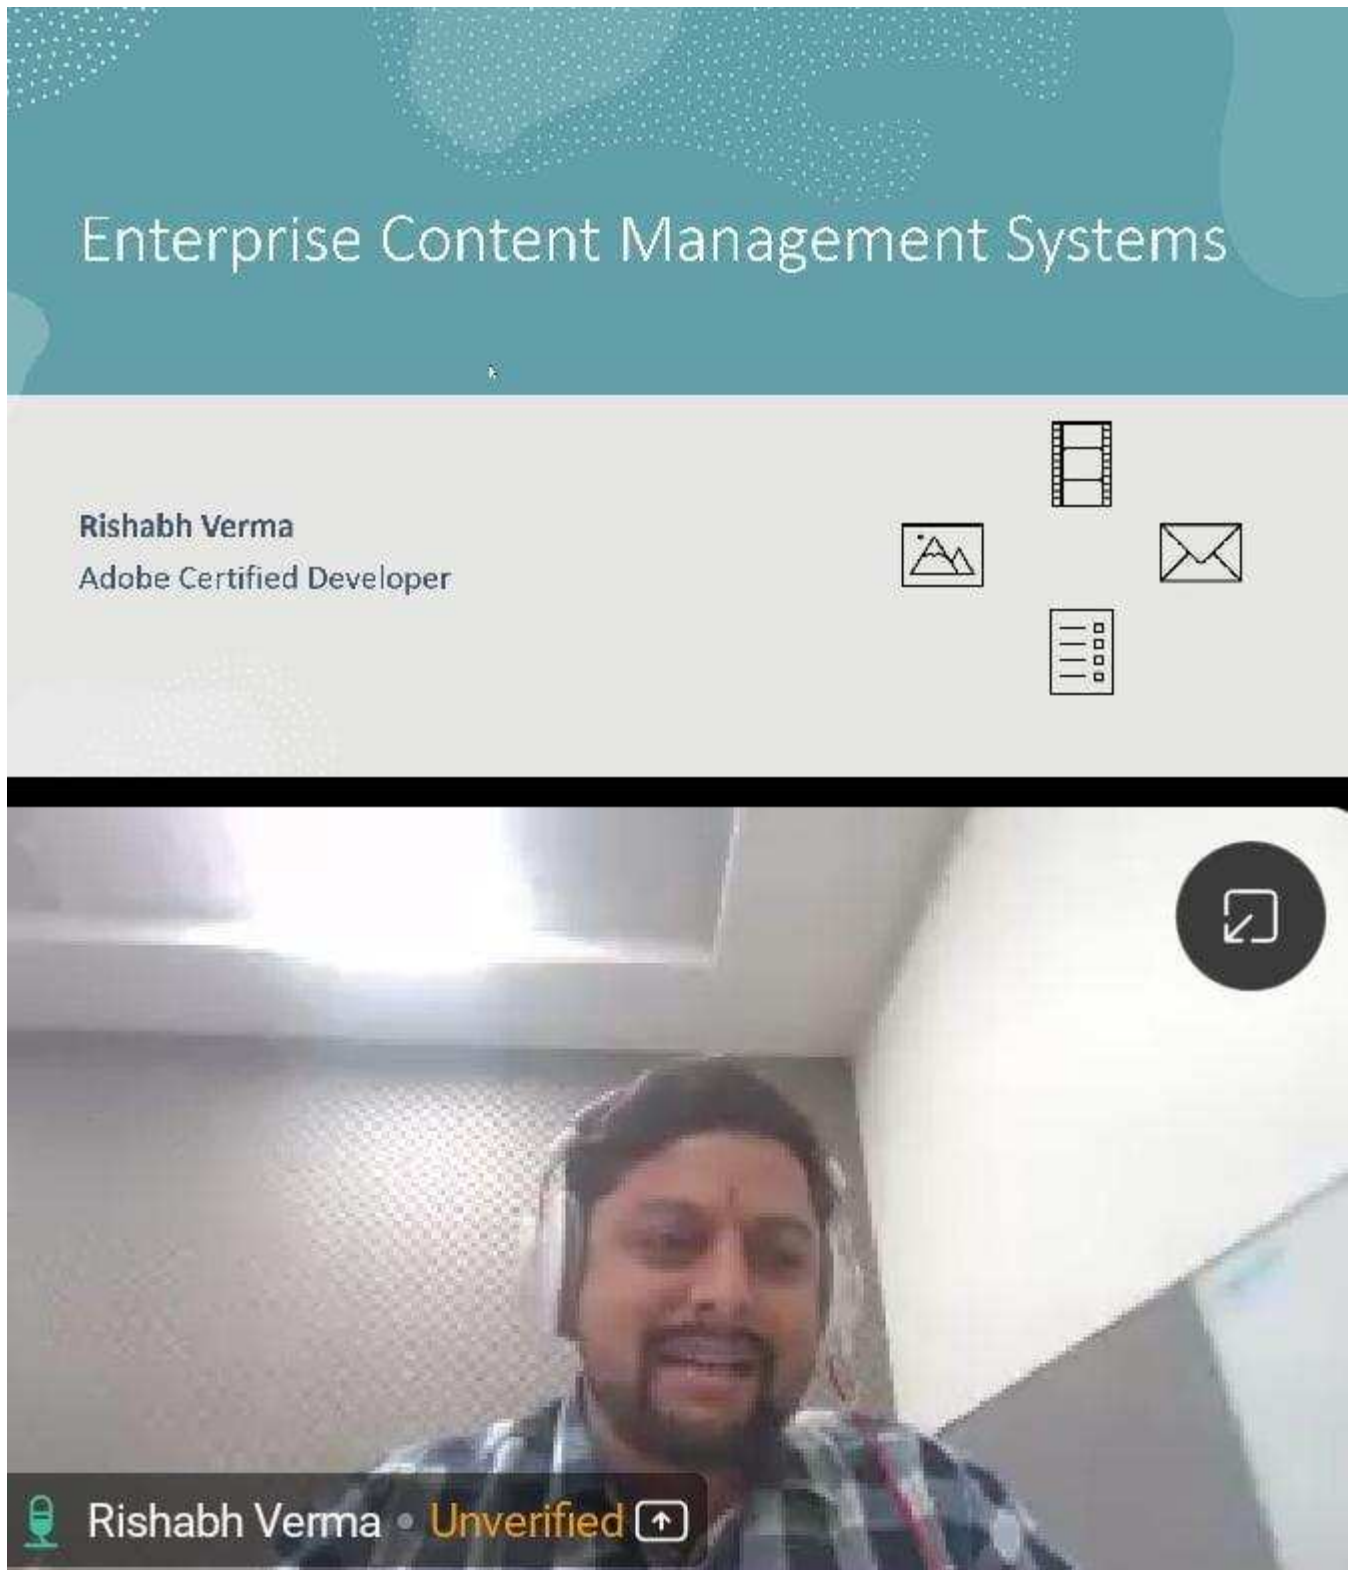

### **Brief description of the webinar**

The speaker gave a brief introduction about Enterprise Content Management Systems and the types of content management system like CCMS, ECMS, WCMS, DMS, DMS . He elaborated on ECMS Enterprise Content Management System and types of CMS Headless , Hybrid and Suite Concepts . He also discussed about AEM Adobe Experience Manager a comprehensive content management solution for building websites, mobile apps, and forms .it makes easy to manage your marketing content and asserts. At the end he gave a demo of how to use AEM .

### **OUTCOME**

The participants were able to gain the knowledge on ECMS and AEM concepts

The image shows a screenshot of a webinar interface. The top portion is a slide with a teal background and white text. The slide title is "Enterprise Content Management Systems". Below the title, the speaker's name "Rishabh Verma" and title "Adobe Certified Developer" are displayed. To the right of the text are four icons: a mountain, a film strip, an envelope, and a list. The bottom portion of the image is a video feed of the speaker, Mr. Rishabh Verma, who is wearing a headset and a plaid shirt. A name tag at the bottom of the video feed reads "Rishabh Verma • Unverified" with an upward arrow icon. A share icon is visible in the top right corner of the video feed area.

## About CBIT

Chaitanya Bharathi Institute of Technology is one of the premier Engineering Colleges in the self-financing category in the state of Telangana established in the year 1979. The college offers 11 UG and 10 PG Programs. The Institute has become Autonomous under UGC w.e.f. 2013-14. UG Programs were accredited by the NBA in the years 1998, 2004, 2008, 2013, 2017, and 2022 and Five PG Programs have been accredited by the NBA in 2020 and 2024. The Institute is accredited by NAAC with a CGPA of 3.59 on the seven-point scale at 'A++' grade in 2023 for five years. CBIT ranked in the band of 150-200 in Engineering Category under National Institutional Ranking Framework (NIRF), Govt. of India, MHRD. The College Campus is spread across 50 acres.

## About Computer Engineering & Technology Department

Department of Computer Engineering and Technology (CET) offers a BE CSE (IoT, Cyber Security Including Blockchain) undergraduate engineering programme, since the academic year 2020-21 with an intake capacity of 60 seats. This programme combines Computer Science, with the functional and operational aspects of IoT, Cyber Security and Blockchain Technology. The department has well equipped laboratories with necessary software's and committed, qualified well trained staff for teaching/learning process. The department is consistently exploiting the trending curriculum, teaching, learning, research and development practices, providing scope for the students to acquire knowledge and exploring better opportunities, for those aiming for admissions in prestigious institutions for their higher studies and placements in well known MNC companies.

## About the STTP

This Short Term Training Program (STTP) is tailored to provide participants gain insights into the fundamental concepts of Machine Learning, which forms the backbone of AI applications. Through hands-on sessions, explore various Machine Learning algorithms and techniques aimed at enabling computers to learn from data and make informed predictions or decisions autonomously. Furthermore, the workshop will extensively cover Deep Learning, a specialized branch of Machine Learning that revolves around neural networks with multiple layers. Importantly, the program underscores the transformative impact of Machine Learning and Deep Learning across diverse industries. By leveraging these technologies, businesses can automate tasks, derive meaningful insights from data, tackle complex challenges, and drive innovation.

### Who can attend the STTP?

- Students aiming to enhance their technical knowledge.
- Newcomers with a background in information systems, programming concepts and familiarity with foundational mathematical principles.
- Any Engineering Student with a keen curiosity for exploring data-driven solutions

### Objectives of the STTP

- Understand and incorporate machine learning and deep learning algorithms, particularly supervised, unsupervised, and reinforcement learning, for anomaly detection.
- Utilize Pandas for data preprocessing and exploration to extract meaningful features and visualize patterns crucial for building robust security frameworks.
- Employ TensorFlow and Keras to construct neural network architectures like MLP, LSTM, RNN, and CNN, enabling real-time object detection and anomaly detection, facilitating proactive security measures against evolving threats.

### Outcomes of the STTP

- Ability to develop a security framework grounded in machine learning and deep learning principles, focusing on detection, response, and prevention of cybersecurity threats.
- Proficiency in utilizing machine learning algorithms for tasks like phishing URL detection, multiple heart disease prediction, and anomaly detection in public areas.
- Competence in implementing deep learning models for real-time object detection, including gun and fire detection, and gender voice recognition, enhancing security measures in diverse environments.
- Hands-on experience in applying machine learning and deep learning techniques for multi-disease prediction, sentiment analysis, face and person recognition, and vehicle anomaly detection, addressing high-impact security issues effectively.

## Program Outline

### Day 1: Machine Learning with Python Basic Visualization

- Introduction to machine learning and types of machine learning with applications
- Data Exploration with Pandas
- Visual data exploration
- Unstructured data wrangling and Feature Engineering
- Demo on: Multiple heart disease prediction using machine learning and stream-lit

### Day 2: Machine Learning Algorithms with Python

- Introduction to machine learning and types of machine learning with supervised, unsupervised, semi-supervised and reinforcement algorithms.
- Splitting data -Hands on: Load dataset and do visualization of the input data, Do the evaluation process by normalization for data and Split the data with train and test parts.
- Hands On: Classification and Regression
- Demo on: Phishing URL detection using machine learning.

### Day 3: Deep Learning Using OpenCV with model creations and applications

- Introduction Neural Network, MLP, LSTM, RCNN, RNN, NLP and Auto encoders.
- Build Neural Network and Multi-Layer Perception algorithm with help of TensorFlow and Keras libraries.
- Activation functions, Optimizer, Regularizes, initializations of parameters, Learning Rate. Build RNN and LSTM algorithm with help of TensorFlow and Keras libraries.
- Real time Object detection using deep learning and computer vision.
- Demo on real time gun and fire detection in public areas for detecting of abnormal activities using deep learning and gender voice recognition using NLP.

### Day 4&5: Applications of ML and DL on projects

- Demo on: Face and person name recognition using face recognition library and computer vision and Vehicle anomaly detection using deep learning and computer vision.
- Hands on Machine Learning Basics and it's Applications of Multi Disease Prediction and Hands on NLP Basics and it's Applications on Sentiment Analysis using NLP.

# Workshop on Deep Learning and Machine Learning using Python

Deep Learning and Machine Learning are two related but distinct concepts in the field of artificial intelligence (AI).

Machine Learning (ML) refers to a broader category of techniques and algorithms that enable computers to learn from and make predictions or decisions based on data. It's a subset of AI that focuses on the development of algorithms and models that can learn patterns from data without being explicitly programmed. ML encompasses various techniques.

Deep Learning, on the other hand, is a subset of Machine Learning that focuses specifically on neural networks with multiple layers (hence the term "deep"). These networks are designed to automatically learn hierarchical representations of data by processing it through multiple layers of non-linear transformations. Deep Learning has gained significant attention and popularity due to its ability to handle large amounts of data and solve complex problems in fields such as computer vision, natural language processing, speech recognition, and more.

## Importance of Technologies:

- The importance of Machine Learning and Deep Learning lies in their ability to automate tasks, gain insights from data, solve complex problems, and advance various industries. These techniques continue to drive innovation and reshape how businesses and researchers approach challenges in the modern world.
- In this we used deep learning to get better classification for the training and detection of problems with computer vision.
- AI is one of the trending technologies in that deep learning playing best for the language processing and computer vision applications like chat GPT, siri and entertainment apps.

## Technologies and Tools Covered

- Python
- Open CV
- Keras
- TensorFlow

### Tools

## DAY1:-MACHINE LEARNING- MACHINE LEARNING WITH PYTHON BASIC VISUALIZATION

SESSION	TIME	CLASS TOPICS
1	9:00 to 11:00	<b>Introduction to machine learning and types of machine learning with applications</b>
	11.00 to 11.15	****TEA BREAK****
2	11:15 to 12:30	<b>Data Exploration with Pandas</b> <b>Hands on:</b> <ul style="list-style-type: none"> <li>• Data base collection and read the data base from the input data</li> <li>• Pre-process the input data base with cleaning of database with different loading database.</li> </ul>
	12:30 to 1:30	****LUNCH BREAK****
3	1:30 to 2:00	<b>Visual data exploration</b> <b>Hands on:</b> <ul style="list-style-type: none"> <li>• Do the evaluation process by normalization for data.</li> <li>• Histograms, box plots, and density plots for numerical features, Count plots and pie charts for categorical features</li> <li>• Heatmaps to visualize correlations between features</li> </ul>
4	2:00 to 3:30	<b>Unstructured data wrangling</b> <b>Hands on:</b> <ul style="list-style-type: none"> <li>• Introduction to unstructured data wrangling techniques relevant to loan prediction.</li> <li>• Preprocessing unstructured data and Hands-on unstructured data related to loan applications</li> </ul> <b>Feature Engineering</b> <ul style="list-style-type: none"> <li>• Understanding the importance of feature engineering in loan prediction</li> <li>• Apply Encoding categorical variables (one-hot encoding, label encoding) and Handling date-time features</li> <li>• Feature scaling and normalization and Feature selection strategies</li> </ul>
		****TEA BREAK****
5	3:45 to 4:00	<b>Demo on:</b> <ul style="list-style-type: none"> <li>• Multiple heart disease prediction using machine learning and stream-lit</li> </ul>
6	4:00 to 4:30	<b>Doubts??????</b>

## **DAY 2:- MACHINE LEARNING- MACHINE LEARNING ALGORITHMS WITH PYTHON**

<b>SESSION</b>	<b>TIME</b>	<b>CLASS TOPICS</b>
1	9:00 to 11:00	<b>Introduction to machine learning and types of machine learning with supervised, unsupervised, semi-supervised and reinforcement algorithms</b>
	11.00 to 11.15	****TEA BREAK****
2	11:15 to 12:30	<b>Splitting data</b> <b>Hands on:</b> <ul style="list-style-type: none"> <li>• Load dataset and do visualization of the input data</li> <li>• Do the evaluation process by normalization for data.</li> <li>• Split the data with train and test parts</li> </ul>
	12:30 to 1:30	****LUNCH BREAK****
3	1:30 to 2:00	<b>Hands on:</b> <b>Classification:</b> <ul style="list-style-type: none"> <li>• Load algorithms of supervised using scikit-learn like SVM, DECISION TREE, RANDOM FOREST</li> </ul> <b>Regression:</b> <ul style="list-style-type: none"> <li>• Load algorithms of liner regression and logistic regression</li> <li>• Check algorithm Overfitting on dataset</li> <li>• Model fitting with different Hyper parameters</li> <li>• Cross-Validation for classification using Confusion Matrix and Validation for Regression using Loss function</li> </ul>
4	2:00 to 3:30	<b>Unsupervised learning</b> <b>Hands on:</b> <ul style="list-style-type: none"> <li>• Load unsupervised algorithms like k-means Clustering</li> <li>• Check algorithm Overfitting on dataset</li> <li>• Model fitting with different Hyper parameters</li> <li>• Cross-Validation for clustering using Confusion Matrix and Validation result for algorithm</li> </ul>
		****TEA BREAK****
5	3:45 to 4:00	<b>Demo on:</b> <ul style="list-style-type: none"> <li>• Phishing url detection using machine learning</li> </ul>
6	4:00 to 4:30	<b>Doubts??????</b>

## DAY 3: - DEEP LEARNING USING OPENCV WITH MODEL CREATIONS AND APPLICATIONS

SESSION	TIME	CLASS TOPICS
1	9:00 to 11:00	<b>Introduction Neural Network, MLP, LSTM, RCNN, RNN, NLP and Auto encoders.</b>
	11.00 to 11.15	****TEA BREAK****
2	11:15 to 12:30	<b>Hands on:</b> <ul style="list-style-type: none"> <li>• Build <b>Neural Network and Multi-Layer</b> Perception algorithm with help of TensorFlow and Keras libraries.</li> <li>• Activation functions, Optimizer, Regularizes, initializations of parameters, Learning Rate</li> <li>• <b>Build RNN and LSTM algorithm</b> with help of TensorFlow and Keras libraries.</li> <li>•</li> </ul>
	12:30 to 1:30	****LUNCH BREAK****
3	1:30 to 2:00	<b>Hands on:</b> <ul style="list-style-type: none"> <li>• Build <b>RCNN algorithm</b> with help of TensorFlow and Keras libraries.</li> <li>• <b>Create algorithm CNN</b> with help of TensorFlow and Keras</li> <li>• Introduction of NLP</li> </ul>
4	2:00 to 3:30	<b>Real time Object detection using deep learning and computer vision.</b> <b>Hands on:</b> <ul style="list-style-type: none"> <li>• Load the <b>video streaming</b> and pre-process of video</li> <li>• Load the database models and apply to the input video</li> <li>• Finally, detect objects from the video using data base models of yolo and RCNN algorithm</li> </ul>
		****TEA BREAK****
5	3:45 to 4:00	<b>Demo on:</b> <ul style="list-style-type: none"> <li>• Demo on real time gun and fire detection in public areas for detecting of abnormal activities using deep learning.</li> </ul>
6	4:00 to 4:30	<ul style="list-style-type: none"> <li>• Demo on gender voice recognition using MLP</li> </ul> <p><b>Doubts??????</b></p>

**Day 4:**

4	4:00 to 6:00pm	Demo on: <ul style="list-style-type: none"><li>• <b>Vehicle anomaly detection using deep learning and computer vision.</b></li></ul> Demo on: <ul style="list-style-type: none"><li>• <b>Face and person name recognition using face recognition library and computer vision</b></li></ul>
		<b>Doubts??????</b>

**Day 5:**

5	4:00 to 5:00pm	Demo on: <ul style="list-style-type: none"><li>• <b>Hands on Machine Learning Basics and it's Applications of Multi Disease Prediction</b></li></ul>
	5:00 to 6:00pm	Demo on: <ul style="list-style-type: none"><li>• <b>Hands on NLP Basics and it's Applications on Sentiment Analysis using NLP</b></li></ul>
		<b>Doubts??????</b>

### Guest Lecture

The Civil Engineering Department of CBIT, in collaboration with CANTER CADD INDIA PVT. LTD, is organizing a Guest Lecture on "**Revit Architecture**" on February 13, 2024, starting at 2:00 PM in the assembly hall. This lecture is specifically tailored for PG II year and I year students, UG final year students of 2024 batch, and pre-final year students of 2025 batch.

Following the lecture, there will be a CANTER IQ – 2024 test administered by CANTER CADD. Outstanding performers in the test from each academic year, including both undergraduate and postgraduate students, will receive a complimentary Master Diploma certification. This comprehensive certification encompasses free software training, study materials, certification, lifetime technical support, and placement assistance, valued at ₹60,000 and spanning a duration of 6 months

Topic	Revit Architecture
Date	13-02-2024
Time	2:00 PM
Target Audience	PG II year and I year students, UG final year students of 2024 batch, and pre-final year students of 2025 batch
Speaker Details	Divya lahari priya, Training manager CANTER CADD INDIA PVT. LTD

All the PG and UG Pre final and final year students of Civil Engineering department are requested to attend for the said program, Sri.M. Kalyan Asst. Prof. CED, Mobile: 9030144407 will coordinate the said program and can be contacted for further communication.

  
Head, CED

CC: Class teachers for both PG and UG, Final Year and Pre final year, are request to facilitate the distribution of information among their respective students. Additionally, subject teachers relevant to the lecture are urged to accompany their students and record attendance during the session

**Guest Lecture report on Rivet Architecture**

---

**Date:** 13<sup>th</sup> February , 2024

**Venue:** Assembly Hall, CBIT

**Speaker:** Divya lahari priya, Training manager, CANTER CADD INDIA PVT. LTD.

**Coordinator:** M.Kalyan, Assistant Professor, Civil Engineering Department, CBIT.

**No of participants :** BE IIIrd year – 68, BE IVth Year – 94, ME – 6, Total – 168 .

**Introduction :**

Civil Engineering Department CBIT in collaboration with Canter CADD Training Institute had the privilege of hosting a guest lecture on Rivet Architecture, delivered by Ms. Divya Lahari Priya. Ms. Priya is an esteemed architect with 15 years of experience in the field, particularly specializing in Rivet Architecture, an emerging trend in the industry. Her insights promised to shed light on this innovative architectural approach.

**Key Highlights :**

**Understanding Rivet Architecture :** Ms. Priya commenced the lecture by elucidating the concept of Rivet Architecture. She explained how Rivet Architecture is a design approach that emphasizes the use of rivets in building structures, inspired by the principles of efficiency, durability, and aesthetic appeal.

**Advantage of Rivet Architecture :** One of the key aspects covered in the lecture was the myriad advantages offered by Rivet Architecture. Ms. Priya highlighted how rivets distribute loads evenly, enhance structural stability, and enable flexibility in design. Moreover, rivet joints are known for their resilience to temperature variations and corrosion, making them ideal for diverse environmental conditions.

**Design Flexibility :** Ms. Priya emphasized the versatility of Rivet Architecture in enabling innovative design solutions. Unlike traditional construction methods, rivets allow for intricate and aesthetically pleasing designs, facilitating the realization of architectural visions that may have been previously unattainable.

**Case Studies:** To illustrate the practical application of Rivet Architecture, Ms. Priya shared several case studies showcasing iconic structures where rivets have been instrumental. These examples ranged from contemporary architectural marvels to historic landmarks, providing attendees with a holistic understanding of the versatility and efficacy of Rivet Architecture.

**Future Prospects:** In the concluding segment of the lecture, Ms. Priya discussed the future prospects of Rivet Architecture in the architectural landscape. She elaborated on emerging

trends and technologies that are poised to further revolutionize the field, underscoring the continued relevance and significance of rivets in shaping the built environment.

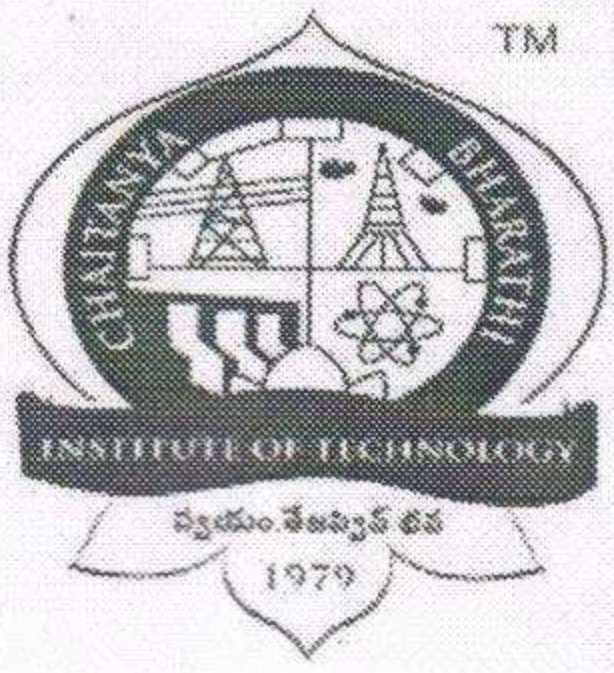

**Conclusion :**

In summary, Ms. Divya Lahari Priya’s guest lecture on Rivet Architecture was a resounding success, offering attendees valuable insights into this innovative architectural approach. Through her expertise and engaging delivery, Ms. Priya not only elucidated the principles and advantages of Rivet Architecture but also inspired attendees to explore new frontiers in architectural design. The lecture served as a testament to the transformative potential of Rivet Architecture in shaping the future of architecture.

After the lecture on Rivet Architecture, Canter CADD Institute organized the CANTER IQ – 2024 test. The 3 top performers in this test, from each academic year, spanning both undergraduate and postgraduate levels, were awarded a complimentary Master Diploma certification. This comprehensive certification package includes free software training, study materials, certification, lifetime technical support, and placement assistance. Valued at ₹60,000, this certification spans a duration of 6 months.

## IGBC Telangana Student Chapters Meet | 28 March 2024 | CII - Godrej GBC, Hyderabad

On March 28, 2024, The IGBC Telangana student chapter organized a pivotal gathering uniting student chapters from various educational institutions across the region. Chaired by C. Shekar Reddy, Chairman of CII, the event served as a platform for collaboration among students and faculty members, at CII-Sohrabji Godrej Green Business Centre.

Dr. K. Jagannadha Rao, Head of the civil engineering, CBIT, urged students to actively engage in the session, emphasizing the importance of their participation. And coordinated by Faculty Coordinator Sri Dr. G. Mallikarjuna Rao, and faculty in charge Mr. Viswanath. G, student coordinators including Chandra Vikas T, Anushka N, Sai Srikar S, and Mamatha contributed their presence and involvement.

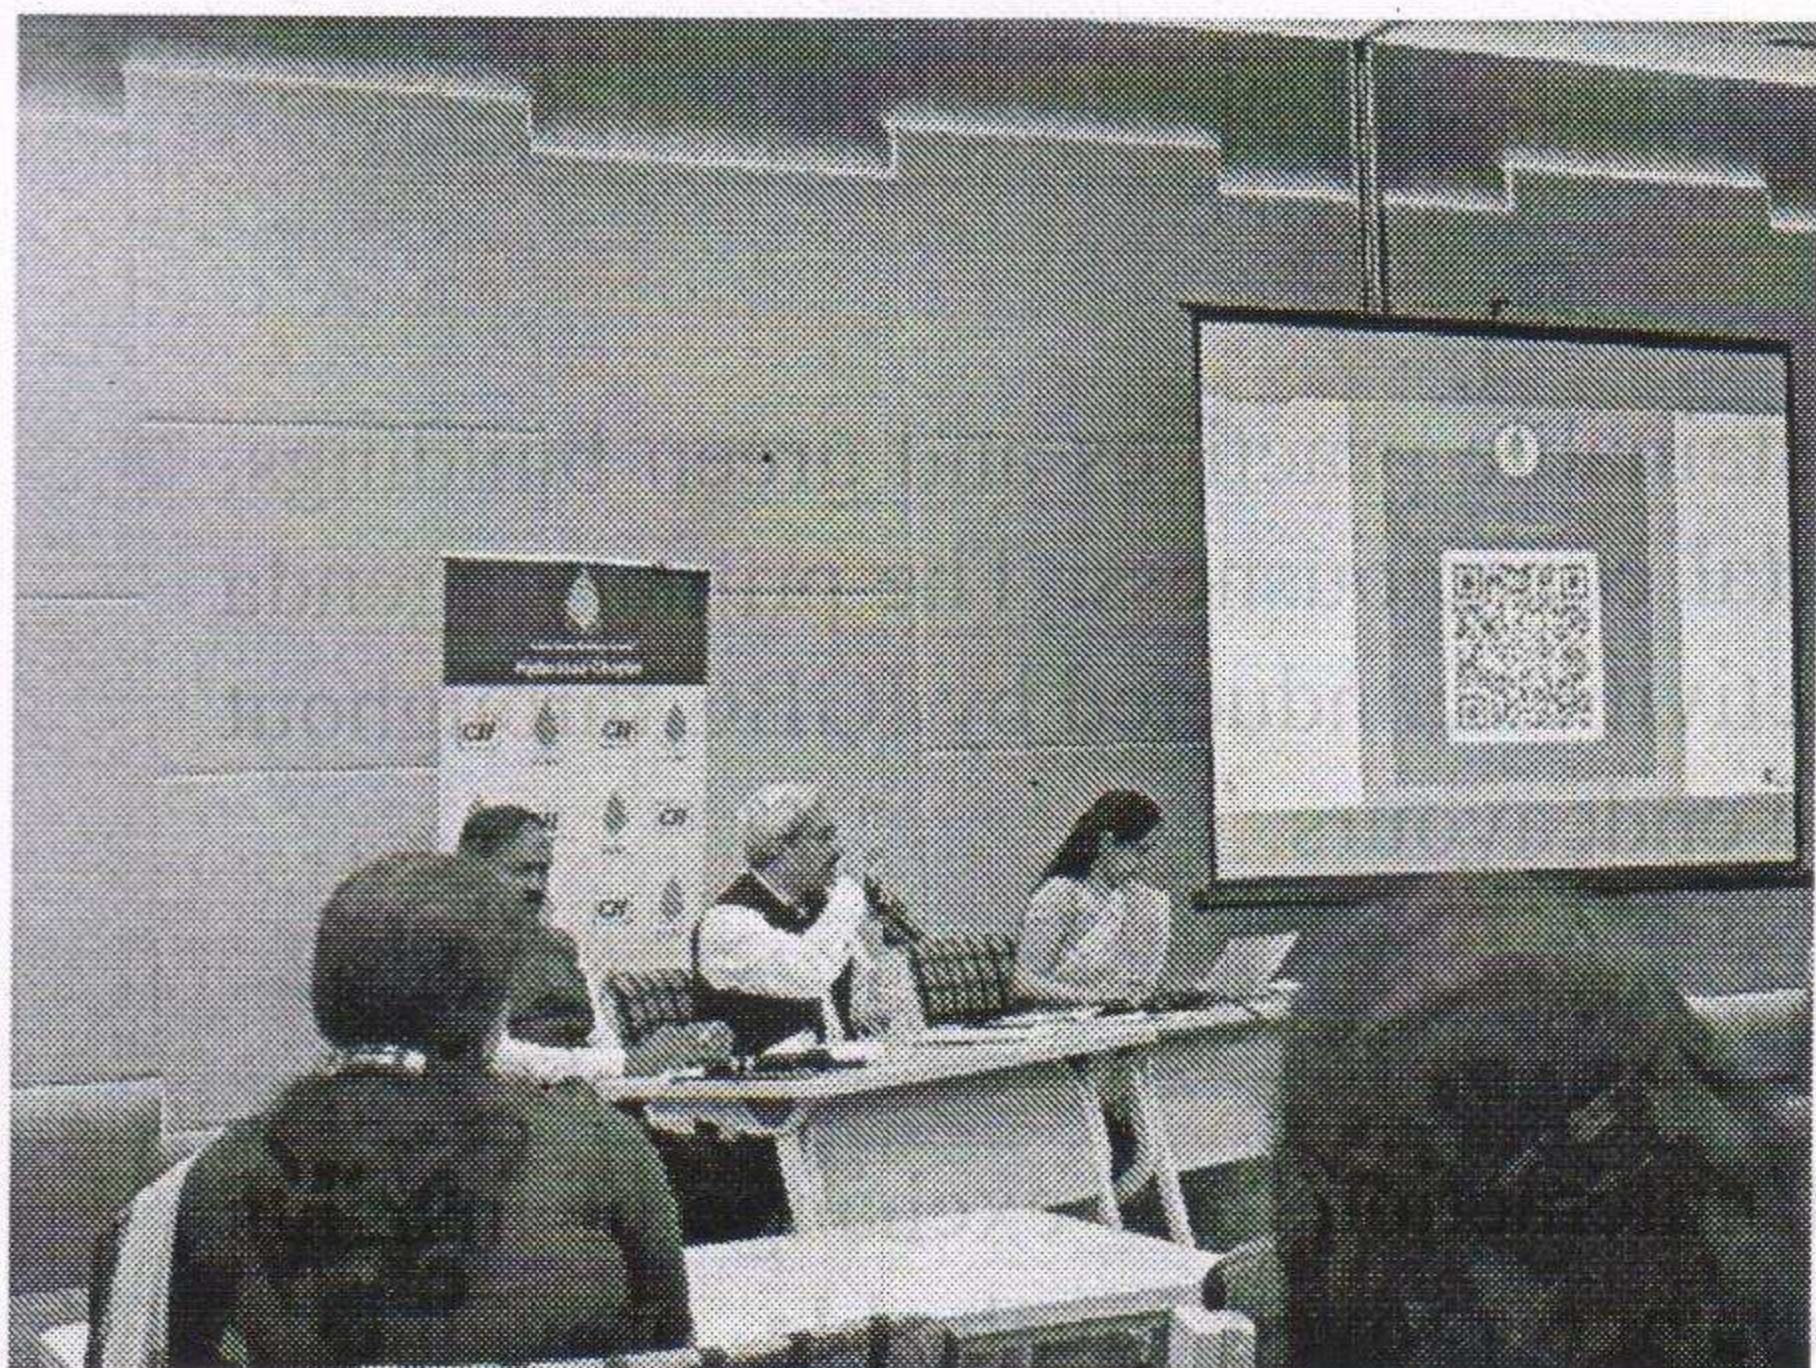

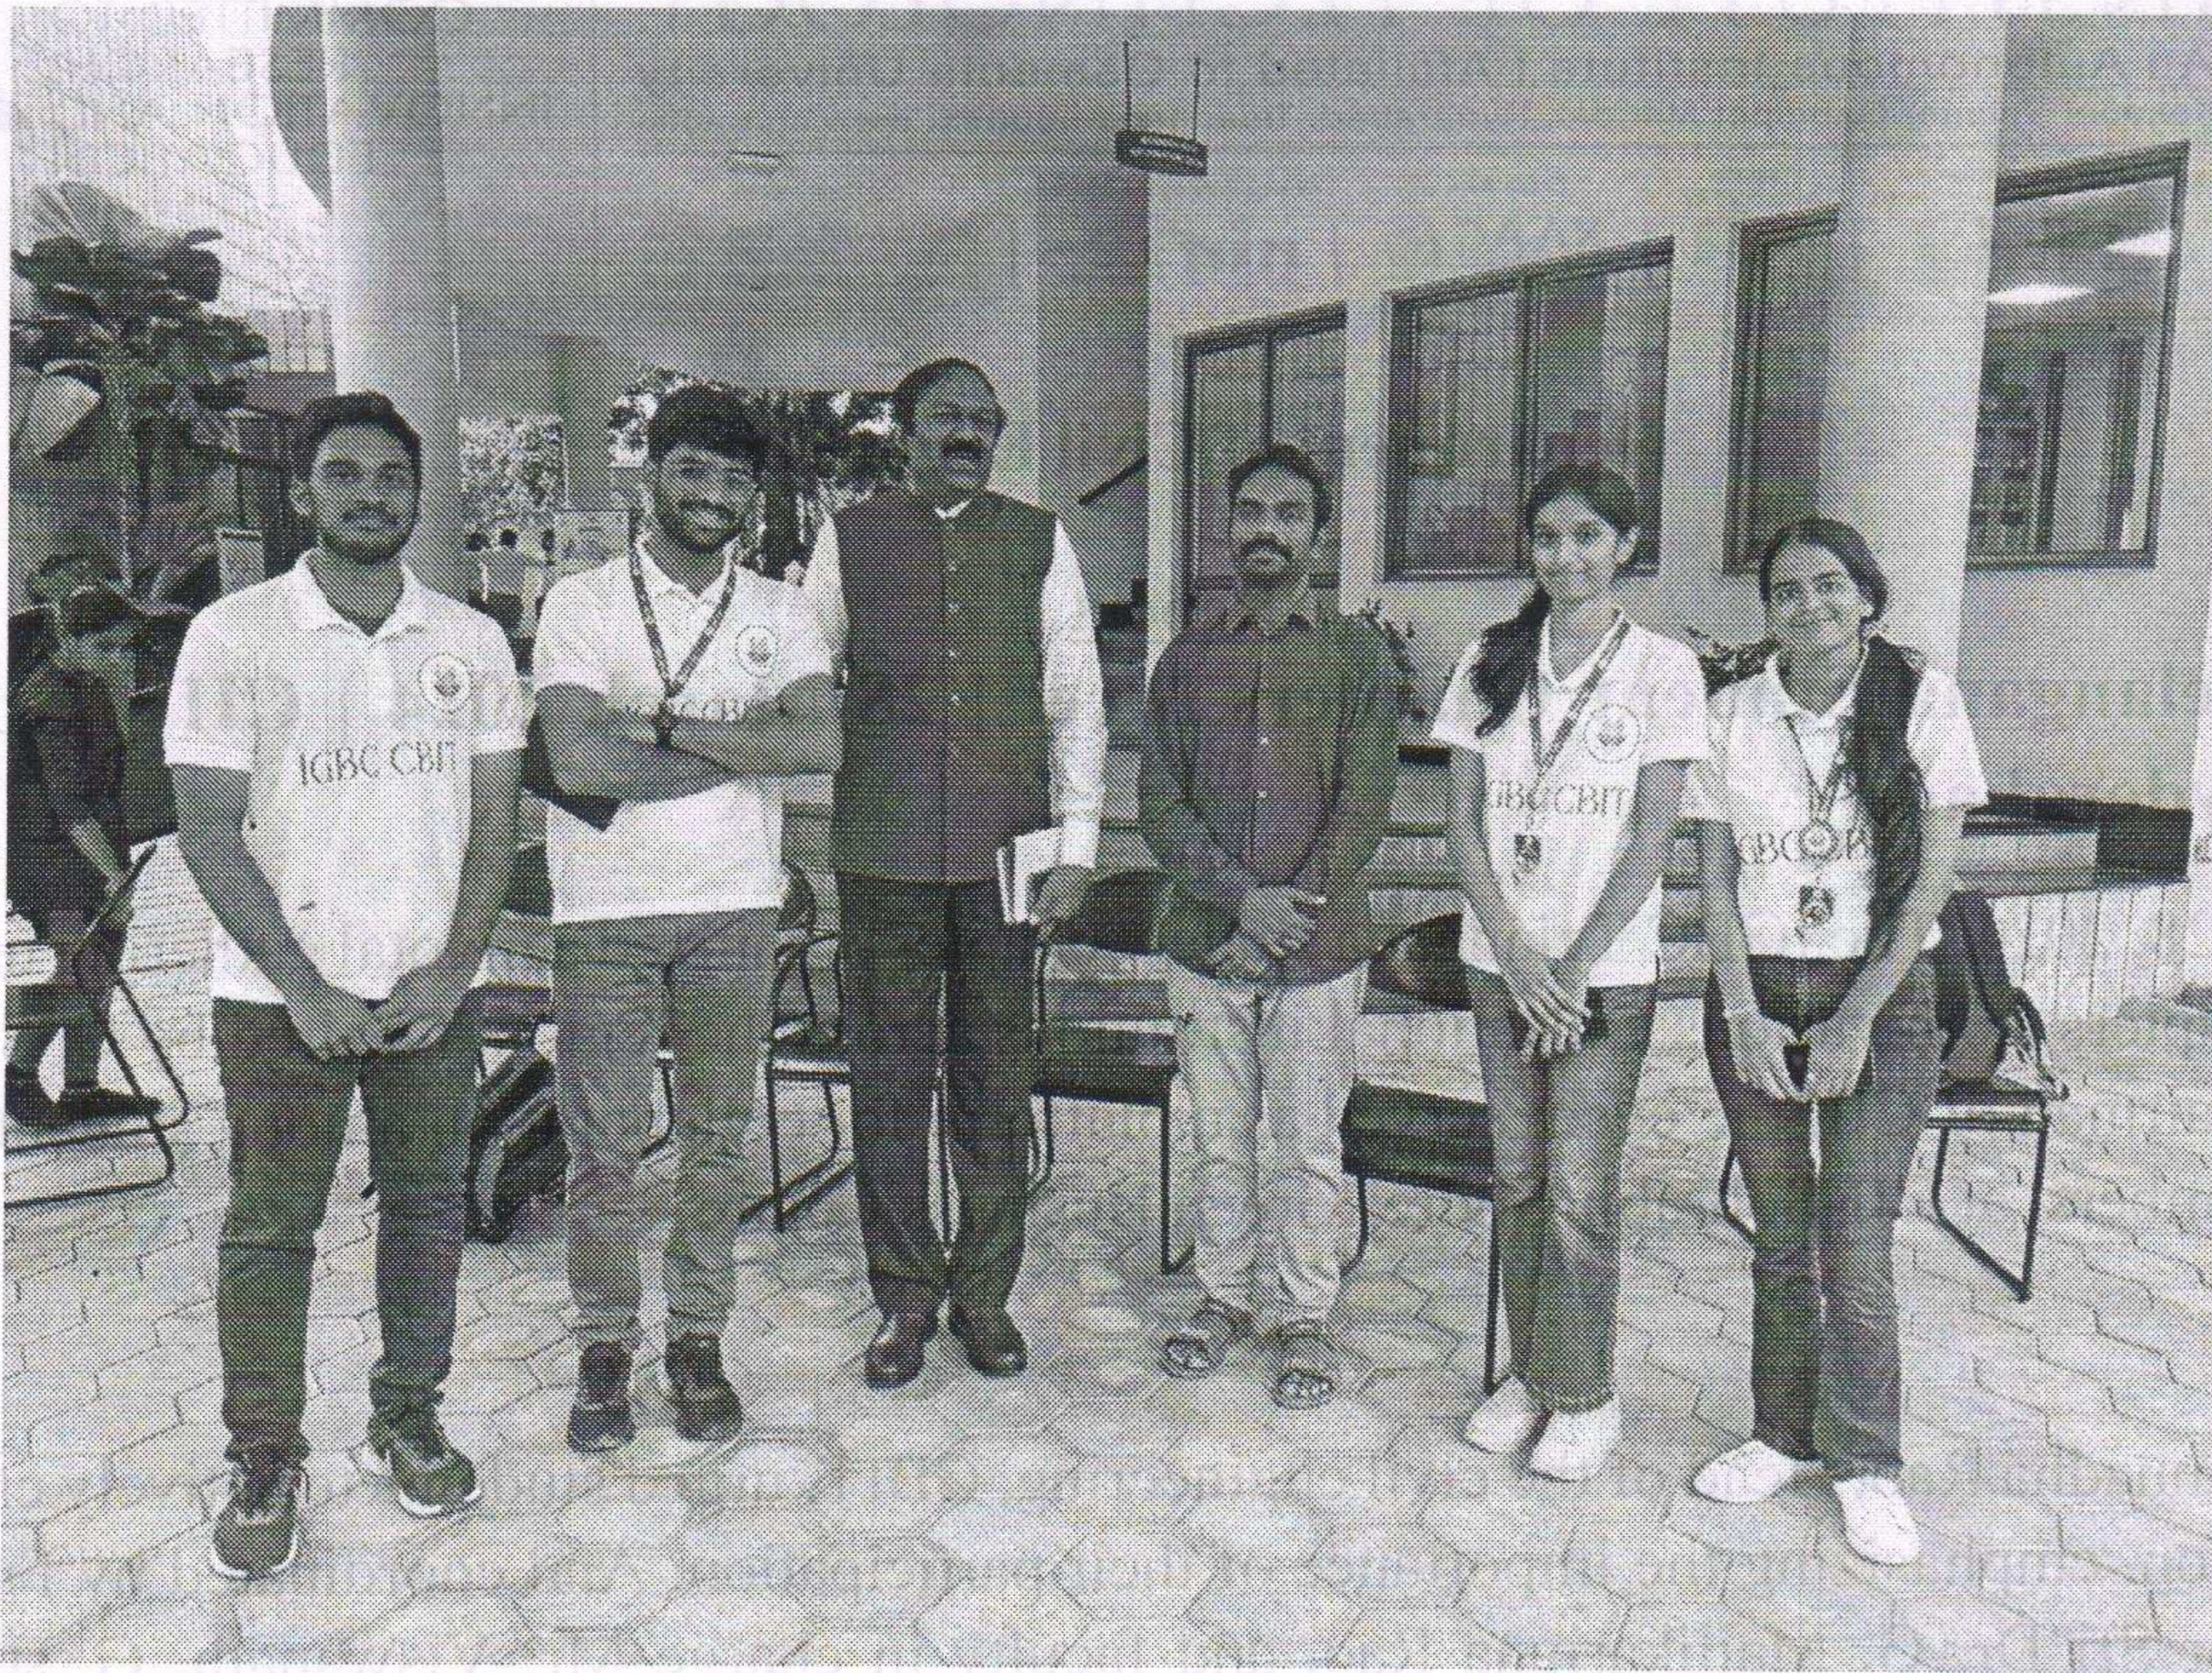

The session delved deeply into the significance of sustainable practices and green buildings, aligning with IGBC's mission to promote environmental consciousness. The primary agenda focused on acquainting student chapters with various activities conducted by IGBC throughout the year and establishing clear goals for their collective endeavours.

A constructive feedback session concluded the event, interaction, and exchange of insights among coordinators from over 16 colleges. This exchange proved invaluable, providing a platform for mutual learning and improvement.

The IGBC Telangana student chapter remains steadfast in its commitment to encouraging student chapters to generate innovative ideas and actively participate in sustainable practices.

### **REPORT ON SPIN A GREEN - CIVILIZATIONS - SUDHEE 2024**

#### **Introduction about IGBC CBIT**

IGBC CBIT is a student chapter of the Indian Green Building Council inaugurated in the year 2013. IGBC India was formed in the year 2001 with the vision of the organization being - "To enable a sustainable built environment for all and facilitate India to be one of the global leaders in the sustainable built environment by 2025" and offering services such as building new green building rating programmes, certification services and green building training programmes. With a dedication to sustainability, IGBC CBIT aims to lead by example and inspire others to adopt environmentally conscious approaches to construction and design and encourage students to work together to build a greener, more sustainable future.

#### **Mission**

As a student chapter of IGBC, our mission, inspired by the motto of the Indian Green Building Council, is to promote sustainable building practices. Under the guidance of IGBC India, this student chapter provides a platform for college students to come together, collaborate and expand their knowledge through the different events, seminars, guest lectures, workshops etc.

#### **About Spin A Green:**

The "Spin a Green" event organized by IGBC-CBIT for Civilizations during Sudhee - Technical Fest on February 26th and 27th, 2024, is an engaging variation of the classic spin the wheel game aimed to promote green building technologies through an engaging game format that combined both technical and non-technical challenges.

It features two distinct sides: one dedicated to technical questions and the other to non-technical tasks. In this game, a team of two participants take turns spinning the wheel twice, with each team member tasked with answering one technical and one non-technical question. During the initial round, one player selects a technical question while the other selects a non-technical one. They then proceed to spin the wheel and respond to their respective queries. In the subsequent round, the players switch roles,

ensuring that the individual who previously answered a technical question now tackles a non-technical one, and vice versa. Each response is evaluated based on its accuracy and the time taken to provide the answer or complete the task, with a maximum score of 5 points allotted for each.

What was included on the wheel

Non technical side:

- dance
- sing a song
- chocolate
- insta story tagging IGBC
- do a dare
- tell a joke
- recreate a meme
- find the closest 3 green things
- say a tongue twister
- try again
- name the movie

Technical side:

- name any 5 green buildings in India
- name any 3 green building certifications
- riddle
- talk about one green practice you follow/adopted for 1 min
- quiz
- rebus puzzle
- memory game
- try again
- chocolate
- what are 2 green practices followed in CBIT
- a green saying
- name 2 green materials

List of Participants

**Feedback:**

The feedback from the participants was good.

**Conclusion:**

"Spin a Green" emerged as a highlight of the Civilizations segment, leaving participants with fond memories and a deeper appreciation for green building technologies. The diversity of tasks, ranging from recalling green building certifications to performing dares like dancing and singing, ensured a lively atmosphere throughout the event. The competitive spirit among the participants was evident as they showcased their knowledge of green practices and enthusiastically embraced the fun-filled tasks. The "Spin a Green" game succeeded in not only educating attendees about sustainable building practices but also in fostering a sense of camaraderie and enjoyment among them.

IGBC-CBIT expresses gratitude to all participants and organizers for making the event a resounding success, and looks forward to continuing efforts to promote sustainability in the future.

Dear Student,

We are glad to announce that the School of Management Studies is initiating "YUVA Tourism Club" in CBIT and it is now open for membership for students in Yuva Club for the upcoming years. "YUVA Tourism Club" is initiated with the strategic objective of creating interest, awareness and a sense of responsibility towards our country's natural and cultural heritage / tourism amongst children and youth.

Membership in Yuva Club offers numerous opportunities for personal and professional growth, including activities. If students are interested to contribute towards the club and make a positive impact, we invite the interested students to apply for membership. To apply, please fill out the google form.

If you have any questions or require further information, please feel free to reach out to Club Coordinator Dr.T.S.Poornachandrika, Associate Professor, SMS on email:poornachandrika\_sms@cbit.ac.in

We look forward to receiving the applications and welcoming new members to Yuva Club.

Best regards, Dr.S.Saraswathi Head, SMS CBIT

### Report on

TGERL, Himayat Sagar Visit on 23<sup>rd</sup> May 2024

**Location: TELANGANA ENGINEERING RESEARCH LABORATORIES (TGERL),  
HIMAYAT SAGAR**

**Date of the Visit: 23 May 2024**

#### 1. Purpose of Visit

The primary objective of this field visit was to provide students with practical exposure to hydraulic model studies. This visit aimed to bridge the gap between theoretical knowledge and real-world applications in hydraulic engineering.

#### 2. Key Learnings

During Field visit to the Telangana Engineering Research Laboratory (TGERL) at Himayat Sagar, students learned about various Hydraulic models and their applications. They explored the section models of the Annaram Barrage, focusing on the adequacy of ventways and energy dissipation, which prevents erosion and structural damage. Additionally, students examined the composite model of the Sandul Barriage, which provided insights into flow patterns and gate operation schedules, crucial for optimizing water flow management and ensuring the efficiency and safety of the structure. These models play a vital role in analyzing and enhancing the design and operation of water management projects.

##### 2.1 Sectional Models

Students were introduced to the section model (2-D model) of **Annaram Barrage** which was constructed to serve the purpose of irrigation. Sectional Model was a cross-sectional representation of structures used to study specific engineering aspects and was constructed in flumes.

The objectives of studying sectional models are-

- i) Adequacy of Ventways: This aspect involves ensuring that the ventways (openings) in the structure are adequate to handle the designed flow of water without causing upstream flooding or structural failure.
- ii) Energy Dissipation: This focuses on the mechanisms by which the structure dissipates the energy of flowing water, crucial for preventing downstream erosion and ensuring the stability of the structure.

##### 2.2 Composite Models

Students observed the composite model (3-D model) of the **Sandul Barrage** which was constructed for the purpose of irrigation, which integrates multiple aspects of the structure into a single model for comprehensive analysis reproducing real field.

The model is used for study of:

- i) Flow Patterns: This part of the model helps in understanding the behavior of water flow through and around the barrage, which is essential for optimizing design and operation.
- ii) Gate Operation Schedule: The model aids in planning the operation schedule for the gates, ensuring efficient water management by determining the best times and methods for opening and closing gates to control water flow.

### 3. Conclusion

The models were demonstrated by Sri. R. Gowtham Kumar, Research Assistant. Faculty members have discussed with Sri. S. V. S. Durga Prasad, Research Officer for possible inputs required for model setup in flume at FM7HM lab, CBIT. The field visit to Telangana Research Laboratories was a valuable educational experience for the Civil Engineering students of CBIT. It provided students with a deeper understanding of hydraulic model studies and their significance in civil engineering projects and taken output for model setup in FM&HM Lab for In-house project.

Ten students (ME- 1 student and BE- 9 students) have attended this visit. The visit was coordinated by the faculty members Dr, Jnana Ranjan Khuntia, Dr. Kamalini Devi and Sri Ramanarayan S., Assistant Professors, Department of Civil Engineering, CBIT (A).

**Site Visit to SRR Sriram River View project at Narsingi, Gandipet Main Rd,  
Manchirevula**

A site visit to SRR Sriram River View project at Narsingi, Gandipet Main Rd, Manchirevula is completed on 25<sup>th</sup> November 2023. The site is a 13.07 acre gated community which is currently in the construction phase.

Visit to the SRR Sriram River View project was planned for the interns to make them understand the practical aspects of civil construction works. The project is construction of a community living with several facilities including water treatment plant, sewage treatment plant, etc. The community include 10 blocks of G+11 storeyed buildings. At the basement there is a two floor car parking facilities. The buildings are in construction phase.

In addition, one batching plant with capacity of 15 m<sup>3</sup> and one fully automatic brick manufacture plant are available at the site. Both the plants are working very efficiently. Those plants are extensively used in current time in different high rise building constructions. For the brick preparation they are using Fly ash, a waste material that can partially replace the cement. The site engineer and other team members were very cooperative and explained each and every facility clearly to our students/ Interns. A total of 40 Interns have participated in this visit. Three faculty members, Dr. Angshuman Das, Dr. Kamalini Devi, and Dr. Dudam Bharath Kumar, Assistant Professors, Department of Civil Engineering, CBIT (A), accompanied the students for the visit.
