About the Guest Lecture:

The guest speaker spoke about the importance of soft skills. She said Soft skills are personal attributes that influence how well you can work or interact with others. These skills make it easier to form relationships with people, create trust and dependability, and lead teams. In essence, they are essential for your success in the workplace, your company’s success and your personal life.

Most interactions with other people require some level of soft skills. At a company you might be negotiating to win a new contract, presenting your new idea to colleagues, networking for a new job, and so on. We use soft skills every day at work and developing these soft skills will help you win more business and accelerate your career progression.

On the other hand, a lack of soft skills can limit your potential, or even be the downfall of your business. By developing strong leadership, delegation, teamwork, and communication abilities, you can run projects more smoothly, deliver results that please everyone, and even positively influence your personal life by improving how you interact with others. The convenor of this lecture Dr. GNR Prasad said about students must know the soft skills while pursuing their degree courses. The co-convenor of this lecture Sri B. Srinivas S. P. The Bioengineering and Biotechnology Club of CBIT (BBCC) recently organized a compelling Awareness Talk featuring Dr. AVS Suresh, MD, DM, ECMO, a distinguished Sr. Consultant Medical Oncologist and Chief of Stem Cell Transport at Continental Hospital, Hyderabad. The enlightening session was tailored for B. Tech Biotechnology students from all years (I, II, III, & IV) and took place at the Assembly Hall from 02:00 PM to 03:30 PM.

The agenda for the talk covered crucial aspects of cancer, addressing the concerns of the students:

- Prevalence - Significance of Concern
- Introduction - Defining Cancer
- Why it Occurs - Unravelling Causes and Risk Factors
- Detection Methods - Unveiling Approaches
- Preventive Measures - Can we Halt its Progression?

The following pattern was observed during the session:

1. The honourable guest Dr.AVS Suresh, received a welcoming bouquet from BBCC Faculty Coordinator Dr. G. Vijaya Laxmi. Afterward, an introduction of the speaker highlighting their domain and accomplishments in the field of Biotechnology.
2. This was followed by a presentation from the speaker, who gave us insights into the global and national stats with respect to the mortality rate due to cancer. The speaker also emphasized how socioeconomic inequality contributes to the rapid rise in cancer cases
3. Furthermore, the speaker elaborated on common questions regarding cancer like, what is cancer? Why are we worried? How does cancer happen? How do genes work?
4. The speaker then continues the session by discussing more about the contributors of cancer, types of cancer, and symptoms of cancer by giving insightful examples and real-life cases.
5. Moving forward, the speaker emphasized the screening test and how important it is, stressing the fact that “Screening is not a diagnostic test, it just picks a case”. The speaker also elaborated on advances in screening.
6. The speaker proceeded to tell us about the various types of cancers like Breast, Cervical, and Head and neck. The speaker also stated the conventional and advanced screening methods, along with their experience using new technology and these screening processes.
7. Moreover, the speaker enlightened us about cancer treatment options, along with accurate staging and cost-effective methods.

8. Then the speaker told us about Next generation sequencing which provides comprehensive family advice for hereditary cancers and genetic counselling. It helps us “Choose the right drug at the right time.”
9. The speaker also explained about personalised therapy and other new approaches in oncology drug development. They additionally address us about the expanding roles of immunotherapy and hyperthermic intra peritoneal chemotherapy.
10. In addition, the speaker brought awareness about better cancer supportive care, cancer inducing habits like smoking, alcohol abuse etc. The speaker explained the foods that we need to intake to prevent cancer.

In conclusion, Dr. AVS Suresh's awareness talk on cancer awareness was compelling and gave us a full view of prevalence, causes, and early detection. Covering socioeconomic impacts, screening advancements, and personalised therapy, we got a comprehensive view.
