The **CBIT Open Source Community (COSC)**, in collaboration with the **Career Development Centre (CDC)**, is organizing a **Git/GitHub Workshop** to introduce students to Git version control, an essential tool in modern software development. This session will help students **understand the fundamentals of Git and GitHub**, enabling them to manage projects efficiently, collaborate effectively, and build **strong technical profiles**. Proficiency in version control is a vital skill for software engineers, open-source contributors, and developers working on real-world projects. *With AI-driven hiring and automated profile analysis becoming more common, maintaining an active and well-structured GitHub profile is crucial for standing out in the tech industry.* The workshop is intended for all II-Semester Students of CSE, IT, AIML, AIDS & CET programmes.

Objectives of the Workshop:

- Introduction to **Git and GitHub** for version control.
- Hands-on experience with **repositories, commits, branches, and collaboration.**
- Understanding **open source** contributions and **profile building**.
- Preparing students for **future projects** and internships.
